## Experience

### Chief Technology Officer

Pigeon Loans · Full-time

Sep 2020 – Present · 7 mos

San Diego, California, United States

I built something kind of cool. If you haven't yet heard of Pigeon Loans, you probably will soon.

I am currently working to improve, facilitate, and enable loans between friends, family, and loved ones all across the globe. It shouldn't be difficult or stressful to make a loan with someone you trust. So with no comprehensive existing solution in the finance or tech market, I decided to create the solution.

### Software Engineer

Intuit · Full-time

Aug 2019 – Present · 1 yr 8 mos

Greater San Diego Area

Currently, I am working on developing offensive security tools to find vulnerabilities and test exploits within Intuit's infrastructure. The primary goal of my work is to build, refine, and bolster the capabilities of an internal Intuit Information Security tool named War Machine. In order to achieve the vision set forth for War Machine, I dedicate a significant amou ...see more

### Software Engineer

Intuit

May 2018 – Aug 2018 · 4 mos

Mountain View, CA

During the course of my time at Intuit, I worked within the Intuit Information Security Research & Development team. Throughout the summer, I dedicated my time to creating and delivering a project entitled "Cartwheel". Cartwheel is a secrets management tool that allows for the automatic rotation of all of Intuit's highly sensitive data such as, secrets, password ...see more

### Software Engineer

Pinterest

Jun 2017 – Aug 2017 · 3 mos

San Francisco, CA

During the summer of 2017, I worked in the Data/Infrastructure department at Pinterest. As part of the Visibility team, I learned to utilize tools such as Kafka, Apache Spark, and Scala to solve "big data" issues facing Pinterest.
