Amendment No. 10 to Registration Statement on Form F-1

Cover Page

1. Disclose whether your offering is contingent upon on final approval of your NASDAQ listing on your cover page. Please ensure the disclosure is consistent with your underwriting agreement.
2. To the extent you intend to proceed with your offering if your NASDAQ listing is denied, revise your cover page to indicate that the offering is not contingent on NASDAQ approval of your listing application and that if the shares are not approved for listing, you may experience difficulty selling your shares. Include risk factor disclosures to address the potential impact on liquidity and the value of shares.

Risk Factors

Risks Related to Our Public Offering and Ownership of Our Ordinary Shares, page 65

3. We note recent instances of extreme stock price run-ups followed by rapid price declines and stock price volatility seemingly unrelated to company performance following a number of recent initial public offerings, particularly among companies with relatively smaller public floats. Revise to include a separate risk factor addressing the potential for rapid and substantial price volatility and any known factors particular to your offering that may add to this risk and discuss the risks to investors when investing in stock where the price is changing rapidly. Clearly state that such volatility, including any stock-run up, may be unrelated to your actual or expected operating performance and financial condition or prospects, making it difficult for prospective investors to assess the rapidly changing value of your stock.

You may contact David Edgar, Senior Staff Accountant, at (202) 551-3459 or Kathleen Collins, Accounting Branch Chief, at (202) 551-3499 if you have questions regarding comments on the financial statements and related matters. Please contact Jeff Kauten, Staff Attorney, at (202) 551-3447 or Jan Woo, Legal Branch Chief, at (202) 551-3453 with any other questions.
