PRANOS State-of-the-Art Display Technology

With our cutting-edge technology, transform your window into a high-definition display and deliver dynamic content outdoors instantly.

Our Founder & CEO, David Astoria, talking to Jaden Smith about Pranos at the 2024 Vinfest Grammy Party.

The Mission

At Pranos, we're not just in the business of outdoor advertising. We're in the business of empowering people to express themselves like never before. We believe that everyone has a voice, and that voice deserves to be heard loud and clear, whether they're walking down the street or cruising in a car.

Our mission is to put the power of uncensored self-expression in the hands of our customers, while also providing businesses with the tools they need to monetize their brand and connect with their audience in a meaningful way.

With our revolutionary technologies, we're transforming the world of outdoor advertising and creating a new paradigm of communication. We're not just selling billboards or digital displays, we're selling freedom, creativity, and limitless potential.

Join us on our mission to change the world of broadcasting and empower people to make their voices heard like never before.

Pranos x Vinfast (automotive manufacturer) at CES 2023

The Vision

Our vision is to bring the world together through a revolutionary decentralized network of digital displays. Our innovative system is designed to be dynamic, interconnected, and accessible to all, providing a powerful platform for content distribution and emergency communication in outdoor spaces. Our goal is to make this technology affordable and easy to use, creating a truly global community connected by the power of digital media. Join us on this journey to transform the outdoor landscape and change the way we communicate with each other.

Introducing the Hologlass display system...

WHY INVEST IN PRANOS?

Here are a few reasons why you should invest in Pranos.

#1. Highly Anticipated product

Instagram post by @pranosai, dated 8-22. The post features a dark image of a car wheel at night. The post has 5882 likes (circled in yellow), 24 comments, and 45 shares. The caption reads: "run any content you like. Pranos is coming to a road near you. #fypシ #hiphop #eminem #car #media #tech #viral #music". The audio track is "It - @Clutch" and "Get On It - @". The post has 25.6K views and 45 shares (circled in yellow). A "More data" button is visible.

YouTube video unavailable screen. The screen displays a large exclamation mark icon and the text "Video unavailable" and "Watch on YouTube". A play button icon is visible in the bottom right corner.

Our waiting list has 609 customers on it as of today !

HoloFilm- Our film allows for 100% transparency & visibility

PRANOS HARDWARE

HoloGlass Car Window Display System

Easy to install!

Current Version 1.0

- Bright, Hi-Resolution to garner attention
- Internet connectivity via mobile phone
- Pranos custom built media player for content delivery
- Custom OS with Pranos app

Phase II

- High resolution transparent digital flexible OLED screen integration for display on rear passenger side windows and rear back windows

PRANOS SOFTWARE

Current Version

- Mobile app for broadcasting media content on HoloGlass/HoloWall
- Playlist creation from local or online content (YouTube, Facebook, TikTok, etc.)

Phase II

Phase II includes migrating content to a cloud-managed CMS and implementing real-time location tracking for displays. Revenue streams for display owners on The GRID will be generated through programmatic ad platform integration and social media/peer ad support.

**With our platform and business model,
we are dominating old media.**

The Problem

✗ The problem.

No Outdoor Publishing Platform exists at scale

The solution. ✓

Pranos creates the first Outdoor Publishing Platform for consumer generated content displayed on or off-line

THE BUSINESS MODEL

At the core of our venture is the HoloGlass, our display system seamlessly integrates digital content with the physical world. The HoloGlass is a revolutionary digital display system that

integrated with our app. Users wield the power to curate dynamic playlists and broadcast diverse videos, tailored to suit any local environment.

These systems transcend mere advertising—they're a canvas for limitless creativity. Through our user-friendly app, crafting personalized playlists becomes effortless, enabling diverse applications from entertainment to informative displays.

While our future includes developing an ad grid and subscription models, our present focus remains on ensuring the robustness and adaptability of these systems. Our goal is to maximize their utility, fostering a community where creative expression meets practical functionality

Outdoor Publishing Platform

Creating an avenue for content creators that is trackable, dynamic and efficient

Enhancing the driving experience for consumers and passive income opportunities for drivers

OPP and The GRID

Pranos has created a revolutionary Outdoor Publishing Platform (OPP) that enables dynamic, uncensored, and mobile information flow. Our system allows ride-share drivers to earn passive income while streaming high-definition content, receiving live news feeds, exclusive content, and relevant offers from sponsors. We believe that Pranos is the key to profitability in the ride-share industry and the first of its kind.

The competition.

Pranos Outdoor Publishing Platform

Traditional Digital Media

Conventional outdoor advertising options like billboards, taxi toppers, and signs are outdated and limited by their lack of targeting. In 2020, the US only had 343,000 billboards available for advertisers, as reported by the Out of Home Advertising Association of America. But with Pranos’ cutting-edge HoloGlass and HoloWalls, we offer superior alternatives that are hyper-targeted and have a vast inventory worldwide. Our solutions provide detailed metrics and attribution data to prove their effectiveness, making Pranos the perfect partner for businesses looking to reach their desired audience with precision and impact.

MARKET OPPORTUNITY

In the United States alone, there are over 1.4 billion private cars and millions of buses on the road, with roads occupying around 60% of the city's real estate. Our cutting-edge technology provides an opportunity to enhance motor vehicles, allowing for immediate scalability in the heart of the city and maximum visibility for your displays. Moreover, the US boasts over 70 billion square feet of commercial real estate, which presents an excellent opportunity for expanding our Outdoor Publishing Platform (OPP).

Target customers.

Our units are built to be owned by **everyday consumers**, content creators and advertisers.

We will leverage our existing relationships and form new strategic partnerships with some of the most notable companies and brands.

Display owners have the option to subscribe to The **GRID** where they can earn money publishing content worldwide.

People's Reactions of Pranos in NYC

Copy link

WE ARE AIMING TO GO EVERYWHERE

Pranos has forged a robust network of global partners poised to assist in the worldwide launch of Pranos. Multiple markets that the company is targeting are illustrated above.

THE INVESTMENT OPPORTUNITY

We're raising up to \$650,000 through a convertible note offering, and for a limited time, early investors can participate at a discounted valuation cap of approximately \$8 million. After our early bird is subscribed, the rest of the round will be sold at a valuation cap of \$9 million.

Pranos is disrupting the outdoor advertising industry with our HoloGlass and HoloFilm technologies. Our solutions offer hyper-targeted advertising opportunities with detailed metrics and attribution data that traditional outdoor advertising simply can't match.

If you want to learn more about Pranos and our vision for the future, please visit our website at www.pranos.ai or email us at admin@pranos.ai. And if you have any questions, let's schedule a Zoom call at <https://calendly.com/davidastoria>

Join us on this exciting journey and be a part of revolutionizing the advertising industry with Pranos.
