

Hyllo, Inc.

ANNUAL REPORT

1020 Agnes Road

Richmond, TX 77469

(877) 495-4669

<https://www.hyl.io>

This Annual Report is dated November 1, 2024.

BUSINESS

Hyllo designs, manufactures, and provides innovative UAS (unmanned aerial systems), that automate precision agriculture processes. Using Hyllo's technology, farmers & operators can apply crop treatments directly to problem areas, allowing farmers to increase yields while lowering costs and environmental impact. Based in Texas, Hyllo is proudly American owned and operated. Hyllo's mission is to feed more people, at lower costs with US-made systems.

Date: May 10, 2021

Offering exemption relied upon: Regulation CF

REGULATORY INFORMATION

The company has not previously failed to comply with the requirements of Regulation Crowdfunding;

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION

Operating Results - 2023 Compared to 2022

Circumstances which led to the performance of financial statements:

Fiscal Year ending December 31, 2023 Revenue was \$8,293,164.

Compared to year end December 31, 2022 Revenue was \$3,224,290.

Revenue for the 2022/2023 Fiscal Year was primarily generated from the sale of UAS products. The revenue increase between 2023 and 2022 was approximately 157%. In 2022 & 2023, Hylío sold UAS products to a variety of customers, including government entities, large corporations, agribusinesses, individual farms, and distributors/resellers.

Cost of Sales

Hylío's Cost of Sales in 2022 was approximately 53%; in this year, Hylío's primary costs were Cost of Good Sold associated with the sale of UAS products.

Hylío's Cost of Sales in 2023 was approximately 56%; in this year, Hylío's primary costs were Cost of Good Sold associated with the sale of UAS products.

Gross Margins

Hylío's targeted gross margins in 2022/2023 were approximately 55% when selling direct to the consumer and approximately 40% when selling to dealers/resellers. Hylío's Gross Profit in 2022 was \$1,513,218 and Gross Profit in 2023 was \$3,652,805

Expenses

Hylío's Company Expenses consist of sales, marketing, leasing, legal, expenses as well as compensation to employees/contractors.

2022 Operating Expenses were: \$1,622,632

2023 Operating Expenses were: \$3,345,023

The approximately \$1,722,391 increase in operating expenses from 2022 to 2023 arose from increased Sales, Marketing, and General Administrative costs associated with Hylío's growth and expansion.

Historical results and cash flows:

Hylío's historical financial results display rapid revenue growth year over year. Hylío is confident that similarly strong revenue growth trends will continue in the future.

In its earlier years, Hylío primarily utilized cash from loans, angel investors, and founders in order to fund the infrastructure, marketing, and manpower needed for initial commercialization. In 2022, Hylío was able to access significant profits from sale of its UAS products to fund its expansion and growth. Going forward, Hylío will generate cash for growth by both selling equity and by selling its products and services. Hylío will be able to access increasingly large amounts of credit from lending institutions as its sales continue to grow.

Liquidity and Capital Resources

At December 31, 2023, the Company had cash of \$981,051.00. [*The Company intends to raise additional funds through an equity financing.*]

Debt

Creditor: Stellar Bank

RELATED PARTY TRANSACTIONS

From July 2021, the company issued two promissory notes to one of its owners and officers Nicholas Nawratil in the aggregate amount of \$ 355,035. The notes bear an interest rate of 2% per annum. The accrued interests together the entire principals shall be due and payable on the tenth anniversary from notes issuance (‘Maturity date’), ranging from 2021 through 2031. As of December 31, 2023, and December 31, 2022, the outstanding balance of this note is in the amount of \$265,035 and \$305,037 As of December 31, 2023, and December 31, 2022, accrued interest on the notes is in the amount of \$15,885 and \$9,785, respectively. The note has been classified as non-current and accrued interest as non-current.

The Company entered into a lease agreement for building and land with immediate family member of Mike Oda, CFO, and therefore a related party. Rental payments made during the years ended December 31, 2023 and 2022 were \$97,050 and \$183,599, respectively. The Company entered into a contracted service agreement for certain services with immediate family member of Mike Oda, CFO, and therefore a related party. Total payments during the years ended December 31, 2023 and 2022 under this arrangement were \$1,406 and \$131,599, respectively.

The Company entered into a contracted service agreement for graphic design services with immediate family member of Arthur Erickson, CEO, and therefore a related party. Total expense incurred under this arrangement for the years ended December 31, 2023 and 2022 was \$2,569 and \$528, respectively.

The Company entered into a contracted service agreement for recruiting services with immediate family member of Nicholas Nawratil, COO, and therefore a related party. Total expense incurred under this arrangement for the years ended December 31, 2023 and 2022 was \$35,961 and \$0, respectively.

OUR SECURITIES

The company has authorized equity stock. As part of the Regulation Crowdfunding raise, the Company will be offering up to 304,321 of Common Stock.

Common Stock

The amount of security authorized is 10,366,856 with a total of 9,131,742 outstanding.

Voting Rights

One vote per share, please see below that the voting rights of securities sold in this offering contain a voting proxy.

Material Rights

Stock Options

The total amount outstanding does not include 500,000 of shares to be issued pursuant to stock options, reserved but

unissued.

Voting Rights of Securities Sold in this Offering

Voting Proxy. Each Subscriber shall appoint the Chief Executive Officer of the Company (the “CEO”), or his or her successor, as the Subscriber’s true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Subscriber, (i) vote all Securities, (ii) give and receive notices and communications, (iii) execute any instrument or document that the CEO determines is necessary or appropriate in the exercise of its authority under this instrument, and (iv) take all actions necessary or appropriate in the judgment of the CEO for the accomplishment of the foregoing. The proxy and power granted by the Subscriber pursuant to this Section are coupled with an interest. Such proxy and power will be irrevocable. The proxy and power, so long as the Subscriber is an individual, will survive the death, incompetency and disability of the Subscriber and, so long as the Subscriber is an entity, will survive the merger or reorganization of the Subscriber or any other entity holding the Securities. However, the Proxy will terminate upon the closing of a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933 covering the offer and sale of Common Stock or the effectiveness of a registration statement under the Securities Exchange Act of 1934 covering the Common Stock.

What it means to be a minority holder

As a minority holder of [Security Name] of the Company, you will have limited rights in regard to the corporate actions of the Company, including additional issuances of securities, company repurchases of securities, a sale of the Company or its significant assets, or company transactions with related parties. Further, investors in this offering may have rights less than those of other investors and will have limited influence on the corporate actions of the Company.

Dilution

Investors should understand the potential for dilution. The investor’s stake in a company could be diluted due to the Company issuing additional shares. In other words, when the Company issues more shares, the percentage of the Company that you own will go down, even though the value of the Company may go up. You will own a smaller piece of a larger company. This increase in the number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, or angel investment), employees exercising stock options, or by conversion of certain instruments (e.g. convertible bonds, preferred shares or warrants) into stock.

If the Company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the Company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the Company).

The type of dilution that hurts early-stage investors most occurs when the company sells more shares in a “down round,” meaning at a lower valuation than in earlier offerings.

If you are making an investment expecting to own a certain percentage of the company or expecting each share to hold a certain amount of value, it’s important to realize how the value of those shares can decrease by actions taken by the company. Dilution can make drastic changes to the value of each share, ownership percentage, voting control, and earnings per share.

RISK FACTORS

Uncertain Risk An investment in the Company (also referred to as "we", "us", "our", or "Company") involves a high degree of risk and should only be considered by those who can afford the loss of their entire investment. Furthermore, the purchase of any of the Equity should only be undertaken by persons whose financial resources are sufficient to enable them to indefinitely retain an illiquid investment. Each investor in the Company should consider all of the information provided to such potential investor regarding the Company as well as the following risk factors, in addition to the other information listed in the Company's Form C. The following risk factors are not intended, and shall not be deemed to be, a complete description of the commercial and other risks inherent in the investment in the Company. Our business projections are only projections There can be no assurance that the Company will meet our projections. There can be no assurance that the Company will be able to find sufficient demand for our product, that people think it's a better option than a competing product, or that we will able to provide the service at a level that allows the Company to make a profit and still attract business. Any valuation is difficult to assess The valuation for the offering was established by the Company. Unlike listed companies that are valued publicly through market-driven stock prices, the valuation of private companies, especially startups, is difficult to assess and you may risk overpaying for your investment. The transferability of the Securities you are buying is limited Any equity purchased through this crowdfunding campaign is subject to SEC limitations of transfer. This means that the stock/note that you purchase cannot be resold for a period of one year. The exception to this rule is if you are transferring the stock back to the Company, to an "accredited investor," as part of an offering registered with the Commission, to a member of your family, trust created for the benefit of your family, or in connection with your death or divorce. Your investment could be illiquid for a long time You should be prepared to hold this investment for several years or longer. For the 12 months following your investment there will be restrictions on how you can resell the securities you receive. More importantly, there is no established market for these securities and there may never be one. As a result, if you decide to sell these securities in the future, you may not be able to find a buyer. The Company may be acquired by an existing player in the educational software development industry. However, that may never happen or it may happen at a price that results in you losing money on this investment. Your information rights are limited with limited post-closing disclosures The Company is required to

disclose certain information about the Company, its business plan, and its anticipated use of proceeds, among other things, in this offering. Early-stage companies may be able to provide only limited information about their business plan and operations because it does not have fully developed operations or a long history to provide more disclosure. The Company is also only obligated to file information annually regarding its business, including financial statements. In contrast to publicly listed companies, investors will be entitled only to that post-offering information that is required to be disclosed to them pursuant to applicable law or regulation, including Regulation CF. Such disclosure generally requires only that the Company issue an annual report via a Form C-AR. Investors are generally not entitled to interim updates or financial information. Terms of subsequent financings may adversely impact your investment We will likely need to engage in common equity, debt, or preferred stock financings in the future, which may reduce the value of your investment in the Common Stock. Interest on debt securities could increase costs and negatively impact operating results. Preferred stock could be issued in series from time to time with such designation, rights, preferences, and limitations as needed to raise capital. The terms of preferred stock could be more advantageous to those investors than to the holders of Common Stock. In addition, if we need to raise more equity capital from the sale of Common Stock, institutional or other investors may negotiate terms that are likely to be more favorable than the terms of your investment, and possibly a lower purchase price per share. Management's Discretion as to Use of Proceeds Our success will be substantially dependent upon the discretion and judgment of our management team with respect to the application and allocation of the proceeds of this Offering. The use of proceeds described below is an estimate based on our current business plan. We, however, may find it necessary or advisable to re-allocate portions of the net proceeds reserved for one category to another, and we will have broad discretion in doing so. Projections: Forward Looking Information Any projections or forward looking statements regarding our anticipated financial or operational performance are hypothetical and are based on management's best estimate of the probable results of our operations and will not have been reviewed by our independent accountants. These projections will be based on assumptions which management believes are reasonable. Some assumptions invariably will not materialize due to unanticipated events and circumstances beyond management's control. Therefore, actual results of operations will vary from such projections, and such variances may be material. Any projected results cannot be guaranteed. The amount raised in this offering may include investments from company insiders or immediate family members Officers, directors, executives, and existing owners with a controlling stake in the Company (or their immediate family members) may make investments in this offering. Any such investments will be included in the raised amount reflected on the campaign page. Minority Holder; Securities with Voting Rights The Common Stock that an investor is buying has voting rights attached to them. However, you will be part of the minority shareholders of the Company and have agreed to appoint the Chief Executive Officer of the Company (the “CEO”), or his or her successor, as your voting proxy. You are trusting in management discretion in making good business decisions that will grow your investments. Furthermore, in the event of a liquidation of our Company, you will only be paid out if there is any cash remaining after all of the creditors of our Company have been paid out. You are trusting that management will make the best decision for the company You are trusting in management discretion. You are buying securities as a minority holder, and therefore must trust the management of the Company to make good business decisions that grow your investment. This offering involves “rolling closings,” which may mean that earlier investors may not have the benefit of information that later investors have. Once we meet our target amount for this offering, we may request that StartEngine instruct the escrow agent to disburse offering funds to us. At that point, investors whose subscription agreements have been accepted will become our investors. All early-stage companies are subject to a number of risks and uncertainties, and it is not uncommon for material changes to be made to the offering terms, or to companies' businesses, plans or prospects, sometimes on short notice. When such changes happen during the course of an offering, we must file an amended to our Form C with the SEC, and investors whose subscriptions have not yet been accepted will have the right to withdraw their subscriptions and get their money back. Investors whose subscriptions have already been accepted, however, will already be our investors and will have no such right. Non-accredited investors may not be eligible to participate in a future merger or acquisition of the Company and may lose a portion of their investment Investors should be aware that under Rule 145 under the Securities Act of 1933 if they invest in a company through Regulation CrowdFunding and that company becomes involved in a merger or acquisition, there may be significant regulatory implications. Under Rule 145, when a company plans to acquire another and offers its shares as part of the deal, the transaction may be deemed an offer of securities to the target company's investors, because investors who can vote (or for whom a proxy is voting on their behalf) are making an investment decision regarding the securities they would receive. All investors, even those with non-voting shares, may have rights with respect to the merger depending on relevant state laws. This means the acquirer’s “offer” to the target’s investors would require registration or an exemption from registration (such as Reg. D or Reg. CF), the burden of which can be substantial. As a result, non-accredited investors may have their shares repurchased rather than receiving shares in the acquiring company or participating in the acquisition. This may result in investors’ shares being repurchased at a value determined by a third party, which may be at a lesser value than the original purchase price. Investors should consider the possibility of a cash buyout in such circumstances, which may not be commensurate with the long-term investment they anticipate. We face significant market competition We will compete with larger, established companies who currently have products on the market and/or various respective product development programs. They may have much better financial means and marketing/sales and human resources than us. They may succeed in developing and marketing competing equivalent products earlier than us, or superior products than those developed by us. There can be no assurance that competitors will render our technology or products obsolete or that the products developed by us will be preferred to any existing or newly developed technologies. It should further be assumed that competition will intensify. We have existing patents that we might not be able to protect properly One of the Company's most valuable assets is its intellectual property. The Company's owns several trademarks, copyrights, Internet domain names, and trade secrets. We believe one of the most valuable components of the Company is our intellectual property portfolio. Due to the value, competitors may misappropriate or violate the rights owned by the Company. The Company intends to continue to protect its intellectual property portfolio from such violations. It is important to note that unforeseeable costs associated with such practices may invade the capital of the Company. Our trademarks, copyrights and other intellectual property could be unenforceable or ineffective Intellectual property is a complex field of law in which few things are certain. It is possible that competitors will be able to design around our intellectual property, find prior art to invalidate it, or render the patents unenforceable through some other mechanism. If competitors are able to bypass our trademark and copyright protection without obtaining a sublicense, it is likely that the Company’s value will be materially and adversely impacted. This could also impair the Company’s ability to compete in the marketplace. Moreover, if our trademarks and copyrights are deemed unenforceable, the

Company will almost certainly lose any potential revenue it might be able to raise by entering into sublicenses. This would cut off a significant potential revenue stream for the Company. The cost of enforcing our trademarks and copyrights could prevent us from enforcing them. Trademark and copyright litigation has become extremely expensive. Even if we believe that a competitor is infringing on one or more of our trademarks or copyrights, we might choose not to file suit because we lack the cash to successfully prosecute a multi-year litigation with an uncertain outcome; or because we believe that the cost of enforcing our trademark(s) or copyright(s) outweighs the value of winning the suit in light of the risks and consequences of losing it; or for some other reason. Choosing not to enforce our trademark(s) or copyright(s) could have adverse consequences for the Company, including undermining the credibility of our intellectual property, reducing our ability to enter into sublicenses, and weakening our attempts to prevent competitors from entering the market. As a result, if we are unable to enforce our trademark(s) or copyright(s) because of the cost of enforcement, your investment in the Company could be significantly and adversely affected. The loss of one or more of our key personnel, or our failure to attract and retain other highly qualified personnel in the future, could harm our business. To be successful, the Company requires capable people to run its day to day operations. As the Company grows, it will need to attract and hire additional employees in sales, marketing, design, development, operations, finance, legal, human resources and other areas. Depending on the economic environment and the Company's performance, we may not be able to locate or attract qualified individuals for such positions when we need them. We may also make hiring mistakes, which can be costly in terms of resources spent in recruiting, hiring and investing in the incorrect individual and in the time delay in locating the right employee fit. If we are unable to attract, hire and retain the right talent or make too many hiring mistakes, it is likely our business will suffer from not having the right employees in the right positions at the right time. This would likely adversely impact the value of your investment. Our ability to sell our product or service is dependent on outside government regulation which can be subject to change at any time. Our ability to sell product is dependent on the outside government regulation such as the FDA (Food and Drug Administration), FTC (Federal Trade Commission) and other relevant government laws and regulations. The laws and regulations concerning the selling of product may be subject to change and if they do then the selling of product may no longer be in the best interest of the Company. At such point the Company may no longer want to sell product and therefore your investment in the Company may be affected. We rely on third parties to provide services essential to the success of our business. We rely on third parties to provide a variety of essential business functions for us, including manufacturing, shipping, accounting, legal work, public relations, advertising, retailing, and distribution. It is possible that some of these third parties will fail to perform their services or will perform them in an unacceptable manner. It is possible that we will experience delays, defects, errors, or other problems with their work that will materially impact our operations and we may have little or no recourse to recover damages for these losses. A disruption in these key or other suppliers' operations could materially and adversely affect our business. As a result, your investment could be adversely impacted by our reliance on third parties and their performance. In the United States the use of our UAS for their intended use is regulated by the FAA, EPA, and possibly other regulatory bodies on the Federal, State, and Local levels depending on the operation. U.S. regulations that pertain to UAS, including crop-spraying UAS, are prone to change. We inform all of our clients of the existence and necessity of these regulations; ultimately the customers are responsible for ensuring that their use of our products is in accordance with all applicable laws and regulations. The use of our UAS products, and UAS in general, may become more or less regulated in the future; it is difficult to predict what the regulatory agencies will decide to do. The existence of the current regulations, or future regulations, may pose a barrier to the expansion of our sales within the United States. This barrier to the expansion of our sales may cause the value of your investment to decline. Use and sale of our products outside of the United States may be affected by various laws and regulations. These include import/export laws and regulations. Most countries have their own equivalents to the FAA and EPA that may impose laws and regulations on the use and sale of our products within their country. Navigating these regulations in order to conduct business outside of the U.S. may cause Hylio to incur additional expenses that affect its income and/or profitability. These financial factors may cause your investment to lose value. Additionally, Hylio is required to comply with all applicable domestic and foreign export control laws, including the International Traffic in Arms Regulations and the Export Administration Regulations. In addition, we may be subject to the Foreign Corrupt Practices Act and international counterparts that generally bar bribes or unreasonable gifts for foreign governments and officials. Violation of any of these laws or regulations could result in significant sanctions, which could reduce our future revenue and net income.

RESTRICTIONS ON TRANSFER

The common stock sold in the Regulation CF offering, may not be transferred by any purchaser, for a period of one-year beginning when the securities were issued, unless such securities are transferred:

- (1) to the Company;
- (2) to an accredited investor;
- (3) as part of an offering registered with the SEC; or
- (4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

SIGNATURES

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100-503), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned, on November 1, 2024.

1. NATURE OF OPERATIONS

Hylío, Inc. was incorporated on January 08, 2015 in the state of Texas. The financial statements of Hylío Inc. (which may be referred to as the “Company”, “we”, “us”, or “our”) are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s headquarters are located in Richmond, Texas.

Hylío designs, manufactures, and provides innovative UAS (unmanned aerial systems), that automate precision agriculture processes. Using Hylío’s technology, farmers & operators can apply crop treatments directly to problem areas, allowing farmers to increase yields while lowering costs and environmental impact. Based in Texas, Hylío is proudly American owned and operated. Hylío's mission is to feed more people, at lower costs with US-made systems.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). The Company has adopted the calendar year as its basis of reporting.

Use of Estimates

The preparation of financial statements in conformity with United States GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash in banks. The Company’s cash is deposited in demand accounts at financial institutions that management believes are creditworthy. The Company’s cash and cash equivalents in bank deposit accounts, at times, may exceed federally insured limits. As of December 31, 2023 and December 31, 2022, the Company’s cash and cash equivalents exceeded FDIC insured limits by \$147,482 and \$710,794, respectively.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are recorded at the original invoiced amount, less an allowance for doubtful accounts, and are primarily due from customers. Effective January 1, 2023, the Company adopted ASC 326, Financial Instruments - Credit Losses, which requires the use of the CECL model to estimate expected credit losses over the life of the receivables. The CECL model is designed to reflect lifetime expected credit losses and is updated periodically based on changes in economic conditions.

Allowance for Doubtful Accounts

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022**

The Company evaluates the allowance for doubtful accounts on a collective basis by grouping receivables with similar risk characteristics. This estimate is based on historical credit loss experience, adjusted for current conditions and reasonable forecasts of future economic conditions. The allowance is calculated by considering various factors, including aging of receivables, customer creditworthiness, and past collection trends.

For the year ending December 31, 2023, the allowance for doubtful accounts reflects the estimated losses expected over the receivables' contractual term. Management will adjust this allowance as necessary to reflect changes in circumstances that impact the collectability of outstanding receivables.

Inventories

Inventories are valued at the lower of cost and net realizable value. Costs related to raw materials, barrels, ingredients and finished goods which are determined using an average method.

Property and Equipment

Property and equipment are stated at cost. Normal repairs and maintenance costs are charged to earnings as incurred and additions and major improvements are capitalized. The cost of assets retired or otherwise disposed of and the related depreciation are eliminated from the accounts in the period of disposal and the resulting gain or loss is credited or charged to earnings.

Depreciation is computed over the estimated useful lives of the related asset type or term of the Right of use assets from operating leases using the straight-line method for financial statement purposes. The estimated service lives for property and equipment is as follows:

Category	Useful Life
Buildings & Improvements	15 Years
Equipment	5-7 Years
Software	5 years
Research & Development	5 Years
Purchased Software	3 - 5 Years

Impairment of Long-lived Assets

Long-lived assets, such as property and equipment and identifiable intangibles with finite useful lives, are periodically evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We look for indicators of a trigger event for asset impairment and pay special attention to any adverse change in the extent or manner in which the asset is being used or in its physical condition. Assets are grouped and evaluated for impairment at the lowest level of which there are identifiable cash flows, which is generally at a location level. Assets are reviewed using factors including, but not limited to, our future operating plans and projected cash flows. The determination of whether impairment has occurred is based on an estimate of undiscounted future cash flows directly related to the assets, compared to the carrying value of the assets. If the sum of the undiscounted future cash flows of the assets does not exceed the carrying value of the assets, full or partial impairment may exist. If the asset carrying amount exceeds its fair value, an impairment charge is recognized in the amount by which the carrying amount exceeds the fair value of the asset. Fair value is determined using an income approach, which requires discounting the estimated future cash flows associated with the asset.

Intangible Assets

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022***Software Development, R&D Costs*

The Company capitalize software development and R&D costs once technological feasibility is established and determine that such costs are recoverable against future net sales. The Company evaluate technological feasibility on a product-by-product basis. Once technological feasibility is established, costs are capitalized. Amounts related to development for which technological feasibility is not yet met are charged as incurred to statement of operations. Commencing upon product release, capitalized costs are amortized to " in statements of operations based on the ratio of current gross sales to total projected gross sales.

Income Taxes

Hylio Inc. is a C corporation for income tax purposes. The Company accounts for income taxes under the liability method, and deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying values of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the deferred tax asset will not be realized. The Company records interest, net of any applicable related income tax benefit, on potential income tax contingencies as a component of income tax expense. The Company records tax positions taken or expected to be taken in a tax return based upon the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related appeals or other legal processes. Accordingly, the Company recognizes liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority. The Company recognizes interest and/or penalties related to unrecognized tax benefits as a component of income tax expense.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Revenue Recognition

The Company recognizes revenues in accordance with FASB ASC 606, Revenue from Contracts with Customers, when delivery of services is the sole performance obligation in its contracts with customers. The Company typically collects payment upon sale and recognizes the revenue when the service has been performed and has fulfilled its sole performance obligation.

Revenue recognition, according to Topic 606, is determined using the following steps:

- 1) Identification of the contract, or contracts, with the customer: the Company determines the existence of a contract with a customer when the contract is mutually approved; the rights of each party in relation to the services to be transferred can be identified, the payment terms for the services can be identified, the customer has the capacity and intention to pay, and the contract has commercial substance.
- 2) Identification of performance obligations in the contract: performance obligations consist of a promised in a contract (written or oral) with a customer to transfer to the customer either a good or service (or a bundle of

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022**

goods or services) that is distinct or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

- 3) Recognition of revenue when, or how, a performance obligation is met: revenues are recognized when or as control of the promised goods or services is transferred to customers.

The Company earns revenues from primarily the sale of its UAS (Unmanned Aerial Systems) products to a variety of customers, including government entities, large corporations, agribusinesses, individual farms, and distributors/resellers once the goods are shipped.

Cost of sales

Costs of goods sold include the cost of equipment sold, cost of labor, commissions, distribution services, federal excise tax, freight and delivery, packaging and supplies, cost of retail product.

Advertising and Promotion

Advertising and promotional costs are expensed as incurred. Advertising and promotional expense for the years ended December 31, 2023 and December 31, 2022, amounted to \$321,810 and \$172,001, which is included in sales and marketing expense.

Research and Development Costs

Costs incurred in the research and development of the Company's products are expensed as incurred.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments included in current assets and current liabilities (such as cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate fair value due to the short-term nature of such instruments).

The inputs used to measure fair value are based on a hierarchy that prioritizes observable and unobservable inputs used in valuation techniques. These levels, in order of highest to lowest priority, are described below:

Level 1—Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2—Observable prices that are based on inputs not quoted on active markets but corroborated by market data.

Level 3—Unobservable inputs reflecting the Company's assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Subsequent Events

The Company considers events or transactions that occur after the balance sheet date, but prior to the issuance of the financial statements to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through October 18, 2024, which is the date the financial statements were issued.

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022****Recently Issued and Adopted Accounting Pronouncements**

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

Lease Accounting

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. The new standard introduces a new lessee model that brings substantially all leases onto the balance sheets. The amendments in the ASU are effective for fiscal years beginning after December 15, 2022.

We adopted the standard effective January 1, 2023 using the modified retrospective adoption method which allowed us to initially apply the new standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of accumulated deficit. In connection with our adoption of the new lease pronouncement, we recorded a charge to retained earnings.

Effects of Adoption

We have elected to use the practical expedient package that allows us to not reassess: (1) whether any expired or existing contracts are or contain leases, (2) lease classification for any expired or existing leases and (3) initial direct costs for any expired or existing leases. We additionally elected to use the practical expedients that allow lessees to: (1) treat the lease and non-lease components of leases as a single lease component for all of our leases and (2) not recognize on our balance sheet leases with terms less than twelve months.

We determine if an arrangement is a lease at inception. We lease certain manufacturing facilities, warehouses, offices, machinery and equipment, vehicles and office equipment under operating leases. Under the new standard, operating leases result in the recognition of ROU assets and lease liabilities on the consolidated balance sheet. ROU assets represent our right to use the leased asset for the lease term and lease liabilities represent our obligation to make lease payments. Under the new standard, operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, upon adoption of the new standard, we used our estimated incremental borrowing rate based on the information available, including lease term, as of January 1, 2022 to determine the present value of lease payments. Operating lease ROU assets are adjusted for any lease payments made prior to January 1, 2023 and any lease incentives. Certain of our leases may include options to extend or terminate the original lease term. We generally conclude that we are not reasonably certain to exercise these options due primarily to the length of the original lease term and our assessment that economic incentives are not reasonably certain to be realized. Operating lease expense under the new standard is recognized on a straight-line basis over their lease term. Our current finance lease obligations consist primarily of cultivation and distribution facility leases.

Summary of Effects of Lease Accounting Standard Update Adopted in 2023

The cumulative effects of the changes made to our balance sheet as of the beginning of 2023 as a result of the adoption of the accounting standard update on leases were as follows:

There are no effects since the Company has no active long term agreements as of December 31, 2023

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022****3. INVENTORY**

As of December 31, 2023 and December 31, 2022, inventory consists of:

As of Year Ended December 31,	2023	2022
Raw Materials	3,400,204	855,829
Finished goods	-	-
Total Inventory	\$ 3,400,204	\$ 855,829

4. DETAILS OF CERTAIN ASSETS AND LIABILITIES

Account receivables consist primarily of trade receivables, accounts payable consist primarily of trade payables. Prepaids and other current assets consist of the following items:

As of Year Ended December 31,	2023	2022
Receivables from customers	27,160	-
Interest receivable	15,885	9,785
Undeposited funds	957	957
Other current assets	2,207	2,735
Total Prepaids and Other Current Assets	\$ 46,209	\$ 13,477

Other current liabilities consist of the following items:

As of Year Ended December 31,	2023	2022
Payroll Liabilities	14,435	30
Other Current Liabilities	\$ 14,435	\$ 30

5. PROPERTY AND EQUIPMENT

As of December 31, 2023 and December 31, 2022, property and equipment consists of:

As of Year Ended December 31,	2023	2022
Buildings & improvements	\$ 79,401	\$ 3,142
Furniture & Equipment	508,062	289,704
Trailers	60,655	8,732
Property and Equipment, at Cost	648,118	301,578
Accumulated depreciation	(566,432)	(276,491)
Property and Equipment, Net	\$ 81,686	\$ 25,087

Depreciation expense for property and equipment for the fiscal year ended December 31, 2023 and 2022 was in the amount of \$289,941 and \$215,357 respectively.

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022****6. INTANGIBLE ASSETS**

As of December 31, 2023 and December 31, 2022, intangible asset consist of:

As of Year Ended December 31,	2023	2022
Software Development	998,047	691,810
Research & Development	660,179	304,482
Startup	416	416
Intangible assets, at cost	1,660,665	996,708
Accumulated amortization	(636,846)	(478,877)
Intangible assets, Net	1,023,819	517,831

Amortization expense for the fiscal year ended December 31, 2023 and 2022 was in the amount of \$157,969 and \$45,786 respectively.

The following table summarizes the estimated amortization expense relating to the Company's intangible assets as of December 31, 2023:

Period	Amortization Expense
2024	\$ 157,969
2025	157,969
2026	157,969
2027	157,969
Thereafter	391,943
Total	\$ 1,023,819

7. CAPITALIZATION AND EQUITY TRANSACTIONS**Common Stock**

The Company is authorized to issue 10,366,856 common shares. During 2023 the Company repurchased 300,000 shares of Common Stock from existing shareholders for \$1.50 per share. As of December 31, 2023, and December 31, 2022, shares outstanding were 9,508,125 and 9,808,125 respectively.

8. EARNING PER SHARE

For the year ended December 31, 2023, the Company reported basic and diluted earnings per share of \$0.04, compared to basic and diluted losses per share of \$(0.01) for the year ended December 31, 2022.

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022****9. DEBT****Promissory Notes & Loans**

During the years presented, the Company entered into promissory notes & loans agreements. The details of the Company's loans, notes, and the terms are as follows:

Debt Instrument Name	Principal Amount	Interest Rate	Borrowing Period	Maturity Date	For the Year Ended December 2023			For the Year Ended December 2022

The summary of the future maturities is as follows:

As of Year Ended December 31, 2023

2024	\$ 467,223
2025	162,129
2026	162,129
2027	162,129
2028	162,129
Thereafter	117,975
Total	\$ 1,233,714

The Company entered into a Line of Credit agreement with Stellar Bank during fiscal year 2022. The credit facility size \$500,000. The interest rate is 9.1% per annum with maturity date August 24, 2024. The total outstanding balance as of December 31, 2023 and December 31, 2022 was \$305,094 and \$250,000, respectively. The entire balance is classified as current.

During fiscal year 2023, the Company entered into a finance agreement with Stellar Bank in the amount of \$798,260 . The effective interest rate for fiscal year 2023 was 9.5% and maturity date is March 29, 2034. As of December 31, 2023 the outstanding balance of this amount was 798,260.

During 2016, the Company borrowed money from the owners in the amount of \$76,513, with a maturity date of 2036. The loan is not bearing any interest. The loan was classified as non-current.

Leases

We have entered into lease agreements, mostly for a certain of business premises. Our lease has original lease period expiring in 2025. We do not assume renewals in our determination of the lease term unless the renewals are deemed to be reasonably assured. Our lease agreement generally do not contain any material residual value guarantees or material restrictive covenants. The cumulative effects of the changes made to our balance sheet as of December 31, 2023, as a result of the adoption of the accounting standard update on leases were as follows:

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022**

As of December 31, 2023		
Assets		
Right of use asset, net	\$	148,096
Cash		-
Liabilities		
Current portion of lease obligation		85,855
Lease obligation		62,241
Equity		
		-
Total	\$	-

The aggregate minimum annual lease payments under operating leases in effect as of December 31, 2023, are as follows:

As of December 31, 2023		
2024	\$	85,855
2025		62,241
2026		-
2027		-
Thereafter		-
Total	\$	148,096

10. INCOME TAXES

The provision for income taxes for the year ended December 31, 2023 and December 31, 2022 consists of the following:

As of Year Ended December 31,	2023	2022
Net Operating Loss	\$ -	\$ (22,241)
Valuation Allowance	-	22,241
Net Provision for income tax	\$ -	\$ -

Significant components of the Company's deferred tax assets and liabilities at December 31, 2023, and December 31, 2022 are as follows:

As of Year Ended December 31,	2023	2022
DTA from NOL	\$ 48,073	\$ -
DTA from R&D Investments	74,332	-
Total DTA Recognized	122,405	-
DTA utilized for Income Tax	(59,950)	-
Remaining DTA	62,455	-
Net Operating Loss	-	(48,073)
Valuation Allowance	(62,455)	48,073
Total Deferred Tax Asset	\$ -	\$ -

NOTES TO FINANCIAL STATEMENTS**FOR YEAR ENDED TO DECEMBER 31, 2023, AND DECEMBER 31, 2022**

Management assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to use the existing deferred tax assets. On the basis of this evaluation, the Company has determined that it is more likely than not that the Company will recognize the benefits of the federal and state net deferred tax assets, and, as a result, full valuation allowance has been set against its net deferred tax assets as of December 31, 2023 and December 31, 2022. The amount of the deferred tax asset to be realized could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased.

For the fiscal year ending December 31, 2023, the Company had no federal cumulative net operating loss ("NOL") carryforwards and the Company had no state net operating loss ("NOL") carryforwards. Utilization of some of the federal and state NOL carryforwards to reduce future income taxes will depend on the Company's ability to generate sufficient taxable income prior to the expiration of the carryforwards. The federal net operating loss carryforward is subject to an 80% limitation on taxable income, does not expire, and will carry on indefinitely.

The Company recognizes the impact of a tax position in the financial statements if that position is more likely than not to be sustained on a tax return upon examination by the relevant taxing authority, based on the technical merits of the position. As of December 31, 2023, and December 31, 2022, the Company had no unrecognized tax benefits.

The Company recognizes interest and penalties related to income tax matters in income tax expense. As of December 31, 2023, and December 31, 2022, the Company had no accrued interest and penalties related to uncertain tax positions.
