Draft Registration Statement on Form S-1 submitted June 2, 2021

General

1. We note that the warrants are exercisable 30 days following completion of the initial business combination. Therefore, because the warrants could be exercisable in less than a year the common stock underlying the warrants are required to be registered with this offering. While the fee table reflects the registration of the common stock underlying the warrants, we note the disclosure on page 13 and the risk factor on page 50 that you are not registering the common stock underlying the warrants at this time. Please revise to clearly reflect throughout the prospectus that this registration statement covers the common stock underlying the warrants.
