Form S-1/A filed August 20, 2021

Capitalization, page 77

1. We have considered your response to our prior comment one. We are unable to agree with your view that the \$5 million net tangible limitation provided in your Amended and Restated Memorandum and Articles of Association qualifies a portion of your redeemable Class A shares for permanent equity classification in accordance with ASC 480-10-S99-3A for the following reasons:
  - Each redeemable Class A share is redeemable outside the control of the Company. Such shares will become redeemable either as a result of a business combination or by passage of time.

- The intention is that in all cases the redeemable Class A shareholders will have their investment reimbursed, unless they choose otherwise, whether as a result of a business combination or as the result of the failure to achieve a business combination.
- The unit of accounting is the individual share as each share has the right to be redeemed at the holders' option upon a business combination. While the Company's charter (articles of incorporation/articles of association) stipulates that redemptions will be limited to \$5 million in net tangible assets, the company does not control whether or not that threshold is ever reached in terms of the capital available from the redeemable Class A shareholders, nor does the company control which specific shareholders chose to redeem or not redeem.

Please revise your Capitalization table to classify all redeemable Class A shares as temporary equity.
