Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Federal and State Regulations may change, which would impact the company's business model.

The company is focused on new emerging markets that have yet to fully develop. There is also significant competition in this market

The company will need to find partners for large-scale manufacturing with a contract manufacturer.

The company will need additional R&D to produce additional strains of Cannabinoids. It could require additional expenses

The company will need to secure domestic and international distribution networks. It can take a long time in the sales cycle.

The company will need to obtain regulatory approvals for products in USA, Europe, and other countries.

The company filed 4 patent applications which are not granted yet. Patent applications could be rejected or granted in different forms compare to the initial applications. All patent filings are held by the Company.

COVID-19 can materially impact our business.

It is unclear how long the COVID-19 pandemic will last and to what degree it could hurt our ability to generate revenues

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

☒ Yes
☐ No

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

Biosynthesis platform to produce 99% pharmaceutical grade cannabinoids, organic, 100% identical to natural cannabinoids at 70-90% less cost using 90% less natural resources

We want to dominate the multi-billion dollar market of rare cannabinoids and fuel the creation of new medical and wellness products leveraging the benefits of these powerful compounds.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Milestones

BioMedican, Inc was incorporated in the State of Delaware in October 2017.

Since then, we have:

- Medical-use, non-GMO cannabinoids for 70-90% less than current, wholesale prices
- Costs less than \$1/gram per cannabinoid using 90% less resources; 3 patents pending and one granted.
- 70+ press mentions; Forbes, Bloomberg, Nasdaq, Reuters, Maxim, Rolling Stones
- Partnered with Institute of Genetics Moscow, Denmark Technical University, Imperial College UK
- CBG reduces pain, inflammation; treats Glaucoma, Huntington's disease, IDB
- THCV helps with diabetes, inflammation, neuroprotection, & bone growth
- One of the fastest growing markets in the world; expected to reach \$25B in 2025

Historical Results of Operations

- *Revenues & Gross Margin.* For the period ended December 31, 2021, the Company had revenues of \$0 compared to the year ended December 31, 2020, when the Company had revenues of \$0. Our gross margin was % in fiscal year 2021, compared to % in 2020.
- *Assets.* As of December 31, 2021, the Company had total assets of \$138,963, including \$19,099 in cash. As of December 31, 2020, the Company had \$222,406 in total assets, including \$134,712 in cash.
- *Net Loss.* The Company has had net losses of \$1,646,200 and net losses of \$971,290 for the fiscal years ended December 31, 2021 and December 31, 2020, respectively.
- *Liabilities.* The Company's liabilities totaled \$520,130 for the fiscal year ended December 31, 2021 and \$485,469 for the fiscal year ended December 31, 2020.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$400,000 in debt, \$1,000,000 in equity, and \$2,450,000 in SAFEs.

After the conclusion of this Offering, should we hit our minimum funding target,

our projected runway is 3 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

BioMedican, Inc cash in hand is \$130,000, as of July 2021. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$135,603/month, for an average burn rate of \$135,603 per month. Our intent is to be profitable in 24 months.

There have been no significant changes in our financials or operations since the date our financials cover.

We are currently pre-revenue. The company has been in the process of improving results on the yields on CBG/CBGA and THC/THCVA which are now, we believe, the best yields in the industry. We have been preparing to go into pilot-scale production setting up partnerships with companies for downstream processing, extraction and purification, and 3rd party testing. We are also in dozens of negotiations with global distribution partners. We believe we will be generating significant revenues starting in Q3 in 2022. These are forward looking projections and are not guaranteed.

\$3M of additional equity investments would help us install a larger capacity production line and at the current prices for inputs and products is expected to help us reach operating profitability.

We have several venture capital firms interested in funding \$10M or more once we are in pilot scale production. The \$10M would allow us to go into large-scale production utilizing a contract manufacturer that would produce products that will generate significant revenues/profitability. Outside of that, we are working with several institutional funds and accredited investors for getting additional financing.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

Refer to [Appendix C, Financial Statements](#)

I, Maxim Mikhchev, certify that:

(1) the financial statements of BioMedican, Inc included in this Form are true and complete in all material respects ; and

(2) the tax return information of BioMedican, Inc included in this Form reflects accurately the information reported on the tax return for BioMedican, Inc filed for the most recently completed fiscal year.

Maxim Mikhchev
CEO

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a compensated person of Wefunder Advisors) and may be compensated

could be a superfluous provision. Therefore, particularly and only as compensation through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30. If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:
(a) a description of the material content of such information;
(b) a description of the format in which such disclosure is presented; and
(c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<https://biomedican.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(5), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
