Invest in artificial intelligence

Invest early in top private, pre-IPO companies
including those leading the AI revolution.

Venture capital has been arguably the highest-performing
asset class in the world for the past 25 years. It was also
off-limits to 99.9% of investors¹. **That's no longer true.**

With Fundrise, you can invest in emerging technologies like
artificial intelligence and some of the world's most promising,
high-growth tech companies *before* they go public.

Total democratization

Fundrise is actively investing in some of the most prized private tech firms in the world, bringing access to investors of all sizes.

Our first-of-its-kind fund has already raised more than **\$100 million** in just 12 months, thanks to:

- No accreditation required
- No carried interest or membership fees
- Early liquidity options
- Lowest investment minimum ever (\$10)

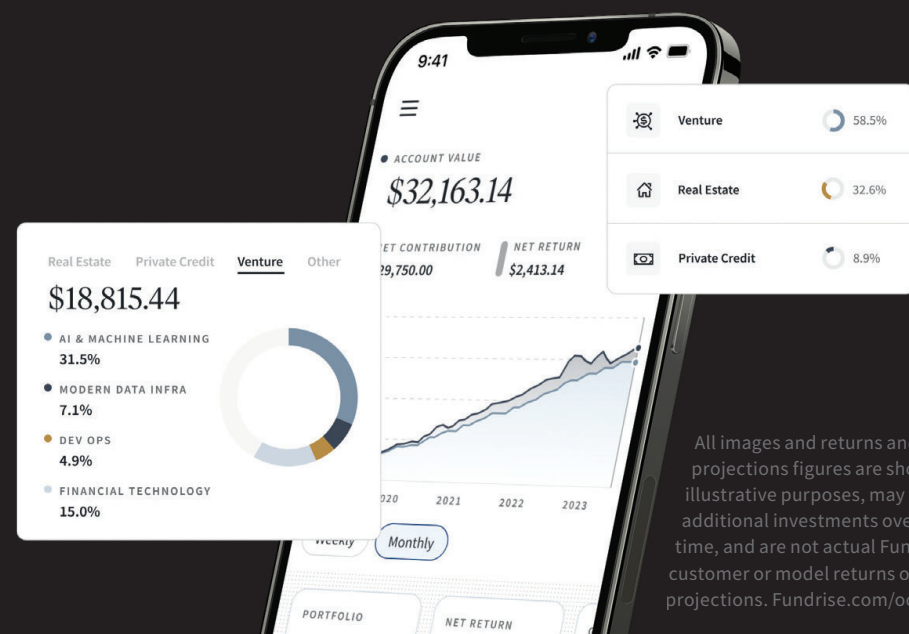

TESTED AND TRUSTED

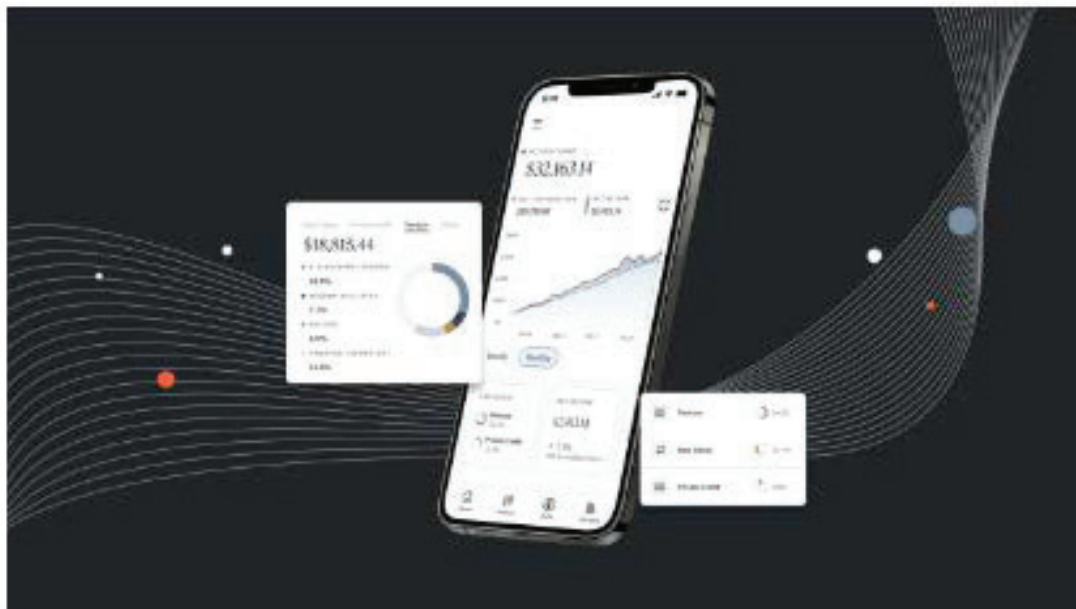

Fundrise is America's largest direct-access alternative asset manager, investing in a portfolio worth more than **\$7 billion**² across real estate private equity, private credit, and venture capital, and serving more than **2 million people**.

GET IN EARLY

Get access to a portfolio of top private companies at **fundrise.com/mail**.

¹Cambridge Associates "USVC Benchmark Book" ²Total real estate value of projects invested in since inception of Rise Companies Corp sponsored real estate investment programs, as of 12/31/2022.

The future is now open for investment

Since you last invested with us, we've added a completely new asset class. **Introducing: venture capital by Fundrise.** Now you can invest early in some of the world's best tech companies—including those leading the AI revolution—before they go public. And in true Fundrise fashion, you can invest with our lowest venture minimum ever (\$10), no accreditation requirement, and no membership or carried interest fees.

Switch your plan to Venture to start investing in this fund.
