

**Show Name: 20VC**

Today, I want to talk about a venture fund making waves with its unusual model.

I'm talking about the Fundrise Innovation Fund, which is democratizing venture capital as a *public* venture fund.

For example, most of the AI revolution is being built and funded in the *private* markets. Companies like OpenAI, Anthropic, Databricks — these are incredible, multi-billion dollar businesses but also inaccessible to 99% of investors until they go public.

Those days are finally over.

Visit [Fundrise.com/20VC](https://Fundrise.com/20VC) to check out the Fundrise Innovation Fund's impressive \$150M portfolio for yourself.

Carefully consider the investment material before investing, including objectives, risks, charges, and expenses. This and other information can be found in the Innovation Fund's prospectus at [Fundrise.com/Innovation](https://Fundrise.com/Innovation). This is a paid sponsorship.
