Glytch Gear is hardware designed for real world esports tournaments and large scale gaming events. In partnership with legendary event producers, Cornerstone, the Glytch *Battle Station* powered by Alienware® is the first product to specifically satisfy the needs of esports tournaments of every size, including *battle royale* tournaments, in which up to 100 players compete simultaneously.

MARKET SIZE

Esports are sports. The numbers are convincing. According to NewZoo, global esports viewership numbers were 395 million in 2018; 495 million in 2020; and will exceed 646 million by 2023. Part of the growth can be attributed to the popularity of battle royale style games which allow for multiple players to simultaneously compete in an arena until one player, the winner, is left. *Battle royale* accounted for a combined 539 million live hours viewed on Twitch, YouTube Gaming, and FaceBook Gaming in February of 2021. We believe, given the size of the esports industry, there is a market for the Glytch *Battle Station*.

CAPABILITIES

- Built-in cable management
- Dynamic game-linked lighting
- Easily transports– folds, stacks and ships
- Breaks down and sets up quickly
- Can be managed by an administrator
- Tournament grade, certified dimensions
- Features Alienware motherboards and accessories
