## **Cboe Fixed Income Markets, LLC**

Notes to Financial Statements

As of December 31, 2022

### **(1) Nature of Business**

Cboe Fixed Income Markets, LLC (the Company) was formed as a Delaware Limited Liability Company on May 25, 2021. On July 6, 2022, the Company registered as a broker-dealer with the Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority (FINRA).

The Company is an indirect, wholly-owned subsidiary of Cboe Global Markets, Inc. (the Parent). The primary business activity of the Company is to develop and operate a U.S. Treasury securities trading system for its participants, each of which must be a broker-dealer registered with the SEC pursuant to Section 15 of the Exchange Act. The Company operates under a (k)(2)(ii) exemption from Rule 15c3-3 and clears all customer transactions through an unaffiliated broker-dealer on a fully-disclosed basis. The Company did not commence trading operations during the year ended December 31, 2022.

### **(2) Summary of Significant Accounting Policies**

#### **(a) *Principles of Accounting***

The financial statement is presented in conformity with generally accepted accounting principles in the United States (GAAP) as established by the Financial Accounting Standards Board (FASB). References to GAAP in these footnotes are to the FASB Accounting Standards Codification (ASC or Codification).

#### **(b) *Use of Estimates***

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as disclosure of the amounts of contingent assets and liabilities at the date of the financial statement. Actual results could differ significantly from those estimates.

#### **(c) *Cash***

The Company maintains cash at a financial institution that, at times, may be in excess of the federal insurance limits. The Company's management regularly monitors the institutions and believes that the potential for future loss is remote. Upon commencement of trading operations, the Company will be required to maintain a deposit of \$250,000 at the unaffiliated broker-dealer used to clear customer transactions.

#### **(d) *Income Taxes***

The Company is included in the consolidated federal income tax return filed by the Parent.

As the Company is a legal entity that is not subject to tax, there is no allocation of the Parent's current and deferred tax expense in the Company's financial statements. In accordance with Accounting Standards Update 2019-12, Simplifying the Accounting for Income Taxes, because the Company is a legal entity that is not itself subject to tax, no allocation of current and deferred tax expense from the Parent is required.

#### **(e) *Equipment, Net***

Equipment, net is stated at cost less accumulated depreciation. The equipment consists of network, server, and storage equipment, as well as data centers and the equipment has been in-serviced as the Company used the equipment while testing the trading system.

### **(f) Other assets**

Other assets consist of prepaid expenses.

### **(3) Net Capital Requirements**

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital. The SEC's requirement also provides that equity capital may not be withdrawn or cash dividends paid if certain minimum net capital requirements are not met. The Company computes its net capital requirements under the basic method provided for in SEC Rule 15c3-1. As a broker-dealer in its first 12 months of operations, the Company was required to maintain net capital equal to the greater of 12.5% of aggregate indebtedness items, as defined, or \$5,000. SEC Rule 15c3-1 requires the Company to maintain net capital equal to the greater of 6-2/3% of aggregate indebtedness items, as defined, or \$100,000, starting with periods after July 6, 2023. At December 31, 2022, the Company had net capital of \$3,891,422, which was \$3,401,360 in excess of its required net capital of \$490,062. The ratio of aggregate indebtedness to net capital was 1.01 to 1.

### **(4) Related Party Transactions**

The Company is a party to a Master Intercompany Services & License Agreement (the Agreement) with the Parent. Pursuant to this Agreement, certain affiliates of the Parent provide shared services to the Company such as accounting and payroll. Costs for services provided and other expenses, such as technology costs, professional fees, and facility costs are allocated to the Company from the other affiliates in accordance with the Agreement. The payable to affiliate was \$3,915,371 as of December 31, 2022. The Company settles all activity with the other affiliates through the Parent annually or as needed.

### **(5) Commitments and Contingencies**

As a SEC registered broker-dealer and member of FINRA, the Company is subject to examinations and inspections by the SEC and FINRA. Additionally, from time to time the Company may be involved in various legal proceedings arising in the ordinary course of business. The Company does not believe that the outcome of any of these examinations, inspections, or other legal proceedings will have a material impact on the financial statement; however, litigation is subject to many uncertainties, and the outcome of individual litigated matters is not predictable with assurance.

After trading commences, the Company may be exposed to counterparty credit risk in the event that the Company's fully disclosed clearing broker, Mirae Asset Securities (USA) Inc. (Mirae), fails to perform any of its contractual obligations to the Company. Mirae will clear all U.S. government securities transactions executed on the Company's platform. Mirae, a SEC-registered broker-dealer and a member of DTCC's Fixed Income Clearing Corporation (FICC) Government Securities Division (GSD), will act as the Company's fully disclosed counterparty to both Participants (buyer and seller) on any matched orders on the system (resulting in two offsetting trades for Mirae). All Participants of the platform are required to be SEC-registered broker-dealers and members of FICC's GSD. The Company believes that such potential counterparty credit risk exposure is remote; however, such risk is possible.
