Amendment No. 2 to Registration Statement on Form F-1

Cover Page

1. We note your response to prior comment 2. Please disclose on the cover page that any sales of the shares being registered pursuant to this registration statement could have a significant negative impact on the public trading price of Anghami's ordinary shares. Additionally, highlight that even though the current trading price is significantly below the SPAC IPO price, certain of the selling securityholders acquired their shares at an even lower price and therefore have an incentive to sell.
