Please review your Respondent profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Our business could be adversely affected by the effects of health epidemics, including the recent COVID-19 outbreak, in regions where we, or third parties on which we rely have distribution centers, concentrations of suppliers and sales and marketing teams or other business operations. The COVID-19 pandemic could materially affect our operations, as well as the business or operations of our suppliers, contractors, customers and other third parties with whom we conduct business. The effects of the public health directives and orders, may negatively impact our productivity, disrupt our business and delay our timelines, the magnitude of which will depend, in part, on the length and severity of the restrictions and other limitations on our ability to conduct our business in the ordinary course.

We are vulnerable to changes in consumer preferences and economic conditions that could harm our business, financial condition, results of operations and cash flow. Adverse changes in consumer tastes, national, regional and local economic conditions, demographic trends, inflation or increased food or energy costs could reduce consumer traffic or impose practical limits on pricing that could harm our business, financial condition, results of operations and cash flow. There can be no assurance that consumers will continue to regard healthy-inspired fast food favorably or that we will be able to develop new menu items that appeal to consumer preferences. Our business, financial condition and results of operations depend in part on our ability to anticipate, identify and respond to changing consumer preferences and economic conditions.

The restaurant industry is currently under heightened legal and legislative scrutiny related to menu labeling and resulting from the perception that the practices of restaurant companies have contributed to nutritional, caloric intake, obesity or other health concerns of their guests. If we are unable to adapt to changes in consumer preferences and trends, we may lose customers and our revenues may decline.

We incur costs and expend other resources in our marketing efforts on new menu items, advertising campaigns and restaurant designs and remodels to raise brand awareness and attract and retain customers. These initiatives may not be successful, resulting in expenses incurred without the benefit of higher revenues. Additionally, some of our competitors have greater financial resources, which enable them to spend significantly more on marketing and advertising and other initiatives than we are able to. Should our competitors increase spending on marketing and advertising and other initiatives or our marketing funds decrease for any reason, or should our advertising, promotions, new menu items and restaurant designs and remodels be less effective than our competitors, there could be a material adverse effect on our results of operations and financial condition.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTIONS TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Disclosures should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

In 3-5 Years our goal is to create a restaurant franchise system and we want to open 100 locations across the country. This will allow us to create over 1000 living wage jobs with health care benefits and provide healthy food to communities ravaged by poor health and disease. These projections cannot be guaranteed.

Liquidity & Capital Resources

To-date, the company has been financed with \$1,059,012 in debt.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 12 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 12 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Vegan Mob, Inc cash in hand is \$2,400, as of July 2023. Over the last three months, revenues have averaged \$120,000/month, cost of goods sold has averaged \$20,000/month, and operational expenses have averaged \$25,000/month, for an average net margin of \$75,000 per month. Our intent is to be profitable in 12 months.

We've significantly have cut operational costs, including payroll and cost of goods. Additionally, we've cross trained employees in order to cut the labor cost, new systems accurate spending strategies and consistency of products.

We are currently revenue-generating and in the next 3-6 months we expect our revenue to be between \$750k-\$1M, from our store, catering, events and plant based meats. We expect our expenses to be \$700k-\$950k as we are still implementing processes to address our high operational costs.

We are currently not profitable right now due to high operational costs. We believe we will be breaking even in the coming months and be profitable in the next 2 years. We project the amount needed to become profitable is \$600,000.

We are actively generating revenue through our restaurant sales that assist with the short-term expenses. We are in discussion with the City of San Francisco to receive various grants totaling \$50,000, RSP financial group with extend a loan of \$750,000 to support growth, which can help us become profitable. We are also holding conversation with various venture capital firms and private investors.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 29: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, regulatory and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates relying on available cash. Describe the other available sources of capital to the business, such as lines of credit or expected contributions by shareholders. References to the issuer in the Question 29 and these instructions refer to the issuer and its predecessors, if any.

CEO

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to investors before investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and

therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to us in any format other than in a format, audio or other means not able to be selected in our or printable document format, the issuer should include:
(a) a description of the material content of such information;
(b) a description of the format in which such disclosure is presented; and
(c) in the case of disclosure in video, audio or other dynamic audio or format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<https://veganmob.biz/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
