RISK FACTORS

NOTICE: A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment. In making an investment decision, investors must rely on their own examination of the Issuer and the terms of the offering, including the merits and risks involved. This offering statement contains forward-looking statements regarding future events and the future financial performance of the Company that involve significant risks and uncertainties. Investors are cautioned that such statements are predictions and beliefs of the Company, and the Company's actual results may differ materially from those discussed herein. The discussion below includes some of the material risk factors that could cause future results to differ from those described or implied in the forward-looking statements and other information appearing elsewhere in this offering statement. The securities described herein have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document. The U.S. Securities and Exchange Commission (the "SEC") does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature. These securities are offered under an exemption from registration; however, the SEC has not made an independent determination that these securities are exempt from registration. Nothing herein constitutes an offer, or the solicitation of an offer, to sell securities.

8. Discuss the material factors that make an investment in the Issuer speculative or risky:

The Company is subject to risks that traditional companies are exposed to. The Company is still subject to all the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently more risky than more developed companies. You should consider general risks as well as specific risks when deciding whether to invest. Any one or more of the foregoing occurrences could have a material adverse effect on our business, financial condition and results of operations, or could cause our business to fail.

We depend on a small management team. We depend on the skill and experience of a few key employees. Each has a different skill set. If one or more members of our senior management were unable or unwilling to continue in their present positions, our business and operations could be disrupted and this could put the overall business at risk, and therefore investors could be at risk of losing their investments..

We are controlled by our sole officer and director. Our sole officer and director currently holds all of our voting stock, and at the conclusion of this offering will continue to hold all of the Company's voting stock. Investors in this offering will not have the ability to control a vote by the stockholders or the board of directors.

The Company may need to raise additional funds in the future. We might not sell enough securities in this offering to meet our operating needs and fulfill our plans, in which case we will cease operating and you will lose your investment. Even if we raise everything at or above our targeted funds, it is likely that we will need to raise additional funds in the future. The ability to raise funds will always be a risk until we achieve sustainable profitability, which we currently cannot predict. Even if we do successfully raise more funds after this offering, the terms of that offering could result in a reduction in the value of your investment in the Company, as later-stage investors may get more favorable terms.

It is difficult for us to accurately predict our earnings potential. Because of our short operating history, it is more difficult to accurately assess growth rate and earnings potential. It is possible that our Company will face many difficulties typical for early-stage companies.

We could become subject to regulation. Our business model involves providing subscribers with online educational and entertainment content. In the future, we may become subject to targeted regulation that may negatively affect our business model.

Projections are speculative and are based upon a number of assumptions. Any projected financial results prepared by or on behalf of the Company have not been independently reviewed, analyzed, or otherwise passed upon. Such “forward-looking” statements are based on various assumptions, which assumptions may prove to be incorrect. Such assumptions include, but are not limited to (i) the future status of local, regional and international economies, (ii) anticipated demand for our products and/or services, (iii) anticipated costs associated with the development, marketing, sales and distribution of our products and/or services, and (iv) anticipated procurement and retention of a customer base. Accordingly, there can be no assurance that such projections, assumptions, and statements will accurately predict future events or actual performance. Any projections of cash flow should be considered speculative and are qualified in their entirety by the assumptions, information and risks disclosed in this offering statement. Investors are advised to consult with their own independent tax and business advisors concerning the validity and reasonableness of the factual, accounting and tax assumptions. No representations or warranties whatsoever are made by the Company, its affiliates or any other person or entity as to the future profitability of the Company or the results of making an investment in the securities. If our future projections end up being significantly different than currently projected, our business could be greatly impacted. Our business therefore may not be able to sustain itself without the projected future revenues. The business could be at risk of closing, and investors may therefore be at risk of losing their investments.

We may not effectively manage growth. The anticipated growth of the Company’s business will result in a corresponding growth in the demands on the Company’s management and its operating infrastructure and internal controls. While we are planning for managed growth, any future growth may strain resources and operational, financial, human and management information systems, which may not be adequate to support the Company’s operations and will require the Company to develop further management systems and procedures. There can be no guarantee that the Company will be able to develop such systems or procedures effectively on a timely basis. The failure to do so could have a material adverse effect upon the Company’s business, operating results and financial condition. Investors could therefore be at risk of losing their investments if growth is not managed effectively.

We expect our expenses to grow as the Company grows. Our expenses will increase as we build infrastructure to implement our business plan. For example, we may hire additional employees, expand our product and/or service offerings, and lease more space for our corporate offices. This poses a risk to the financial forecasts and current financial model of the Company.

The Company may require additional financing to support working capital needs. The Company may need to explore additional financing transactions that management determines are in the best interest of the Company, including, without limitation, commercial debt transactions, private offerings of debt or equity securities, a rights

offering, and other strategic alternatives. Such additional financing may not be available to the Company, or, if available, the Company may be unable to undertake such additional financing on terms that are advantageous to the Company. If the Company fails to raise additional capital in such an offering, or through other fund raising efforts, such a failure could have a material adverse effect on the Company, and investors in this offering could be at greater risk of losing their investments due to the inability of the business to proceed with enough working capital to effectively run the Company.

If the Company incurs commercial debt, there may be risks associated with such borrowing. If the Company incurs commercial indebtedness, a portion of its cash flow will have to be dedicated to the payment of principal and interest on such indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of shareholders of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

Management has broad discretion as to the use of proceeds. The net proceeds from this offering will be used for the purposes described under "USE OF PROCEEDS." The Company reserves the right to use the funds obtained from this offering and the Debt Offering for other similar purposes not presently contemplated, which it deems to be in the best interests of the Company in order to address changed circumstances or opportunities. This poses a risk to an investor should they be relying on current use of proceed forecasts for the investment as business conditions may require a change of the use of these funds.

There may be unanticipated obstacles to the execution of the Company's business plan. The Company's business plans may change significantly. Our business plan is capital intensive. We believe that our chosen activities and strategies are achievable in light of current economic and legal conditions with the skills, background, and knowledge of our principals and advisors. Our management reserves the right to make significant modifications to its stated strategies depending on future events. Investors must be prepared for these potential modifications to stated strategies and understand the inherent risk to their investment that these modifications could pose.

The offering price is arbitrary. The price of the securities offered has been arbitrarily established by the Company, without considering such matters as the state of the Company's business development and the general condition of the industry in which it operates. The price of the securities bears little relationship to the assets, net worth, or any other objective criteria of value applicable to the Company.

Additional unforeseen risks. In addition to the risks described in this section, "RISK FACTORS," and elsewhere in this offering statement, other risks not presently foreseeable could negatively impact our business, could disrupt our operations and could cause the Company to fail. Ultimately, each investor bears the risk of a complete and total loss of his/her/its investment.

The securities are "restricted securities." There are restrictions on how you can resell your securities for the next year. More importantly, there is no market for these securities, and there might never be one. It's unlikely that the

Public health epidemics or outbreaks could adversely impact our business. In December 2019, a novel strain of coronavirus (COVID-19) emerged in Wuhan, Hubei Province, China. While initially the outbreak was largely concentrated in China and caused significant disruptions to its economy, it has now spread to several other countries and infections have been reported globally. The extent to which the coronavirus impacts our operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information which may emerge concerning the severity of the coronavirus and the actions to contain the coronavirus or treat its impact, among others. In particular, the continued spread of the coronavirus globally could adversely impact our operations, and could have an adverse impact on our business and our financial results.

If we make mistakes or have unforeseen things happen to us, our suppliers or the world, we can make little or no profit and can be driven out of business.

THE BOTTOM LINE:

Investment in the securities of smaller companies can involve greater risk than is generally associated with investment in larger, more established companies. All investments can result in significant or total loss of your loan and/or investment. If we do well, the stock should do well also, yet life offers no guarantees and neither can we. If we make mistakes or have unforeseen things happen to us, our suppliers or the world, we can make little or no profit and can be driven out of business. We cannot guarantee success, return on investment, or repayment of loans.

Please only invest what you can afford to lose.

- (1) to the Issuer;
- (2) to an accredited investor;

18. How may the rights of the securities being offered be materially limited, diluted, or qualified by the rights of any other class of security identified above?
- None
19. Are there any differences not reflected above between the securities being offered and each other class of security of the Issuer? ☐ Yes ☒ No
20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?
- None
21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the Issuer in the future, including during subsequent corporate actions.
- The company has received valuation reports for much higher figures, and has elected to go with a more conservative valuation of \$30,000,000 pre-money.
22. What are the risks to purchasers of the securities relating to minority ownership in the Issuer?

The right to demand current distributions from an operating business is limited. A majority owner, if she is committed to avoiding any distributions to a minority owner, can usually avoid making any distributions of profits. By establishing generous reserves for future expenses, paying a salary to herself or her relatives at the high range of what is reasonable, pre-paying expenses, investing in new business or new equipment, leasing expensive cars, etc., a majority owner can spend enough that there are rarely any profits to be distributed. So long as the expenses are not grossly unreasonable, the investor, probably, won't be able to force the company to allow you to share in any of the current income of the company.

No right to participate in any management decisions of the company. The majority owner may make a decision that the investor thinks is bad and puts your interest in the company at risk. The investor may see the majority owner running the company into the ground. The investor can try to convince him that it is the wrong decision, but he doesn't have to take your calls.

The investor has limited rights, if any, to have your interest bought out. You may want to cash out your interest and do other things with the money. State law may give you the right to force the company to buy you out, but these rights are limited.

While the investor would be entitled to a share of any profits on sale of the entire business, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

23. What are the risks to purchasers associated with corporate actions including:

- **Additional issuances of securities:**

Following the investor's investment in the Company, the Company may sell interest to additional investors, which will dilute the percentage interest of the investor in the Company. The Investor might have the opportunity to increase its investment in the Company in such transaction, but such opportunity cannot be assured. The amount of additional capital needed by the Company, if any, will depend upon the maturity and the objectives of the Company.

- **Issuer repurchases of securities:**

The Company may have the authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the investor to sell its securities to the Company concurrently.

- **A sale of the Issuer or of assets of the Issuer:**

As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders.

- **Transactions with related parties:**

The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and the Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring and interest in the company, the investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

INDEPENDENT ACCOUNTANT'S AUDIT REPORT

To the Board of Directors
4Biddenknowledg, Inc.
Pompano Beach, Florida

Opinion

We have audited the financial statements of 4Biddenknowledge, Inc., which comprise the balance sheets as of December 31, 2021, and 2020, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of 4Biddenknowledge, Inc. as of December 31, 2021, and 2020, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of 4Biddenknowledge, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about 4Biddenknowledge, Inc.'s ability to continue as a going concern for period of twelve months from the end of the year ended December 31, 2021.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of 4Biddenknowledge Inc.'s internal control. Accordingly, no such opinion is expressed.

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("US GAAP"). The Company has adopted the calendar year as its basis of reporting.

In the opinion of management, the accompanying financial statements include all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations, and cash flows for the years ended December 31, 2021, and 2020. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses.

Management further acknowledges that it is solely responsible for adopting sound accounting practices, establishing, and maintaining a system of internal accounting control and preventing and detecting fraud. The Company's system of internal accounting control is designed to assure, among other items, that 1) recorded transactions are valid; 2) valid transactions are recorded; and 3) transactions are recorded in the proper period in a timely manner to produce financial statements which present fairly the financial condition, results of operations and cash flows of the Company for the respective periods being presented.

Use of Estimates

The preparation of financial statements in conformity with United States GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash in banks. The Company's cash is deposited in demand accounts at financial institutions that management believes are creditworthy. The Company's cash and cash equivalents in bank deposit accounts, at times, may exceed federally insured limits. As of December 31, 2021, and December 31, 2020, the Company's cash and cash equivalents did not exceed FDIC insured limits.

NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

Accounts Receivable and Allowance for Doubtful Accounts

The Company typically collects payment before the product is delivered. This applies to both shipped goods and internet content.

Accounts receivable are recorded at net realizable value or the amount that the Company expects to collect on gross customer trade receivables. We estimate losses on receivables based on known troubled accounts and historical experience of losses incurred. Receivables are considered impaired and written-off when it is probable that all contractual payments due will not be collected in accordance with the terms of the agreement. As of December 31, 2021, and 2020, the Company determined that no reserve was necessary.

Inventories

Inventories are valued at the lower of cost and net realizable value. Costs related to books and other products are determined using an average method.

Income Taxes

4Biddenknowledgge Inc. is a C corporation for income tax purposes. The Company accounts for income taxes under the liability method, and deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying values of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the deferred tax asset will not be realized. The Company records interest, net of any applicable related income tax benefit, on potential income tax contingencies as a component of income tax expense. The Company records tax positions taken or expected to be taken in a tax return based upon the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related appeals or other legal processes. Accordingly, the Company recognizes liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority. The Company recognizes interest and/or penalties related to unrecognized tax benefits as a component of income tax expense.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

Revenue Recognition

ASC Topic 606, "Revenue from Contracts with Customers" establishes principles for reporting information about the nature, amount, timing, and uncertainty of revenue and cash flows arising from the entity's contracts to provide goods or services to customers.

Revenues are recognized when control of the promised goods or services are transferred to a customer, in an amount that reflects the consideration that the Company expects to receive in exchange for those goods or services. The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its agreements:

- 1) Identify the contract with a customer
- 2) Identify the performance obligations in the contract
- 3) Determine the transaction price
- 4) Allocate the transaction price to performance obligations in the contract; and
- 5) Recognize revenue as the performance obligation is satisfied.

The Company earns revenue from the sale of its content to around 50,000 active subscribers, as well as book and product sales.

Cost of revenues

Costs of revenues include the costs associated with production and distribution of events, online streaming/TV content, as well as the costs associated books and other product sales and delivery.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments included in current assets and current liabilities (such as cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate fair value due to the short-term nature of such instruments).

The inputs used to measure fair value are based on a hierarchy that prioritizes observable and unobservable inputs used in valuation techniques. These levels, in order of highest to lowest priority, are described below:

Level 1—Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2—Observable prices that are based on inputs not quoted on active markets but corroborated by market data.

Level 3—Unobservable inputs reflecting the Company's assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

Subsequent Events

The Company considers events or transactions that occur after the balance sheet date, but prior to the issuance of the financial statements to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through August 15, 2022, which is the date the financial statements were issued.

Recently Issued and Adopted Accounting Pronouncements

In February 2019, FASB issued ASU No. 2019-02, leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than twelve months. ASU 2019-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. The standard implementation did not have a material impact.

In June 2019, FASB amended ASU No. 2019-07, Compensation – Stock Compensation, to expand the scope of Topic 718, Compensation – Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. The standard implementation did not have a material impact.

In August 2019, amendments to existing accounting guidance were issued through Accounting Standards Update 2019-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. The standard implementation did not have a material impact.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

3. RESTATEMENT

The company has restated its previously reported financial statements as of and for the year ended December 31, 2020, and related disclosures. The restatement of the company's financial statements is subsequent to an independent audit of the years 2020, and 2019 and a review of the year 2018 financial statements. During the audit of the fiscal years 2021 and 2020 financial statements, discrepancies were identified in the financials provided by the company when compared to the audited financial statements as of and for the year ended December 31, 2020, and 2019, and the reviewed financial statements as of December 31, 2018. It was noted that the company's management restated the prior years' financial statements because fixed assets, notes, and loans payable, and accrued taxes were identified as not reported in the respective financial statements. The effects of the restatement, including the correction of all errors identified by Company's management are reflected in the Company's financial statements and accompanying notes included herein.

The following table summarizes the cumulative impact and changes made to the financial statements as of and for the year ended December 31, 2020:

NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

6. CAPITALIZATION AND EQUITY TRANSACTIONS

Common Stock

The Company is authorized to issue 19,970,000 shares of Common Shares class A and 980,030,000 of Class B with a par value of \$0.0001. As of December 31, 2021, and 2020, 19,970,000 shares of Class A were issued and outstanding. As of December 31, 2021, and 2020, 963,288 shares and 30,000 shares of Class B were issued and are outstanding, respectively. Class A shares have voting rights, Class B shares do not.

7. INCOME TAXES

The provision for income taxes for the year ended December 31, 2021, and December 31, 2020, consists of the following:

As of Year Ended December 31,	2021	2020
Current income tax expense/(benefit)	\$ (42,550)	\$ 312,330
Deferred tax, net of valuation allowance	42,550	-
Net Provision for income tax	\$ -	\$ 312,330

Significant components of the Company's deferred tax assets and liabilities at December 31, 2021, and December 31, 2020 are as follows:

As of Year Ended December 31,	2021	2020
Accrued tax liability	\$ 387,279	\$ 387,279
Deferred Tax asset	(42,550)	-
Valuation Allowance	42,550	-
Total Deferred Tax Liability	\$ 387,279	\$ 387,279

Management assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to use the existing deferred tax assets. On the basis of this evaluation, the Company has determined that it is more likely than not that the Company will not recognize the benefits of the federal and state net deferred tax assets, and, as a result, full valuation allowance has been set against its net deferred tax assets as of December 31, 2021, and December 31, 2020. The amount of the deferred tax asset to be realized could be adjusted if estimates of future taxable income during the carryforward period are reduced or increased.

The Company recognizes the impact of a tax position in the financial statements if that position is more likely than not to be sustained on a tax return upon examination by the relevant taxing authority, based on the technical merits of the position. As of December 31, 2021, and December 31, 2020, the Company had no unrecognized tax benefits.

The Company recognizes interest and penalties related to income tax matters in income tax expense. As of December 31, 2021, and December 31, 2020, the Company had no accrued interest and penalties related to uncertain tax positions.

8. COMMITMENTS AND CONTINGENCIES

Operating Leases

The Company entered into various operating leases for facilities on a month-to-month basis for coworking space. Rent expenses were in the amount of \$82,611 and \$300,160 for the years ended December 31, 2021, and December 31, 2020, respectively.

The Company accounts for leases under ASC 842 – Leases and has entered into several equipment leasing arrangements that qualify as finance leases under ASC 842. The Company accounts for these leases by initially recording, as a Right-of-Use asset and lease obligation, the present value of the future outflows at the Company's incremental borrowing rate. Subsequently, lease expense is recognized over the length of the lease using the straight-line method and interest and principal reduction are recorded over the life of the lease using the Effective Interest Method.

Contingencies

The Company's operations are subject to a variety of local and state regulation. Failure to comply with one or more of those regulations could result in fines, restrictions on its operations, or losses of permits that could result in the Company ceasing operations.

Litigation and Claims

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. As of December 31, 2021, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company's operations.

9. SUBSEQUENT EVENTS

The Company has evaluated subsequent events for the period from December 31, 2021, through August 15, 2022, which is the date the financial statements were available to be issued.

The Company issued an additional 771,464 shares of Class B Common Stock for cash.

The Company sold equipment for \$88,000 in cash.

The Company acquired an additional vehicle on a finance lease which requires us to pay \$6,860 per month for sixty months.

There have been no other events or transactions during this time which would have a material effect on these financial statements.

10. GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has a net operating loss of \$157,594, and liquid assets in cash of \$466,556 as of December 31, 2021. These factors normally raise doubt about the Company's ability to continue as a going concern.

NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results.

Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. During the next twelve months, the Company intends to fund its operations through debt and/or equity financing.

There are no assurances that management will be able to raise capital on terms acceptable to the Company. If it is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of its planned development, which could harm its business, financial condition, and operating results. The accompanying financial statements do not include any adjustments that might result from these uncertainties.

in connection with any invitation to subscribe for the Securities or any use of this Subscription Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Securities, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of the Securities. Subscriber's subscription and payment for and continued beneficial ownership of the Securities will not violate any applicable securities or other laws of the Subscriber's jurisdiction.

5. Proxy.

(a) The Subscriber hereby appoints the Chief Executive Officer of the Company (the "CEO"), or his or her successor, as the Subscriber's true and lawful proxy and attorney, with the power to act alone and with full power of substitution, to, consistent with this instrument and on behalf of the Subscriber, (i) vote all Securities, (ii) give and receive notices and communications, (iii) execute any instrument or document that the CEO determines is necessary or appropriate in the exercise of its authority under this instrument, and (iv) take all actions necessary or appropriate in the judgment of the CEO for the accomplishment of the foregoing. The proxy and power granted by the Subscriber pursuant to this Section are coupled with an interest. Such proxy and power will be irrevocable. The proxy and power, so long as the Subscriber is an individual, will survive the death, incompetency and disability of the Subscriber and, so long as the Subscriber is an entity, will survive the merger or reorganization of the Subscriber or any other entity holding the Securities. However, the Proxy will terminate upon the closing of a firm-commitment underwritten public offering pursuant to an effective registration statement under the Securities Act of 1933 covering the offer and sale of Common Stock or the effectiveness of a registration statement under the Securities Exchange Act of 1934 covering the Common Stock. The CEO is an intended third-party beneficiary of this Section and has the right, power and authority to enforce the provisions hereof as though he or she was a party hereto.

(b) Other than with respect to the gross negligence or willful misconduct of the CEO, in his or her capacity as the Subscriber's true and lawful proxy and attorney pursuant to this Section (collectively, the "Proxy"), the Proxy will not be liable for any act done or omitted in his, her or its capacity as representative of the Subscriber pursuant to this instrument while acting in good faith, and any act done or omitted pursuant to the written advice of outside counsel will be conclusive evidence of such good faith. The Proxy has no duties or responsibilities except those expressly set forth in this instrument, and no implied covenants, functions, responsibilities, duties, obligations or liabilities on behalf of the Subscriber otherwise exist against the Proxy. The Subscriber shall indemnify, defend and hold harmless the Proxy from and against any and all losses, liabilities, damages, claims, penalties, fines, forfeitures, actions, fees, costs and

expenses (including the fees and expenses of counsel and experts and their staffs and all expense of document location, duplication and shipment) (collectively, "Proxy Losses") arising out of or in connection with any act done or omitted in the Proxy's capacity as representative of the Subscriber pursuant to this instrument, in each case as such Proxy Losses are suffered or incurred; provided, that in the event that any such Proxy Losses are finally adjudicated to have been directly caused by the gross negligence or willful misconduct of the Proxy, the Company shall reimburse the Subscriber the amount of such indemnified Proxy Losses to the extent attributable to such gross negligence or willful misconduct (provided that the Proxy's aggregate liability hereunder shall in no event exceed the Purchase Price). In no event will the Proxy be required to advance his, her or its own funds on behalf of the Subscriber or otherwise. The Subscriber acknowledges and agrees that the foregoing indemnities will survive the resignation or removal of the Proxy or the termination of this instrument.

(c) A decision, act, consent or instruction of the Proxy constitutes a decision of the Subscriber and is final, binding and conclusive upon the Subscriber. The Company, shareholders of the Company and any other third party may rely upon any decision, act, consent or instruction of the Proxy as being the decision, act, consent or instruction of the Subscriber. The Company, shareholders of the Company and any other third party are hereby relieved from any liability to any person for any acts done by them in accordance with such decision, act, consent or instruction of the Proxy.

(d) The Subscriber hereby agrees to take any and all actions determined by the Company's board of directors in good faith to be advisable to reorganize this instrument and any Securities held by the Subscriber into a special-purpose vehicle or other entity designed to aggregate the interests of holders of Securities issued in this Offering.

6. Revisions to Manner of Holding.

In the event that statutory or regulatory changes are adopted such that it becomes possible for companies whose purpose is limited to acquiring, holding and disposing of securities issued by a single company ("Crowdfunding SPVs") to make offerings under Section 4(a)(6) of the Securities Act, Subscriber agrees to exchange the Securities for securities issued by a Crowdfunding SPV in a transaction complying with the requirements of Section 3(a)(9) of the Securities Act. Subscriber agrees that in the event the Subscriber does not provide information sufficient to effect such exchange in a timely manner, the Company may repurchase the Securities at a price to be determined by the Board of Directors. Subscriber further agrees to transfer its holdings of securities issued under Section 4(a)(6) into "street name" in a brokerage account in Subscriber's name, provided that the Company pay all costs of such transfer. Subscriber agrees that in the event the Subscriber does not provide information sufficient to effect such transfer in a timely
