Anton Devenish

Head of Product Development at Capsll, INC
Badung

Summary

A successful background in Digital Media, Design, Marketing, Development, Advertising and Automation, has enabled me to easily transition into the role of co-founder & head of product in a startup that we truly believe is going to positively affect the lives of hundreds of millions of people, for generations to come.

Where do you save your memories, to share, or leave as your legacy? At best they're likely scattered across social media, if recorded at all. The Capsll app gives you digital time capsules to tell your life stories, save your history, and pass on your legacy.
