**What if,
instead of reading this paragraph,
you could be watching your grandparents,
telling you their life stories, lessons, recipes...
in first person?**

**What if,
you could effectively leave your life stories
and insights to your kids, grandkids,
and generations to come?**

Problem

Platform & Proficiency

People cannot simply save their history in an easy to access, **media collective**.

People don't know **how** to tell their stories.

Passing personal history on is **disorganized** and difficult.

1

2

3

Solution

Integration & Inspiration

An **inclusive media space** to collate audio, video, pictures and documents in a single collective.

Coached storytelling to help people effectively recount memories.

Permission based functionality allowing selective access to content.

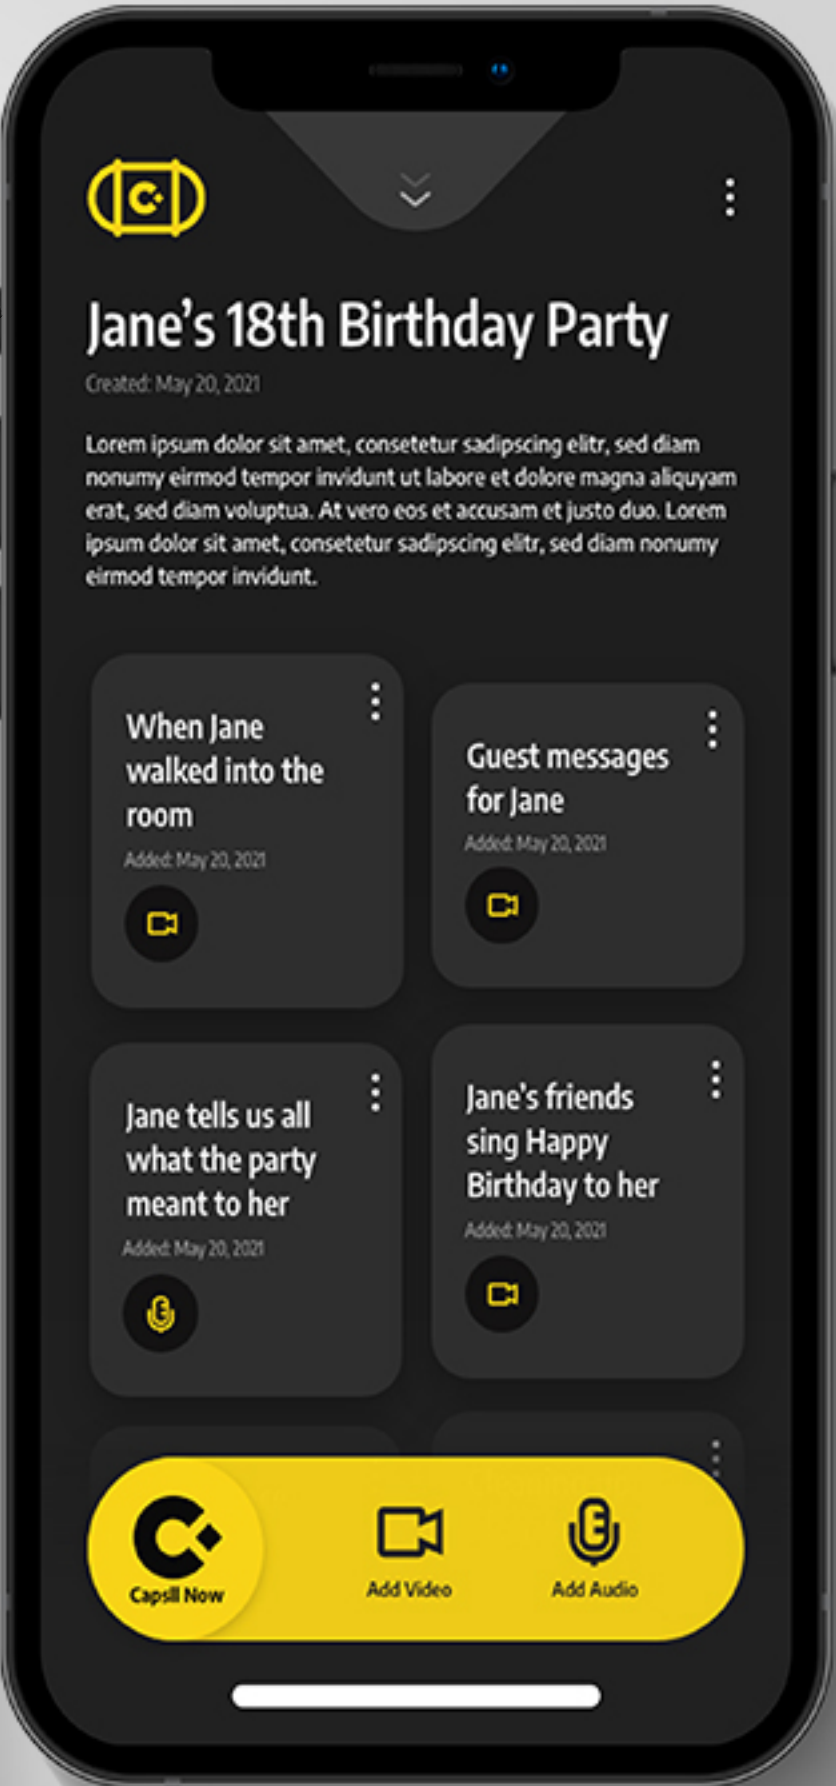

Product

“You should Capsll that!”

Pass your stories on to future generations with Legacy

Be inspired by others on the optional public feed

Learn to tell your stories effectively

Why Now?

Mass Adopters

Covid-19 brought a renewed openness to online engagement with masses adopting deeper remote digital presence.

The pandemic encouraged new thought around life and legacy.

Market Opportunity

Mistrust in "big-tech" has resulted in skepticism toward social media, resulting in fewer people posting fewer of the memories they once trusted to these platforms.
