Summary

Hi there,

Here's a little about me. Born in South Africa, moved to Dubai in 2008, lived there for 6 years... then Gold Coast Australia for 2 years... on to Los Angeles for 2 years after winning the green card lottery to make the United States our home. Left L.A for Austin Texas in 2017, best move ever!

On each of those continents I was a commercial radio host, a radio producer, a high performance driving instructor, and a theologian... then a podcast director, now founder CEO of a startup that we truly believe is going to positively affect the lives of hundreds of millions of people, for generations.

So...

Where do you save your memories, to share, or leave as your legacy? At best they're likely scattered across social media, if recorded at all. The Capsll app gives you digital time capsules to tell your life stories, save your history, and pass on your legacy.

Join us!
