RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Minnesota Soccer Holdings, GBC ("MSH" or the "Company") is organized as a public benefit corporation under Minnesota Statutes Chapter 304A. As such, it exists to pursue a general public benefit with a particular focus on support women's soccer in Minnesota and, as such, will prioritize allocation of its resources towards that public benefit instead of towards returning profit to its shareholders.

MSH has been organized to own and operate a women's soccer franchise (the "Franchise") to compete in the W-League, a newly reorganized pre-professional women's soccer league overseen by the United Soccer League (USL). There is a risk that the W-League may not be successful and MSH and the Franchise may be unable to continue operating.

The professional, pre-professional, and amateur athletics market in Minnesota is incredibly competitive, and the Franchise will compete for attendance, viewership and advertising revenue with a wide range of other entertainment and recreational activities available to potential consumers. There can be no assurance that MSH or the Franchise will be able to compete effectively, including with companies that may have greater resources than it. There is a risk that MSH and the Franchise will struggle financially and never return a profit for their investors.

The ongoing COVID-19 pandemic poses significant risks to competitive athletics, including the risk of actions that may be taken by government authorities to contain the outbreak, including the imposition of limitations on fan attendance and potential shutdowns and the lost revenues associated therewith. The impact on the Franchise's fans, sponsors and suppliers, other impacts to the business, and our ability to sufficiently manage and mitigate the strategic and operational impact of such events cannot be predicted and could have a negative impact on MSH and the Franchise.

MSH may need to raise additional capital in the future. Subsequent offerings may not be on the same or similar terms as this offering even if they are, said offerings will dilute the ownership percentage and voting power of investors in the current offering. Future offerings may provide the new investors with advantages not available to you as a previous investor.

The Class B share price and valuation were arbitrarily determined by the Board and management of MSH, considering the state of the Company's business development and the general condition of the industry in the MSH and the Franchise will operate. The offering price doesn't have any direct relationship to the actual value of the assets, net worth, or other objective value criteria of MSH or the Franchise.

If we do not sell at least \$50,000 (the "Target Offering Amount") of Class B common shares by October 2021 (or by such later date as we may extend the term of this offering) ("Offering Deadline"), we will not be able to close on this offering and will return your money with no interest. If the sum of the investment commitments does not equal or exceed the Target Offering Amount at the Offering Deadline, no securities will be sold in this offering, investment commitments will be cancelled and committed funds will be returned. You will not have any use of, and will not earn any interest on, your money in the interim.

Shares in MSH will not be registered under any federal or state securities laws and may not be resold without such registration except in reliance on an exemption from applicable state and federal registration requirements, which exemption prohibits any transfer of your Class B Shares for a period of one year, subject to limited exceptions. There is no, and there is not expected to be, any market for the sale of the MSH shares. As a result, you not be able to liquidate your investment in the Class B shares and therefore, should be prepared to assume the risks of an investment in MSH for an indefinite period of time.

While the MSH Board and Managers will engage investors on a broad variety of club matters, including naming, branding, etc., the Class B investors have limited voting rights and will need to rely on Managers for all decisions relating to the day to day operation of MSH and the Franchise. In addition, investment in MSH is structured to be made through a special purpose entity that is managed by a "Lead Investor." Although the Lead Investor is required by law to vote the Class B shares in accordance with the directions of the investors, investors will not be able to directly vote their shares in MSH. Accordingly, you should not invest in this offering unless you are willing to entrust your voting rights to the Lead Investor.

MSH was organized in March 2021 but operation of the Franchise has not yet commenced. Accordingly, neither MSH or the Franchise has any operating history and we cannot guarantee that we will be able to operate the Franchise profitably. The individuals who will be managing MSH are experienced in business and sports investment and management generally, but the Managers do not have direct experience in managing a project similar to the MSH project

The Franchise has not yet engaged or entered into binding contracts with any coaching staff, players or other personnel. As a result, Investors will not be able to substantively evaluate the likelihood of the Franchise's success and will need to rely on the Company's management to identify coaching and player talent and to negotiate contracts with such coach and player personnel on terms favorable to the Company.

Andrea Yoch and Susan Earle are part-time officers. As such, it is likely that the company will not make the same progress as it would if that were not the case.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of
Proceeds: 7.5% wefunder
24% team registration costs
50% coaching staff
10.5% uniforms/team gear
8% working capitol

We'll use the funds for start up and first year costs (including the costs and expenses of this offering) as we gear up for the 2022 season. We'll also use funds to cash flow operational needs before we have ticket sales and other revenues coming in. These could include staff salaries, marketing costs, play costs, game day costs, and other administrative items. Investment from community will also ensure we are on strong financial footing, not just now, but into the future.

If we raise: **\$1,000,000**

Use of
Proceeds: 7.5% wefunder
2.5% startup costs
38% coaching staffing costs for 3 years
14% working capitol for 2 years
21% game costs for 3 years
5% player needs for 3 years (housing, uniforms/gear)
5% marketing for 3 years
7% reserve

If our fundraising hits our maximum goal, we'll have more freedom to invest in one time items as we build to our first season. We'll also be able to reserve more funds for the future to ensure that the club is financially viable for multintle years. buffering against unanticipated expenses or

more than twelve years, during which the company expects to have revenues that fall short of projections.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Securities Issued by a Crowdfunding Special Purpose Vehicle (the "SPV")

Priced Round: \$2,125,000.00 pre-money valuation

See exact security attached as [Appendix B, Investor Contracts](#)

Minnesota Soccer Holdings GBC is offering up to 38,000 shares of Class B Common shares, at a price per share of \$25.00.

The campaign maximum \$1,000,000.00 is and the campaign minimum is \$50,000.00.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue the Class B Common Shares offered hereby to the SPV, which will then issue interests in the SPV ("SPV Interests") to investors in this offering. The SPV has been formed by Wefunder Admin, LLC and is a co-issuer with the Company of the Class B Common Shares being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company rather than indirectly through the SPV. The Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

The Class B Common Shares offered by the Company and SPV Interests offered by the SPV have voting rights, which voting rights will be exercised by the investor through his or her proxy. The applicable proxy is the Lead Investor, so long the Proxy (described below) is in effect. The SPV, as the holder of the Class B Common Shares, will exercise all voting rights with respect to the Class B Common Shares.

Proxy to the Lead Investor

The SPV Interests have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote such Investor's SPV Interests, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV Interests are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV. The Class B Common Shares and the SPV Interests are also subject to the Restrictions on Transfer described in Item 16 of this Offering Statement.

14. Do the securities offered have voting rights?

☒ Yes
☐ No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Prior to the closing of the issuance of any of the Class B Shares in this Offering, the terms of the Class B Shares may be modified by the Company's Board of Directors and shareholders holding a majority of the Company's then-outstanding common shares, in which case each investor in this Offering would receive a notice of such modification and would have the opportunity to cancel its investment commitment and receive a return of any previously paid subscription price.

Following the closing of the issuance of Class B Shares in this Offering, the terms of the Class B Shares may be modified by the Company's Board of Directors and shareholders holding a majority of the Company's outstanding common shares, including investors holding Class B Shares. The Board of Directors is also authorized to create additional classes of stock which may have rights and preferences that are senior to the Class B Shares, which could indirectly affect the rights of the Class B Shares.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Class B Common	3,000,000	0	Yes ▾
Class A Common	7,000,000	85,000	Yes ▾

Securities Reserved for Class of Security Issuance upon Exercise or Conversion

Warrants: _____

Options: _____

Describe any other rights:

Each Class A shareholder has the right to vote on any action required or permitted to be taken by the shareholders. Class B shareholders right to vote is limited to the following actions required or permitted to be taken by the shareholders: 1) the termination of the Company's status as a public benefit corporation, 1) any merger, exchange, conversion, or transfer that would he effect of terminating the status of the Company as a public benefit corporation, 3) Any amendment to the Articles of Incorporation to add, amend, or delete a specific public benefit purpose, 4) the election of up to two (2) directors as established in the Articles of Incorporation, 5) any amendments to portions of the Articles of Incorporation involving voting rights or the election of directors, and 6) certain amendments to the Bylaws of the Company as further described in the Bylaws. Additionally, the Board of Directors has the authority to establish additional classes or series of share and fix the relative rights and preferences of any such different class or series.

Pursuant to its Articles of Incorporation, the Company has provided the Board with the right to authorize one or more classes or series of shares of capital stock and to state the rights and preferences of each such class or series, which could be different than and senior to the rights of the holders of Class A or Class B Common shares.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a

public offering), which changes could have the practical effect of limiting or modifying an Investor's rights in a material way. In addition, although the Class B Common Shares have voting rights with respect to certain Company actions, Class A Common Shares have additional voting rights that could result in modifications to the Company's governance and operations with no approval of the Class B Shares required. For example, although the Class B Shares have the right to appoint two directors to the Company's Board of Directors, the Class A Shares have the right to increase the size of the Board, thereby diluting the power of the directors appointed by the Class B Shares.

These and other potential changes could result in further limitations on the voting power the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

If, in the future, the Company issues convertible debt, or enters into SAFES, or if options and warrants are granted under an equity compensation plan or otherwise, an Investor's interests in the Company would be diluted upon exercise or conversion of any such instruments. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

None.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

The holders of a majority-in-interest of voting rights in the Company (**the "majority shareholders"**) may vote their shares in ways with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other shareholders, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the majority shareholders** may change the terms of the Articles of Incorporation for the Company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The majority shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. **The principal shareholders have the right to redeem their securities at any time. Principal shareholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.** In the event that the Company issues or enters into convertible debt, SAFES, or other outstanding options or warrants, and the rights of the holders or such instruments are exercised, or if new awards are granted under any equity compensation plans that may be adopted by the Company, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if the majority shareholders vote to cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, if we perform valuations of our common stock that take into account factors such as the following:

1. unrelated third party valuations of our common stock;
2. the price at which we sell other securities, such as convertible debt or preferred Stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
3. our results of operations, financial position and capital resources;
4. current business conditions and projections;
5. the lack of marketability of our common stock;
6. the hiring of key personnel and the experience of our management;
7. the introduction of new products;
8. the risk inherent in the development and expansion of our products;
9. our stage of development and material risks related to our business;
10. the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
11. industry trends and competitive environment;
12. trends in consumer spending, including consumer confidence;
13. overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
14. the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but the Company's Articles of Incorporation do not provide for such pre-emptive rights and no such opportunity can be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on

terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

We plan to launch a Minnesota women's soccer team in the brand-new USL-W League. We plan to play our first matches in 2022.

In 5 years, we want to be a professional women's soccer team. Our goal is to launch this pre-professional team and take it to the highest levels of women's soccer. These projections cannot be guaranteed.

Milestones

Minnesota Soccer Holdings GBC was incorporated in the State of Minnesota in March 2021.

Since then, we have:

- This is a rare opportunity to become a legitimate owner of a soccer club in the US.
- Long-term growth of women's soccer
- 2 members of the board of directors will be elected by the community investors.
- Community investors will have a say in the branding of the new club.

Historical Results of Operations

Our company was organized in March 2021 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended July 31, 2021, the Company had revenues of \$0.
- *Assets.* As of July 31, 2021, the Company had total assets of \$18,015, including \$18,015 in cash.
- *Net Loss.* The Company has had net loss of \$5,895 for 2021.
- *Liabilities.* The Company's liabilities totaled \$8,910 for 2021.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$40,000 in equity, \$3,000 in debt.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Minnesota Soccer Holdings GBC cash in hand is \$18,015.25, as of July 2021. Over the last three months, revenues have averaged \$1,970/month, cost of goods sold has averaged \$71.03/month, and operational expenses have averaged \$1,893.89/month, for an average net margin of \$5.08 per month. Our intent is to be profitable in 35 months.

Since the date our financials cover, we continue to make purchases for the organization, primarily related to merchandise sales and our booth for the State Fair. We have also secured and deposited all founding investments, bringing our total initial investment amounts to \$40,000.

A conservative estimate of revenues (outside of funds raised through the sale of shares) through YE 2021 is approximately \$20,000. Expenses through YE 2021 could be as much as \$45,000 depending on timing of costs incurred, hiring of key staff, and other factors. We expect reaching breakeven at the end of our 3rd season, in about 35 months, assuming we generate adequate revenue from each season. These projections cannot be guaranteed.

We anticipate additional sponsorship and other revenue to be realized in the next 6-8 months leading up to our first season of play. Forward projections cannot be guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:
(a) a description of the material content of such information;
(b) a description of the format in which such disclosure is presented; and
(c) in the case of disclosure in video, audio or other dynamic media or format, a transcript or
