

MINNESOTA SOCCER HOLDINGS

2021 Report

Dear investors,

The importance of the community owners' financial investment in Minnesota Aurora cannot be understated. Your investment has allowed club leadership to be ambitious and hold the club's values of accessibility and opportunity at the center of its decision-making (even when those values cost money). At the same time, club leadership has taken seriously its responsibility to be stewards of that investment and is working to generate ongoing, sustainable sources of revenue, including sponsorships as well as ticket and merchandise sales.

Further, the strong financial position of the club has drawn the attention of so many others, including the local business community, in ways that open the doors to an innumerable number of exciting opportunities. Whether it is public sponsorships and service agreements or invitations to participate in public events and joint-marketing opportunities, your investment in the club has opened doors for Minnesota Aurora we never dreamed of last year. Thank you!

We need your help!

More than anything, we need your continued enthusiasm. We absolutely cannot wait to see you in TCO Stadium this summer. Your passion for women's soccer and support for the exciting roster of young players Minnesota Aurora is assembling is invaluable. We want to see you in Minnesota Aurora colors, and we want you to enjoy every minute of this club that you made happen.

We also want your input. This spring you will be asked to elect two community owners to serve on the club's Board of Directors. We want you to elect individuals who reflect your values and will bring meaningful contributions to the club's leadership team. We will also be launching multiple community-led advisory communities to help ensure that important decisions are made in collaboration with and are reflective of your aspirations for Minnesota Aurora.

Sincerely,

Matt Privratsky

Co-Founder, Board Member

Susan Earle

CFO

Wes Burdine

Cofounder

Allie Reinke

Board Member

Andrea Carroll-Franck

Board Member and Co-Founder

Our Mission

We want a professional women's soccer team. Our goal is to launch this pre-professional team and take it to the highest levels of women's soccer.

[See our full profile](#)

How did we do this year?

Report Card

A+

The Good

An incredible response from the public helped us raise \$1 million from thousands of community members.

We've recruited a phenomenally talented coaching staff and are building a strong front office team.

With strong support from community owners we've created an elite opportunity for players regardless of their financial means

The Bad

With limited time available, club founders have numerous community engagement projects still on hold.

With a strong applicant pool, the process of hiring staff has taken longer than expected.

Community-owner board elections and advisory committee appointments have taken longer than expected.

Risks

Shares in MSH will not be registered under any federal or state securities laws and may not be resold without such registration except in reliance on an exemption from

applicable state and federal registration requirements, which exemption prohibits any transfer of your Class B Shares for a period of one year, subject to limited exceptions. There is no, and there is not expected to be, any market for the sale of the MSH shares. As a result, you not be able to liquidate your investment in the Class B shares and therefore, should be prepared to assume the risks of an investment in MSH for an indefinite period of time.

The Class B share price and valuation were arbitrarily determined by the Board and management of MSH, considering the state of the Company's business development and the general condition of the industry in the MSH and the Franchise will operate. The offering price doesn't have any direct relationship to the actual value of the assets, net worth, or other objective value criteria of MSS or the Franchise

While the MSH Board and Mangers will engage investors on a broad variety of club matters, including naming, branding, etc., the Class B investors have limited voting rights and will need to rely on Managers for all decisions relating to the day to day operation of MSH and the Franchise. In addition, investment in MSH is structured to be made through a special purpose entity that is managed by a "Lead Investor." Although the Lead Investor is required by law to vote the Class B shares in accordance with the directions of the investors, investors will not be able to directly vote their shares in MSH. Accordingly, you should not invest in this offering unless you are willing to entrust your voting rights to the Lead Investor.

MSH may need to raise additional capital in the future. Subsequent offerings may not be on the same or similar terms as this offering even if they are, said offerings will dilute the ownership percentage and voting power of investors in the current offering. Future offerings may provide the new investors with advantages not available to you as a previous investor.

MSH has been organized to own and operate a womens' soccer franchise (the "Franchise") to compete in the W-League, a newly reorganized pre-professional women's soccer league overseen by the United Soccer League (USL). There is a risk that the W-League may not be successful and MSH and the Franchise may be unable to continue operating.

The professional, pre-professional, and amateur athletics market in Minnesota is incredibly competitive, and the Franchise will compete for attendance, viewership and advertising revenue with a wide range of other entertainment and recreational activities available to potential consumers. There can be no assurance that MSH or the Franchise will be able to compete effectively, including with companies that may have greater resources than it. There is a risk that MSH and the Franchise will struggle financially and never return a profit for their investors.

The ongoing COVID-19 pandemic poses significant risks to competitive athletics, including the risk of actions that may be taken by government authorities to contain the outbreak, including the imposition of limitations on fan attendance and potential shutdowns and the lost revenues associated therewith. The impact on the Franchise's fans, sponsors and suppliers, other impacts to the business, and our ability to sufficiently manage and mitigate the strategic and operational impact of such events cannot be predicted and could have a negative impact on MSH and the Franchise.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Andrea Yoch and Susan Earle are part-time officers. As such, it is likely that the company will not make the same progress as it would if that were not the case.

Minnesota Soccer Holdings, GBC ("MSH" or the "Company") is organized as a public benefit corporation under Minnesota Statutes Chapter 304A. As such, it exists to pursue a general public benefit with a particular focus on support women's soccer in Minnesota and, as such, will prioritize allocation of its resources towards that public benefit instead of towards returning profit to its shareholders.

Description of Securities for Prior Reg CF Raise

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to

have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

Minority Ownership

An Investor in the Company will hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but the Company's Articles of Incorporation do not provide for such pre-emptive rights and no such opportunity can be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Exercise of Rights Held by Principal Shareholders

The holders of a majority-in-interest of voting rights in the Company (the "majority shareholders") may vote their shares in ways with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other shareholders, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the majority shareholders may change the terms of the Articles of Incorporation for the Company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The majority shareholders may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns. The principal shareholders have the right to redeem their securities at any time. Principal shareholders could decide to force the Company to redeem their securities at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability. In the event that the Company issues or enters into convertible debt, SAFES, or other outstanding options or warrants, and the rights of the holders or such instruments are exercised, or if new awards are granted under any equity compensation plans that may be adopted by the Company, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if the majority shareholders vote to cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

Based on the risks described above, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Restrictions on Transfer

The securities offered via Regulation Crowdfunding may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor[®];
- as part of an offering registered with the U.S. Securities and Exchange Commission; or
- to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

Valuation Methodology for Prior Reg CF Raise

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, if we perform valuations of our common stock that take into account factors such as the following:

- unrelated third party valuations of our common stock;
- the price at which we sell other securities, such as convertible debt or preferred Stock, in light of the rights, preferences and privileges of our those securities relative to those of our common stock;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common stock;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;

the risk inherent in the development and expansion of our products;
our stage of development and material risks related to our business;
the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
industry trends and competitive environment;
trends in consumer spending, including consumer confidence;
overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.
