CEO & Founder

MotiveU

Jul 2020 – Present · 1 yr 3 mos
Middleton, DE

MotiveU is an Enterprise SaaS corporation that uses artificial intelligence to provide patent-pending synchronization software and data-driven dashboards from any mobile device.

Our solution is targeted at the fitness market and fills the gap between the human-driven traditional gyms and data-driven AI fitness, allowing gym owners, fitness instructors, and members to enjoy the benefits of both worlds. We use AI to enhance human fitness trainers, not to replace them, because we believe it's time to put community back into community-based fitness.
