Steve Wilson

CEO at Texzon Utilities
Dallas-Fort Worth Metroplex

Summary

Currently 18 years in the deregulated electricity and renewable energy markets. Brokering electricity and developing a scientific breakthrough in the transmission of electricity.

Addressing the worlds biggest environmental concern by developing plants recycling plastic waste to fuel.

Building wireless broadband and 5G infrastructure in the underserved rural markets.

Over 20 years in the deregulated telecommunications industry primarily developing and constructing outside plant fiber optic networks and data centers.

Goal- To successfully complete my current assignments with excellence, and develop projects and initiatives for Kingdom expansion. To fulfill my God given destiny.

Specialties: Entrepreneurship, leadership, vision casting, planning, project management, product development, renewable energy, electricity transmission and distribution, energy storage, and telecommunications.
