User Interface Design

# Benjamin Hargett

Co-founder / Head of Product @beehiiv  
Brooklyn, New York, United States

## Summary

I co-founded beehiiv to make the tools needed to create, grow, and monetize email newsletters accessible to all creators. Before beehiiv, the most successful newsletters had teams of engineers building growth hacks, optimizing for search, developing internal tools, and setting up integrations and workflows. Now, with beehiiv, creators simply focus on their writing and brand. We take care of the rest.

Sound interesting? We're hiring <https://careers.beehiiv.com>
