Artificial Intelligence

Rajini Anachi

CEO & President, AVAWATZ - the future of coordinated robotics |
CEO and founder of CyGlass (Acquired)
Dallas-Fort Worth Metroplex

Summary

AVAWATZ is changing the world of robotics and your life in the process! Here is how we will do it.

- We enable robots to detect, decide, and act on the world around them.
- Information is shared intelligently with other robots to create "cobots" and determine a course of action.
- Cobots allow more complex, multi-step tasks to be performed by different types of robots collaboratively, enhancing human safety and efficiency.

We completed our first round of preIPO capitalization.

Round two preIPO is \$5 Million. Message me for details.

Experience

AVAWATZ

CEO & President

February 2019 - Present (5 years 9 months)

Addison, TX

CyGlass

CEO & Founder (acquired by Nominet, 2020)
