### LEAD INVESTOR

Kevin Brown

I have a body fat smart scale at home. I use it almost every day. Practically every day, I step on the scale, and it tells me my "metabolic age" is one year older than my actual age. It never tells me much more than that. The smart scale never tells me ways to improve my "metabolic age" or anything. Now let's talk about the AgeMeter test by the Center for Age Control. The AgeMeter gives a person a battery of tests that provides a person with a "Functional Age" score with details regarding a person's "Functional Age." With this information, a person can attempt to improve their "Functional Age" over time. This is potentially a big deal for medical professionals and individuals alike. The team at the Center for Age Control is working hard to make their "Functional Age" score commonplace and I have belief in the teams ability to do so.

Invested \$10,000 this round

## Highlights

### Highlights

- 1 Only reputable, noninvasive device that calculates the age at which a person's body actually functions.
- 2 AgeMeter\* already in North America, Central America, South America, Europe, Asia, Africa, & Oceania
- 3 AgeMeter\* is used by doctors, researchers & individuals who can measure & monitor their aging-reversal health programs.
- 4 Endorsed by the world's top scientists, including Harvard geneticists Dr. George Church & Dr. David Sinclair.
- 5 Industry leader Neurohacker\* used the AgeMeter\* to validate its aging reversal nutraceutical in a March 2021 study.
- 6 Revenue from professional kit to medical practices & researchers app to individuals.
- 7 2021: Launch mobile app functional age test for individuals.
- 8 Your investment helps us spread the word about AgeMeter\* among doctors & others, improving the quality of life for all.
- 8 Your investment helps us spread the word about AgeMeter\* among doctors & others, improving the quality of life for all.

## Our Team

**Elliott Small** Founder and CEO

Harvard BA Biochemistry. 4 patents: 3 Issued: Rapid Battery Charging, 1 pending: Aging Reversal Methods & Compositions. Chemist: Kraft Foods. Computer Programmer. A passion for a youthful life through aging reversal.

Since the start of civilization thousands of years ago, people have sought to avoid aging and the poor health endured during the last decades of life. Our mission is to improve the quality life for those experiencing aging.

**Dr. Edward Layne** Medical Director, MD, SCM

A graduate of Harvard College, Tulane Medical School, Harvard Medical School Post-grad, Dr. Layne currently serves as Medical Director at AgeMeter, and is the founder of 3 gastro and nutritional clinics, in the Atlanta, GA region.

**Taylor Speegle** Chief Technology Officer

Owns a software company partnered in development of the AgeMeter and others with over 20 Million users worldwide, ranked in Apple App Store Top #100 in 85 Countries and Exclusive software launch partner for TCL's global NEXTWEAR G Smart Glasses

**Nicole Layne** Business Advisor

Currently strategic advisor to AgeMeter, Layne is also the director of Enterprise Product & Experience Strategy at Home Depot. She has a B.A. from Yale and an MBA from Wharton.

**E. J. Layne** COO and Information Technology Partner

Chief Operating Officer and technical advisor to AgeMeter, E.J. is currently a Senior Program Manager at Microsoft. (He holds 4 patents.) He has a BS/MS in computer science from the Georgia Institute of Technology.

**Joe Strickland** Information Technology Partner

BS Computer Science, Morehouse College. Cox Communications: Director, Delivery Management, Business Support Systems. Joe is a seasoned leader in delivering large and medium scale strategic projects and programs.

## Pitch

**AgeMeter**

Centers for Age Control Inc.

Positioned to be a Microsoft for the Emerging Aging Reversal Industry as First Expanding Global Database & Software Platform to provide and track Functional Age results for consumers, healthcare providers, fitness centers, and research (already at Harvard), with continual diversification opportunities as the industry evolves.

## Comments From The World's Most Prominent Aging Reversal Scientists

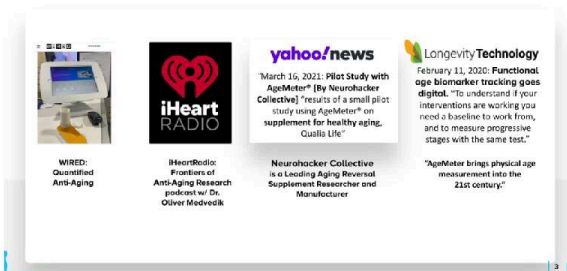

For FGF, supercentenarian, aging reversal studies, and everyday wellness, we need cost-effective, standardized, quantitative insight into a diverse set of physiological measures. The AgeMeter can help us get there.

-Dr. George Church, Harvard University

"A device that can accurately and quickly estimate biological age is badly needed in the field and would be a huge benefit to consumers interested in changing their life's trajectory."

-Dr. David Sinclair, Harvard Medical

## AgeMeter Press

**Wired:** Quantified Anti-Aging

**iHeartRadio:** Frontiers of Anti-Aging Research podcast w/ Dr. Oliver Medvedik

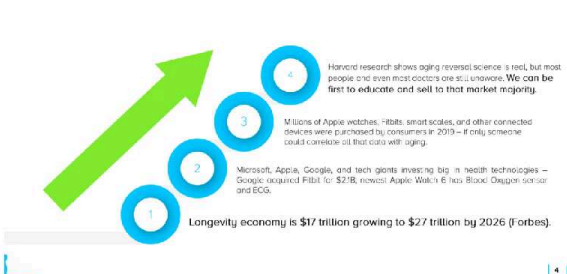

**yahoo/news:** March 16, 2021: Pilot Study with AgeMeter® (by Neurohacker Collective) "results of a small pilot study using AgeMeter® on supplement for healthy aging. Quilt Life"

**Neurohacker Collective** is a Leading Aging Reversal Supplement Researcher and Manufacturer

**Longevity Technology:** February 11, 2020: Functional age biomarker tracking goes digital. "To understand if your interventions are working you need a baseline to work from, and to measure progressive stages with the same test."

"AgeMeter brings physical age measurement into the 21st century"

## Market

1 Longevity economy is \$17 trillion growing to \$27 trillion by 2026 (Forbes).

2 Microsoft, Apple, Google, and tech giants investing big in health technologies — Google acquired Fitbit for \$2.1B, newest Apple Watch 6 has Blood Oxygen sensor and ECG.

3 Millions of Apple watches, Fitbits, smart scales, and other connected devices were purchased by consumers in 2019 — if only someone could correlate all that data with aging.

4 Harvard research shows aging reversal science is real, but most people and even most doctors are still unaware. We can be first to educate and sell to that market majority.

## AgeMeter Market Traction

7 Geographic Regions: North, South, and Central America, Europe, Asia, Africa, Oceania

Strong Desirability has given us Wide Penetration  
Need Full Awareness Marketing and Product Diversity for both Wide and Deep Penetration

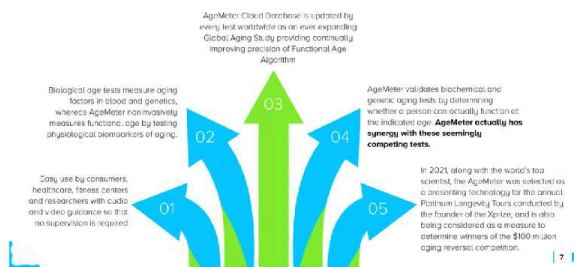

## AgeMeter Business Model – Initial Revenue Targets

Initial Focus on Medical Practices has built worldwide credibility, enabling us to sell direct to consumer and also earn revenue from portion of consumers test payments at Medical and Fitness Centers, and monetize our data. Facilitated by Larger Marketing and Continual Product Enhancement Budgets
