RISK FACTORS

Risks Related to the Company's Business and Industry

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management personnel to develop additional expertise. We face intense competition for personnel. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

Our employees in The United States are unionized.

Although we consider our current relations with our employees to be satisfactory, if major work disruptions were to occur, our business could be adversely affected by, for instance, a loss of revenues, increased costs or reduced profitability. We have not experienced a material labor disruption in our recent history, but there can be no assurance that we will not experience a

material labor disruption at one of our facilities in the future in the course of renegotiation of our labor arrangements or otherwise. In addition, many of the employees of our suppliers are represented by labor unions and under collective bargaining agreements. A work stoppage or strike at one of our production facilities, or impacting a supplier of ours or any of our customers could have an adverse impact on us by disrupting demand for our products and/or our ability to manufacture our products.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Michael Earley , Howard Riley , and Ernest Drummond who are President - March 2020 to Present Oversee all aspects of the business including product development, sales and marketing, VP of Sales and Marketing - March 2020 to Present Oversee all aspects of sales and marketing, and VP of Product Development - March 2020 to Present Oversee all aspects of new product development and design of the Company. The Company has or intends to enter into employment agreements with Michael Earley , Howard Riley , and Ernest Drummond although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Michael Earley , Howard Riley , and Ernest Drummond or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

We rely on various intellectual property rights, including licenses in order to operate our business.

Such intellectual property rights, however, may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights.

As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we

operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

From time to time, third parties may claim that one or more of our products infringe their intellectual property rights.

Any dispute or litigation regarding patents or other intellectual property could be costly and time-consuming due to [the complexity of our technology and] the uncertainty of intellectual property litigation and could divert our management and key personnel from our business operations. A claim of intellectual property infringement could force us to enter into a costly or restrictive license agreement, which might not be available under acceptable terms or at all, could require us to redesign our products, which would be costly and time-consuming, and/or could subject us to an injunction against development and sale of certain of our products or services. We may have to pay substantial damages, including damages for past infringement if it is ultimately determined that our products infringe on a third party's proprietary rights. Even if these claims are without merit, defending a lawsuit takes significant time, may be expensive and may divert management's attention from other business concerns. Any public announcements related to litigation or interference proceedings initiated or threatened against us could cause our business to be harmed. Our intellectual property portfolio may not be useful in asserting a counterclaim, or negotiating a license, in response to a claim of intellectual property infringement. In certain of our businesses we rely on third party intellectual property licenses and we cannot ensure that these licenses will be available to us in the future on favorable terms or at all.

The Company intends to use the proceeds from the Offering for unspecified working capital.

This means that the Company has ultimate discretion to use the proceeds as it sees fit and has chosen not to set forth any specific uses for you to evaluate. The net proceeds from this Offering will be used for the purposes, which our management deems to be in our best interests in order to address changed circumstances or opportunities. As a result of the foregoing, our success will be substantially dependent upon our discretion and judgment with respect to application and allocation of the net proceeds of this Offering. The Company may choose to use the proceeds in a manner that you do not agree with and you will have no recourse. A use of proceeds that does not further the Company's business and goals could harm the Company and its operations and ultimately cause an Investor to lose all or a portion of his or her investment.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Michael Earley , Howard Riley , and Ernest Drummond in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Michael Earley , Howard Riley , and Ernest Drummond die or become disabled, the Company will not receive any compensation to assist with such a person's absence. The loss of such a person could negatively affect the Company and its operations.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in the U.S. .

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment [requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements,] changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

The Company's business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for

the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic.” COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company’s business could be materially and adversely affected. The extent to which COVID-19 impacts the Company’s business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company’s operations may be materially adversely affected.

We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company’s operations and could have a material adverse impact on us.

The outbreak of pandemics and epidemics could materially and adversely affect the Company’s business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company’s business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company’s supply chain processes, restrictions on the export or shipment of products necessary to run the Company’s business, business closures in impacted areas, and restrictions on the Company’s employees’ or consultants’ ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company’s results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company’s business.

If the Company’s employees or employees of any of the Company’s vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work, the Company’s operations could be subject to disruption. The extent to which a pandemic affects the Company’s results will depend on future developments that are highly uncertain and cannot be predicted.

We face risks relating to public health conditions such as the COVID-19 pandemic, which could adversely affect the Company’s customers, business, and results of operations.

Our business and prospects could be materially adversely affected by the COVID-19 pandemic or recurrences of that or any other such disease in the future. Material adverse effects from COVID-19 and similar occurrences could result in numerous known and currently unknown ways including from quarantines and lockdowns which impair the Company’s business including: [marketing and sales efforts, supply chain, etc.]. [Describe how a quarantine has or may in the future negatively affect your employees and their ability to perform their duties]. [Describe how a quarantine has or may in the future negatively affect your suppliers, their employees, and overall ability to fulfill orders]. If the Company purchases materials from suppliers in affected areas, the Company may not be able to procure such products in a timely manner. The effects of a pandemic can place travel restrictions on key personnel which could have a material impact on the business. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the

economies and financial markets of many countries, resulting in an economic downturn that could reduce the demand for the Company's products and impair the Company's business prospects including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

The Securities do not accrue interest or otherwise compensate Investors for the period in which the Company uses proceeds from the Offering.

The Securities will accrue no interest and have no maturity date. Therefore, Investors will not be compensated for the time in which the Company uses the proceeds from the Offering before a possible Equity Financing or Liquidity Event that could result in the conversion of the Security, to the benefit of the Investor.

When forecasting the hypothetical value of their holdings in different liquidity event scenarios, Investors should consider the overall valuation of the Company in addition to their individual return.

Due to the nature of the discount rate of the Crowd Safe, when forecasting the hypothetical value of their holdings in different liquidity event scenarios, Investors should consider the overall valuation of the Company in addition to their individual return. In a liquidity event in which the value of an Investor's stake is determined by the discount method (that being situations where applying the Valuation Cap results in a lower return for such Investor), the Investor's individual return will be the same regardless of the Company's valuation. As an example, a \$1,000-dollar investment in Crowd Safe units of a hypothetical company with a discount of 20% and a valuation cap of \$10 million would result in a \$250 return upon a liquidity event in which the company is valued at either \$5 million or \$10 million. However, Investors should consider that an ownership stake in a higher-valued company is generally preferable to an ownership stake with the same absolute value in a lower-valued company. The higher-valued company will have been assessed by the market to be worth more and will have additional funding with which to pursue its goals and is therefore more likely to produce greater returns to the Investor over the longer term.

We are dependent on third-party suppliers for key raw materials, packaging materials and production inputs, and our use of natural ingredients exposes us to weather and crop reliability.

We purchase the raw materials used in the brewing of our beers, including barley, hops, malt, and other ingredients, and the distilling of our spirits from a number of domestic and foreign third-party suppliers. The demand for hops grown in the United States has increased due to the success and growth of craft brewers and the popularity of beer styles that include hops grown in the United States. Certain U.S. hops are in limited supply and prices have risen for both spot purchases and forward contract pricing, accordingly. The beer industry has faced hops shortages in the past, during which times other beer companies with greater financial resources than us purchased large quantities of hops, and our industry could face shortages again in the future. In addition, hops and malt are agricultural products and therefore many outside factors, including weather conditions, farmers rotating out of hops or barley to other crops, pests, government regulations and legislation affecting agriculture, could affect quality, price and supply. We are exposed to the quality of the barley crop each year, and significant failure of a crop would adversely affect our costs.

The process of brewing beer utilizes a large amount of water.

Parts of the country have been experiencing a severe drought for the last several years. While there are currently no restrictions on our use of water based on the drought, we cannot predict whether such restrictions may be put in place in the future. In addition, we source a substantial portion of our hops from [location]. This region has faced drought conditions in the past, and any future droughts could materially and adversely affect our ability to source hops in the future.

Growth rates higher than planned or the introduction of new products requiring special ingredients could create higher demand for ingredients greater than we can source.

Although we believe that there are alternative sources available for our key ingredients, there can be no assurance that we would be able to acquire such ingredients from substitute sources on a timely or cost effective basis in the event that current suppliers could not adequately fulfill orders, which would adversely affect our business and results of operations.

We source certain packaging materials, such as kegs, bottles, cans, six-pack carriers, labels, caps and other shipping materials from a number of third-party suppliers and, in some cases, single-source suppliers.

Although we believe that alternative suppliers are available, the loss of any of our packaging material suppliers could adversely affect our results of operations and financial condition. Our inability to preserve the current economics of these agreements could expose us to significant cost increases in future years.

Our spirits business uses oak barrels to age certain spirits we produce.

We compete with wine producers and other spirits producers for such oak barrels, which may be in limited supply. If we are unable to purchase a sufficient number of oak barrels at commercially reasonable prices, it could have a material adverse effect on the growth prospects, financial condition and results of operations of our business.

We are heavily dependent on our distributors.

In the United States, where substantially all of our spirits are sold, we sell spirits to independent distributors for distribution to on-premise locations such as bars, restaurants and sports venues, and for distribution to off-premise retail locations such as grocery and specialty stores. Although we currently have a large network of wholesale distributors, sustained growth will require us to maintain such relationships and enter into arrangements with additional distributors in new markets. No assurance can be given that we will be able to maintain our current distribution network or secure additional distributors on terms favorable to us, or at all.

Our distributors often represent competing specialty beer and spirits brands, as well as national beer and spirits brands, and are to varying degrees influenced by their continued business relationships with other brewers and distillers. Our independent distributors may be influenced by a large brewer or distiller, particularly if they rely on that brewer or distiller for a significant portion of their sales, which many distributors do. In addition, certain of our distributors cover a substantial network of certain on-premise retailers. While we believe that the relationships

between us and our distributors are generally good, some of these relationships are relatively new and untested and there can be no assurance that any or all of our distributors will continue to effectively market and distribute our products. The loss of any distributor or the inability to replace a poorly performing distributor in a timely fashion could have a material adverse effect on our business, financial condition and results of operations.

Most of our distribution relationships are governed by state laws that in certain respects may supersede the terms of any contractual relationships.

Under most of these state laws, distribution agreements for beer can only be terminated by the supplier after the supplier shows some type of "cause" (usually an uncured deficiency in the distributor's operation) or upon payment of some sort of compensation to the distributor for the value of the distribution rights. State laws also may limit a beer supplier's right to object to proposed assignments of distribution rights and/or changes in distributor ownership. A minority of states have enacted similar laws governing distillery-distributor relationships. Therefore, while we have entered into contractual relationships with some of our distributors, state law in various jurisdictions may limit our exercising our contractual termination and enforcement rights. Additionally, our distribution relationships are susceptible to changes in state legislation that could significantly alter the competitive environment for the beer distribution industry, which could adversely affect the financial stability of distributors on which we rely.

We are subject to governmental regulations affecting our breweries, distilleries and tasting rooms.

Federal, state and local laws and regulations govern the production and distribution of beer and spirits, including permitting, licensing, trade practices, labeling, advertising and marketing, distributor relationships and various other matters. To operate our distilleries, we must obtain and maintain numerous permits, licenses and approvals from various governmental agencies, including the Alcohol and Tobacco Tax and Trade Bureau, the Food and Drug Administration, state alcohol regulatory agencies and state and federal environmental agencies. A variety of federal, state and local governmental authorities also levy various taxes, license fees and other similar charges and may require bonds to ensure compliance with applicable laws and regulations. Our tasting rooms are subject to alcohol beverage control regulations that generally require us to apply to a state authority for a license that must be renewed annually and may be revoked or suspended for cause at any time. These alcohol beverage control regulations relate to numerous aspects of daily operations of our tasting rooms, including minimum age of patrons and employees, hours of operation, advertising, trade practices, inventory control and handling, storage and dispensing of alcohol beverages. Noncompliance with such laws and regulations may cause the Alcohol and Tobacco Tax and Trade Bureau or any particular state or jurisdiction to revoke its license or permit, restricting our ability to conduct business, assess additional taxes, interest and penalties or result in the imposition of significant fines.

We may experience a shortage of kegs necessary to distribute draft beer.

We distribute our draft beer in kegs that are owned by us and kegs we lease from third parties. If shipments of draft beer increase, we may experience a shortage of available kegs to fill sales orders. If we cannot meet our keg requirements through either lease or purchase, we may be required to delay some draft shipments. Such delays could have an adverse impact on sales and relationships with wholesalers.

The craft spirits business is seasonal in nature, and we are likely to experience fluctuations in results of operations and financial condition.

Sales of craft spirits products are somewhat seasonal, with the first and fourth quarters historically having lower sales than the rest of the year.

The loss of our third-party distributors could impair our operations and substantially reduce our financial results.

We continually seek to expand distribution of our products by entering into distribution arrangements with regional bottlers or other direct store delivery distributors having established sales, marketing and distribution organizations. Many distributors are affiliated with and manufacture and/or distribute other beverage products. In many cases, such products compete directly with our products. The marketing efforts of our distributors are important for our success. If our brands prove to be less attractive to our existing distributors and/or if we fail to attract additional distributors and/or our distributors do not market and promote our products above the products of our competitors, our business, financial condition and results of operations could be adversely affected.

Inability to secure co-packers for our products could impair our operations and substantially reduce our financial results.

We rely on third parties, called co-packers in our industry, to produce our products. We currently have 1 co-packing agreement for our products. Our co-packing agreement with our principal co-packer was signed on 11/1/2021 and has an initial term of 1 years unless either party provides notice of cancellation at least [number] calendar days prior to the end of the initial term or subsequent extension period. Our dependence on co-packer[s] puts us at substantial risk in our operations. If we lose this relationship and/or require new co-packing relationships for other products, we may be unable to establish such relationships on favorable terms, if at all.

Our business is substantially dependent upon awareness and market acceptance of our products and brands.

Our business depends on acceptance by both our end consumers as well as our independent distributors of our brands as beverage brands that have the potential to provide incremental sales growth rather than reduce distributors' existing beverage sales. We believe that the success of our product name brands will also be substantially dependent upon acceptance of our product name brands. Accordingly, any failure of our brands to maintain or increase acceptance or market penetration would likely have a material adverse effect on our revenues and financial results.

Sales of a limited number of products and flavors contributed all of our historical profitability and cash flow.

A reduction in the sale of our products would have a material adverse effect on our ability to remain profitable and achieve future growth. We cannot be certain that we will be able to continue to commercialize or expand distribution of our existing products or that any of our future food products will be accepted in their markets. Any inability on our part to stay current

with food and consumer trends through new products could have a material adverse effect on our business performance.

Reductions in sales of our products will have an adverse effect on our profitability and ability to generate cash to fund our business plan.

The following factors, among others, could affect continued market acceptance and profitability of our products:

- the introduction of competitive products;
- changes in consumer preferences among food products;
- changes in consumer eating and snacking habits, including trends away from certain categories, including major allergen-free, gluten-free and non-GMO products;
- changes in awareness of the social effects of farming and food production;
- changes in consumer perception about trendy snack products;
- changes in consumer perception regarding the healthfulness of our products;
- the level and effectiveness of our sales and marketing efforts;
- any unfavorable publicity regarding products or similar products;
- any unfavorable publicity regarding our brand;
- litigation or threats of litigation with respect to our products;
- the price of our products relative to other competing products;
- price increases resulting from rising commodity costs;
- any changes in government policies and practices related to our products, labeling and markets;
- regulatory developments affecting the manufacturing, labeling, marketing or use of our products;
- new science or research that disputes the healthfulness of our products; and
- adverse decisions or rulings limiting our ability to promote the benefits of popcorn products.

Adverse developments with respect to the sale of our products would significantly reduce our net sales and profitability and have a material adverse effect on our ability to maintain profitability and achieve our business plan.

We currently depend exclusively on one third-party co-manufacturer with one location to manufacture all of our products.

The loss of this co-manufacturer or the inability of this co-manufacturer to fulfill our orders would adversely affect our ability to make timely deliveries of our product and would have a material adverse effect on our business.

We rely, in part, on our third-party co-manufacturer to maintain the quality of our products.

The failure or inability of this co-manufacturer to comply with the specifications and requirements of our products could result in product recall and could adversely affect our reputation. Our third-party co-manufacturer is required to maintain the quality of our products and to comply with our product specifications and requirements for certain certifications. However, our third-party co-manufacturer may not continue to produce products that are consistent with our standards or that are in compliance with applicable laws, and we cannot guarantee that we will be able to identify instances in which our third-party co-manufacturer fails to comply with our standards or applicable laws. Any such failure, particularly if it is not identified by us, could harm our brand and reputation as well as our customer relationships. We would have these same issues with any new co-manufacturer, and they may be exacerbated due to the newness of the relationship. The failure of any manufacturer to produce products that conform to our standards could materially and adversely affect our reputation in the marketplace and result in product recalls, product liability claims and severe economic loss.

As a food production company, all of our products must be compliant with regulations by the Food and Drug Administration (FDA).

We must comply with various FDA rules and regulations, including those regarding product manufacturing, food safety, required testing and appropriate labeling of our products. It is possible that regulations by the FDA and its interpretation thereof may change over time. As such, there is a risk that our products could become non-compliant with the FDA's regulations and any such non-compliance could harm our business.

Our products rely on independent certification that they are non-GMO, gluten-free or Kosher.

We rely on independent certification of our non-GMO, gluten-free and Kosher products and must comply with the requirements of independent organizations or certification authorities in order to label our products as such. Currently, the FDA does not directly regulate the labeling of Kosher or non-GMO products as such. The FDA has defined the term "gluten-free" and we must comply with the FDA's definition if we include this label on our products. Our products could lose their non-GMO and gluten-free certifications if our raw material suppliers lose their product certifications for those specified claims. We could also lose our Kosher product certification if a contract manufacturing plant is found to be in violation of required manufacturing or cleaning processes. The loss of any of these independent certifications, including for reasons outside of our control, could harm our business.

Ingredient and packaging costs are volatile and may rise significantly, which may negatively impact the profitability of our business.

We purchase large quantities of raw materials, including ingredients such as corn, rye and barley. In addition, we purchase and use significant quantities of cardboard and bottles to package our

products. In recent periods, the prices of yellow corn, almonds, sunflower oil and fuel have been priced above their respective averages and we have realized some negative effects from these high prices in the form of reduced cost of goods sold and resulting higher gross profit margins. Costs of ingredients and packaging are volatile and can fluctuate due to conditions that are difficult to predict, including global competition for resources, weather conditions, natural or man-made disasters, consumer demand and changes in governmental trade and agricultural programs. As such, any material upward movement in raw materials pricing could negatively impact our margins, if we are not able to pass these costs on to our customers, or sales if we are forced to increase our prices, which would adversely affect our business, results of operations and financial condition.

Certain of our raw material contracts have minimum purchase commitments that could require us to continue to purchase raw materials even if our sales have declined.

We are contractually obligated to purchase a certain amount of raw materials from our suppliers even if we do not have the customer demand to sustain such purchases. The purchase of raw materials, which we are not able to convert into finished products and sell to our customers, would have a negative effect on our business and results of operations.

Our future business, results of operations and financial condition may be adversely affected by reduced availability of our core ingredients.

Our ability to ensure a continuing supply of our core ingredients at competitive prices depends on many factors beyond our control, such as the number and size of farms that grow crops, poor harvests, changes in national and world economic conditions and our ability to forecast our ingredient requirements. The corn and other ingredients used in our products are vulnerable to adverse weather conditions and natural disasters, such as floods, droughts, frosts, earthquakes, hurricanes and pestilences. Adverse weather conditions and natural disasters can lower crop yields and reduce crop size and quality, which in turn could reduce the available supply of our core ingredients. If supplies of our core ingredients are reduced or there is greater demand for such ingredients, from us and others, we may not be able to obtain sufficient supply on favorable terms, or at all, which could impact our ability to supply products to distributors and retailers.

Failure by our transportation providers to deliver our products on time or at all could result in lost sales.

We currently rely upon third-party transportation providers for a significant portion of our product shipments. Our utilization of delivery services for shipments is subject to risks, including increases in fuel prices, which would increase our shipping costs, and employee strikes and inclement weather, which may impact the ability of providers to provide delivery services that adequately meet our shipping needs. We may, from time to time, change third-party transportation providers, and we could therefore face logistical difficulties that could adversely affect deliveries. We may not be able to obtain terms as favorable as those we receive from the third-party transportation providers that we currently use or may incur additional costs, which in turn would increase our costs and thereby adversely affect our operating results.

If our brand or reputation is damaged, the attractive characteristics that we offer retailers may diminish, which could diminish the value of our business.

We are currently an attractive brand for our customers because our products are high quality and generate a high level of retail sales at a premium margin relative to their shelf space. This is due to both our premium price point and our sales velocity. If our brand or reputation is damaged for any reason, consumers may no longer be willing to pay a premium price for our products and we may no longer be able to generate a high sales velocity at our then-current prices. If we no longer offer these characteristics, retailers may decrease their orders of our products and downgrade the in-store placement of our products, which could have an adverse effect on our business and results of operations.

Risks Related to the Securities

The Seed Round Units of SAFE (Simple Agreement for Future Equity) will not be freely tradable until one year from the initial purchase date. Although the Seed Round Units of SAFE (Simple Agreement for Future Equity) may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Seed Round Units of SAFE (Simple Agreement for Future Equity). Because the Seed Round Units of SAFE (Simple Agreement for Future Equity) have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Seed Round Units of SAFE (Simple Agreement for Future Equity) have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Seed Round Units of SAFE (Simple Agreement for Future Equity) may also adversely affect the price that you might be able to obtain for the Seed Round Units of SAFE (Simple Agreement for Future Equity) in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A portion of the proceeds from the Offering will be used to pay the accrued and unpaid expenses of Michael Earley, Ernest Drummond and Howard Riley.

These proceeds will not be available for the ongoing operations of the Company but will instead be paid to these insiders as repayment for expenses incurred prior to the Offering and owed to them by the Company.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 99.9% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Pennsylvania law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

There is no present market for the Securities and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Purchasers will not become equity holders until the Company decides to convert the Securities into CF Shadow Securities or until an IPO or sale of the Company.

Purchasers will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time, and depending on when and how the Securities are converted, the Purchasers may never become equity holders of the Company. Purchasers will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities (the type of equity Securities Purchasers are entitled to receive upon such conversion). In certain instances, such as a sale of the Company, an IPO or a dissolution or bankruptcy, the Purchasers may only have a right to receive cash, to the extent available, rather than equity in the Company.

Purchasers will not have voting rights, even upon conversion of the Securities into CF Shadow Securities.

Purchasers will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities. Upon such conversion, CF Shadow Securities will have no voting rights and even in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders are required to vote with the majority of the security holders in the new round of equity financing upon which the Securities were converted. For example, if the Securities are converted upon a round offering Series B Preferred Shares, the Series B-CF Shadow Security holders will be required to vote the same way as a majority of the Series B Preferred Shareholders vote. Thus, Purchasers will never be able to freely vote upon any director or other matters of the Company.

Purchasers will not be entitled to any inspection or information rights other than those required by Regulation CF.

Purchasers will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by Regulation CF. Other security holders may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. This lack of information could put Purchasers at a disadvantage in general and with respect to other security holders.

In a dissolution or bankruptcy of the Company, Purchasers will be treated the same as common equity holders.

In a dissolution or bankruptcy of the Company, Purchasers of Securities which have not been converted will be entitled to distributions as if they were common stockholders. This means that such Purchasers will be at the lowest level of priority and will only receive distributions once all creditors as well as holders of more senior securities, including any preferred stock holders, have been paid in full. If the Securities have been converted into CF Shadow Securities, the Purchasers will have the same rights and preferences (other than the ability to vote) as the holders of the Securities issued in the equity financing upon which the Securities were converted.

Purchasers will be unable to declare the Security in "default" and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any "default" provisions upon which the Purchasers will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Purchasers have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may the Purchasers demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

The Securities do not have a valuation cap.

The Securities do not have a valuation cap to minimize the dilution of the shares into which the Securities are converted upon a future equity financing. Convertible securities often feature a ceiling or limit, referred to as a "valuation cap," which sets a maximum company valuation for the purposes of calculating the number of shares into which such securities are converted. This benefits the holders of such convertible securities by establishing a minimum number of shares into which the convertible securities will convert, thereby limiting the extent to which the holders' ownership percentages are diluted. The Securities do not have such ceiling or limit; thus each Purchaser's ownership of the Company will be determined based on the valuation of the Company established by the future equity financing.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

Operations

The Company completed its seed round of financing in June 2022. Following the Offering, we should have enough liquidity to execute our business plan until February 2023. We intend to be profitable by March 2022. Our significant challenges are [developing and marketing a viable product in a competitive environment and sourcing consistent third party manufacturers to ensure we have sufficient quantities of our product when necessary.

The Company intends to achieve profitability in the next 12 months by cutting costs and aggressively increasing sales.

Liquidity and Capital Resources

The Offering proceeds are essential to our operations. We plan to use the proceeds as set forth above under "use of proceeds", which is an indispensable element of our business strategy. The Offering proceeds will have a beneficial effect on our liquidity and will help us achieve our goals.

The Company does not have any additional sources of capital other than the proceeds from the Offering.

Capital Expenditures and Other Obligations

The Company does not intend to make any material capital expenditures in the future.

Material Changes and Other Information

Trends and Uncertainties

After reviewing the above discussion of the steps the Company intends to take, potential Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. Potential Purchasers should also assess the consequences to the Company of any delays in taking these steps and whether the Company will need additional financing to accomplish them.

The financial statements are an important part of this Form C and should be reviewed in their entirety. The financial statements of the Company are attached hereto as Exhibit A.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 834 of Seed Round Units of SAFE (Simple Agreement for Future Equity) for up to \$250,000.00. The Company is attempting to raise a minimum amount of \$50,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from investors in an amount totaling the Minimum Amount by March 31, 2022 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions. The Company has the right to extend the

Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$250,000.00 (the "Maximum Amount") and the additional Securities will be allocated on a First-come, first-served basis .

The price of the Securities does not necessarily bear any relationship to the asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with Prime Trust, LLC until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until [48] hours prior to the Offering Deadline or the Closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers.. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$300.00.

The Offering is being made through Seed at the table , the Intermediary. The following two fields below sets forth the compensation being paid in connection with the Offering.

The Securities

We request that you please review our organizational documents and the Crowd Safe instrument in conjunction with the following summary information.

We request that you please review our organizational documents and the Crowd Safe instrument in conjunction with the following summary information.

Authorized Capitalization

At the initial closing of this Offering (if the minimum amount is sold), our authorized capital stock will consist of (i) _____ shares of common stock, par value _____ per share, of which _____ common shares will be issued and outstanding, and (ii) _____ shares of preferred stock, par value _____ per share, of which _____ preferred shares will be issued and outstanding .

At the initial closing of this Offering (if the minimum amount is sold), the Company will have membership interests outstanding.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and can be thought of as the right to receive equity at some point in the future upon the occurrence of certain events.

Dividends

The Securities do not entitle the Investors to any dividends.

Conversion

Upon each future equity financing by the Company of greater than \$700,000.00 (an "Equity Financing"), the Securities are convertible at the option of the Company, into CF Shadow Series Securities, which are securities identical to those issued in such future Equity Financing except 1) they do not have the right to vote on any matters except as required by law, 2) they must vote in accordance with the majority of the investors in such future Equity Financing with respect to any such required vote and 3) they are not entitled to any inspection or information rights (other than those contemplated by Regulation CF). The Company has no obligation to convert the Securities in any future financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the quotient obtained by dividing (a) the amount the Investor paid for the Securities (the "Purchase Amount") by (b) the lowest price per share of the Securities sold in such Equity Financing multiplied by 85.00%.

The price determined in (b) immediately above shall be deemed the "First Financing Price" and may be used to establish the conversion price of the Securities at a later date, even if the Company does not choose to convert the Securities upon the first Equity Financing following the issuance of the Securities.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing after the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Series Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of an initial public offering of the Company ("IPO") or Change of Control (see below) (either of these events, a "Liquidity Event") of the Company prior to any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (subject to the following paragraph) or (ii) a number of shares of common stock of the Company equal to the Purchase Amount divided by the product of (a) 85.00% multiplied by (b) the quotient resulting from dividing (x) the Company's current valuation immediately prior to the Liquidity Event by (y) the number, as of immediately prior to the Liquidity Event, of shares of the Company's capital stock (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) shares of common stock reserved and available for future grant under any equity incentive or similar plan; (ii) any Simple Agreements for Future Equity, including the Securities (collectively, "Safes"), and (iii) convertible promissory notes.

In connection with a cash payment described in the preceding paragraph, the Purchase Amount will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and holders of other Safes (collectively, the "Cash-Out Investors") in full, then all of the Company's available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

"Change of Control" as used above and throughout this section, means (i) a transaction or transactions in which any person or group becomes the beneficial owner of more than 50% of the outstanding voting securities entitled to elect the Company's board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction(s) or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Investor, either (i) a cash payment equal to the Purchase Amount (as described above) or (ii) a number of shares of the most recently issued preferred stock equal to the

Purchase Amount divided by the First Financing Price. Shares of preferred stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of preferred stock issued in connection with the Company's most recent Equity Financing.

Dissolution

If there is a Dissolution Event (see below) before the Securities terminate, the Company will distribute, subject to the preferences applicable to any series of preferred stock then outstanding, all of its assets legally available for distribution with equal priority among the Investors, all holders of other Safes (on an as converted basis based on a valuation of common stock as determined in good faith by the Company's board of directors at the time of the Dissolution Event) and all holders of common stock.

A "Dissolution Event" means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company's creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur: (i) the issuance of shares in the CF Shadow Series to the Investor pursuant to the conversion provisions or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

The Securities have no voting rights at present or when converted.

The Company does not have any voting agreements in place.

The Company does not have any shareholder/equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity financings will dilute the ownership percentage that the Investor may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: 1) to the Company, 2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act, 3) as part of an IPO or 4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other

similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Remember that although you may legally be able to transfer the Securities, you may not be able to find another party willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Securities into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any Securities into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be sold for up to 180 days following such IPO.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

Diggs Boys, LLC (“the Company”) was formed in Pennsylvania on June 15th, 2021. The Company plans to earn revenue by creating alcohol spirits brands and selling the product. The Company will conduct a crowdfunding campaign under regulation CF in 2021 to raise operating capital.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Our fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Fair Value of Financial Instruments

ASC 820 “Fair Value Measurements and Disclosures” establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly

observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Concentrations of Credit Risks

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

Step 1: Identify the contract(s) with customers

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to performance obligations

Step 5: Recognize Revenue When or As Performance Obligations Are Satisfied

The Company will identify and analyze its performance obligations with respect to customer contracts once the first contract is signed.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions. The Company accrued \$24,000 in startup costs paid on behalf of the founders. The amount accrues no interest and is due at the discretion of the board of directors.

NOTE 4 – CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS

We are currently not involved with or know of any pending or threatening litigation against the Company or any of its officers. Further, the Company is currently complying with all relevant laws and regulations.

NOTE 5 – DEBT

See Note 3.

NOTE 6 – EQUITY

The Company has authorized 1,000,000.00 of common shares with no par value per share.

Common stockholders are entitled to one vote and can receive dividends at the discretion of the boards of directors.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to December 31, 2020 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through July 1, 2021, the date these financial statements were available to be issued. No events require recognition or disclosure.

NOTE 8 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The entity has not commenced principal operations and may generate losses.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

NOTE 9 – RISKS AND UNCERTAINTIES

COVID-19

The spread of COVID-19 has severely impacted many local economies around the globe. In many countries, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions. The duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses remains unclear currently. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods.

Note: this disclosure assumes there is no significant doubt about the entity's ability to continue as a going concern.

We are an emerging growth Company, and any decision on our part to comply only with certain reduced reporting and disclosure requirements applicable to emerging growth companies could make our common stock less attractive to investors.

We are an emerging growth Company, and, for as long as we continue to be an emerging growth Company, we may choose to take advantage of exemptions from various reporting requirements applicable to other public companies but not to “emerging growth companies,” including: not being required to have our independent registered public accounting firm audit our internal control over financial reporting under Section 404 of the Sarbanes-Oxley Act; reduced disclosure obligations regarding executive compensation in our periodic reports and annual report on Form 10-K; and exemptions from the requirements of holding non-binding advisory votes on executive compensation and stockholder approval of any golden parachute payments not previously approved. We can continue to be an emerging growth Company, as defined in the JOBS Act, for up to five years following our IPO.

Subscription Agreement

THE SECURITIES ARE BEING OFFERED PURSUANT TO SECTION 4(A)(6) OF THE SECURITIES ACT OF 1933 (THE "SECURITIES ACT") AND HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OR THE SECURITIES LAWS OF ANY STATE OR ANY OTHER JURISDICTION. THE PURCHASE OF THE SECURITIES INVOLVES A HIGH DEGREE OF RISK AND SHOULD BE CONSIDERED ONLY BY PERSONS WHO CAN BEAR THE RISK OF THE LOSS OF THEIR ENTIRE INVESTMENT.

iii. The undersigned confirms that it is not relying and will not rely on any communication (written or oral) of the Company, Seed at the table, or any of their respective affiliates, as investment advice or as a recommendation to purchase the Securities. It is understood that information and explanations related to the terms and conditions of the Securities provided in the Form C or otherwise by the Company, Seed at the table or any of their respective affiliates shall not be considered investment advice or a recommendation to purchase the Securities, and that neither the Company, Seed at the table nor any of their respective affiliates is acting or has acted as an advisor to the undersigned in deciding to invest in the Securities. iv. The undersigned is familiar with the business and financial condition and operations of the Company, all as generally described in the Form C. The undersigned has had access to such information concerning the Company and the Securities as it deems necessary to enable it to make an informed investment decision concerning the purchase of the Securities.

v. The undersigned understands that, unless the undersigned notifies the Company in writing to the contrary at or before the Closing, each of the undersigned's representations and warranties

contained in this Subscription Agreement will be deemed to have been reaffirmed and confirmed as of the Closing, taking into account all information received by the undersigned.

vi. The undersigned acknowledges that the Company has the right in its sole and absolute discretion to abandon this Offering at any time prior to the completion of the Offering. SPIRITS MARKET

The spirits industry is a multi billion dollar industry that has had double digit growth since the pandemic of 2019. Diggs Boys LLC is in unique position to capitalize on this growth, by introducing a series of innovative brands and marketing strategies to this industry.

With this growth we find that African Americans and other minorities has been underserved in the spirits world for decades. Minorities can account for almost a quarter of the gross annual alcohol revenue sales yet we own less than one percent of the brands in this industry. Diggs Boys is here to change that narrative by disrupting the industry and carving out a spot at the table in the spirits industry.
