##### What we're serving

Run-of-the-mill fast casual? Not us. We're serving fun, high-quality burgers and sandwiches inspired by the bold and exciting flavors of the globe. All of our recipes are made from scratch with the best meats, cheeses, and sauces.

- Bangin' diner-style burgers using the best house-made and local meats, cheeses, and breads with a well traveled swag.
- Crispy AF fried chicken sandwiches incorporating bold spices, sauces, and ingredients.
- House-cut fries and tots blanketed in sauces like romesco, curry gravy, and hatch chili queso.
- Sides that aren't an afterthought: healthy & dynamic preparations inspired by some of the world's most interesting flavors.

##### Our competitive advantage

Last year, Americans ate 50 billion burgers. That's 3 burgers per week, or \$2,500 per year, per person. It's a \$129 billion industry, with a yearly growth rate of 2.6%. Fried chicken revenue has tripled over the past 10 years. There's a huge market opportunity, but we've gone above and beyond in establishing a brand that's unique among competitors.

- Our menu is unique: rather than the same Americana burgers found everywhere else, our

flavors are globally inspired.

- Style, design, and ambiance are at the forefront of our concept.
- Our quality is unmatched by typical fast-food joints. We're able to serve food quickly and maintain efficiency without sacrificing on quality or flavor.
- With higher quality products and more options available, our offering is healthier than the gut bombs or our fast food forefathers.

#### Milestones

In 2020, COVID-19 battered the restaurant industry with an estimated 20% of all restaurants in the US slated to close, and an average drop in per-unit revenue of over 90%. But Lucky Buns' revenue increased 8% from the previous year.

- We kept all salaried staff members, 75% of hourly workers, and raised over \$4,000 in donations to support our out of work staff.
- We did \$2MM in revenue in 2020, up from \$1.6 in 2019.
- We were profitable within our first year of opening.
- Average ticket size of \$30PP with a 65/35% food/alcohol mix.

#### The investment opportunity: Lucky Buns @ The Wharf

The Wharf DC is a new \$2.5 billion dollar development with over 900 residential units, 2.5 million sq ft. of retail, commercial, and entertainment space, a 6,000-seat music venue, 6 high-end hotels, parking for over 1,000 cars, and 250 boat slips. Located less than 1 mile from Nationals Park and Audi Field, restaurants in this area are making at least \$2.5MM in revenue each year.

- Funds raised during this round will go towards startup costs at this specific location in DC.
- Preferred payback with an aggressive "first in, first out" amortization goal
- Our vision is to open up more locations across the US and internationally.

#### More than burgers

Outside of our burger menu (all made with a proprietary blend of angus beef from Creekstone Farms), we offer hormone-free chicken from Allen Farms, fresh buns, and local seasonal produce.

- Health-conscious? Every item can be served on a fresh green salad.
- Meatless options include Beyond, Impossible, or house-made lentil & mushroom patties.
- Marinated tandoori chicken is always available as an alternative.
- A beautiful cocktail menu provides a more upscale nightlife experience.

#### Meet Lucky Buns

Founded in 2017, Lucky Buns has quickly become one of DC's- and America's- most sought-after burger spots. We're a group of serious industry guys who love grilling up meaty stacks, frying crispy chicken, listening to chill tunes, and want to turn the burger game up on its head!

### Explanation

A “material change” means a change that an average, careful investor would want to know about before making an investment decision. If a material change occurs after you make an investment commitment but before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

### (L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

## (M) Terms of the Securities

### Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

### Summary of Terms

Revenue Percentage <sup>1</sup>	0.3 - 0.8% <sup>2</sup>
Payment Deadline	2028-12-31
Maximum Payment Multiple <sup>3</sup> - Early Investors - All Other Investors	1.6 x 1.4 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	2.9%

<sup>1</sup> as defined in the note agreement included in Appendix A

<sup>2</sup> The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.3% and a maximum rate of 0.8% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$100,000	0.3%
\$137,500	0.4%
\$175,000	0.6%
\$212,500	0.7%
\$250,000	0.8%

<sup>3</sup> To reward early participation, the investors who contribute the first \$25,000.0 raised in the offering will receive a 1.6x cap. Investors who contribute after \$25,000.0 has been raised in the offering will receive a 1.4x cap.

### Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

#### Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

#### No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

#### Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

#### Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

#### Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

### Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

### The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Marc Dosik	45%
James Alexander McCoy	55%

### How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

### How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

### (N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

### (O) Compensation of the Funding Portal

Upon successful funding of the Offering, the Funding Portal will receive as the "Revenue Securement Fee"; 3.0% of the amount of the Offering raised by In-Network Users of the Platform plus 9.0% of the amount of the Offering raised by all other investors. "In-Network Users" means a user of Mainvest.com who who have utilized the Company's specified in-network link on the Site.
