RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises, such as COVID-19, can have a significant effect on our business operations and revenue projections.

The Company's revenue was adversely affected in 2020 related to the COVID-19 crisis. The Company experienced delays in production and in the procurement of necessary ingredients and materials due to the pandemic. Conditions have eased in 2021. If another significant outbreak of COVID-19 or another contagious disease were to occur, we may lose a significant portion of our revenue.

In addition, a significant outbreak of contagious diseases, such as COVID-19, in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. Our business currently has limited sales and future sources of revenue may not be sufficient to meet our future capital requirements. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide components and services for our products.

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our, and our customers', expectations. Our suppliers may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Company relies on certain intellectual property rights to operate its business. The Company's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Company's success depends on the experience and skill of its executive officers, its board of governors, and key employees.

We are dependent on our executive officers, board of governors and key employees. These persons may not devote their full time and attention to the matters of the Company. The loss of any or all of our executive officers, board of

governors and key employees could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

We need to rapidly and successfully develop and introduce new products in a competitive, demanding and rapidly changing environment.

To succeed in our intensely competitive industry, we must continually improve, refresh and expand our product and service offerings to include newer features, functionality or solutions, and keep pace with changes in the industry. Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which we must introduce new products or implement new functions or solutions. In addition, bringing new products or solutions to the market entails a costly and lengthy process, and requires us to accurately anticipate changing customer needs and trends. We must continue to respond to changing market demands and trends or our business operations may be adversely affected.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance, and our ability to generate meaningful additional revenues from our products.

Industry consolidation may result in increased competition, which could result in a loss of customers or a reduction in revenue.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such

as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

We have not prepared any audited financial statements.

The financial statements attached as Exhibit A to this Form C have been “reviewed” only and such financial statements have not been verified with outside evidence as to management’s amounts and disclosures. Additionally, tests on internal controls have not been conducted. Therefore, you will have no audited financial information regarding the Company’s capitalization or assets or liabilities on which to make your investment decision.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

Changes in federal, state or local laws and government regulation could adversely impact our business.

The Company is subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management's time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Affiliates of the Company, including officers, governors and existing members of the Company, may invest in this Offering and their funds will be counted toward the Company achieving the Minimum Amount.

There is no restriction on affiliates of the Company, including its officers, directors and existing members, investing in the Offering. As a result, it is possible that if the Company has raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors confidence that other investors, along with them, are sufficiently interested in the Offering and the Company and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-

affiliate investors have invested and the Minimum Amount, this protection is largely eliminated. Investors should be aware that no funds other than their own and those of affiliates investing along with them may be invested in this Offering.

Risks Related to the Offering

State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The Company could potentially be found to have not complied with securities law in connection with this Offering related to "Testing the Waters".

Prior to filing this Form C, the Company engaged in "testing the waters" permitted under Regulation Crowdfunding (17 CFR 227.206), which allows issuers to communicate to determine whether there is interest in the Offering. All communication sent is deemed to be an offer of securities for purposes of the antifraud provisions of federal securities laws. Any Investor who expressed interest prior to the date of this Offering should read this Form C thoroughly and rely only on the information provided herein and not on any statement made prior to the Offering. The communications sent to Investors prior to the Offering are attached as Exhibit E. Some of these communications may not have included proper disclaimers required for "testing the waters".

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on seventy percent (70%) of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a Crowd SAFE (Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (“Nominee”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of a Crowd SAFE or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Crowd SAFE, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Crowd SAFE. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Company nor take or effect actions that might otherwise be available to holders of the Crowd SAFE and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Crowd SAFE to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

Investors will not become equity holders until the Company decides to convert the Securities into “CF Shadow Securities” (the type of equity securities issuable upon conversion of the Securities) or until there is a change of control or sale of substantially all of the Company’s assets.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities into CF Shadow Securities. The Company is under no obligation to convert the Securities into CF Shadow Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Company or the Nominee decide to move the Crowd SAFE or the securities issuable thereto into a custodial relationship.

Investors will not have voting rights, even upon conversion of the Securities into CF Shadow Securities.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted into CF Shadow Securities (the occurrence of which cannot be guaranteed). Upon such conversion, the CF Shadow Securities will have no voting rights and, in circumstances where a statutory right to vote is provided by state law, the CF Shadow Security holders or the party holding the CF Shadow Securities on behalf of the Investors are required to enter into a proxy agreement with its designee to vote their CF Shadow Securities with the majority of the holder(s) of the securities issued in the round of equity financing that triggered the conversion right. For example, if the Securities are converted in connection with an offering of Series B Preferred Securities, Investors directly or beneficially would receive CF Shadow Securities in the form of units of Series B-CF Shadow Preferred Securities and such shares would be required to be subject to a proxy that allows a designee to vote their units of Series B-CF Shadow Preferred Securities consistent with the majority of the Series B Preferred Securities holders. Thus, Investors will essentially never be able to vote upon any matters of the Company unless otherwise provided for by the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

Equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company’s equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company’s needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Company has certain equity grants and convertible securities outstanding. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the Conversion Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the Conversion Price and not in proportion to the price per unit paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The foregoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as Exhibit C.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. Neither holders of the Securities nor holders of CF Shadow Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

Our current customer base is 75% female and 25% male, between the ages of 22-25 years old. The KUL MOCKS brand has attracted mindful drinkers, individuals trying to reduce alcohol consumption, expectant mothers, as well as those individuals who can't or prefer not to drink alcohol. We target those customers who are simply taking a night

off from drinking, planning to be the designated driver, have a big meeting in the morning, have various responsibilities, or just wish to socialize without the effects of alcohol.

Supply Chain

Although the Company is dependent upon certain third party vendors, the Company has access to alternate service providers in the event its current third-party vendors are unable to provide services or any issues arise with its current vendors where a change is required to be made. The Company does not believe the loss of a current third-party vendor or service provider would cause a major disruption to its business, although it could cause short-term limitations or disruptions.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering a minimum amount of \$25,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$250,000 (the “**Maximum Offering Amount**”) of Crowd SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best efforts basis as described in this Form C (this “**Offering**”). We must raise an amount equal to or greater than the Target Offering Amount by April 22, 2022 (the “**Offering Deadline**”). Unless we receive investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned. Potential purchasers of the Securities are referred to herein as “**Investors**” or “**you**”.

In addition to the Offering, the Company intends to concurrently undertake to raise up to an additional \$200,000 by offering to sell up to \$200,000 in securities, including but not limited to membership units, SAFEs (Simple Agreement for Future Equity) or Convertible Notes, to accredited investors outside of this Offering (the “**Concurrent Offering**”). No investors in this Offering, or potential investors who learned of the Company as a result of this Offering, will be permitted to invest in the Concurrent Offering.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities. The minimum amount that an Investor may invest in the Offering is \$100 and the maximum amount that an Investor may invest in the Offering is \$50,000, each of which is subject to adjustment in the Company’s sole discretion.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by OpenDeal Portal LLC dba Republic (the “**Intermediary**”), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with Piermont Bank until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline, or such earlier time as the Company designates pursuant to Regulation CF, using the cancellation mechanism provided by the Intermediary. The Intermediary accesses Piermont Bank’s services via a technological integration with Prime Trust, LLC that allows users of Prime Trust’s services to access certain services of Piermont Bank. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount as of the date of the expedited Offering Deadline.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be cancelled and the committed funds will be returned without interest or deductions. If an Investor does not cancel an investment commitment before the Target Offering Amount is reached, the funds will be released to the Company upon the closing of the Offering and the Investor will receive the Securities in exchange for their investment.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the new early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Company conducts an initial closing (the “**Initial Closing**”), the Company agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

Conversion

Upon each future equity financing resulting in proceeds to the Company of not less than \$1,000,000 (each an “**Equity Financing**”), the Securities are convertible at the option of the Company, into CF Shadow Securities, which are non-voting securities otherwise identical to those issued in such future Equity Financing except (1) they do not provide the right to vote on any matters except as required by law, (2) they require Investors to vote in accordance with the majority of the investors purchasing securities from the Company in such Equity Financing with respect to any such required vote and (3) they do not provide any inspection or information rights (other than those contemplated by Regulation CF or otherwise required by law). The Company has no obligation to convert the Securities in any Equity Financing.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of CF Shadow Securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below (the “**Conversion Price**”):

OR

(b) the price per unit of the securities sold in such Equity Financing multiplied by 80%.

Such Conversion Price shall be deemed the “**First Equity Financing Price**”.

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, at the Nominee’s discretion, the Investor will receive the number of CF Shadow Securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Equity Financing Price.

If there are not enough funds to pay the Investor and holders of other Crowd SAFEs that failed to act as required herein (collectively, the “**Cash-Default Investors**”) in full, then all of the Company’s available funds will be allocated with equal priority and pro rata among the Cash-Default Investors to claim in proportion to their Purchase Amounts.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of the Company undergoing an IPO (as defined below) of its Equity Interests or a Change of Control (as defined below) of the Company (either of these events, a “**Liquidity Event**”) prior to any Equity Financing, the

Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Purchase Amount subject to the following paragraph (the “**Cash Out Option**”) or (ii) a number of units of Common Securities of the Company equal to the Purchase Amount divided by the quotient of (a) \$5,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of units of the Company’s equity interests outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (x) units of equity interests reserved for future issuance under any equity incentive or similar plan; (y) any Safes; (z) convertible promissory notes; and (aa) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or Safes.

In connection with the Cash Out Option, the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other Safes (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of managers (or directors if the Company subsequently becomes a corporation), (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**IPO**” means: (A) the completion of an underwritten initial public offering of Equity Interests by the Company pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Company to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; or (B) the Company’s initial listing of its Equity Interests (other than Equity Interests not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers existing Equity Interests of the Company for resale, as approved by the Company’s board of managers, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Equity Interests of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of units of the most recently issued equity interests equal to the Purchase Amount divided by the First Equity Financing Price. Units of equity interests granted in connection therewith shall have the same liquidation rights and preferences as the units of equity interests issued in connection with the Company’s most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

If the Company’s managers (or board of directors if the Company subsequently becomes a corporation) determine in good faith that delivery of equity interests to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such equity interests, as determined in good faith by the Company’s managers (or board of directors if the Company subsequently becomes a corporation).

Dissolution

If there is a Dissolution Event (as defined below) before the Securities terminate, subject to the preferences applicable to any series of Preferred Securities then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Securities as determined in good faith by the Company's board of managers (or board of directors if the Company subsequently becomes a corporation) at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Securities upon a Dissolution Event and (iii) all holders of Common Securities.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company's creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate upon (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of units in the CF Shadow Securities to the Investor pursuant to the conversion provisions of the Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities nor the securities issuable upon the conversion of the Securities have voting rights. In addition, to facilitate the Offering to Crowd SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Company's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently at the direction of the Chief Executive Officer of the Company.

The Company does not have any voting agreements in place.

The Company does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that the Investor may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Company; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. “Member of the family” as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. In addition to the foregoing restrictions, prior to making any transfer of the Securities or any equity interests into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any equity interests into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the equity interests into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

To the Board of Members of
Kul Beverages LLC
River Falls, Wisconsin

We have reviewed the accompanying financial statements of Kul Beverages LLC (the "Company,"), which comprise the balance sheet as of December 31, 2020 and December 31, 2019, and the related statement of operations, statement of members' equity (deficit), and cash flows for the year ending December 31, 2020 and December 31, 2019, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

Going Concern

As discussed in Note 9, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern.

Kul Beverages LLC was formed on October 16, 2019 in the state of Wisconsin. The financial statements of Kul Beverages LLC (which may be referred to as the “Company”, “we”, “us”, or “our”) are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s headquarters are located in River Falls, Wisconsin.

The company created KUL MOCKS brand with no or low alcohol. Hand-crafted with simple ingredients and natural flavors, KUL MOCKS ready-to-drink alcohol free cocktails were launched to the market in July 2020.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). The Company has adopted the calendar year as its basis of reporting.

Use of Estimates

The preparation of financial statements in conformity with United States GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash in banks. The Company’s cash is deposited in demand accounts at financial institutions that management believes are creditworthy. The Company’s cash and cash equivalents in bank deposit accounts, at times, may exceed federally insured limits. As of December 31, 2020 and December 31, 2019, the Company’s cash and cash equivalents did not exceed FDIC insured limits.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are recorded at net realizable value or the amount that the Company expects to collect on gross customer trade receivables. We estimate losses on receivables based on known troubled accounts and historical experience of losses incurred. Receivables are considered impaired and written-off when it is probable that all contractual payments due will not be collected in accordance with the terms of the agreement. As of December 31, 2020 and 2019, the Company determined that no reserve was necessary.

KUL BEVERAGES LLC
NOTES TO FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

Inventories

Inventories are valued at the lower of cost and net realizable value. Costs related to raw materials, ingredients and finished goods which are determined using a FIFO method.

Income Taxes

The Company is taxed as a Limited Liability Company (LLC). Under these provisions, the Company does not pay federal corporate income taxes on its taxable income. Instead, the shareholders are liable for individual federal and state income taxes on their respective shares of the Company's taxable income. The Company has filed all its tax returns from inception through December 31, 2020 and is not yet subject to tax examination by the Internal Revenue Service or state regulatory agencies.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Revenue Recognition

The Company follows the provisions and the disclosure requirements described in ASU 2014-09 also referred to as Topic 606.

Revenue recognition, according to Topic 606, is determined using the following steps:

Identification of the contract, or contracts, with the customer: the Company determines the existence of a contract with a customer when the contract is mutually approved; the rights of each party in relation to the services to be transferred can be identified, the payment terms for the services can be identified, the customer has the capacity and intention to pay and the contract has commercial substance.

Identification of performance obligations in the contract: Performance obligations consist of a promised in a contract (written or oral) with a customer to transfer to the customer either a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.

Recognition of revenue when, or how, a performance obligation is met: Revenues are recognized when or as control of the promised goods or services is transferred to customers.

The Company earns revenues from the sale KUL MOCKS beverages to the final customers.

Costs of goods sold include the cost of goods sold, freight and delivery, ingredients packaging and supplies.

KUL BEVERAGES LLC
NOTES TO FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

Advertising and Promotion

Advertising and promotional costs are expensed as incurred. Advertising and promotional expense for the years ended December 31, 2020 and December 31, 2019 amounted to \$29,532 and \$7,648, which is included in sales and marketing expense.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments included in current assets and current liabilities (such as cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate fair value due to the short-term nature of such instruments).

The inputs used to measure fair value are based on a hierarchy that prioritizes observable and unobservable inputs used in valuation techniques. These levels, in order of highest to lowest priority, are described below:

Level 1—Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2—Observable prices that are based on inputs not quoted on active markets but corroborated by market data.

Level 3—Unobservable inputs reflecting the Company's assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Subsequent Events

The Company considers events or transactions that occur after the balance sheet date, but prior to the issuance of the financial statements to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through December 2, 2021 which is the date the financial statements were issued.

Recently Issued and Adopted Accounting Pronouncements

In February 2019, FASB issued ASU No. 2019-02, Leases, that requires organizations that lease assets, referred to as "lessees", to recognize on the balance sheet the assets and liabilities for the rights and obligations created by those leases with lease terms of more than 12 months. ASU 2019-02 will also require disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases and will include qualitative and quantitative requirements. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. We are currently evaluating the effect that the updated standard will have on the financial statements and related disclosures.

In June 2019, FASB amended ASU No. 2019-07, Compensation – Stock Compensation, to expand the scope of Topic 718, Compensation – Stock Compensation, to include share-based payment transactions for acquiring goods and services from nonemployees. The new standard for nonpublic entities will be effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020, and early application is permitted. The standard implementation did not have a material impact.

KUL BEVERAGES LLC
NOTES TO FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2020 AND DECEMBER 31, 2019

In August 2019, amendments to existing accounting guidance were issued through Accounting Standards Update 2019-15 to clarify the accounting for implementation costs for cloud computing arrangements. The amendments specify that existing guidance for capitalizing implementation costs incurred to develop or obtain internal-use software also applies to implementation costs incurred in a hosting arrangement that is a service contract. The guidance is effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021, and early application is permitted. The standard implementation did not have a material impact.

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

9. GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has recently commenced operations and has a net operating loss of \$46,733, an operating cash flow loss of \$179,908 and liquid assets in cash of \$13,752, which less than a year worth of cash reserves as of December 31, 2020. The Company's situation raises a substantial doubt on whether the entity can continue as a going concern in the next twelve months.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results.

Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. During the next twelve months, the Company intends to fund its operations through debt and/or equity financing.

There are no assurances that management will be able to raise capital on terms acceptable to the Company. If it is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of its planned development, which could harm its business, financial condition, and operating results. The accompanying financial statements do not include any adjustments that might result from these uncertainties.

Problem**The emerging no- and low- alcohol category continues to see rapid growth**

The top spots for non-alcoholic beer, wine, and spirits are taken. Who will be the market leader for zero proof RTD cocktails?

A relatable story...

Nate and Danielle Goss were overjoyed when they found out they were expecting their first child. As a couple who took pleasure in socializing over cocktails, they began seeking non-alcoholic options for Danielle.

In the process, they quickly realized that booze-free cocktails and ready-to-drink mocktails were hard to find or non-existent in stores, bars and restaurants. The “non-alcoholic” beers and wines they were able to find still didn't meet Danielle's needs as many of these options still contained small amounts of alcohol. Likewise, other options including soda and sparkling water didn't fill the void of having social cocktails with family and friends.

For all of these reasons, Danielle—also a Registered Dietitian by trade—spent the summer and fall of 2019 creating her own mocktails from scratch.

Danielle relates, “All I wanted was for Nate to be able to head to the local store, grab a 6-pack of beer for him and a pack of something that tasted great and gave me the same social experience I’d get from drinking a cocktail, but without the booze. Time and time again I said to Nate, ‘How isn’t there anything out there like this? Is it too much to ask?’”

After conducting extensive market research, doing focus groups and consulting beverage industry experts, they found the demand for 100% booze-free options extended well beyond pregnant women. In fact, they learned that the world’s continued focus on health and wellness has created a new group of consumers who classify themselves as “mindful drinkers,” fueling the demand for low- and no-alcohol beverages.

These findings validated Nate and Danielle's business concept. With the support of close family and friends, they began formulating beverages for the KUL MOCKS brand—just months before becoming a family of 3.

Business Model

Multi-channel distribution

We work closely with wholesale beer, wine & spirits distributors to bring the KUL MOCKS experience to retail, hospitality, and beyond.

As a non-alcoholic beverage company, we have the advantage of selling direct-to-consumer (DTC) to anyone in the United States through Amazon and kulmocks.com.

We've invested in multi-channel distribution because of its many benefits, including:

- Improved customer perception
- Increased customer base
- Diversity risk
- Growing into untapped markets
- Greater control over our future

Market

Tapping into a \$30B market

"The global market for non-alcoholic drinks is expected to grow to \$30 billion by 2025," according to Global Market Insights. As the no- and low- alcohol category continues to thrive, market leaders in beer, wine and spirits are quite clear. With the RTD spot still up for grabs, we are on pace to fill that spot in the category as one of the first ready-to-drink 0.00% ABV craft mocktails on the market.

The moderation movement is picking up speed!

The 2021 IWSR report on the "nolo" category (nolo" meaning no- and low- alcohol) further supports our marketing efforts to appeal to both drinkers and non-drinkers, finding that: "68% of people consuming "nolo" beverages also drink full-strength alcoholic beverages on the same occasion." What does this mean? ***We have tremendous market opportunity with people looking to moderate their alcohol intake (a.k.a. "mindful drinkers").***

Here are some other important statistics to keep in mind:

- "Nolo" consumption is up in the US despite the pandemic, registering +30% increase in 2020. - **IWSR**
- "Dry January" movement is a sign that health and wellness trends are "gaining traction across the world." - **Forbes**
- The largest low/no-alcohol gain in the US will be ready-to-drink products, with a Compound Annual Growth Rate (CAGR) of +38.8% by 2022. - **IWSR**
- Only 60% of U.S. adults drink alcoholic beverages, down from 65% in 2019. This puts current alcohol consumption on the low end of the range Gallup has recorded over the past two decades. - **Gallup 2021**
- Approximately 6 million women are pregnant in the US each year. - **CDC**
- Health-conscious Millennials are driving the mindful drinking movement, with 66% (44.7 million consumers!) making efforts to reduce their alcohol consumption. - **Neilsen**

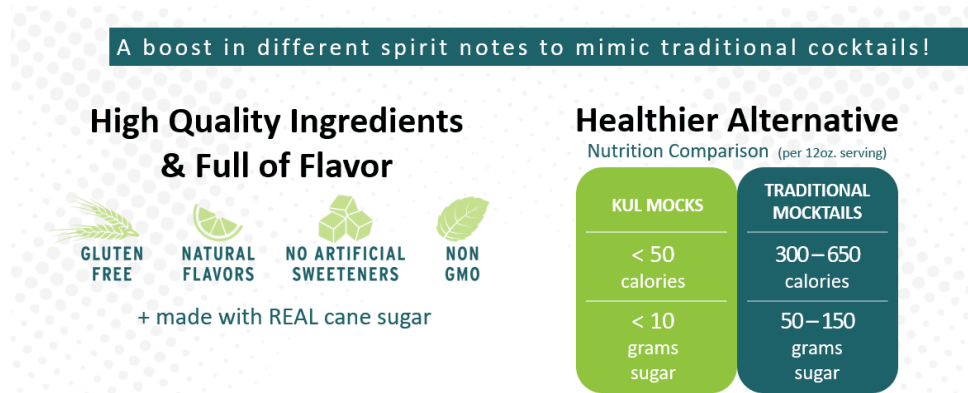

Competition

Sipping and scanning what's available? KUL MOCKS stands out as the obvious choice.

We are the only RTD 0.00% ABV mocktail that is infused with spirit notes, and contains a fraction of the calories and sugar found in traditional mocktails.

Traditional mocktails are loaded with sugar; not KUL MOCKS! We blend just a touch of real cane sugar with natural sweeteners made from stevia and monk fruit—which makes our craft mocktails 50 calories or less without sacrificing any taste. Uniquely created with health and wellness in mind, KUL MOCKS are gluten free, non-GMO, caffeine free and contain **NOTHING artificial!**

Leading with purpose

Our passion extends well beyond the beverages. As we continue to grow and get into the hands of more consumers across the country, we are committed to sharing our success to make a difference.

We're just getting started

We are proud to have been a GOLD SPONSOR of the Sober Mom Squad (SMS). SMS is a Squad of Moms who are exploring an alcohol free lifestyle, already sober, and everything in between!

SMS started during the 2020 pandemic. As a GOLD SPONSOR, we supported Group Coaching Sessions and provided Membership Scholarships to support women on their motherhood journey nationwide.

Anyone can be challenged to have a family, and approximately 1 in 8 couples are affected by infertility in the United States. We're committed to doing our part. During 2021 National Infertility Awareness Week, we sold Mother's Day Gift Packages. 7% of the net proceeds from Mother's Day Gift Packages sold were donated directly to the non-profit organization RESOLVE, The National Infertility Association.

Beyond the beverages, our appetite for making the world a better place is strong—and that is what our **KUL MOCKS Kares** program is all about.

Investors

We conducted a family and friends capital raise back in February of 2020 to help get us through our first production run. Since then, co-founders Danielle and Nate Goss have been bootstrapping the business.

KUL MOCKS is now seeking working capital to achieve growth goals for 2022 and beyond.

FAQ**How do I
earn a
return?**

We are using Republic's Crowd SAFE security. Learn how this translates into a return on investment here.

What must I do to receive my equity or cash in the event of the conversion of my Crowd SAFE?

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

Crowd SAFE
(Crowdfunding Simple Agreement for Future Equity)

Series 2022

THIS CERTIFIES THAT in exchange for the payment by [Investor Name] (the “**Investor**”, and together with all other Series 2022 Crowd SAFE holders, “**Investors**”) of \$[] (the “**Purchase Amount**”) on or about [Date of Crowd SAFE], Kul Beverages LLC, a Wisconsin limited liability company (the “**Company**”), hereby issues to the Investor the right to certain units of the Company’s Equity Interests (defined below), subject to the terms set forth below.

The “**Discount**” is 20%.

The “**Valuation Cap**” is \$5,000,000.

See Section 2 for certain additional defined terms.

1. Events

(a) **Equity Financing.**

(i) If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) (“**First Equity Financing**”), the Company shall promptly notify the Investor of the closing of the First Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Purchase Amount to Equity Interests; or (2) issue to the Investor a number of units of the CF Shadow Series of the Equity Interests (whether Preferred Securities or another class issued by the Company), as applicable, sold in the First Equity Financing. The number of units of the CF Shadow Series of such Equity Interests shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the applicable Conversion Price (such applicable Conversion Price, the “**First Equity Financing Price**”).

(ii) If the Company elects to continue the term of this Crowd SAFE past the First Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Company shall promptly notify the Investor of the closing of the Subsequent Equity Financing and of the Company’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Investor’s Purchase Amount to Equity Interests; or (2) issue to the Investor a number of units of the CF Shadow Series of the Equity Interests (whether Preferred Securities or another class issued by the Company) sold in the Subsequent Equity Financing. The number of units of the CF Shadow Series of such Equity Interests shall equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of units of Common Securities equal to the Purchase Amount (or a lesser amount as described below) divided by the Liquidity Price.

(ii) If there is a Liquidity Event after one or more Equity Financings have occurred but before the termination of this instrument, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Company a number of units of the most recent issued Equity Interests (whether Preferred Securities or another class issued by the Company) equal to the Purchase Amount divided by the First Equity Financing Price. Units of Equity Interests granted in connection therewith shall have the same liquidation rights and preferences as the units of Equity Interests issued in connection with the Company’s most recent Equity Financing.

(iii) If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts. In connection with this Section 1(b), the Purchase Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event.

Notwithstanding Sections 1(b)(i)(2) or 1(b)(ii)(2), if the Company’s manager(s) (or board of directors if the Company becomes a corporation) determines in good faith that delivery of Equity Interests to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Equity Interests, as determined in good faith by the Company’s manager(s) (or board of directors if the Company becomes a corporation).

(c) **Dissolution Event.** If there is a Dissolution Event before this instrument terminates in accordance with Sections 1(a) or 1(b), subject to the preferences applicable to any series of Preferred Securities, the Company will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Securities as determined in good faith by the Company’s manager(s) (or board of directors if the Company becomes a corporation) at the time of Dissolution Event), (ii) all other holders of instruments sharing in the assets of the Company at the same priority as holders of Common Securities upon a Dissolution Event and (iii) and all holders of Common Securities.

(d) **Termination.** This instrument will terminate (without relieving the Company or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of units, whether in Equity Interests or in the CF Shadow Series or Common Securities to the Investor pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Sections 1(b) or 1(c).

2. Definitions

- (i) CF Shadow Series members shall have no voting rights and shall not be entitled to vote on any matter that is submitted to a vote or for the consent of the members of the Company; and

“Equity Interests” shall mean Common Securities, Preferred Securities, any other capital or profits interest of the Company or any securities convertible into, exchangeable for or conferring the right to purchase (with or without additional consideration) Common Securities or Preferred Securities, except in each case, (i) any security granted, issued and/or sold by the Company to any director, officer, employee, advisor or consultant of the Company in such capacity for the primary purpose of soliciting or retaining his, her or its services, (ii) any convertible promissory notes issued by the Company, and (iii) any SAFEs issued.

“Fully Diluted Capitalization” shall mean the aggregate number, as of immediately prior to the First Equity Financing, of issued and outstanding units of Equity Interests, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including units of convertible Preferred Securities and all outstanding vested or unvested options or warrants to purchase Equity Interests, but excluding (i) the issuance of all units of Equity Interests reserved and available for future issuance under any of the Company’s existing equity incentive plans, (ii) convertible promissory notes issued by the Company, (iii) any SAFEs, and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs.

“Liquidity Capitalization” means the number, as of immediately prior to the Liquidity Event, of units of the Company’s Equity Interests (on an as-converted basis) outstanding, assuming exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (i) units of Equity Interests reserved and available for future grant under any equity incentive or similar plan; (ii) any SAFEs; (iii) convertible promissory notes; and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs.

“SAFE Price” means the price per unit equal to (x) the Valuation Cap divided by (y) the Fully Diluted Capitalization.

(d) No consents or approvals are required in connection with the performance of this instrument, other than: (i) approvals from the Company’s members or board of managers; (ii) any qualifications or filings under applicable securities laws; and (iii) necessary corporate approvals for the authorization of units of CF Shadow Series issuable pursuant to Section 1.

All such shares shall be duly authorized, and when issued upon any such conversion, shall be validly issued, fully paid and non-assessable, free and clear of all liens, security interests, charges and other encumbrances or restrictions on sale and free and clear of all preemptive rights, except encumbrances or restrictions arising under federal or state securities laws.

KUL MOCKS – Craft Mocktails

Crowdfunding Pitch Video Script (2021)

NATE

A cocktail without alcohol? What?!

DANIELLE

Well, here's the thing...

- *Sarah is a nurse who is on call all weekend.*
- *Rich is a dad and well-known drummer who doesn't drink alcohol anymore*
- *Stephanie has a hardworking mom of one who moderates her alcohol intake to have present moments with her family.*
- *and finally, a group of college student hanging out and making memories, that they'll actually remember.*

DANIELLE

Hi everyone – I'm Danielle Goss and this is my husband Nate Goss.

NATE

and we're the founders of KUL MOCKS, Craft Mocktails and we believe that cutting back or passing on alcohol shouldn't make you feel like you can't be social and still have a great time.

DANIELLE

Our journey began in the Spring of 2019, when we found out we were expecting our first child. A very special time in our lives. We've always been a social couple who's enjoyed a beverage or two with family and friends, so we set out to find ready-to-drink options that I could enjoy. I didn't want boring options like water or soda, I wanted something that was fun and social, just without the booze. We struck out in finding what I was looking for and ultimately decided to conduct a ton of market research. And what did we find? Well we learned that the demand for non-alcoholic adult beverage options extended well-beyond pregnant women.

Creating KUL MOCKS wasn't just about the beverages, it was about creating the experience of drinking a delicious craft cocktail, just without the alcohol. We worked with some of the best flavorists and food scientists in the country to take our scratch made mocktails from our kitchen and turn that into an emerging craft mocktail business.

NATE

Our award-winning lineup currently comes in 3 delicious flavors:

- The strawberry Mock-arita
- The Mock Mule

- And the Blackberry Mock-jito

Each ready-to-drink mocktail comes in the 12-ounce sleek can and is infused with spirit notes to mimic that classic cocktail experience.

DANIELLE

We brought KUL MOCKS to consumers back in July of 2020. Fast forward to now, we are a family of 4 and year-to-date, KUL MOCKS is sold in over a thousand stores, 10 states, numerous on-premise locations and we have a rapidly growing direct to consumer business.

NATE

The brand has attracted a rapidly growing consumer base. From mindful drinkers or those who are cutting back on alcohol, expectant and nursing mothers, and those who choose not to or cannot consume alcohol depending on their unique situation. Taking the night off? Planning to be the DD? Got things to do in the morning? Whatever the occasion, we've got you covered.

DANIELLE

2022 will be another year of growth for us as we further penetrate current markets, expand into new markets and launch refreshing new products.

We're on a mission to become a market leader in the rapidly growing no and low alcohol category. With recent studies showing 40% of Americans aren't drinking and over half of US adults are currently working on cutting back on alcohol, it's an exciting time to be in the non-alcoholic beverage business. We appreciate your time and consideration and invite you to join us, invest in KUL MOCKS and let's help everyone feel a part of the social drinking experience.

DANIELLE & NATE

Cheers!

KUL MOCKS Review Video

Hi Chris Marshall with Sans Bar.

Back with another product that I'm excited to try, it is KUL MOCKS.

And they've sent us their product today and I'm excited to ah, see what they have to offer so let's get right into it.

This is the Strawberry Mock-arita, and I've never tried these before so I'm going to start right here. And the color is just beautiful. Somehow, they've accomplished a natural looking color without it being kind of too fake or inauthentic. The smell, you can smell fresh strawberries you can smell fresh lime. That's good, that's good. I taste that it's naturally sweet, I don't taste any artificial sweeteners in here. It's also gluten free, a light sparkle with the carbonated water. But overall, this reminds me of a drink you'd have on a hot day. I love that you don't have to do any of the hard work of making your own drink. It's all right here for you in a can.

The next product they have to offer is the Mock Mule. Like the name, and ah, what would a mule be without a copper glass, so I've already got that set up, so let's go ahead and open this one up and I can see the ginger on the can which is always a good sign. So I can smell a little bit of ginger, a little bit of lime. Again, lightly carbonated. Right on, right on. That's perfect, not again, overpoweringly sweet. Let's see, it has 10g of sugar, 45 calories which is well worth it. That's great. That's just fantastic. I just like that it's not overpoweringly strong, because ginger can be a very strong flavor sometimes, it can kind of overwhelm the senses, but this is nice and subtle. Hmm I like that a lot.

The last one is the Blackberry Mock-jito. Again, clever name. So none of these have any artificial sweeteners. Kind of a nice berry flavor. Oh the color, love the color, love the color and I've gone ahead and just anticipated a delicious drink by garnishing it with a little bit of mint, give this a nice stir, and a sip.

That one might be my favorite. Yeah, minty with a nice berry flavor. Yeah I really dig what's happening with this one. So all in all, A being fantastic, F being absolutely horrible. This product gets an A+.

Just a great product. Something that is so easy and accessible. If you're trying to slow or stop your drinking, it's so important to have a product that you can just pick up and take with you to a party, no one has to ask what you're drinking because you already have something in your hand.

So if you're looking for something new to try, KUL MOCKS is a must try.

Problem

The emerging no- and low- alcohol category continues to see rapid growth

The top spots for non-alcoholic beer, wine, and spirits are taken. Who will be the market leader for zero proof RTD cocktails?

A relatable story...

Nate and Danielle Goss were overjoyed when they found out they were expecting their first child. As a couple who took pleasure in socializing over

In the process, they quickly realized that booze-free cocktails and ready-to-drink mocktails were hard to find or non-existent in stores, bars and restaurants. Likewise, other options including soda and sparkling water didn't fill the void of having social cocktails with family and friends.

For all of these reasons, Danielle—also a Registered Dietitian by trade—spent the summer and fall of 2019 creating her own mocktails from scratch.

Danielle relates, "All I wanted was for Nate to be able to head to the local store, grab a 6-pack of beer for him and a pack of something that tasted good. Is there anything out there like this? Is it too much to ask?"

After conducting extensive market research, doing focus groups and consulting beverage industry experts, they found the demand for 100% booze-free group of consumers who classify themselves as "mindful drinkers," fueling the demand for low- and no-alcohol beverages.

These findings validated Nate and Danielle's business concept. With the support of close family and friends, they began formulating beverages for

Problem**The emerging no- and low- alcohol category continues to see rapid growth**

The top spots for non-alcoholic beer, wine, and spirits are taken. Who will be the market leader for zero proof RTD cocktails?

A relatable story...

Nate and Danielle Goss were overjoyed when they found out they were expecting their first child. As a couple who took pleasure in socializing over cocktails, they began seeking non-alcoholic options for Danielle.

In the process, they quickly realized that booze-free cocktails and ready-to-drink mocktails were hard to find or non-existent in stores, bars and restaurants. The “non-alcoholic” beers and wines they were able to find still didn’t meet Danielle’s needs as many of these options still contained

small amounts of alcohol. Likewise, other options including soda and sparkling water didn't fill the void of having social cocktails with family and friends.

For all of these reasons, Danielle—also a Registered Dietitian by trade—spent the summer and fall of 2019 creating her own mocktails from scratch.

Danielle relates, "All I wanted was for Nate to be able to head to the local store, grab a 6-pack of beer for him and a pack of something that tasted great and gave me the same social experience I'd get from drinking a cocktail, but without the booze. Time and time again I said to Nate, 'How isn't there anything out there like this? Is it too much to ask?'"

After conducting extensive market research, doing focus groups and consulting beverage industry experts, they found the demand for 100% booze-free options extended well beyond pregnant women. In fact, they learned that the world's continued focus on health and wellness has created a new group of consumers who classify themselves as "mindful drinkers," fueling the demand for low- and no-alcohol beverages.

These findings validated Nate and Danielle's business concept. With the support of close family and friends, they began formulating beverages for the KUL MOCKS brand—just months before becoming a family of 3.

Retail partners

KUL MOCKS is sold across the following 10 states as of Fall 2021. In 2022, we will be further penetrating these markets and also expanding into new markets.

Our beverages can be found on display in the cold box next to non-alcoholic beers, and on the shelf in both grocery and liquor stores. Most recently KUL MOCKS has been introduced to on-premise locations, golf courses, festivals and stadiums (like the new Austin, Texas Q2 Stadium).

We are in talks with several event planners, stadium managers and festival buyers. As many of their customers are now drinking in moderation or are wanting to socialize over drinks without the effects of alcohol, they understand the opportunity—and are welcoming increased check averages and the promotion of consumption with open arms.

Award-winning

Each of our craft mocktails received high-scoring awards at the 2020 and 2021 PR%F Awards. We also received recognition both years for our uniqueness as a Women-Owned beverage brand.

WBENC-Certified WBE

KUL MOCKS is certified as a Women's Business Enterprise by the Women's Business Enterprise National Council (WBENC), the nation's largest third-party certifier of businesses owned and operated by women.

We recognize the commitment to supplier diversity that is embraced by corporations and government agencies today and we can add diversity to distributors and retailers nationwide.

Consumers are continuing to prioritize wellness, and being conscious of alcohol intake is an extension of that trend. According to Nielsen data: "Health-conscious Millennials are driving the mindful drinking movement, with 66% making efforts to reduce their alcohol consumption."

KUL MOCKS has attracted mindful drinkers, people cutting back on booze, and expectant mothers, as well as others who simply can't or prefer not to drink alcohol.

Business Model

Multi-channel distribution

We work closely with wholesale beer, wine & spirits distributors to bring the KUL MOCKS experience to retail, hospitality, and beyond.

As a non-alcoholic beverage company, we have the advantage of selling direct-to-consumer (DTC) to anyone in the United States through Amazon and kulmocks.com.

We've invested in multi-channel distribution because of its many benefits, including:

- Improved customer perception
- Increased customer base
- Diversity risk
- Growing into untapped markets
- Greater control over our future

Market

Tapping into a \$30B market

"The global market for non-alcoholic drinks is expected to grow to \$30 billion by 2025," according to Global Market Insights. As the no- and low-alcohol category continues to thrive, market leaders in beer, wine and spirits are quite clear. With the RTD spot still up for grabs, we are on pace to fill that spot in the category as one of the first ready-to-drink 0.00% ABV craft mocktails on the market.

The moderation movement is picking up speed!

The 2021 IWSR report on the "nolo" category (nolo" meaning no- and low-alcohol) further supports our marketing efforts to appeal to both drinkers and non-drinkers, finding that: "68% of people consuming "nolo" beverages also drink full-strength alcoholic beverages on the same occasion." What does this mean? ***We have tremendous market opportunity with people looking to moderate their alcohol intake (a.k.a. "mindful drinkers").***

Here are some other important statistics to keep in mind:

- "Nolo" consumption is up in the US despite the pandemic, registering +30% increase in 2020. - **IWSR**
- "Dry January" movement is a sign that health and wellness trends are "gaining traction across the world." - **Forbes**
- The largest low/no-alcohol gain in the US will be ready-to-drink products, with a Compound Annual Growth Rate (CAGR) of +38.8% by 2022. - **IWSR**
- Only 60% of U.S. adults drink alcoholic beverages, down from 65% in 2019. This puts current alcohol consumption on the low end of the range Gallup has recorded over the past two decades. - **Gallup 2021**

- *Approximately 6 million women are pregnant in the US each year. – CDC*
- *Health-conscious Millennials are driving the mindful drinking movement, with 66% (44.7 million consumers!) making efforts to reduce their alcohol consumption. - Nielsen*

Competition

Sipping and scanning what's available? KUL MOCKS stands out as the obvious choice.

We are the only RTD 0.00% ABV mocktail that is infused with spirit notes, and contains a fraction of the calories and sugar found in traditional mocktails.

Traditional mocktails are loaded with sugar; not KUL MOCKS! We blend just a touch of real cane sugar with natural sweeteners made from stevia and monk fruit—which makes our craft mocktails 50 calories or less without sacrificing any taste. Uniquely created with health and wellness in mind, KUL MOCKS are gluten free, non-GMO, caffeine free and contain **NOTHING artificial!**

The top spots for non-alcoholic beer, wine, and spirits are taken. Who will be the market leader for zero proof RTD cocktails?

A relatable story...

Nate and Danielle Goss were overjoyed when they found out they were expecting their first child. As a couple who took pleasure in socializing over cocktails, they began seeking non-alcoholic options for Danielle.

In the process, they quickly realized that booze-free cocktails and ready-to-drink mocktails were hard to find or non-existent in stores, bars and restaurants. The “non-alcoholic” beers and wines they were able to find still didn't meet Danielle's needs as many of these options still contained small amounts of alcohol. Likewise, other options including soda and sparkling water didn't fill the void of having social cocktails with family and friends.

For all of these reasons, Danielle—also a Registered Dietitian by trade—spent the summer and fall of 2019 creating her own mocktails from scratch.

In fact, they learned that the world’s continued focus on health and wellness has created a new group of consumers who classify themselves as “mindful drinkers,” fueling the demand for low- and no-alcohol beverages.

These findings validated Nate and Danielle's business concept. With the support of close family and friends, they began formulating beverages for the KUL MOCKS brand—just months before becoming a family of 3.

Market

Tapping into a \$30B market

"The global market for non-alcoholic drinks is expected to grow to \$30 billion by 2025," according to Global Market Insights. As the no- and low- alcohol category continues to thrive, market leaders in beer, wine and spirits are quite clear. With the RTD spot still up for grabs, we are on pace to fill that spot in the category as one of the first ready-to-drink 0.00% ABV craft mocktails on the market.

The moderation movement is picking up speed!

The 2021 IWSR report on the "nolo" category (nolo" meaning no- and low- alcohol) further supports our marketing efforts to appeal to both drinkers and non-drinkers, finding that: "68% of people consuming "nolo" beverages also drink full-strength alcoholic beverages on the same occasion." What does this mean? ***We have tremendous market opportunity with people looking to moderate their alcohol intake (a.k.a. "mindful drinkers").***

Here are some other important statistics to keep in mind:

- "Nolo" consumption is up in the US despite the pandemic, registering +30% increase in 2020. - **IWSR**
- "Dry January" movement is a sign that health and wellness trends are "gaining traction across the world." - **Forbes**
- The largest low/no-alcohol gain in the US will be ready-to-drink products, with a Compound Annual Growth Rate (CAGR) of +38.8% by 2022. - **IWSR**
- Only 60% of U.S. adults drink alcoholic beverages, down from 65% in 2019. This puts current alcohol consumption on the low end of the range Gallup has recorded over the past two decades. - **Gallup 2021**
- Approximately 6 million women are pregnant in the US each year. - **CDC**
- Health-conscious Millennials are driving the mindful drinking movement, with 66% (44.7 million consumers!) making efforts to reduce their alcohol consumption. - **Neilsen**

Competition

Sipping and scanning what's available? KUL MOCKS stands out as the obvious choice.

KUL MOCKS is one of the 1st of its kind to hit the market in the disruptive low and no alcohol category.

✓ New category = big opportunity
We are not just another brand on the shelf!

We are the only RTD 0.00% ABV mocktail that is infused with spirit notes, and contains a fraction of the calories and sugar found in traditional mocktails.

Traditional mocktails are loaded with sugar; not KUL MOCKS! We blend just a touch of real cane sugar with natural sweeteners made from stevia and monk fruit—which makes our craft mocktails 50 calories or less without sacrificing any taste. Uniquely created with health and wellness in mind, KUL MOCKS are gluten free, non-GMO, caffeine free and contain **NOTHING artificial!**

A boost in different spirit notes to mimic traditional cocktails!

Leading with purpose

Our passion extends well beyond the beverages. As we continue to grow and get into the hands of more consumers across the country, we are committed to sharing our success to make a difference.

We're just getting started

We are proud to have been a GOLD SPONSOR of the Sober Mom Squad (SMS). SMS is a Squad of Moms who are exploring an alcohol free lifestyle, already sober, and everything in between!

SMS started during the 2020 pandemic. As a GOLD SPONSOR, we supported Group Coaching Sessions and provided Membership Scholarships to support women on their motherhood journey nationwide.

Anyone can be challenged to have a family, and approximately 1 in 8 couples are affected by infertility in the United States. We're committed to doing our part. During 2021 National Infertility Awareness Week, we sold Mother's Day Gift Packages. 7% of the net proceeds from Mother's Day Gift Packages sold were donated directly to the non-profit organization RESOLVE, The National Infertility Association.

Beyond the beverages, our appetite for making the world a better place is strong—and that is what our **KUL MOCKS Kares** program is all about.

Investors

We conducted a family and friends capital raise back in February of 2020 to help get us through our first production run. Since then, co-founders Danielle and Nate Goss have been bootstrapping the business.

KUL MOCKS is now seeking working capital to achieve growth goals for 2022 and beyond.

FAQ**How do I
earn a
return?**

We are using Republic's Crowd SAFE security. Learn how this translates into a return on investment here.

What must I do to receive my equity or cash in the event of the conversion of my Crowd SAFE?

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

"Overall, the opportunity is in RTD," Dreher said. "Spirit-like products [may end up] being for foodservice... But I think the opportunity, actually, is more in something ready-to-drink that delivers a standard cocktail."
