Registration Statement on Form S-4 filed January 12, 2022

Redemption Rights, page 21

1. We note that certain stockholders agreed to waive their redemption rights. Please describe any consideration provided in exchange for this agreement.

Selected Historical Combined Financial and Other Data of FAHL
Adjusted EBITDA Calculation, page 32

2. In light of the materiality of the adjustment labeled "Others" to derive Adjusted EBITDA, please expand your disclosure to provide a breakdown of the components of this adjustment and to address why each component is deemed appropriate when considering Question 100.01 and 100.02 of the SEC Staff's Compliance and Disclosure Interpretations on non-GAAP Financial Measures. For example, per the second paragraph on page 31

you define Adjusted EBITDA as EBITDA adjusted for (i) non-recurring income (expenses), including tax penalties, bad debt resulting from customers who ceased operations during the COVID-19 pandemic, and a decrease of governmental subsidies during 2021, and (ii) foreign currency exchange gains or losses. It is generally not appropriate to adjust for hypothetical, non-incremental items that may be attributed to the pandemic such as bad debts from customers who ceased operations during the pandemic or decreased government subsidies during 2021.

8. Please clarify if the sponsor and its affiliates can earn a positive rate of return on their investment, even if other SPAC stockholders experience a negative rate of return in the post-business combination company.
