Jason Black

President at Scream Truck
New York City Metropolitan Area

Summary

Jason is President of Scream Truck, a delivery platform “driven” by proprietary software and based on impulse buying and experiences. Their mission is simple. Scream Truck gives people something to look forward to. In addition to overall strategic growth and capital solutions, he leads Scream Truck's operations, business and finance functions across multiple verticals.

Before Scream Truck, Jason cut his teeth at Goldman Sachs and then spent the next thirteen years analyzing and then leading deals in the distressed real estate, private equity and hospitality related space while developing his business management acumen. The opportunity to work with many business executives and hands-on operators inspired Jason to move his career into Phase 2: entrepreneurship and leadership.
