Investors will not have the right to vote upon matters of the Issuer even if and when their Securities are converted (the occurrence of which cannot be guaranteed). Under the terms of the Securities, a third-party designated by the Issuer will exercise voting control over the Securities. Upon conversion, the Securities will continue to be voted in line with the designee identified or pursuant to a voting agreement related to the equity securities the Security is converted into. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Securities that allows a designee to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Issuer unless otherwise provided for by the Issuer.....	13

THE OFFERING AND THE SECURITIES

The Offering

The Issuer is offering a minimum amount of \$50,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$1,235,000 (the “**Maximum Offering Amount**”) of Crowd SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best efforts basis as described in this Form C/A (this “**Offering**”). The Minimum Individual Purchase Amount is \$ 300 and the Maximum Individual Purchase Amount is \$100,000. The Issuer reserves the right to amend the Minimum Individual Purchase Amount and Maximum Individual Purchase Amount, in its sole discretion. In particular, the Issuer may elect to participate in one of the Intermediary’s special investment programs and may offer alternative Minimum Individual Purchase Amounts and Maximum Individual Purchase Amounts to Investors participating in such programs without notice. The Issuer must raise an amount equal to or greater than the Target Offering Amount by April 20th, 2024 (the “**Offering Deadline**”). Unless the Issuer receives investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be canceled and all committed funds will be returned.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Issuer’s asset value, net worth, revenues or other objective established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the purchase process hosted by the **Intermediary** (as defined above), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Issuer are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with a qualified third party escrow agent meeting the requirements of Regulation CF (“**Escrow Agent**”) until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline or an intermediate close, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds. If the Investor does not cancel an investment commitment before the 48-hour period prior to the Offering Deadline, the funds will be released to the Issuer and the Investor will receive their Securities.**

The Issuer will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Issuer reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Issuer continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Issuer’s profile page on the Intermediary’s website under <https://republic.com/sugarwood> (the “**Deal Page**”). The Deal Page can be used by prospective Investors to ask the Issuer questions and for the Issuer to post immaterial updates to this Form C/A as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Issuer will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be canceled and the committed funds will be returned without interest or deductions.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Issuer designates pursuant to Rule 304(b) of Regulation CF, the Issuer may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Issuer conducts an initial closing (the “**Initial Closing**”), the Issuer agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Issuer may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Issuer upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Issuer has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Issuer until they are accepted by the Issuer, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Issuer rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C/A and the Instrument attached as Exhibit B, in conjunction with the following summary information.

Not Currently Equity Interests

The Securities are not currently equity interests in the Issuer and merely provide a right to receive equity at some point in the future upon the occurrence of certain events (which may or may not occur).

Dividends and/or Distributions

The Securities do not entitle Investors to any dividends.

Nominee

The Nominee (as defined below) will act on behalf of the Investors as their agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Securities. The Nominee will take direction from a pre-disclosed party selected by the Issuer and designated below on any matter in which affects the Investors’ economic rights. The Nominee is not a fiduciary to the Investors and the Investors agree to indemnify the Nominee per the terms of the Security.

Conversion

Upon the next sale (or series of related sales) by the Issuer of its Capital Stock to one or more third parties resulting in gross proceeds to the Issuer of not less than \$1,000,000 cash and cash equivalent (each an “**Equity Financing**”), the Securities are convertible into shares of the securities issued in said Equity Financing, at the option of the Issuer.

Conversion Upon the First Equity Financing (Early Investors)

If the Issuer elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, each investor who invests during the first tranche of the Offering, which includes the initial purchases amounting up to and including the sum of \$200,000.00 (collectively, “**Early Investors**”) will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below:

(a) the quotient of \$5,000,000 (“**Valuation Cap for Early Investors**”) divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**SAFEs**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Issuer immediately prior to the First Equity Financing is less than or equal to the Valuation Cap for Early Investors, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the “**First Equity Financing Price For Early Investors**”.

Conversion Upon the First Equity Financing (Standard Investor)

If the Issuer elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, each investor who invests during the second tranche of the Offering, which includes all purchases from \$200,000.01 to \$1,235,000 (collectively, “**Standard Investors**”) will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below:

(a) the quotient of \$7,500,000 (“**Valuation Cap for Standard Investors**”) divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**SAFEs**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Issuer immediately prior to the First Equity Financing is less than or equal to the Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the “**First Equity Financing Price for Standard Investors**”.

Conversion After the First Equity Financing

If the Issuer elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, at the Issuer’s discretion the Investor will receive, the number of converted securities equal to the quotient obtained by dividing (a) the Purchase Amount by (b) the First Equity Financing Price for Early Investors or the First Equity Financing Price for Standard Investors, as applicable to the Investor.

Conversion Upon a Liquidity Event Prior to an Equity Financing (Early Investors)

For Early Investors, in the case of the Issuer's undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security) or a **Change of Control** (as defined below) of the Issuer (either of these events, a "**Liquidity Event**") prior to any Equity Financing, the Investor will receive, at its option and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Purchase Amount subject to the following paragraph (the "**Cash Out Option**") or (ii) a number of shares of Common Stock of the Issuer equal to the Purchase Amount divided by the quotient of (a) \$5,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Issuer's capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any SAFEs; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs.

Conversion Upon a Liquidity Event Prior to an Equity Financing (Standard Investors)

For Standard Investors, in the case of the Issuer's undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security) or a **Change of Control** (as defined below) of the Issuer (either of these events, a "**Liquidity Event**") prior to any Equity Financing, the Investor will receive, at its option and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Purchase Amount subject to the following paragraph (the "**Cash Out Option**") or (ii) a number of shares of Common Stock of the Issuer equal to the Purchase Amount divided by the quotient of (a) \$7,500,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Issuer's capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any SAFEs; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs

In connection with the Cash Out Option, the Purchase Amount (or a lesser amount as described below) will be due and payable by the Issuer to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other SAFEs (collectively, the "**Cash-Out Investors**") in full, then all of the Issuer's available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

"**Change of Control**" as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Issuer's board of directors, (ii) any reorganization, merger or consolidation of the Issuer, in which the outstanding voting security holders of the Issuer fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Issuer.

"**IPO**" as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Issuer pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Issuer to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Issuer's initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Issuer with the SEC that registers shares of existing capital stock of the Issuer for resale, as approved by the Issuer's board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Issuer.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at its option and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of shares of the most recently issued capital stock equal to the Purchase Amount divided by the First Equity Financing

Price for Early Investors or the First Equity Financing for Standard Investors, as applicable. Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Issuer's most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Issuer's available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts.

If the Issuer's board of directors determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Issuer shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Issuer's board of directors.

Dissolution

If there is a **Dissolution Event** (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Issuer will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Issuer's board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Issuer at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A "**Dissolution Event**" means (i) a voluntary termination of operations by the Issuer, (ii) a general assignment for the benefit of the Issuer's creditors or (iii) any other liquidation, dissolution or winding up of the Issuer (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate (without relieving the Issuer of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of shares in the converted securities to the Investor pursuant to the conversion provisions of the Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities **nor the securities issuable upon the conversion** of the Securities have voting rights unless otherwise provided for by the Issuer. In addition, to facilitate the Offering Crowd SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Issuer's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently with the direction of the Chief Executive Officer of the Issuer (the "**Nominee Designee**").

The Issuer does not have any voting agreements in place.

The Issuer has a restricted stock purchase agreement in place with the Company's CEO, Austin Allan.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Issuer.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Issuer; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as

used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Issuer with an opinion of counsel reasonably satisfactory to the Issuer stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any capital stock into which they are convertible to any of the Issuer's competitors, as determined by the Issuer in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Other Material Terms

- The Issuer does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Issuer cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

Cash Commission

At the conclusion of the Offering, the Issuer shall pay the Intermediary the greater of (A) a fee of seven percent (7%) of the dollar amount raised in the Offering or (B) a cash fee of twelve thousand dollars (\$12,000.00).

Other Compensation

The Intermediary will also receive compensation in the form of the Securities equal to two percent (2%) of the total number of the Securities sold in the Offering. The total number of Securities outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of two percent (2%) of the Securities issued in this Offering.

RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, the Issuer is subject to the same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an

investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Issuer's Business and Industry

Risk Factors provided by Triple D:

- Economic downturn
 - We mitigate this by keeping our pricing around \$10 per item
- Potential for copycat brands
 - We have invested heavily in the brand so that small upstart brands don't pose a threat to us. We also have firmly established Sugar Wood as a New York brand. Given NYC's status as a culture capital of the US, this minimizes risk from other parts of the country.
- Hiring and retention in the food industry
- Low concentration of stores (one per city max) will make ensuring brand standards are met more difficult.

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Issuer is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Issuer may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises and geopolitical events, including without limitation, COVID-19 can have a significant effect on our business operations and revenue projections.

A significant outbreak of contagious diseases, such as COVID-19, in the human population could result in a widespread health crisis. Additionally, geopolitical events, such as wars or conflicts, could result in global disruptions to supplies, political uncertainty and displacement. Each of these crises could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms, if at all.

The amount of capital the Issuer is attempting to raise in this Offering may not be enough to sustain the Issuer's current business plan.

In order to achieve the Issuer's near and long-term goals, the Issuer may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Issuer will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Issuer and present and future market conditions. We will require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or

services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide components and services for our products.

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our and our customers' expectations. Our suppliers may be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Issuer relies on certain intellectual property rights to operate its business. The Issuer's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Issuer's success depends on the experience and skill of the board of directors, its executive officers and key employees.

We are dependent on our board of directors, executive officers and key employees. These persons may not devote their full time and attention to the matters of the Issuer. The loss of our board of directors, executive officers and key employees could harm the Issuer's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Issuer does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Issuer has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Issuer will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Issuer and our operations. We have no way to guarantee key personnel will stay with the Issuer, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of Individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees,

business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Issuer is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Issuer may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) issuer, the Issuer is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Issuer's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Issuer of such compliance could be substantial and could have a material adverse effect on the Issuer's results of operations.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations, such as local licensing requirements, and retail financing, debt collection, consumer protection, environmental, health and safety, creditor, wage-hour, anti-discrimination, whistleblower and other employment practices laws and regulations and we expect these costs to increase going forward. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we have incurred and will continue to incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Risks Related to the Offering

The Issuer could potentially be found to have not complied with securities law in connection with this Offering related to a Reservation Campaign (also known as "Testing the Waters")

Prior to filing this Form C/A, the Issuer engaged in a Reservation Campaign (also known as "testing the waters") permitted under Regulation Crowdfunding (17 CFR 227.206), which allows issuers to communicate to determine whether there is interest in the offering. All communication sent is deemed to be an offer of securities for purposes of the antifraud provisions of federal securities laws. Any Investor who expressed interest prior to the date of this Offering should read this Form C/A thoroughly and rely only on the information provided herein and not on any statement made prior to the Offering. The communications sent to Investors prior to the Offering are attached as Exhibit D. Some of these communications may not have included proper disclaimers required for a Reservation Campaign.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been

audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Issuer's management may have broad discretion in how the Issuer uses the net proceeds of the Offering.

Unless the Issuer has agreed to a specific use of the proceeds from the Offering, the Issuer's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

Because the Offering consists of two separate tranches, a single investor may receive different Crowd SAFEs with different terms, depending on the timing of its investment commitment.

The Offering is divided into separate tranches for early investors and standard investors. "Early Investors," which include investors who invest during the first tranche of the Offering, which includes the initial purchases amounting up to and including a sum of \$200,000.00, will receive a Crowd SAFE with preferential terms, namely a reduced pre-money valuation cap (\$5,000,000 instead of \$7,500,000). A Crowd SAFE with different terms will be issued to "Standard Investors," or investors who invest during the second tranche of the Offering, which includes all purchases from \$200,000.01 to \$1,235,000. Accordingly, a single investor may be issued two different Crowd SAFEs with different terms, depending on the timing of the investor's investment commitment.

The Intermediary Fees paid by the Issuer are subject to change depending on the success of the Offering.

At the conclusion of the Offering, the Issuer shall pay the Intermediary the greater of (A) a fee of seven percent (7%) of the dollar amount raised in the Offering or (B) a cash fee of twelve thousand dollars (\$12,000.00). The compensation paid by the Issuer to the Intermediary may impact how the Issuer uses the net proceeds of the Offering.

The Issuer has the right to limit individual Investor commitment amounts based on the Issuer's determination of an Investor's sophistication.

The Issuer may prevent any Investor from committing more than a certain amount in this Offering based on the Issuer's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Issuer's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Issuer's determination.

The Issuer has the right to extend the Offering Deadline.

The Issuer may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Issuer attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Issuer extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Issuer receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Issuer receives the Target Offering Amount, at which time it will be released to the Issuer to be used as set forth herein. Upon or shortly after the release of such funds to the Issuer, the Securities will be issued and distributed to you.

The Issuer may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Issuer can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Issuer may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Issuer has the right to conduct multiple closings during the Offering.

If the Issuer meets certain terms and conditions, an intermediate close (also known as a rolling close) of the Offering can occur, which will allow the Issuer to draw down on seventy percent (70%) of Investor proceeds committed and captured in the Offering during the relevant period. The Issuer may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which

may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a Crowd SAFE (Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “Nominee”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of the Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Securities. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Issuer nor take or effect actions that might otherwise be available to holders of the Securities and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Securities to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

The Securities will not be freely tradable under the Securities Act until one year from when the securities are issued. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Issuer. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Investors will not become equity holders until the Issuer decides to convert the Securities or until there is a change of control or sale of substantially all of the Issuer’s assets. The Investor may never directly hold equity in the Issuer.

Investors will not have an ownership claim to the Issuer or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Issuer. Investors will not become equity holders of the Issuer unless the Issuer receives a future round of financing great enough to trigger a conversion and the Issuer elects to convert the Securities. The Issuer is under no obligation to convert the Securities. In certain instances, such as a sale of the Issuer or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Issuer. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Issuer or the Nominee decide to move the Crowd SAFE or the securities issuable thereto into a custodial relationship.

Investors will not have voting rights, even upon conversion of the Securities.

Investors will not have the right to vote upon matters of the Issuer even if and when their Securities are converted (the occurrence of which cannot be guaranteed). Under the terms of the Securities, a third-party designated by the Issuer will exercise voting control over the Securities. Upon conversion, the Securities will **continue** to be voted in line with the designee identified or pursuant to a voting agreement related to the equity securities the Security is converted into. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Securities that allows a designee to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Issuer unless otherwise provided for by the Issuer.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Issuer or to receive financial or other information from the Issuer, other than as required by law. Other security holders of the Issuer may have such rights. Regulation CF requires only the provision of an annual report on Form C/A and no additional information. Additionally, there are numerous methods by which the Issuer can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Issuer such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Issuer has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Issuer.

The Issuer may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Issuer may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Issuer may never undergo a liquidity event such as a sale of the Issuer or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services. The Securities are not equity interests, have no ownership rights, have no rights to the Issuer’s assets or profits and have no voting rights or ability to direct the Issuer or its actions.

Any equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Issuer’s equity securities will be subject to dilution. The Issuer intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Issuer.

The amount of additional financing needed by the Issuer will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Issuer with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Issuer's needs, the Issuer may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Issuer. There can be no assurance that the Issuer will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Issuer has certain equity grants and convertible securities outstanding. Should the Issuer enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Any equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Issuer at the time of conversion.

In the event the Issuer decides to exercise the conversion right, the Issuer may convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the First Equity Financing Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the First Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Issuer may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Issuer.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as Exhibit B.

There is no present market for the Securities and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the offering price or at any other price.

In the event of the dissolution or bankruptcy of the Issuer, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Issuer, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. No holders of any of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Issuer.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Issuer does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Issuer does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

BUSINESS

In addition to its New York Operation, the Issuer intends to expand its business through other wholly owned subsidiaries, through brand licensing deals, and other franchise arrangements. At the time of this offering, Issuer has not formed any wholly owned subsidiaries to pursue these goals.

OPPORTUNITY

In this post-pandemic world, consumers are seeking a break from heaviness in the world in-person shared experiences like the Museum of Ice Cream, the Color Factory, Immersive exhibits for artists like Van Gogh and Monet content for social media accounts.

Sugar Wood's products are intended to be funny, lighthearted, and memorable, as well as highly shareable and likely to go viral on social media. We offer a full experience to anyone that walks through our door, with jokes, innuendo, performance and delicious treats.

PRODUCT

Sugar Wood serves a variety of delicious, sex-positive desserts, including our signature Woody & Kitty Waffles, popsicles, cookies and chocolate bars, as well as a variety of beverages and Sugar Wood branded merchandise. We also offer party boxes, private in-store events, on-site catering, and nationwide shipping of our products.

TRACTION

In under 18 months, we have achieved over \$580,000 in gross revenue, 53,000 Instagram & TikTok followers, 20 million video views on social media, 150,000 business profile interactions on Google Maps, an average 4.8 stars on Google reviews, collaborations with Durex, dating app HUD, telehealth companies Wisp and QCarePlus, Focus features,

CUSTOMER BASE

Our customer base is approx. 65-70% straight women, 15-20% gay/queer men. Somewhere between 40-60% of our customers are NYC tourists. Besides that, we appeal to all races, nationalities, ages, genders, sexualities and socioeconomic levels. People from all over the globe have visited our store.

BUSINESS MODEL

Sugar Wood has adopted an omnichannel strategy for its next phase of growth. While we remain focused on selling the Sugar Wood Experience in our NYC flagship store and any future locations, we recognize that the store is only accessible to a small percentage of consumers.

To open Sugar Wood up to customers across the country, sugarwood.co is now built on Shopify for a seamless checkout process. At the end of 2023 we will transition from our in-store Square POS to Shopify's POS system, allowing for better data capture no matter where the customer chooses to shop.

We are also placing a greater emphasis on marketing for events and catering. A significant portion of our in-store traffic is bachelorette and birthday parties, and our two of our busiest months to date have been December (holidays) and February (Valentine's Day). We recently added a self-booking option for events on our website, powered by the app Peek, we have made online ordering for both local and national delivery easier than ever, and we have joined the Wedding International Professionals Association, and participate in quarterly Wedding Salon events in the greater NYC area.

MARKET

- The US bachelor/bachelorette market is projected to reach \$17 billion in 2023. Nearly 60% of bachelorette parties spend around \$1000. 1 in 10 spend more than \$4,000.
- Batch, the #1 bachelorette party planning app in the US, recently closed a \$9 million Series A to expand their business.
- Experiential retailers like the Museum of Ice Cream, Color Factory, and Immersive art installations have grown in popularity post-pandemic.
- Social media continues to dominate the average American's life, and our thirst for engaging content is bigger than ever. The average TikTok user opens the app 17 times a day.

COMPETITION

- Kinky's dessert bar: Sex-positive bakery opened a few months before Sugar Wood. They sell a variety of desserts including similar waffles. Heavy focus on three business lines: takeout orders, custom cakes, alcoholic beverages. Kinky's is only open four days a week, does not offer great customer service or the experience that Sugar Wood offers its customers, does not offer direct-to-consumer, and to our knowledge does not have plans to expand nationally.
- Wet Dreams: Erotic waffle shop on Española Way in Miami Beach. The shop has no sign, offers poor customer service (terrible Google Reviews) is dirty and uninviting, and serves a subpar product. To our knowledge there are no expansion plans.
- Dickery: online shop selling adult waffles. Their products have been listed as out of stock almost since they launched their shop in April 2023.
- Willies & Waffles: Chicago shop serving adult waffles and a full menu of food.

Funding Goal Rational

Issuer will use the funding for three projects:

- Fund new marketing projects to accelerate the growth of their New York City store;
- Fully launch their e-commerce shop at <https://sugarwood.co>
- Prepare the company to franchise additional locations. Issuer's location priority is Nashville, TN, but there are also interested parties in Washington DC, Atlanta, Miami, and Las Vegas.

For proceeds exceeding 10% of the Funding Goal, the company intends to use such funds in accordance with the following:

- Legal and Accounting 10.86% - Legal fees for filing of Form C (and any subsequent Form C/A) and for closing the associated investment round.
- PR & Marketing 35.71% - The funds will be allocated to digital marketing to support the brand's new e-commerce channel, including SEO, SEM, limited social media ads, email marketing, SMS marketing and geo-targeted web ads. We have tested a variety of these methods and have identified partners to help us execute on our plan.
- Staff & Personnel 18.29% - The funds will be used for one key hire to help us transition from a retail only business to a hybrid retail/e-commerce. The person would manage e-commerce fulfillment and prepare the business's operations for rapid growth.

The Issuer has discretion to alter the use of proceeds set forth above to adhere to the Issuer's business plan and liquidity requirements. For example, economic conditions may alter the Issuer's general marketing or general working capital requirements.

TRANSACTIONS WITH RELATED PERSONS AND CONFLICTS OF INTEREST

From time to time the Issuer may engage in transactions with related persons. Related persons are defined as any director or officer of the Issuer; any person who is the beneficial owner of twenty percent (20%) or more of the Issuer’s outstanding voting equity securities, calculated on the basis of voting power; any promoter of the Issuer; any immediate family member of any of the foregoing persons or an entity controlled by any such person or persons. Additionally, the Issuer will disclose here any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, to which the issuer was or is to be a party and the amount involved exceeds five percent (5%) of the aggregate amount of capital raised by the issuer in reliance on section 4(a)(6), including the Target Offering Amount of this Offering, and the counter party is either (i) any director or officer of the issuer; (ii) any person who is, as of the most recent practicable date but no earlier than 120 days prior to the date the offering statement or report is filed, the beneficial owner of twenty percent (20%) or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power; (iii) if the issuer was incorporated or organized within the past three years, any promoter of the issuer; or (iv) any member of the family of any of the foregoing persons, which includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, and shall include adoptive relationships. The term *spousal equivalent* means a cohabitant occupying a relationship generally equivalent to that of a spouse.

With respect to Note 8 of the Financial Statements: The loan was forgiven by Austin Allan, founder and CEO, on June 1, 2023. The capital was mistakenly classified as a loan when it was initially transferred to the company in 2022, however the error was only discovered in 2023, making it too late to reclassify the transaction as the prior year's books were already closed. This transaction on June 1, 2023 reversed that mistake.

A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. Accountant's Responsibility

Our responsibility is to conduct the review in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

TRIPLE D ADVENTURES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

1. NATURE OF OPERATIONS

Triple Adventures, Inc. was incorporated on February 8, 2022 in the state of Delaware. The Company has a wholly-owned subsidiary Sugar Wood NYC LLC organized in the state of New York on January 4, 2022. The consolidated financial statements of Triple Adventures, Inc. (which may be referred to as the “Company”, “we”, “us”, or “our”) are prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”). The Company’s headquarters are located in New York, New York.

Sugar Wood is a sex-positive dessert shop located in NYC’s Soho neighborhood. We sell a variety of delicious desserts including cookies, chocolate bars, popsicles and our signature waffles. We also sell non-alcoholic beverages, merchandise and other assorted gifts. Since inception we have also added an e-commerce store so that customers from all over the country can order our products. The e-commerce store is currently administered by NYC LLC.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Consolidation

The Company’s consolidated financial statements include the accounts of subsidiary over which the Company exercises control. Intercompany accounts and transactions have been eliminated in consolidation.

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). The Company has adopted the calendar year as its basis of reporting.

Use of Estimates

The preparation of financial statements in conformity with United States GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash in banks. The Company’s cash is deposited in demand accounts at financial institutions that management believes are creditworthy. The Company’s cash and cash equivalents in bank deposit accounts, at times, may exceed federally insured limits. As of December 31, 2022, the Company’s cash and cash equivalents did not exceed FDIC insured limits.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable are recorded at a net realizable value or the amount that the Company expects to collect on gross customer trade receivables. We estimate losses on receivables based on known troubled accounts and historical experience of losses incurred. Receivables are considered impaired and written-off when it is probable that all contractual payments due will not be collected in accordance with the terms of the agreement. As of December 31, 2022, the Company determined that no reserve was necessary.

TRIPLE D ADVENTURES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

Subscription Receivable

The Company records stock issuances at the effective date. If the subscription is not funded upon issuance, the Company records a subscription receivable as an asset on a balance sheet. When subscription receivables are not received prior to the issuance of financial statements at a reporting date in satisfaction of the requirements under FASB ASC 505-10-45-2, the subscription is reclassified as a contra account to stockholders' equity on the balance sheet.

Property and Equipment

Property and equipment are stated at cost. Normal repairs and maintenance costs are charged to earnings as incurred and additions and major improvements are capitalized. The cost of assets retired or otherwise disposed of, and the related depreciation are eliminated from the accounts in the period of disposal and the resulting gain or loss is credited or charged to earnings.

Depreciation is computed over the estimated useful lives of the related asset type or term of the operating lease using the straight-line method for financial statement purposes. The estimated service lives for property and equipment is as follows:

Category	Useful Life
Furniture & fixtures	5 years
Tools, machinery, and equipment	5 years
Leasehold Improvements	15 years

Impairment of Long-lived Assets

Long-lived assets, such as property and equipment and identifiable intangibles with finite useful lives, are periodically evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. We look for indicators of a trigger event for asset impairment and pay special attention to any adverse change in the extent or manner in which the asset is being used or in its physical condition. Assets are grouped and evaluated for impairment at the lowest level of which there are identifiable cash flows, which is generally at a location level. Assets are reviewed using factors including, but not limited to, our future operating plans and projected cash flows. The determination of whether impairment has occurred is based on an estimate of undiscounted future cash flows directly related to the assets, compared to the carrying value of the assets. If the sum of the undiscounted future cash flows of the assets does not exceed the carrying value of the assets, full or partial impairment may exist. If the asset carrying amount exceeds its fair value, an impairment charge is recognized in the amount by which the carrying amount exceeds the fair value of the asset. Fair value is determined using an income approach, which requires discounting the estimated future cash flows associated with the asset.

Income Taxes

Triple Adventures Inc. is a C corporation for income tax purposes. The Company accounts for income taxes under the liability method, and deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying values of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the deferred tax asset will not be realized. The Company records interest, net of any applicable related income tax benefit, on potential income tax contingencies as a component of income tax expense. The Company records tax positions taken or expected to be taken in a tax return based upon the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related

TRIPLE D ADVENTURES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

appeals or other legal processes. Accordingly, the Company recognizes liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority. The Company recognizes interest and/or penalties related to unrecognized tax benefits as a component of income tax expense.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Revenue Recognition

The Company recognizes revenues in accordance with FASB ASC 606, Revenue from Contracts with Customers, when delivery of goods is the sole performance obligation in its contracts with customers. The Company typically collects payment upon sale and recognizes the revenue when the item has shipped and has fulfilled its sole performance obligation.

Revenue recognition, according to Topic 606, is determined using the following steps:

- 1) Identification of the contract, or contracts, with the customer: the Company determines the existence of a contract with a customer when the contract is mutually approved; the rights of each party in relation to the services to be transferred can be identified, the payment terms for the services can be identified, the customer has the capacity and intention to pay, and the contract has commercial substance.
- 2) Identification of performance obligations in the contract: performance obligations consist of a promised in a contract (written or oral) with a customer to transfer to the customer either a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.
- 3) Recognition of revenue when, or how, a performance obligation is met: revenues are recognized when or as control of the promised goods or services is transferred to customers.

The Company earns revenues from the sale of various desserts.

Cost of sales

Costs of goods sold include cost of supply and materials.

Advertising and Promotion

Advertising and promotional costs are expensed as incurred. Advertising and promotional expenses for the period from inception to year ended December 31, 2022, amounted to \$51,985, which is included in sales and marketing expenses.

Research and Development Costs

Costs incurred in the research and development of the Company's products are expensed as incurred.

Stock-Based Compensation

TRIPLE D ADVENTURES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

The Company accounts for stock-based compensation to both employee and non-employees in accordance with ASC 718, Compensation - Stock Compensation. Under the fair value recognition provisions of ASC 718, stock-based compensation cost is measured at the grant date based on the fair value of the award and is recognized as expense ratably over the requisite service period, which is generally the option vesting period. The Company uses the Black-Scholes option pricing model to determine the fair value of stock options.

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments included in current assets and current liabilities (such as cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate fair value due to the short-term nature of such instruments).

The inputs used to measure fair value are based on a hierarchy that prioritizes observable and unobservable inputs used in valuation techniques. These levels, in order of highest to lowest priority, are described below:

Level 1—Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2—Observable prices that are based on inputs not quoted on active markets but corroborated by market data.

Level 3—Unobservable inputs reflecting the Company's assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Subsequent Events

The Company considers events or transactions that occur after the balance sheet date, but prior to the issuance of the financial statements to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through November 30, 2023, which is the date the financial statements were issued.

Recently Issued and Adopted Accounting Pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

Lease Accounting

In February 2016, the FASB issued ASU No. 2016-02, *Leases (Topic 842)*. The new standard introduces a new lessee model that brings substantially all leases onto the balance sheets. The amendments in the ASU are effective for fiscal years beginning after December 15, 2021.

We adopted the standard effective January 1, 2022 using the modified retrospective adoption method which allowed us to initially apply the new standard at the adoption date and recognize a cumulative-effect adjustment to the opening balance of accumulated deficit. In connection with our adoption of the new lease pronouncement, we recorded a charge to retained earnings.

Effects of Adoption

TRIPLE D ADVENTURES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

We have elected to use the practical expedient package that allows us to not reassess: (1) whether any expired or existing contracts are or contain leases, (2) lease classification for any expired or existing leases and (3) initial direct costs for any expired or existing leases. We additionally elected to use the practical expedients that allow lessees to: (1) treat the lease and non-lease components of leases as a single lease component for all of our leases and (2) not recognize on our balance sheet leases with terms less than twelve months.

We determine if an arrangement is a lease at inception. We lease certain manufacturing facilities, warehouses, offices, machinery and equipment, vehicles and office equipment under operating leases. Under the new standard, operating leases result in the recognition of ROU assets and lease liabilities on the consolidated balance sheet. ROU assets represent our right to use the leased asset for the lease term and lease liabilities represent our obligation to make lease payments. Under the new standard, operating lease ROU assets and liabilities are recognized at commencement date based on the present value of lease payments over the lease term. As most of our leases do not provide an implicit rate, upon adoption of the new standard, we used our estimated incremental borrowing rate based on the information available, including lease term, as of January 1, 2022 to determine the present value of lease payments. Operating lease ROU assets are adjusted for any lease payments made prior to January 1, 2022 and any lease incentives. Certain of our leases may include options to extend or terminate the original lease term. We generally conclude that we are not reasonably certain to exercise these options due primarily to the length of the original lease term and our assessment that economic incentives are not reasonably certain to be realized. Operating lease expense under the new standard is recognized on a straight-line basis over the lease term. Our current finance lease obligations consist primarily of cultivation and distribution facility leases.

3. PROPERTY AND EQUIPMENT

As of December 31, 2022, property and equipment consists of:

As of Year Ended December 31,	2022
Furniture & fixtures	\$ 4,214
Tools, machinery, and equipment	12,096
Leasehold Improvements	88,332
Property and Equipment, at Cost	104,643
Accumulated depreciation	(31,860)
Property and Equipment, Net	\$ 72,783

5. SHAREBASED COMPENSATION

During 2022, the Company authorized the Stock Option Plan (which may be referred to as the "Plan"). The Company reserved 300,000 shares of its Common Stock pursuant to the Plan, which provides for the grant of shares of stock options, stock appreciation rights, and stock awards (performance shares) to employees, non-employee directors, and non-employee consultants. The option exercise price generally may not be less than the underlying stock's fair market value at the date of the grant and generally have a term of four years. The amounts granted each calendar year to an employee or non-employee is limited depending on the type of award.

Restricted Stock

A summary of the Company's restricted stock activity and related information is as follows:

As of Year Ended December 31,	2022
Expected life (years)	10.00
Risk-free interest rate	4.41%
Expected volatility	75%
Annual dividend yield	0%

The fair value of the restricted stock awards was estimated at the date of the grant. The grant date fair value is the stock price on the date of grant. The total fair value of the restricted stock awards vested during the year was \$1,477.

6. DEBT

Forward Financing

During fiscal year 2022, the Company entered into a finance agreement with Square Financial Services, Inc. in the amount of \$19,200. It bears a fixed fee of \$2,880. The lender provides the Company with the advance amount in exchange for the sale of receivables to the lender. As of December 31, 2022, the outstanding balance of this kind of financing is in the amount of \$19,200 and the entire amount is classified as the current portion.

Owner Loans

During the Company borrowed money from the owner Austin Allan. The details of the loans from the owner are as follows:

Owner	Principal Amount	Interest Rate	Borrowing Period	Maturity Date	For the Year Ended December 2022		
					Current Portion	Non-Current Portion	Total Indebtedness
Austin Allan	\$ 9,375	0.00%	Fiscal Year 2022	No set maturity	\$ 9,375		\$ 9,375
Total					\$ 9,375	\$ -	\$ 9,375

The imputed interest for 0% interest loans was deemed immaterial and thus not recorded. Since there is no maturity date set and thus the loan may be called at any time, the loan was classified as current.

TRIPLE D ADVENTURES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

Convertible Note(s)

Below are the details of the convertible notes:

Debt Instrument Name	Principal Amount	Interest Rate	Borrowing Period	Maturity Date	For the Year Ended December 2022				
					Interest Expense	Accrued Interest	Current Portion	Non-Current Portion	Total Indebtedness
2022 Convertible Note	\$ 347,500	6.50%	12/31/2022	18 months	15,495	15,495		347,500	362,995
Total	\$ 347,500				\$ 15,495	\$ 15,495	\$ -	\$ 347,500	\$ 362,995

The convertible notes are convertible into equity securities at a conversion price. The conversion price is equal to the quotient resulting from dividing \$5,000,000 by the number of outstanding shares of Common Stock of the Company as of the maturity date. Since the conversion feature is convertible into variable number of shares and does not have fixed-for-fixed features, the conversion feature was not bifurcated and recorded separately.

Lease

On April 18, 2022, the Company entered into an operating lease agreement for certain business premises located in New York. We do not assume renewals in our determination of the lease term unless the renewals are deemed to be reasonably assured. The cumulative effects of the changes made to our balance sheet as of December 31, 2022, as a result of the adoption of the accounting standard update on leases were as follows:

	December 31, 2022	
Lease liability		
Beginning balance	\$	498,305
Additions	\$	-
Lease payments		(53,006)
Balance at end of period	\$	445,298

The aggregate minimum annual lease payments under operating leases in effect on December 31, 2022, are as follows:

	December 31, 2022	
2023	\$	86,409
2024		95,458
2025		105,453

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

7. INCOME TAXES

The provision for income taxes for the year ended December 31, 2022 consists of the following:

As of Year Ended December 31,	2022
Net Operating Loss	\$ (68,493)
Valuation Allowance	68,493
Net Provision for income tax	\$ -

Significant components of the Company's deferred tax assets and liabilities on December 31, 2022 are as follows:

As of Year Ended December 31,	2022
Net Operating Loss	\$ (68,493)
Valuation Allowance	68,493
Total Deferred Tax Asset	\$ -

Management assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to use the existing deferred tax assets. On the basis of this evaluation, the Company has determined that it is more likely than not that the Company will not recognize the benefits of the federal and state net deferred tax assets, and, as a result, full valuation allowance has been set against its net deferred tax assets as of December 31, 2022. The amount of the deferred tax asset to be realized could be adjusted if estimates of future taxable income during the carry-forward period are reduced or increased.

For the fiscal year ending December 31, 2022, the Company had federal cumulative net operating loss ("NOL") carryforwards of \$249,065, and the Company had state net operating loss ("NOL") carryforwards of approximately \$249,065. Utilization of some of the federal and state NOL carryforwards to reduce future income taxes will depend on the Company's ability to generate sufficient taxable income prior to the expiration of the carryforwards. The federal net operating loss carryforward is subject to an 80% limitation on taxable income, does not expire, and will carry on indefinitely.

The Company recognizes the impact of a tax position in the consolidated financial statements if that position is more likely than not to be sustained on a tax return upon examination by the relevant taxing authority, based on the technical merits of the position. As of December 31, 2022, the Company had no unrecognized tax benefits.

The Company recognizes interest and penalties related to income tax matters in income tax expenses. As of December 31, 2022, the Company had no accrued interest and penalties related to uncertain tax positions.

8. RELATED PARTY

During 2022, the Company borrowed \$9,375 from the founder and shareholder, Austin Allan. The loan bears no interest rate and has no defined maturity date. As of December 31, 2022, the outstanding balance of the loan is \$9,375.

TRIPLE D ADVENTURES INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR YEAR ENDED TO DECEMBER 31, 2022

9. COMMITMENTS AND CONTINGENCIES

Contingencies

The Company's operations are subject to a variety of local and state regulations. Failure to comply with one or more of those regulations could result in fines, restrictions on its operations, or losses of permits that could result in the Company ceasing operations.

Litigation and Claims

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. As of December 31, 2022, there were no pending or threatened lawsuits that could reasonably be expected to have a material effect on the results of the Company's operations.

10. SUBSEQUENT EVENTS

The Company has evaluated subsequent events for the period from December 31, 2022, through November 30, 2023, which is the date the consolidated financial statements were available to be issued.

Throughout the year 2023, the Company issued six convertible notes, totaling an aggregate amount of \$32,500. The notes bear a unique interest rate of 6.5%.

There have been no other events or transactions during this time which would have a material effect on these financial statements.

11. GOING CONCERN

The Company lacks significant working capital and has only recently commenced operations. The Company will incur significant additional costs before significant revenue is achieved. These matters raise substantial doubt about the Company's ability to continue as a going concern. During the next twelve months, the Company intends to fund its operations with funding from their proposed Regulation Crowdfunding campaign, and additional debt and/or equity financing as determined to be necessary. There are no assurances that management will be able to raise capital on terms acceptable to the Company. If the Company is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of their planned development, which could harm the business, financial condition and operating results. The consolidated balance sheet and related consolidated financial statements do not include any adjustments that might result from these uncertainties.

1. Events

(a) **Equity Financing.**

(i) If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) (“**First Equity Financing**”), the Issuer shall promptly notify the Investor of the closing of the First Equity Financing and of the Issuer’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of the Capital Stock (whether Preferred Stock or another class issued by the Issuer) sold

in the First Equity Financing. The number of shares of Capital Stock shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the **First Equity Financing Price** for Early Investors or Standard Investors, as applicable (as defined below).

(ii) If the Issuer elects to continue the term of this Crowd SAFE past the First Equity Financing and another Equity Financing occurs before the termination of this Crowd SAFE in accordance with Sections 1(b)-(d) (each, a “**Subsequent Equity Financing**”), the Issuer shall promptly notify the Investor of the closing of the Subsequent Equity Financing and of the Issuer’s discretionary decision to either (1) continue the term of this Crowd SAFE without converting the Investor’s Purchase Amount to Capital Stock; or (2) issue to the Investor a number of shares of Capital Stock (whether Preferred Stock or another class issued by the Issuer) sold in the Subsequent Equity Financing. The number of shares of such Capital Stock shall equal to the quotient obtained by dividing (x) the Purchase Amount by (y) the First Equity Financing Price for Early Investors or Standard Investors, as applicable.

(b) **Liquidity Event.**

(i) If there is a Liquidity Event before the termination of this instrument and before any Equity Financing, the Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Issuer a number of shares of Common Stock equal to the Purchase Amount (or a lesser amount as described below) divided by the Liquidity Price.

(ii) If there is a Liquidity Event before the termination of this instrument but after one or more Equity Financings have occurred, each Investor must select, at its option, within thirty (30) days of receiving notice (whether actual or constructive), either (1) to receive a cash payment equal to the Purchase Amount (or a lesser amount as described below) or (2) to receive from the Issuer a number of shares of the most recent issued Capital Stock (whether Preferred Stock or another class issued by the Issuer) equal to the Purchase Amount divided by the First Equity Financing Price. Shares of Capital Stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of Capital Stock issued in connection with the Issuer’s most recent Equity Financing.

(iii) If there are not enough funds to pay the Investor and holders of other Crowd SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Issuer’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Purchase Amounts. In connection with this Section 1(b), the Purchase Amount (or a lesser amount as described below) will be due and payable by the Issuer to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event.

Notwithstanding Section 1(b)(i)(2) or Section 1(b)(ii)(2), if the Issuer’s board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to Section 1(b)(i)(2) or Section 1(b)(ii)(2) would violate applicable law, rule or regulation, then the Issuer shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Issuer’s board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event (defined below) before this instrument terminates in accordance with Section 1(a) or Section 1(b), subject to the preferences applicable to any series of Preferred Stock, the Issuer will distribute its entire assets legally available for distribution with equal priority among the (i) Investors (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Issuer’s board of directors at the time of Dissolution Event), (ii) all other

holders of instruments sharing in the assets of the Issuer at the same priority as holders of Common Stock upon a Dissolution Event and (iii) and all holders of Common Stock.

(d) **Termination.** This instrument will terminate (without relieving the Issuer or the Investor of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of Capital Stock to the Investor pursuant to Section 1(a) or Section 1(b); or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to Section 1(b) or Section 1(c).

(c) The performance and consummation of the transactions contemplated by this instrument do not and will not: (i) violate any material judgment, statute, rule or regulation applicable to the Issuer; (ii) result in the acceleration of any material indenture or contract to which the Issuer is a party or by which it is bound; or (iii) result in the creation or imposition of any lien upon any property, asset or revenue of the Issuer or the suspension, forfeiture, or nonrenewal of any material permit, license or authorization applicable to the Issuer, its business or operations.

This instrument constitutes a valid and binding obligation of the Investor, enforceable in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors' rights generally and general principles of equity.

(b) The Investor has been advised that this instrument and the underlying securities have not been registered under the Securities Act or any state securities laws and are offered and sold hereby pursuant to Section 4(a)(6) of the Securities Act. (k) The Investor further acknowledges that it has read, understood, and had ample opportunity to ask Issuer questions about its business plans, "Risk Factors," and all other information presented in the Issuer's Form C and the offering documentation filed with the SEC.

(l) The Investor represents that the Investor understands the substantial likelihood that the Investor will suffer a **TOTAL LOSS** of all capital invested, and that Investor is prepared to bear the risk of such total loss.

5. Transfer Restrictions.

(a) The Investor hereby agrees that during the Lock-up Period it will not, without the prior written consent of the managing underwriter: (A) lend; offer; pledge; sell; contract to sell; sell any option or contract to purchase; purchase any option or contract to sell; grant any option, right, or warrant to purchase; or otherwise transfer or dispose of, directly or indirectly, any shares of Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock (whether such shares or any such securities are then owned by the Investor or are thereafter acquired); or (B) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of such securities; whether any such transaction described in clause (A) or (B) above is to be settled by delivery of Common Stock or other securities, in cash, or otherwise.

(b) The foregoing provisions of Section 5(a) will: (x) apply only to the IPO and will not apply to the sale of any shares to an underwriter pursuant to an underwriting agreement; (y) not apply to the transfer of any shares to any trust for the direct or indirect benefit of the Investor or the immediate family of the Investor, provided that the trustee of the trust agrees to be bound in writing by the restrictions set forth herein, and provided further that any such transfer will not involve a disposition for value; and (z) be applicable to the Investor only if all officers and directors of the Issuer are subject to the same restrictions and the Issuer uses commercially reasonable efforts to obtain a similar agreement from all stockholders individually owning more than 5% of the outstanding Common Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Common Stock. Notwithstanding anything herein to the contrary, the underwriters in connection with the IPO are intended third-party beneficiaries of Section 5(a) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. The Investor further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with the IPO that are consistent with Section 5(a) or that are necessary to give further effect thereto.

(c) In order to enforce the foregoing covenant, the Issuer may impose stop transfer instructions with respect to the Investor's registrable securities of the Issuer (and the Issuer shares or securities of every other person subject to the foregoing restriction) until the end of the Lock-up Period. The Investor agrees that a legend reading substantially as follows will be placed on all certificates representing all of the Investor's registrable securities of the Issuer (and the shares or securities of the Issuer held by every other person subject to the restriction contained in Section 5(a)):

THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A LOCK-UP PERIOD BEGINNING ON THE EFFECTIVE DATE OF THE ISSUER'S REGISTRATION STATEMENT FILED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AS SET FORTH IN AN AGREEMENT BETWEEN THE ISSUER AND THE ORIGINAL HOLDER OF THESE SECURITIES, A COPY OF WHICH MAY BE OBTAINED AT THE ISSUER'S PRINCIPAL OFFICE. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.

(d) Without in any way limiting the representations and warranties set forth in Section 4 above, the Investor further agrees not to make any disposition of all or any portion of this instrument or the underlying securities unless and until the transferee has agreed in writing for the benefit of the Issuer to make the representations and warranties set out in Section 4 and the undertaking set out in Section 5(a) and:

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Issuer of the proposed disposition and shall have furnished the Issuer with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Issuer, the Investor shall have furnished the Issuer with an

opinion of counsel reasonably satisfactory to the Issuer that such disposition will not require registration of such shares under the Securities Act.

(e) The Investor agrees that it shall not make any disposition of this instrument or any underlying securities to any of the Issuer's competitors, as determined by the Issuer in good faith.

(f) If the Investor intends to transfer the Crowd SAFE ("**Transfer**") in accordance with this Section 5, the investor accepting transfer ("**Transferee**") must pass and continue to comply with the Nominee's (as defined in Exhibit A) (and any applicable affiliate's) know your customer ("**KYC**") and anti-money laundering ("**AML**") policies and execute Exhibit A contemporaneously and in connection with the Transfer. The Investor understands that the Transferee's failure to pass the requisite KYC and AML procedures or to execute Exhibit A contemporaneously with the Transfer will render the Transfer void, null, unenforceable, and the Transferee will be unable to redeem their security.

(g) The Investor understands and agrees that the Issuer will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this Crowd SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Issuer's charter or bylaws, any other agreement between the Investor and the Issuer or any agreement between the Investor and any third party:

(f) Neither this instrument nor the rights contained herein may be assigned, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this instrument and/or the rights contained herein may be assigned without the Issuer's consent by the Investor to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Issuer may assign this instrument in whole, without the consent of the Investor, in connection with a reincorporation to change the Issuer's domicile.

(g) In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

Video Transcript

Hey there my name is Austin Allan. I'm the owner and founder of Sugar Wood. What is Sugar Wood? We are a queer-owned, inclusive, sex positive dessert shop located in New York City. We sell a variety of "naughty" desserts. We are most famous for our Woody waffle and kitty waffles. This is our Woody waffle and this is our kitty waffle. Beautiful, right? If you come into the shop our waffles are served to you piping hot, dripping with sauce... and innuendo. Our desserts are so popular that people from every corner of the globe have visited Sugar Wood to try our delicious treats. and we've amassed over 50,000 followers on our social media platforms. In addition to waffles we have other delicious and fun options: popsicles, chocolate bars and cookies. We have vegan and gluten-free options as well! We've got something for everyone.

We first opened our doors in June of 2022 and have been growing ever since. We have sold over 28,000 woody waffles alone, generating over a half million dollars in revenue. We have collaborated with the condom brand Durex, the dating app HUD, and many others in the pipeline for the fall and winter. We have been featured on Watch What Happens live with Andy Cohen on Bravo and the Elvis Duran in the morning show on national radio, generating a ton of buzz for Sugar Wood. And I was chosen as one of OUT magazine's 100 most influential LGBT people of 2022. And Sugar Wood was selected to receive a grant from the National LGBT Chamber of Commerce and GrubHub's Community Impact Fund.

In addition to being a great time, Sugar Wood is also a mission driven company. I don't know about you, but I grew up with a lot of shame talking about sex, gender, human bodies. All those topics were totally off-limits when I was a kid, and they shouldn't be. This is why Sugar Wood believes in normalizing those conversations. We also believe, as you can probably tell, in not taking life too seriously. Now more than ever people need a good laugh. We believe in treating earth with kindness, which is why we're working to eliminate all single use plastics from our store by early 2024. We're not there yet but we're almost there. And finally we believe in giving back. I believe in giving back to causes that are dear to my heart so to date we have donated over \$10,000 to the Phluid Phoundation to support grassroots LGBT organizations. And we plan on expanding our giving to other organizations as we grow.

There is demand from all over the country for Sugar Wood products, not just here in New York City. They make great gifts, which is why we set up a small, direct consumer business earlier this year. We have shipped all over the country for bachelorette parties, birthday parties, holiday gifting, Mother's Day, even divorces and baby showers. We believe that the next phase of our growth is e-commerce and additional locations in other parts of the country. And most importantly, we want to design Sugar Wood custom packaging, so that consumers are wowed the moment they open their box of Woodys and Kitties. Opening other stores is another area of opportunity for us. We're seeking to open an additional store in Nashville, Tennessee to cater to the bachelorette parties that are running wild in that city every week of the year. If you've ever been to Nashville you'll know what I'm talking about. And finally we are seeking to franchise Sugar Wood in select cities across North America. That's why we're asking for \$1 million in equity financing.

Will you join us?

Testing the Waters Communications

Hi Lee, I'm Austin, the Founder of Sugar Wood. Since opening our store in 2022, we have taken New York City by storm. People from all corners of the globe have come to wrap their lips around our treats, and for good reason. Our scandalously delicious creations are more than just desserts; they're a full blown experience.

Now we are getting ready to bring our desserts to the rest of the country, and we are asking you to help us achieve this goal. We have just launched a equity crowdfunding campaign on Republic.

Our campaign is not just about desserts; it's about building a community that embraces everyone. By investing in Sugar Wood, you're not only indulging in delicious treats but also supporting a family venture that values unity and diversity.

Over the past two years, we've been on an exhilarating journey together, selling Sugar Wood's sex-positive desserts to customers from all over the world at our NYC shop. From our humble beginnings selling only Woody & Kittys to our current offering of delectable treats plus nationwide delivery, catering and event options, we've made waves across the country, and the world.

Our collaborations with esteemed brands like Durex, Focus Features, Hot97, and the dating app HUD have further solidified our presence in the market. And with fans like Andy Cohen, J Balvin, Bianca del Rio, Tommy Lee, and Whitney Cummings, we've garnered a loyal following that spans the globe, resulting in hundreds of thousands in sales.

Now, as we set our sights on scaling our brand even further, I'm thrilled to share that our fundraising campaign on Republic.com—a leading Reg C crowdfunding platform—is set to launch imminently, and we are now accepting reservations. (For those unfamiliar, Reg C crowdfunding allows users to invest directly in companies on the platform, akin to Kickstarter but with investment opportunities.)

For as little as \$300 you can be a part of the next chapter of our growth.

Here's the scoop:

 **Goal:** We are raising capital to fuel the expansion of our e-commerce operation and bring Sugar Wood to naughty dessert lovers across the country.

 **Perks:** Get in on the action early and snag some sweet rewards as our way of saying thanks!

 **Returns:** Invest in Sugar Wood and start - or add to - your investment portfolio.

If you're in a position to invest, your support would be immensely appreciated. I also invite you to help us amplify our message by sharing the campaign link through your networks.

LEARN MORE

Whether it's via email, text, WhatsApp, Facebook, Instagram, TikTok, or LinkedIn, every bit of exposure brings us closer to our goal. Each investment signifies a vote of confidence in forward-thinking, inclusive ventures like Sugar Wood.

Should you have any questions or require further information, please don't hesitate to reach out (simply reply to this email). I'm more than happy to schedule a discussion to delve deeper into all things Sugar Wood.

Thank you for championing our unconventional and audacious vision.

Sending my warmest regards,

Opportunity**Sugar Wood****The Expansion of NYC's Naughtiest Dessert Brand**

In this post-pandemic world, consumers are seeking

- a reprieve from constant negative news
- in-person shared experiences like the Museum of Ice Cream, the Color Factory & the Balloon Museum
- immersive experiences, such as interactive exhibits for artists like Van Gogh and Monet
- content for social media accounts

Enter Sugar Wood, an inclusive, sex-positive, mission-driven dessert company located on Prince Street in New York City. We make a variety of delicious desserts including waffles, cookies popsicles, and chocolate bars.

More than just serving dessert, Sugar Wood believes in:

Normalizing talk about our bodies and sex.

What better way to do this than with dessert?

Not taking life too seriously.

Now more than ever, people need a good laugh.

Treating the earth with kindness.

We avoid single-use plastics in our store.

Giving back.

We donate a portion of our profits each month to the Phluid Phoundation to support the LGBTQIA+ and other marginalized communities.

We started with a 700 sq ft retail space in Soho, and have ambitious plans to tackle the US Bachelorette Market in 2024 with a mix of direct-to-consumer and retail.

Concept at Launch

Sugar Wood opened in Soho in late June 2022. Our concept was simple: a "naughty" dessert shop with a purposefully limited menu featuring Woody & Kitty waffles and bottled water. We remained laser focused on creating an engaging customer experience and driving in-store traffic.

- The US bachelor/bachelorette market was projected to reach \$17 billion in 2023. Nearly 60% of bachelorette parties spend around \$1,000 on their event. 1 in 10 spend more than \$4,000.
- Batch, the #1 bachelorette party planning app in the US, recently closed a \$9 million Series A to expand their business.
- Experiential retailers like the Museum of Ice Cream, Color Factory, and immersive art installations have grown in popularity post-pandemic.
- Social media continues to dominate the average American's life, and our thirst for engaging content is bigger than ever. The average TikTok user opens the app 17 times a day.

Product

Desserts that are "naughty" and also do good

Sugar Wood sells "naughty" desserts at our NYC shop and online, including our signature Woody & Kitty Waffles, popsicles, cookies and chocolate bars, in addition to a selection of beverages and Sugar Wood branded merchandise, like t-shirts, keychains, candles and stickers. We also offer party boxes, private in-store events, on-site catering, and nationwide shipping of our products to meet the consumer wherever they are.

Sugar Wood's products are intended to be funny, lighthearted, memorable, highly shareable and primed to go viral on social media. We do not aim to be vulgar, offensive or tacky. We offer an immersive experience to anyone that walks through our door, with a combination of jokes, innuendo, performance and delicious treats.

Very cozy, adult friendly pastry shop! Saw this place show up on my Instagram feed and became curious to try out what they had to offer. The woman attending me was very bubbly and made my friend and I laugh by asking us what flavor we wanted or which waffle we wanted. The shop itself is kinda small, so if it's packed here, be prepared to eat your woodys or kitty's outside as onlookers walk by! The waffles themselves were actually very soft and warm and the frosting made it that more flavorful.

Business Model

In 2024 we will take Sugar Wood

National via Direct-to-Consumer

Sugar Wood has adopted an omnichannel strategy for its next phase of growth. While we remain focused on selling the Sugar Wood Experience in our NYC flagship store and any future locations, we recognize that only a small percentage of consumers can make the trip to New York City.

As part of our efforts to expand Sugar Wood's reach, sugarwood.co is now built on Shopify for a seamless checkout process. At the end of Q1 we will transition our in-store POS to Shopify, allowing for better data capture wherever the customer chooses to shop.

Also in the pipeline for 2024: redesigned product pages and website architecture to place greater emphasis on e-commerce, expanded product offerings, and custom packaging for waffle and cookie boxes providing a truly memorable unboxing experience.

To support these efforts we will expand our digital marketing efforts including SEO, Google Ads, email and SMS.

Vision And Strategy

Expansion and profitability

We aim to make Sugar Wood nationwide brand by the end of 2024 with a thriving direct-to-consumer business, an upward growth trajectory for the NYC flagship store, and begin planning for a second location.

Bachelorette Parties, Private Parties

BACH, the #1 bachelorette party-planning app in the US, estimates that the bachelorette industry is worth \$17 billion nationally. The average bachelorette party has 10.2 attendees.

We have created a menu of offerings to cater to those planning events, with **prices starting at \$179** plus tax and gratuity for our most economical packages. Our more experiential offerings (store buyouts and on premise waffle service) start at **\$400** plus tax and gratuity.

Sugar Wood has joined the Wedding International Professional Association (WIPA). We have already made inroads with wedding planners who are recommending us to the brides-to-be for their bachelorette parties and other service providers.

We have developed an outreach program for hotel concierges, with the Soho Grand and Gansevoort Hotels already on board.

A bachelorette recently booked a **private two hour party at Sugar Wood for \$2800.**

We plan to invest additional marketing dollars to target hospitality professionals and event coordinators in the NYC area via SEM and social media ads to further develop this lucrative revenue stream.

This year we are placing a greater emphasis on marketing for events and catering. As much as 20% of our in-store traffic comes for bachelorette and birthday parties, and two of our busiest months are December (holiday) and February (Valentine's Day) with customers purchasing boxes of waffles and cookies to share with friends and loved ones.

To support this channel, we recently added to sugarwood.co a self-booking option for in-store and on premise events, powered by the app Peek. We have also established a relationship with the party and travel planning app Batch, made online ordering for both local and national delivery easier than ever, joined the NYC chapter of WIPA (Wedding International Professionals Association), and began participating in quarterly Wedding Salon events in the greater NYC area.

And perhaps most importantly we have entered into a partnership with NYBucketList, a partner we have worked with multiple times to advertise Sugar Wood. After multiple successful private Cookie & Waffle Decorating Parties in 2023, we are launching a ticketed events series with Bucket List to offer this experience to their 3.4 million person global audience. The first block of dates in February is expected to generate \$17,000 in revenue for Sugar Wood.

Founder with extensive experience in marketing and brand building, and

one previous exit

Hi I'm Austin Allan. I'm a seasoned marketer, brand builder, and out of the box thinker. That's me below with Tom Smallwood, the award winning pastry chef who consults on Sugar Wood's recipes.

In 2013 I started a brand called Tio Gazpacho, a first of its kind drinkable bottled soup brand. I was able to secure investments from celebrity chef and humanitarian José Andrés and General Mills. In 2019 we sold Tio Gazpacho to Novamex, the El Paso based beverage group whose portfolio includes the Jarritos soda brand, C2O coconut water, and Steazs organic ice tea.

I am fortunate to have the support of incredible advisors and investors.

FAQ

What must I do to receive my equity or cash in the event of the conversion of my Crowd SAFE?

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation within that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

Austin Allan and Tom Smallwood

Across the world, naughty dessert shops have opened their doors in places like Bangkok, Paris, London, Copenhagen, New York City, and Toronto. Earlier this year, New York City found itself with a new addition in SoHo called Sugar Wood, where customers can buy "Woody" (penis-shaped) or "Kitty" (vagina-shaped) waffles.

One half of the brains behind the bakery is marketing guru Austin Allan, who was the founder of a company that sold drinkable soup. Allan also spent several years doing marketing for a variety of food and beverage companies, including Dr. Praeger's Sensible Foods. "I believe my purpose in life is to spread joy and equality through food," says Allan. "This is the first time I have been able to do both in the same project."

While it was Allan who came up with the idea for Sugar Wood, it was celebrity baker Tom Smallwood who helped with the culinary, design, and operations aspects of the business. Smallwood started his career in the pharmaceutical industry but pivoted to baking in 2016. Since then, he's worked at various bakeries in New York City, including the famous

Business Model

Strategic Business Model Evolution at Sugar Wood

Sugar Wood is embracing an omnichannel approach to fuel our next growth chapter. While our NYC flagship store continues to be the heart of the Sugar Wood Experience, we acknowledge the geographical limitations faced by many of our potential customers. In response, we're expanding our digital footprint to ensure Sugar Wood can reach dessert enthusiasts everywhere.

Our website, sugarwood.co, now operates on Shopify, offering customers a streamlined checkout experience. This enhancement is part of a broader initiative that includes transitioning our in-store POS systems to Shopify in Q2, enhancing our ability to gather and utilize customer data across all shopping channels.

We're excited to announce that we recently revamped our website experience, which includes redesigned product pages, more engaging visuals and an updated site architecture. Additionally, we'll introduce expanded product lines and custom packaging for our waffle and cookie boxes, designed to create an unforgettable unboxing experience for our customers.

To bolster these initiatives, we're ramping up our digital marketing strategies, encompassing SEO, Google Ads, email, and SMS marketing, to connect with our audience more effectively.

Financially, this strategic pivot is promising. Our e-commerce operations are expected to achieve margins between 68-72%, contributing a 34% increase in overall company revenue.

Vision And Strategy

Strategic Growth and Profitability Plans for Sugar Wood

Our objective is to elevate Sugar Wood to a prominent national presence by the end of 2024, focusing on a robust direct-to-consumer strategy, specialized private event and catering services, and continued growth of our NYC flagship store.

In our pursuit of expansion, significant marketing resources are being allocated towards events, catering, and key holiday periods. Remarkably, up to 40% of our revenue is generated from targeted occasions such as bachelorette and birthday parties, as well as major holidays like Christmas, Valentine's Day, and the winter season. This highlights the substantial growth potential within our events segment.

Understanding the diverse revenue streams of Sugar Wood—spanning online, in-store sales, and private events—is crucial for recognizing the expansive opportunities in event planning and execution.

To streamline event bookings, we've integrated a self-booking feature on sugarwood.co, utilizing the Peek app for effortless scheduling of in-store and on-premises events. Further enhancing our event strategy, we've forged partnerships with notable party and travel planning platforms, as well as with local hotels. Our efforts extend to simplifying online orders for both local and nationwide delivery and actively engaging in wedding/bachelorette industry events and expos to broaden our network.

A particularly exciting advancement is our collaboration with BucketListers a digital media company with local, national and international reach. This relationship has evolved into a Cookie & Waffle Decorating Parties ticketed event series, promoted to NY Bucket List's audience of 1.9 million. The initial series in February is projected to contribute \$10,000 to Sugar Wood's revenue, marking a promising development in our expansion strategy.

FAQ

What must I do to receive my equity or cash in the event of the conversion of my Crowd SAFE?

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation with that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

FAQ**What must I do to receive my equity or cash in the event of the conversion of my Crowd SAFE?**

Suppose the Company converts the Crowd SAFE as a result of an equity financing. In that case, you must open a custodial account with the custodian and sign subscription documentation to receive the equity securities. The Company will notify you of the conversion trigger, and you must complete necessary documentation within 30 days of such notice. If you do not complete the required documentation within that time frame, you will only be able to receive an amount of cash equal to (or less in some circumstances) your investment amount. Unclaimed cash will be subject to relevant escheatment laws. For more information, see the Crowd SAFE for this offering.

If the conversion of the Crowd SAFE is triggered as a result of a Liquidity Event (e.g. M&A or an IPO), then you will be required to select between receiving a cash payment (equal to your investment amount or a lesser amount) or equity. You are required to make your selection (and complete any relevant documentation) within 30 days of such receiving notice from the Company of the conversion trigger, otherwise you will receive the cash payment option, which will be subject to relevant escheatment laws. The equity consideration varies depending on whether the Liquidity Event occurs before or after an equity financing. For more information, see the Crowd SAFE for this offering.

Opportunity**Sugar Wood****The Expansion of NYC's Naughtiest Dessert Brand**

In this post-pandemic world, consumers are seeking

- a reprieve from constant negative news
- in-person shared experiences like the Museum of Ice Cream, the Color Factory & the Balloon Museum
- immersive experiences, such as interactive exhibits for artists like Van Gogh and Monet
- content for social media accounts

Enter Sugar Wood, an inclusive, sex-positive, mission-driven dessert company located on Prince Street in New York City. We make a variety of delicious desserts including waffles, cookies popsicles, and chocolate bars.

More than just serving dessert, Sugar Wood believes in:

Normalizing talk about our bodies and sex.

What better way to do this than with dessert?

Not taking life too seriously.

Now more than ever, people need a good laugh.

Treating the earth with kindness.

We avoid single-use plastics in our store.

Giving back.

We donate a portion of our profits each month to the Phluid Phoundation to support the LGBTQIA+ and other marginalized communities.

We started with a 700 sq ft retail space in Soho, and have ambitious plans to tackle the US Bachelorette Market in 2024 with a mix of direct-to-consumer and retail.

Concept at Launch

Sugar Wood opened in Soho in late June 2022. Our concept was simple: a "naughty" dessert shop with a purposefully limited menu featuring Woody & Kitty waffles and bottled water. We remained laser focused on creating an engaging customer experience and driving in-store traffic.

- The US bachelor/bachelorette market was projected to reach \$17 billion in 2023. Nearly 60% of bachelorette parties spend around \$1,000 on their event. 1 in 10 spend more than \$4,000.
- Batch, the #1 bachelorette party planning app in the US, recently closed a \$9 million Series A to expand their business.
- Experiential retailers like the Museum of Ice Cream, Color Factory, and immersive art installations have grown in popularity post-pandemic.
- Social media continues to dominate the average American's life, and our thirst for engaging content is bigger than ever. The average TikTok user opens the app 17 times a day.

Product

Desserts that are "naughty" and also do good

Sugar Wood sells "naughty" desserts at our NYC shop and online, including our signature Woody & Kitty Waffles, popsicles, cookies and chocolate bars, in addition to a selection of beverages and Sugar Wood branded merchandise, like t-shirts, keychains, candles and stickers. We also offer party boxes, private in-store events, on-site catering, and nationwide shipping of our products to meet the consumer wherever they are.

Sugar Wood's products are intended to be funny, lighthearted, memorable, highly shareable and primed to go viral on social media. We do not aim to be vulgar, offensive or tacky. We offer an immersive experience to anyone that walks through our door, with a combination of jokes, innuendo, performance and delicious treats.

How I've gone through life without knowing about this company before, is beyond me. They are nothing but THE BEST!!! Their fun, energetic staff make something that is taboo for so many, a very safe environment to learn how to become more comfortable talking about sex. I highly recommend 🔥 ... [More](#)

Very cozy, adult friendly pastry shop! Saw this place show up on my Instagram feed and became curious to try out what they had to offer. The woman attending me was very bubbly and made my friend and I laugh by asking us what flavor we wanted or which waffle we wanted. The shop itself is kinda small, so if it's packed here, be prepared to eat your woodys or kitty's outside as onlookers walk by! The waffles themselves were actually very soft and warm and the frosting made it that more flavorful.

Business Model

In 2024 we will take Sugar Wood

National via Direct-to-Consumer

Sugar Wood has adopted an omnichannel strategy for its next phase of growth. While we remain focused on selling the Sugar Wood Experience in our NYC flagship store and any future locations, we recognize that only a small percentage of consumers can make the trip to New York City.

As part of our efforts to expand Sugar Wood's reach, sugarwood.co is now built on Shopify for a seamless checkout process. At the end of Q1 we will transition our in-store POS to Shopify, allowing for better data capture wherever the customer chooses to shop.

Also in the pipeline for 2024: redesigned product pages and website architecture to place greater emphasis on e-commerce, expanded product offerings, and custom packaging for waffle and cookie boxes providing a truly memorable unboxing experience.

To support these efforts we will expand our digital marketing efforts including SEO, Google Ads, email and SMS.

Vision And Strategy

Expansion and profitability

We aim to make Sugar Wood nationwide brand by the end of 2024 with a thriving direct-to-consumer business, an upward growth trajectory for the NYC flagship store, and begin planning for a second location.

Bachelorette Parties, Private Parties

BACH, the #1 bachelorette party-planning app in the US, estimates that the bachelorette industry is worth \$17 billion nationally. The average bachelorette party has 10.2 attendees.

We have created a menu of offerings to cater to those planning events, with **prices starting at \$179** plus tax and gratuity for our most economical packages. Our more experiential offerings (store buyouts and on premise waffle service) start at **\$400** plus tax and gratuity.

Sugar Wood has joined the Wedding International Professional Association (WIPA). We have already made inroads with wedding planners who are recommending us to the brides-to-be for their bachelorette parties and other service providers.

We have developed an outreach program for hotel concierges, with the Soho Grand and Gansevoort Hotels already on board.

A bachelorette recently booked a **private two hour party at Sugar Wood for \$2800.**

We plan to invest additional marketing dollars to target hospitality professionals and event coordinators in the NYC area via SEM and social media ads to further develop this lucrative revenue stream.

This year we are placing a greater emphasis on marketing for events and catering. As much as 20% of our in-store traffic comes for bachelorette and birthday parties, and two of our busiest months are December (holiday) and February (Valentine's Day) with customers purchasing boxes of waffles and cookies to share with friends and loved ones.

To support this channel, we recently added to sugarwood.co a self-booking option for in-store and on premise events, powered by the app Peek. We have also established a relationship with the party and travel planning app Batch, made online ordering for both local and national delivery easier than ever, joined the NYC chapter of WIPA (Wedding International Professionals Association), and began participating in quarterly Wedding Salon events in the greater NYC area.

And perhaps most importantly we have entered into a partnership with NYBucketList, a partner we have worked with multiple times to advertise Sugar Wood. After multiple successful private Cookie & Waffle Decorating Parties in 2023, we are launching a ticketed events series with Bucket List to offer this experience to their 3.4 million person global audience. The first block of dates in February is expected to generate \$17,000 in revenue for Sugar Wood.

Leadership

Founder with extensive experience in marketing and brand building, and

one previous exit

Hi I'm Austin Allan. I'm a seasoned marketer, brand builder, and out of the box thinker. That's me below with Tom Smallwood, the award winning pastry chef who consults on Sugar Wood's recipes.

In 2013 I started a brand called Tio Gazpacho, a first of its kind drinkable bottled soup brand. I was able to secure investments from celebrity chef and humanitarian José Andrés and General Mills. In 2019 we sold Tio Gazpacho to Novamex, the El Paso based beverage group whose portfolio includes the Jarritos soda brand, C2O coconut water, and Steazs organic ice tea.

I am fortunate to have the support of incredible advisors and investors.

"We had been following Austin's career and got excited when he was thinking of something new. We have been investors in a number of consumer facing brands on a personal basis both in Europe and the US, and Tim is a 25 year veteran consumer focused investor within a couple of the world's largest private equity houses. We like the margins, the potential return on capital and the brand positioning."

Investing in Sugar Wood was a no brainer for me. I'm privileged to know Austin Allan for well over a decade and had a front row seat to his work ethic and behavior running his first startup. As an entrepreneur myself, I am keenly aware that the success of a business is directly tied to the founding team and their drive "to win." I would bet everything all over again on Austin, given the chance.
