laws, public support for Cannabis in Wisconsin increased, as reflected in the 2018 election and continued to in municipalities, including Appleton and Milwaukee County, have significantly lowered fines for cannabis possession. It took it one step further by decriminalizing cannabis possession. In 2019, Governor Evers, attempted to legalize cannabis, but Republicans took such provisions out of the final bill. Moving into 2022, however, there are currently a Republican bill to legalize marijuana. They are expected to pass.

Wisconsin residents overwhelmingly supported more than a dozen non-binding advisory questions regarding the legalization of cannabis in Wisconsin.

Should Wisconsin go the same route as Michigan for legalization, with an expected sales increase of 150%, Wisconsin could see over \$1 billion in just a few short years.

In 2020 marijuana sales were over \$17.5 billion.

The expected sales for marijuana in 2030 is estimated to be over \$100 billion.

Only 24% of cannabis demand is met by legal sources, indicating a high unmet need for marijuana in states where it is legal.

Major cannabis players continue to open more locations, specifically on the West and East coasts.

Opportunity in Wisconsin remains huge for both hemp and marijuana.

Q&A

Why are you raising capital and why is now a good time?

With signs indicating that legalization will happen very soon, Wisconsin is poised to compare in sales with the other mid-west states. Wisconsin is still working on legalization, but the estimates promise stellar growth. By increasing brand recognition and loyalty, we will already have a large customer base when legalization does occur.

## Risk Factors

### You Might Lose Your Money

When you buy a certificate of deposit from a bank, the Federal government (through the FDIC) guarantees you. A Sconi Boys Note is not like that at all. The ability of Sconi Boys to make the payments you expect, and ultimately to give you a return, depends on a number of factors, including many beyond our control.

### Limited Services

Sconi Boys operates with a very limited scope, offering only particular services to potential clients, making the services less likely to match your preferences.

### Lack of Accounting Controls

Larger companies typically have in place strict accounting controls. Smaller companies typically lack these controls, which creates an additional risk.

### Competition

The market in which we operate is highly competitive and could become increasingly competitive with new entrants. Sconi Boys competes with many other businesses, both large and small, on the basis of quality, price, location, and customer preference away from Sconi Boys's core business or the inability to compete successfully against the competition could harm Sconi Boys's financial performance.

### Reliance on Management

As a securities holder, you will not be able to participate in Sconi Boys's management or vote on and/or influence decisions regarding Sconi Boys. Furthermore, if the founders or other key personnel of Sconi Boys were to leave Sconi Boys, the business (and your investment) could suffer substantially.

### Financial Forecasts Risks

The financial forecasts provided by us herein are reasonable forecasts by us based upon assumption of stable conditions and various assumptions regarding operations. The validity and accuracy of these assumptions will depend in large part on the performance of Sconi Boys and the key persons will have no control. Changes in assumptions or their underlying facts could significantly affect the extent that the assumed events do not occur, the outcome may vary significantly from the projected outcomes. We cannot provide any assurance that the actual operating results will correspond to the forecasts provided herein. Additionally, Sconi Boys has no operating history from which forecasts could be projected with.

## No Registration Under Securities Laws

The Notes will not be registered with the SEC or the securities regulator of any State. Hence, neither Sconi Boys nor the Notes will be subject to the same degree of regulation and scrutiny as if they were registered.

## Incomplete Offering Information

Title III does not require us to provide you with all the information that would be required in some other kinds of offerings of securities, such as an offering of shares (for example, publicly-traded firms must generally provide investors with quarterly and annual financial statements, which are audited by an independent accounting firm). Although Title III does require extensive information, it is possible that you may not have enough information to make an informed decision if you had more information.

## Lack of Ongoing Information

Sconi Boys will be required to provide some information to investors for at least 12 months following the offering. However, the information that we will be required to provide will be more limited than the information that would be required of a publicly-reporting company; and Sconi Boys is not required to provide any information in certain circumstances.

## Uninsured Losses

Although Sconi Boys carries some insurance, Sconi Boys may not carry enough insurance to protect against all risks. There are some kinds of risks that are very difficult or impossible to insure against, at least at a reasonable cost. If Sconi Boys suffers an uninsured loss that could damage its business, it could have a significant negative impact on its ability to pay the Notes.

## Changes in Laws

Changes in laws or regulations, including but not limited to zoning laws, environmental laws, tax laws, consumer protection laws, antitrust laws, and health care laws, could negatively affect Sconi Boys's financial performance or ability to conduct business. Additional regulation on the industry could significantly negatively affect the business.

## Conflict of Interest With Companies and Their Management

In many ways, your interests and the interests of Sconi Boys's management will coincide: you both want Sconi Boys to succeed. However, your interests might be in conflict in other important areas, including these: You might want Sconi Boys to succeed so that they are best equipped to repay the Note obligations, while Sconi Boys might prefer to spend aggressively to increase its market share. You might want to keep the compensation of managers low, while managers want to make as much as they can.

## Future Investors Might Have Superior Rights

If Sconi Boys needs more capital in the future and takes on additional debt or other sources of financing, the new investors might have rights superior to yours. For example, they might have the right to be paid before you are, to receive larger distributions of cash, or to have more control over the company's operations.

Because your payments are based on the revenue of Sconi Boys, and the revenue of Sconi Boys can go up or down unpredictably, it is impossible to predict how much you will receive and when. And because the payments are return.

## The Notes Are Unsecured and Uninsured

The Notes are not secured by any collateral, nor are they guaranteed or insured by the FDIC or any other entity.

## Subordination

The Notes shall be subordinated to all indebtedness of Sconi Boys to banks, commercial finance lenders, leasing institutions, and/or other institutions regularly engaged in the business of lending money.

## Lack of Guaranty

The Notes are not personally guaranteed by any of the founders or any other person.

## Limitation of Individual Rights in Event of Default

In the event of a default under the Notes, you will not be able to enforce your rights individually (for example, to appoint a representative will be appointed according to the procedures set forth in the Note Indenture. It's possible that the representative will do things you believe are wrong or misguided. If an event of default has occurred and a representative is appointed, all of the representative's reasonable expenses must be paid before any further payments are made.

## COVID-19 Impact

The ongoing COVID-19 pandemic may impact the Company's ability to generate revenue and/or continue operations. Due to COVID-19 restrictions, the Company can not guarantee that it will resume operations in the future.

## Limited Operating History

Sconi Boys is a newly established entity and has no history for prospective investors to consider.

This information is provided by Sconi Boys. Mainvest never predicts or projects performance, and has not reviewed additional information, review the official Form C filing with the Securities and Exchange Commission on the E-Form C. This is a preview. It will become public when you start accepting investment.

## Investor Discussion

Sconi Boys isn't accepting investments right now, but is trying to get a sense of how they should structure their investments. We won't be accepting money or selling securities, until all of its forms with the SEC and you have reviewed them. All investments will must be done through Mainvest.com. Once the offering goes live, you'll be able to invest if you want.
