

## HBCU Innovators Sourcing Capital to Black-Owned Businesses

**LEAD INVESTOR**

**Kemba Hall**

I believe we need to empower the right individuals to create change and impact and Garry and his team are the best to do that! Garry is an award winning startup founder and has been doing great work for his community for several years. His work as the Executive Director of First Founders Inc. a non-profit focused on helping and serving underrepresented early-stage founders has proven his commitment to helping others grow and scale their businesses. I have no doubt in his ability to change the game in supporting and backing the best small businesses, scalable startups, and investment firms to drive their mission.

## Company Overview

As a new startup, our first \$25,000 in funds raised will be used to acquire our PopShop robotic storefront and cover software costs for the year. Additional funds will be invested in the operations & marketing of our upcoming ecommerce store, Bison.Shop, and stocking inventory from our lifestyle brand, @WeBlackUnicorns. As we continue to "Test the Waters" and gain investor interest, we'll be updating our campaign with additional details, updates, and partnerships.

**Bison Venture Partners (BVP) manages a portfolio of brands founded by MBA Candidates Howard University.**

We partner with small businesses, tech startups, and investors to create experiential learning opportunities for HBCU students & alumni.
