PicMii does not make investment recommendations and no communication through this website or in any other medium should be construed as a recommendation for any security offered on or off this investment platform. Equity crowdfunding investments in private placements, Regulation A, D and CF offerings, and start-up investments in particular are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace. There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio. Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest.

Cautionary Note Concerning Forward-Looking Statements

This Form C and any documents incorporated by reference herein contain forward-looking statements and are subject to risks and uncertainties. All statements other than statements of historical fact or relating to present facts or current conditions included in this Form C are forward-looking statements. Forward-looking statements give our current reasonable expectations and projections regarding our financial condition, results of operations, plans, objectives, future performance and business. You can identify forward-looking statements by the fact that they do not relate strictly to historical or current facts. These statements may include words such as "anticipate," "estimate," "expect," "project," "plan," "intend," "believe," "may," "should," "can have," "likely," and other words and terms of similar meaning in connection with any discussion of the timing or nature of future operating or financial performance or other events.

The forward-looking statements contained in this Form C and any documents incorporated by reference herein are based on reasonable assumptions we have made in light of our industry experience, perceptions of historical trends, current conditions, expected future developments and other factors we believe are appropriate under the circumstances. As you read and consider this Form C, you should understand that these statements are not guarantees of performance or results. Although we believe that these forward-looking statements are based on reasonable assumptions, you should be aware that many factors could affect our actual operating and financial performance and cause our performance to differ materially from the performance anticipated in the forward-looking statements. Should one or more of these risks or uncertainties materialize or should any of these assumptions prove incorrect or change, our actual operating

and financial performance may vary in material respects from the performance projected in these forward-looking statements.

Investors are cautioned not to place undue reliance on these forward-looking statements. Any forward-looking statements made in this Form C, or any documents incorporated by reference herein is accurate only as of the date of those respective documents. Except as required by law, we undertake no obligation to publicly update any forward- looking statements for any reason after the date of this Form C or to conform these statements to actual results or to changes in our expectations.

5. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power. To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control - as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

Business and Anticipated Business Plan

6. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Digital Frontier Marketing focuses its efforts on the long-term well-being and expansion of its crypto currency clients and the management of its celebrity based NFT sales platform www.celebrium.com. Its primary services are designed to increase the willingness of the public and businesses to accept the client's currencies as well as purchase NFTs. In addition, DFM focuses on assisting its clients to gain broad public use of their currencies in retail outlets. DFM does not get involved in the direct promotion of ICOs (initial coin offerings) or sale of coins on behalf of our clients.

The digital currency industry is growing at a very fast rate in terms of the trading value of cryptocurrencies like Bitcoin and Ether. Current daily trading levels range as high as 80 billion dollars in volume a day. Within five years digital currency trading may reach ten to fifteen trillion dollars in annual trading volume. Retail providers are now taking steps to adopt the use of blockchain technologies in their product sales strategies.

NFTs, otherwise known as non-fungible tokens or digital collectibles, is arguably the fastest growing industry in the history of commerce. From estimated sales of 150 million worldwide in 2020, NFTs sales reached 27 billion in 2021 and over 10 billion sales in January of 2022. With over 200 million memorabilia collectors and over 300 million cryptocurrency buyers, NFT's had

a ready-made market and worldwide infrastructure to trade NFTs. With the launch of Celebrium.com, DFM has entered the NFT space with a unique content distribution platform specializing in celebrities and influencers only. DFM is uniquely positioned to gain a first mover advantage in this space of digital currency awareness solutions and NFTs.

Our initial stage of growth revolves around gaining millions of crypto and digital coins as well as tokens for our services. Those services and the actions that we take are designed to increase coin value and trading volume. This will allow the company to liquidate coin holdings from time to time to cover operations and to distribute profits to our investors. Eventually DFM will begin to take digital currencies and cash in exchange for its services to fund operations. DFM also has begun the recruitment of celebrities and influencers to place NFTs on Celebrium. DFM is also involved in several massive list building projects which will be used to sell NFTs too.

Risk Factors

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters. The Company is still in an early phase, and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early-stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises such as COVID-19 can have a significant effect on our business operations and revenue projections.

There is an ongoing outbreak of a novel and highly contagious form of coronavirus ("COVID-19"), which the World Health Organization declared a global pandemic on March 11, 2020. The outbreak of COVID-19 has caused a worldwide public health emergency with a substantial number of hospitalizations and deaths and has significantly adversely impacted global commercial activity and contributed to both volatility and material declines in equity and debt

markets. The global impact of the outbreak is rapidly evolving, and many national, state, and local governments have reacted by instituting mandatory or voluntary quarantines, travel prohibitions and restrictions, closures or reductions of offices, businesses, schools, retail stores, restaurants, and other public venues and/or cancellations, suspensions and/or postponements of certain events and activities, including certain non-essential government and regulatory activities. Businesses are also implementing their own precautionary measures, such as voluntary closures, temporary or permanent reductions in work force, remote working arrangements and emergency contingency plans.

Such measures, as well as the general uncertainty surrounding the dangers, duration, and impact of COVID-19, are creating significant disruption to supply chains and economic activity, impacting consumer confidence and contributing to significant market losses, including by having particularly adverse impacts on transportation, hospitality, healthcare, tourism, sports, entertainment and other industries dependent upon physical presence. Technological infrastructure has, and will likely continue to be, strained for so long as mandatory or voluntary quarantines are instituted, which will change, and potentially disrupt, the operations of the Company. As COVID-19 continues to spread, potential additional adverse impacts, including a global, regional or other economic recession of indeterminate duration, are increasingly likely and difficult to assess and, if the spread of COVID-19 is prolonged, it could adversely affect many economies, global financial markets and the Company even after COVID-19 is contained.

The extent of the impact of COVID-19 on the Company's operational and financial performance will depend on many factors, all of which are highly uncertain and cannot be predicted. Those factors include the duration and scope of the resulting public health emergency; the extent of any related restrictions implemented; the impact of such public health emergency on overall supply and demand, goods and services, investor liquidity, consumer confidence and levels of economic activity; and the extent of its disruption to important global, regional and local supply chains and economic markets. The effects of the COVID-19 pandemic may materially and adversely impact the value, performance and liquidity of the Company.

In addition, COVID-19 and the resulting changes to global businesses and economies likely will adversely impact the business and operations of the Company and therefore the business and operations of the Company. Certain businesses and activities may be temporarily or permanently halted as a result of government or other quarantine measures, voluntary and precautionary restrictions on travel or meetings and other factors, including the potential adverse impact of COVID-19 on the health of key personnel.

Regulatory changes and uncertainties.

The Company operates in a highly regulated industry subject to substantial change. In addition, both its labor and customer base are licensed and regulated by local, state, and federal governments. Policies may be changed for several reasons including, but not limited to economic conditions, public safety, socio-political factors, and such. As policy changes are made by regulators, there is no guarantee that the company will be able to provide services in its current form, which may place a substantial hardship on operations, causing an Investor to lose all or a portion of their investment.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations may require a significant pivot in strategy and execution, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenue, as well as the inherent business risks associated with our Company and present and future market conditions.

The Company's success depends on the experience and skill of its manager and other key personnel.

In particular, we are dependent on our managers. The loss of the Managers, the Principals or any other key personnel could harm the Company's business, financial condition, cash flow and performance. Accordingly, you should not invest in the Company unless you are willing to entrust all aspects of the management of the Company and the investment decisions we make on the behalf of the Company.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success and will be critical to our success as we form and advise new markets. Any incident that erodes confidence in our brand could significantly reduce the Company's value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social

media websites and other forms of internet-based communications that provide individuals with access to a broad audience. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correct.

Risks Related to the Offering

The U.S. Securities and exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered Offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close of the Offering can occur, which will allow the Company to draw down on half of the proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may

also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof.

Although Investors will have no right to voluntarily withdraw capital from the Company or withdraw their Securities, in certain circumstances they may be forced to withdraw from the Company.

An Investor may be forced to withdraw from the Company if the Company reasonably determines that it is necessary or desirable to do so in order to comply with applicable law or regulations, or to avoid a material adverse effect on the Company or the other holders of securities in the Company.

Investors will have no right to control the Company's operations.

The Investors will have no opportunity to control the day-to-day operations of the Company, including, without limitation, the investment and disposition decisions of the Portfolio Companies. In order to safeguard your limited liability for the liabilities and obligations of the Company, you must rely entirely on the Manager and Principals to conduct and manage the business affairs of the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

The Company may never undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never undergo a liquidity event such as a repurchase of the Securities by the Company, a sale of the Company or an initial public or coin offering. If a liquidity event does not occur, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities have no voting rights or ability to direct the Company or its actions.

The Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company's equity securities will be subject to dilution. The Company may issue additional equity to third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's economic interests in the Company. The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

The Securities may be substantially different from other equity securities offered or issued by the Company.

The Securities may be materially different from the other equity securities of the Company in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. The Securities may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred membership interests, have been paid in full. Neither holders of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

*The Company reserves the right to amend the Minimum Individual Purchase Amount, in its sole discretion. In particular, the Company may elect to participate in one of the Intermediary's special investment programs and may offer alternative Minimum Individual Purchase Amounts to Investors participating in such programs without notice.

Digital Frontier Marketing Inc. ("Company") is offering securities under Regulation CF, through PicMii Crowdfunding LLC ("PicMii"). PicMii is a FINRA/SEC registered funding portal and will receive cash compensation equal to 4.5% of the value of the securities sold through Regulation CF. Investments made under Regulation CF involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest.

The Company plans to raise between \$10,000 and \$1,000,000 through an offering under Regulation CF. Specifically, if we reach the Minimum Raise Amount of \$10,000, we may conduct the first of multiple or rolling closings of the offering early if we provide notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have not yet to be closed.

In the event The Company fails to reach the minimum offering amount of \$10,000, any investments made under the offering will be cancelled and the investment funds will be returned to the investor.

7. What is the purpose of this offering?

If the maximum offering amount is raised, our anticipated use of proceeds is as follows in Question 8.

8. How does the issuer intend to use the proceeds of this offering?

Add rows as necessary to account for all ways you intend to use the proceeds of this offering.

	% of Capital if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Capital if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised
PicMii Portal Fee	4.5%	\$450	4.5%	\$45,000
Marketing	95.5%	\$9,550	16.5%	\$165,000
Celebrity NFT Acquisition	0	0	20%	\$200,000
Public relations and Media placement	0	0	10%	\$100,000
Legal	0	0	5%	\$50,000
DCG customer acquisition	0	0	14%	\$140,000
Exchange creation and development	0	0	10%	\$100,000
Operating expenses	0	0	20%	\$200,000
Total	100%	\$10,000	100%	\$1,000,000

*We reserve the right to change the above use of proceeds if management believes it is in the best interest of the Company.

9. How will the issuer complete the transaction and deliver securities to the investors?

Manage Own Records - In entering into an agreement on PicMii Crowdfunding's Funding Portal to purchase securities, both investors and the Company must agree that a transfer agent, which keeps records of our outstanding Common Stock (the "Securities"), will issue digital Securities in the investor's name (a paper certificate will not be printed) or that the Company is capable of maintaining investment records on their own. In this Case, they will be managing their records on their own. Stock ownership is recorded in the company's electronic books and records, which may be kept online if directed by the Board, with issuance and transfers of stock made electronically.

10. How can an investor cancel an investment commitment?

You may cancel an investment commitment for any reason until 48 hours prior to the deadline identified in the offering. PicMii will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). PicMii Crowdfunding will notify investors when the target offering amount has been met. If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment. If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled, and the committed funds will be returned.

11. Can the company perform multiple closings or rolling closings for the offering?

If we reach the target offering amount prior to the offering deadline, we may conduct the first of multiple closings of the offering early, if we provide notice about the new offering deadline at least five business days prior (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Thereafter, we may conduct additional closings until the offering deadline. We will issue Securities in connection with each closing. Oversubscriptions will be allocated on a first come, first served basis. Changes to the offering, material or otherwise, occurring after a closing, will only impact investments which have yet to be closed.

Ownership and Capital Structure

The Offering

12. Describe the terms of the securities being offered.

Digital Frontier Marketing is offering Class A shares of Common Stock at \$1.00 per share with a minimum investment amount of \$500. Their target offering amount is \$10,000 (10,000 shares) and their maximum raise amount is \$1,000,000 (1,000,000 shares). DFM's offering will be available until December 31st, 2023.

Class A shares of Common Stock at \$1.00 per share.

Target Offering: \$10,000 | 10,000 shares

Maximum Offering Amount: \$1,000,000 | 1,000,000 shares

Type of Security: Equity

Offering Deadline: December 31st, 2023

Minimum Investment: \$500

13. Do the securities offered have voting rights? Voting Rights and Proxy:

The securities being offered do not have voting rights.

14. Are there any limitations on any voting or other rights identified above? See Question 13.

15. How may the terms of the securities being offered be modified?

We may choose to modify the terms of the securities before the offering is completed. However, if the terms are modified, and we deem it to be a material change, we need to contact you and you will be given the opportunity to reconfirm your investment. Your reconfirmation must be completed within five business days of receipt of the notice of a material change, and if you do not reconfirm, your investment will be cancelled, and your money will be returned to you.

Restrictions on Transfer of the Securities Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- to the issuer;
- to an accredited investor;
- as part of an offering registered with the U.S. Securities and Exchange Commission; or to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.
- The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

16. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Amount Authorized	Amount Outstanding	Reserved Options	Convertible Note/SAFEs	Voting Rights
Common Class A	7,000,000	1,560,321	N/A	N/A	No

Common Class B	6,382,023	6,382,023	N/A	N/A	Yes
----------------	-----------	-----------	-----	-----	-----

Options, Warrants and Other Rights

17. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of securities? Investors should understand the potential for dilution. The investor's stake in a company could be diluted due to the company issuing additional shares. In other words, when the company issues more shares, the percentage of the company that you own will go down, even though the value of the company may go up. You will own a smaller piece of a larger company. This increase in number of shares outstanding could result from a stock offering (such as an initial public offering, another crowdfunding round, a venture capital round, angel investment), employees exercising stock options, or by conversion of certain instruments (e.g., convertible bonds, preferred shares or warrants) into stock. If the company decides to issue more shares, an investor could experience value dilution, with each share being worth less than before, and control dilution, with the total percentage an investor owns being less than before. There may also be earnings dilution, with a reduction in the amount earned per share (though this typically occurs only if the company offers dividends, and most early-stage companies are unlikely to offer dividends, preferring to invest any earnings into the company)

18. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

The issuer will be offering Class A shares of Common Stock which have no voting rights. The issuer also has Class B shares of Common Stock which do have voting rights.

19. How could the exercise of rights held by the principal owners identified in Question 5 above affect the purchasers of Securities being offered?

The holder of a majority of the voting rights in the company may make decisions with which you disagree, or that negatively affect the value of your investment in the company, and you will have no recourse to change those decisions. Your interests may conflict with the interests of other investors, and there is no guarantee that the company will develop in a way that is advantageous to you. For example, the majority shareholder may decide to issue additional shares to new investors, sell convertible debt instruments with beneficial conversion features, or make decisions that affect the tax treatment of the company in ways that may be unfavorable to you. Based on the risks described above, you may lose all or part of your investment in the securities that you purchase, and you may never see positive returns.

20. How are the securities being offered valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The securities being offered are valued at the issuer's discretion. An early-stage company typically sells its shares (or grants options over its shares) to its founders and early employees at a very low cash cost, because they are, in effect, putting their "sweat equity" into the company.

When the company seeks cash investments from outside investors, like you, the new investors typically pay a much larger sum for their shares than the founders or earlier investors, which means that the cash value of your stake is immediately diluted because each share of the same type is worth the same amount, and you paid more for your shares than earlier investors did for theirs.

There are several ways to value a company, and none of them is perfect and all of them involve a certain degree of guesswork. Any of these methods, plus others, may be used to determine valuation in the future:

Liquidation Value - The amount for which the assets of the company can be sold, minus the liabilities owed, e.g., the assets of a bakery include the cake mixers, ingredients, baking tins, etc. The liabilities of a bakery include the cost of rent or mortgage on the bakery. However, this value does not reflect the potential value of a business, e.g., the value of the secret recipe. The value for most startups lies in their potential, as many early-stage companies do not have many assets.

Book Value - This is based on analysis of the company's financial statements, usually looking at the company's balance sheet as prepared by its accountants. However, the balance sheet only looks at costs (i.e., what was paid for the asset), and does not consider whether the asset has increased in value over time. In addition, some intangible assets, such as patents, trademarks or trade names, are very valuable but are not usually represented at their market value on the balance sheet.

Earnings Approach - This is based on what the investor will pay (the present value) for what the investor expects to obtain in the future (the future return), taking into account inflation, the lost opportunity to participate in other investments, the risk of not receiving the return. However, predictions of the future are uncertain, and valuation of future returns is a best guess.

Different methods of valuation produce a different answer as to what your investment is worth. Typically, liquidation value and book value will produce a lower valuation than the earnings approach. However, the earnings approach is also most likely to be risky as it is based on many assumptions about the future, while liquidation value and book value are much more conservative.

Future investors (including people seeking to acquire the company) may value the company differently. They may use a different valuation method, or different assumptions about the company's business and its market. Different valuations may mean that the value assigned to your investment changes. It frequently happens that when a large institutional investor such as a venture capitalist makes an investment in a company, it values the company at a lower price than the initial investors did. If this happens, the value of the investment would go down.

21. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The company's Certificate of Incorporation or Bylaws can be amended by the holders of a majority of the issued and outstanding shares of the Company. As minority owners, the crowdfunding investors are subject to the decisions made by the majority owners. The issued and outstanding shares of common stock give management voting control of the company. As a minority owner, you may be outvoted on issues that impact your investment, such as, among other things: (a) the liquidation, dissolution or winding up of the company, or effecting any merger or consolidation; (b) amendment of any provision of the Certificate of Incorporation or Bylaws; (c) creation and issuance of other securities having rights, preferences or privileges senior to the common stock sold to the crowdfunding investors, or increasing the authorized number of shares of stock of the company; or (d) creation of any debt security.

22. What are the risks to purchasers associated with corporate actions including:

- 1. Additional issuances of securities**
- 2. Issuer repurchases of securities**
- 3. A sale of the issuer or of assets of the issuer**
- 4. Transactions with related parties**

The authorization and issuance of additional shares of the company's common stock will dilute the ownership of the crowdfunding investors. As a result, if the company achieves profitable operations in the future, its net income per share will be reduced because of dilution, and the market price of the company's common stock, if there is a market price, could decline as a result of the additional issuances of securities. If the company repurchases securities, so that the above risk is mitigated, and there are fewer shares of common stock outstanding, the company may not have enough cash available for marketing expenses, growth, or operating expenses to reach our goals. If we do not have enough cash to operate and grow, we anticipate the market price of our securities would decline. A sale of the company or of all of the assets of the company may result in an entire loss of your investment. We cannot predict the market value of the company or its assets, and the proceeds of a sale may not be cash, but instead, unmarketable securities, or an assumption of liabilities. It is unlikely that in the near term, a sale would result in a premium that is significant enough over book value to generate a return to our investors. We may need to negotiate with a related party for additional capital. No assurance can be given that such funds will be available or, if available, will be on commercially reasonable terms satisfactory to us. Even if such financing is available, it may be on terms that are materially adverse to your interests with respect to dilution of book value, dividend preferences, liquidation preferences, or other terms.

23. Describe the material terms of any indebtedness of the issuer:

Creditor(s)	Amount Outstanding	Interest Rate	Maturity Date
Quadrant Sales and Marketing	\$27,250	No Interest Loan	N/A
Accountant	\$1,503	N/A	N/A

24. What other exempt offerings has the Company conducted within the past three years?

3/24/2022: Issuer raised \$242,980 through exemption 506(b).

8/26/2022: Issuer raised \$174,582 through exemption 506(b).

25. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

- 1. Any director or officer of the issuer;**
- 2. Any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;**
- 3. If the issuer was incorporated or organized within the past three years, any promoter of the issuer; or**
- 4. Any immediate family members of any of the foregoing persons.**

INDEPENDENT AUDITORS' REPORT

Board of Directors and Members of
Digital Frontier Marketing LLC

REPORT ON FINANCIAL STATEMENTS

I have audited the accompanying balance sheet of Digital Frontier Marketing LLC as of December 31, 2020 and 2021 and the related statements of operations, changes in owner's equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management.

MANAGEMENT'S RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

Management is responsible for the preparation and fair presentation of these financial statements in accordance with principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with generally accepted auditing standards as accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of risks of material misstatements of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, I express no such opinion.

An audit also includes evaluating appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. Examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant

estimates made by management, as well as evaluating the overall financial statement presentation.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

OPINION

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Digital Frontier Marketing LLC as of December 31, 2020 and 2021 and the results of operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

As of 31 December 2021

NOTE 1 – ORGANIZATION AND NATURE OF OPERATIONS

Digital Frontier Marketing LLC (DFM), previously named Digital Currency Growth LLC, is registered in Florida since September 2017. DFM focuses its efforts on the long term well-being and expansion of its crypto currency clients and the management of its celebrity based NFT sales platform www.celebrium.com. Its primary services are designed to increase the willingness of the public and businesses to accept the client's currencies as well as purchase NFTs. In addition DFM focuses on assisting its clients to gain broad public use of their currencies in retail outlets. DFM "does not" get involved in the direct promotion of ICOs (initial coin offerings) or sale of coins on behalf of our clients.

DFM utilizes celebrities through social media and public relations using media interviews to draw significant public attention to our digital currency clients and to Celebrium.com. Celebrities will also promote DFM clients through a unique PR strategy through the celebrity social network profiles often times to millions of followers during each campaign.

The most unique aspect of DFM is that rather than collect strictly cash based payment the company accepts the client currencies and customer cryptocurrency payments as the major form of payment for services rendered. This is because of the confidence DFM has in its ability to increase the value of client currencies through basic awareness campaigns about the companies (not promotions of their currency).

NOTE 2 – BASIS OF PRESENTATION AND GOING CONCERN

Basis of Presentation

The Company has earned insignificant revenues from limited principal operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Enterprise" as set forth in Financial Accounting Standards Board Statement No. 7 ("SFAS 7"). Among the disclosures required by SFAS 7 are that the Company's financial statements be identified as those of a development stage company, and that the statements of operations, stockholders' equity (deficit) and cash flows disclose activity since the date of the Company's inception.

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company currently has \$331,541.29 accumulated deficit as of December 31, 2021.

The company is a start-up and funding its operational expenses from the operating revenues, and financing activities. The company's management has taken serious steps, to maintain a positive working capital for the company, by adding new investors into the business, and conducting an offering through Regulation A financing under the Securities Act of 1933.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 4 - STOCKHOLDERS' EQUITY

The company has created two categories of shares, voting and none voting shares. There are four major investors who owns the voting shares equally, and they are forming the board of directors of the company.

None voting shares are obtained through direct investors, and through crowdfunding investors, as of the date of this report, \$347,920.00 were raised by direct investors, and 290,283.00 were raised by the crowdfunding investors.

NOTE 5 – PAYABLES

The accounts payables are due to small loans and services obtained from QSM, balance is \$11,477.35 as of December 31, 2021, and there were payments of \$17,697.40 to QSM during the 2021 through Raida Tech Units. Please see note 6 for more details.

Convertible Notes Payable balance is \$55,480.00 which consists of Discounted Commercial Notes that will be transferred into common shares at \$1.00 per share for different investors within 180 days of the issuance. None of those notes due for liquidation or conversion as of the date of this report.

NOTE 6 – CASH AND CASH EQUIVALENTS

The company is maintaining their cash at Synovus Bank, the Cash Balance at the bank is \$76,419.23 as of December 31, 2021.

Also the company has a balance of 6,856,180 of Cloud Coins at the cost of \$0.01 per unit. Market value of those units is more than the cost of obtaining those units, and unit company is using those coins for the payment of their bills, and accepts them as invoice payments. Furthermore, the company owned 1,000,000 Raida Tech Units, which has no face value at the time of ownership. The company use those units for payments, hence, the coins are considered revenues, at the value of the payment. The company used 260,000 units during 2021. The following table illustrates those payments.

#	Date	Units Used	Value	Note
1	03/03/2021	100,000	14,697.40	Loan Payment to QSM
2	09/22/2021	140,000	3,000.00	Loan Payment to QSM
3	12/17/2021	20,000	20,000.00	Bill payment for rendered services

NOTE 7 – OPERATING REVENUES

The company's major operating income is from Advertising conducted to their clients and redeeming Raida Tech Units, as of December 31, 2021, the revenues total \$53,277.40 has been earned, \$37,697.40 of them are through Coins redeeming, and 15,580.00 are through operating activities.

NOTE 8 – OPERATING EXPENSES

The company's major operating expenses are consisting of outside contractors as consultation fees which totaled \$20,000.00 during 2021.

Business Description

The mission of Digital Frontier Marketing is to have a "dual" focus. DFN intends to assist new companies in the crypto and digital currency sectors in their growth plans through a unique blend of celebrity and media promotions. Digital Frontier Marketing could be best described as a crypto currency business incubator seeking out breakthrough coin technologies and business models.

Digital Frontier Marketing also will pursue a strategy to distribute a significant number of the coins that it earns each quarter directly to its members who hold DFN units. The company wants its investors to benefit from coin distribution early and often.

The digital currency industry is growing at a very fast rate in terms of the trading value of cryptocurrencies like Bitcoin and Ether. Current daily trading levels range from three to six billion dollars in volume. Within five years digital currency trading may reach ten to fifteen trillion dollars in annual trading volume. Retail providers are now taking steps to adopt the use of blockchain technologies in their product sales strategies. Few digital currency companies are utilizing the power of celebrity and influencer social networks nor media events on TV & radio to gain awareness and public acceptance. DFN is uniquely positioned to gain a first mover advantage in this space of digital currency awareness solutions.

How Can Digital Frontier Marketing Make Cryptocurrency More Valuable?

Digital Frontier Marketing has a series of services designed to increase the value of both a participating company's coin price and dramatically builds public awareness of a given company. How? We use these proven services:

- Celebrity endorsement through their massive social profiles
- Online influencer promotion through their large follower bases
- Client interviews on television and radio shows
- Coin buyer prospect database creation and accumulation through online marketing

Problem

DFM clients are primarily technology oriented in terms of their management team knowledge and are lacking in the ability to promote their companies and currency so as to increase currency value. The general public awareness of the digital currency sector is quite low and this needs to be successfully addressed to maximize the potential of the digital currency industry.

Solution

We have adopted awareness solutions that utilize the massive power of celebrity social profiles that contain millions of followers. In addition there are internet influencers who also have millions of followers that DFN can access for the benefit of its clients and currencies. The company has also struck up a partnership with a very effective PR firm that is assisting DFN in getting media appearances on TV and radio to gain additional exposure for our clients.

Business Model

Our initial stage of growth revolves around gaining millions of crypto and digital coins as well as tokens for our services. Those services and the actions that we take are designed to increase coin value and trading volume. This will allow the company to liquidate coin holdings from time to time to cover operations and to distribute profits to our investors. Eventually DFN will begin to take digital currencies and cash in exchange for its services to fund operations.

Traction & Customers

Traction and Achievements

- In just its first 30 days the company has already earned over 14 million coins from its clients
- The company has completed its first investor distribution of over 10 million coins
- DFN has completed almost twenty media appearances for its client including a national appearance on The Blaze Network
- The company has completed two major celebrity & influencer campaigns accessing over 10 million social followers
- DFN built and now runs its own digital currency media web site called Digital Frontier News which has already generated thousands of potential coin buyers for its clients

Why Investors Love the DNF Plan

The Digital Frontier Marketing investor plan is simple: Distribute coins earned by DFM out to investors as quickly as possible and as often as possible. DFM wants investors to have liquidity in their investment through receipt of coins. After just one month the company has distributed over 10 million coins to its first round investors. Cash profits will also be distributed when available to do so on a quarterly basis.

Market Projection

Cryptocurrency trading exceeded 3 billion dollars every day with the top 50 exchanges worldwide in August 2017. That works out to over a trillion dollars of trading over the next twelve months if there was NO GROWTH. By October 2017 trading had hit over 6 billion dollars a day in trading with just the top 15 exchanges which translates to two trillion dollars of annual trading if there was NO GROWTH from October forward.

Competition

Digital Frontier Marketing has yet to find a similar company involved in celebrity and PR services to assist its cryptocurrency clients. Most of the companies involved in the digital currency industry are technology based. DFN is focused on a significant first mover advantage involving its business model to effect the price of its client coins.

Subscription Agreement

Digital Frontier Marketing Inc. Class A shares of Common Stock Subscription Agreement

The undersigned ("**Subscriber**") hereby tenders this subscription ("**Subscription Agreement**") to Digital Frontier Marketing Inc. a Florida Corporation (the "**Company**"), on the terms and conditions set forth below:

1. Subscription. Subject to the terms and conditions of this Subscription Agreement, Subscriber hereby: (a) subscribes to purchase from the Company the number of shares of Class A shares of Common Stock of the Company (the "**Class A shares of Common Stock**") set forth on the signature page of this Subscription Agreement (the "**Shares**"); and (b) agrees to pay to the Company, upon Subscriber's execution of this Subscription Agreement, an amount equal to \$1.00 per Share (the "**Purchase Price**"), via check, wire transfer, ACH, or Debit/Credit Card to the Company.

a. By executing this Subscription agreement, Subscriber acknowledges that Subscriber has received this Subscription agreement, a copy of the Offering Statement filed with the SEC and any other information required by the Subscriber to make an investment decision.

b. The aggregate number of Securities sold shall not exceed 1,000,000 shares (the "Oversubscription Offering"). The Company may accept subscriptions until December 31st, 2023, (the "Offering Deadline"). Provided that subscriptions for 10,000 shares (\$10,000 in investments) are received (the "Target Offering Amount"), the Company may elect at any time to close all or any portion of this offering, on various dates at or prior to the Offering Deadline (each a "Closing Date").

2. Acceptance. The Company has the right to accept or reject Subscriber's subscription in its sole and absolute discretion. The subscription will be accepted only when the Company countersigns this Subscription Agreement. Subscriber understands and agrees that, if this Subscription Agreement is accepted, it may not be cancelled, revoked or withdrawn by Subscriber. If this offer to buy Shares is rejected by the Company or is withdrawn by Subscriber in writing prior to acceptance by the Company, such portion of the Purchase Price as has been received by the Company in connection with this Subscription Agreement will be returned to Subscriber without interest, and Subscriber will cease to have any interest in, or rights with respect to, the Shares.

3. Purchase Procedure.

a. Payment. The purchase price for the Securities shall be paid simultaneously with the execution and delivery to the Company of the signature page of this Subscription Agreement, which signature and delivery may take place through digital online means. Subscriber shall deliver a signed copy of this Subscription Agreement, along with payment for the aggregate purchase price of the Securities in accordance with the online payment process established by the intermediary.

b. Escrow arrangements. Payment for the Securities shall be received by Enterprise Bank & Trust (the "Escrow Agent") from the undersigned by transfer of immediately available funds or other means approved by the Company prior to the applicable closing. Upon such Closing, the Escrow Agent shall release such funds to the Company. The undersigned shall receive notice upon Closing.

4. Representations, Warranties and Agreements. Subscriber makes the following representations, warranties, acknowledgments and agreements in order to induce the Company to accept this subscription:

(a) Authorization. Subscriber has full power and authority to enter into this Subscription Agreement, and when executed and delivered by Subscriber, will constitute valid and legally binding obligations of Subscriber, enforceable in accordance with their terms, except as limited by applicable

bankruptcy, insolvency, reorganization, moratorium, fraudulent conveyance and any other laws of general application affecting enforcement of creditors' rights generally, and as limited by laws relating to the availability of specific performance, injunctive relief or other equitable remedies.

(b) Purchase Entirely for Own Account. This Subscription Agreement is made with Subscriber in reliance upon Subscriber's representation to the Company, which by Subscriber's execution of this Subscription Agreement, Subscriber hereby confirms, that the Shares to be acquired by Subscriber will be acquired for investment for Subscriber's own account, not as a nominee or agent, and not with a view to the resale or distribution of any part thereof, and that Subscriber has no present intention of selling, granting any participation in, or otherwise distributing the same in violation of applicable securities laws. By executing this Subscription Agreement, Subscriber further represents that Subscriber does not presently have any contract, undertaking, agreement or arrangement with any person or entity to sell, transfer or grant participations to such person or entity or to any third person or entity, with respect to any of the Shares. In an entity, Subscriber has not been formed for the specific purpose of acquiring the Shares.

(c) Disclosure of Information. Subscriber and his, her or its attorneys and/or advisors have had an opportunity to obtain information concerning the Company and have had an opportunity to ask questions of and receive answers from authorized representatives of the Company concerning the Company, the offering and sale of the Shares and any other relevant matters pertaining to this investment, and in all instances have been afforded the opportunity to obtain such additional information as necessary to verify the accuracy of the information that was otherwise provided.

Subscriber has read the Offering Statement. Subscriber understands that the Company is subject to all the risks that apply to early-stage companies, whether or not those risks are explicitly set out in the Offering Statement. Subscriber acknowledges that except as set forth herein, no representations or warranties have been made to Subscriber, or to Subscriber's advisors or representative, by the Company or others with respect to the business or prospects of the Company or its financial condition.

(d) Restricted Securities. Subscriber understands that the Shares have not been, and will not be, registered under the Securities Act, by reason of a specific exemption from the registration provisions of the Securities Act which depends upon, among other things, the bona fide nature of the investment intent and the accuracy of Subscriber's representations as expressed herein. Subscriber understands that the Shares are "restricted securities" under applicable U.S. federal and state securities laws and that, pursuant to these laws, Subscriber must hold the Shares indefinitely unless they are registered with the Securities and Exchange Commission and qualified by state authorities, or an exemption from such registration and qualification requirements is available. Subscriber acknowledges that the Company has no obligation to register or qualify the Shares for resale. Subscriber further acknowledges that if an exemption from registration or qualification is available, it may be conditioned on various requirements including, but not limited to, the time and manner of sale, the holding period for the Shares, and on requirements relating to the Company which are outside of Subscriber's control, and which the Company is under no obligation and may not be able to satisfy.

(e) Illiquidity and Continued Economic Risk. Subscriber acknowledges and agrees that there is no ready public market for the Securities and that there is no guarantee that a market for their resale will ever exist. Subscriber must bear the economic risk of this investment indefinitely and the Company has no obligation to list the Securities on any market or take any steps (including registration under the Securities Act or the Securities Exchange Act of 1934, as amended) with respect to facilitating trading or resale of the Securities. Subscriber acknowledges that Subscriber is able to bear the economic risk of losing Subscriber's entire investment in the Securities. Subscriber

also understands that an investment in the Company involves significant risks and has taken full cognizance of and understands all of the risk factors relating to the purchase of Securities.

Subscriber is aware of the adoption of Rule 144 by the Securities and Exchange Commission under the Securities Act, which permits limited public resales of securities acquired in a non-public offering, subject to the satisfaction of certain conditions, including (without limitation) the availability of certain current public information about the issuer, the resale occurring only after the holding period required by Rule 144 has been satisfied, the sale occurring through an unsolicited "broker's transaction," and the amount of securities being sold during any three-month period not exceeding specified limitations. Subscriber acknowledges and understands that the conditions for resale set forth in Rule 144 have not been satisfied and that the Company has no plans to satisfy these conditions in the foreseeable future.

Subscriber agrees that during the one-year period beginning on the date on which it acquired Securities pursuant to this Subscription Agreement, it shall not transfer such Securities except:

- (i) To the Company;
- (ii) To an "accredited investor" within the meaning of Rule 501 of Regulation D under the Securities Act
- (iii) As a part of an offering registered under the Securities Act with the SEC; or
- (iv) To a member of the Subscriber's family or the equivalent, to a trust controlled by the Subscriber, to a trust created for the benefit of a member of the family of the Subscriber or equivalent, or in connection with the death or divorce of the Subscriber or other similar circumstance.

(f) No Violations. Subscriber will not sell, transfer, or otherwise dispose of the Shares in violation of this Subscription Agreement, the Securities Act, the Securities Exchange Act of 1934, or the rules promulgated thereunder, including Rule 144 under the Securities Act.

(g) Securities Law Restrictions. Regardless of whether the offering and sale of Shares under this Subscription Agreement have been registered under the Securities Act or have been registered or qualified under the securities laws of any state, the Company at its discretion may impose restrictions upon the sale, pledge or other transfer of the Shares (including the placement of appropriate legends on stock certificates, if any, or the imposition of stop-transfer instructions) if, in the judgment of the Company, such restrictions are necessary or desirable in order to achieve compliance with the Securities Act, the securities laws of any state or any other law.

(h) Rights of the Company. The Company shall not be required to (i) transfer on its books any Shares that have been sold or transferred in contravention of this Subscription Agreement or (ii) treat as the owner of Shares, or otherwise to accord voting, dividend or liquidation rights to, any transferee to whom Shares have been transferred in contravention of this Subscription Agreement.

(i) No Public Market. Subscriber understands that no public market now exists for the Shares, and that the Company has made no assurances that a public market will ever exist for the Shares.

(j) Legends. Subscriber understands that the Shares are issued and issuable in uncertificated form, but that the Board of Directors of the Company may authorize the issuance of stock certificates at any time, and if so authorized, such stock certificates representing the Shares will bear such legend as the Board of Directors of the Company then determines appropriate, including the following example legend:

"THE SHARES REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933 AND HAVE BEEN ACQUIRED FOR INVESTMENT AND NOT WITH A VIEW TO, OR IN CONNECTION WITH, THE SALE OR DISTRIBUTION THEREOF. NO SUCH TRANSFER MAY BE EFFECTED WITHOUT AN EFFECTIVE REGISTRATION STATEMENT RELATED THERETO OR AN OPINION OF COUNSEL IN A FORM SATISFACTORY TO THE COMPANY THAT SUCH REGISTRATION IS NOT REQUIRED UNDER THE SECURITIES ACT OF 1933."

(k) Investor Limits. Subscriber is either an accredited investor as defined in Rule 501(a) of Regulation D promulgated under the Securities Act or is investing within their investor limits as defined in 4(a)(6) of Regulation CF.

(l) Speculative Investment. Subscriber is aware that an investment in the Shares is highly speculative and Subscriber could lose his, her or its entire investment and Subscriber's financial condition is such that Subscriber is able to bear the economic risks of investment in the Shares, including the risk of loss of Subscriber's entire investment in the Shares should the Shares become worthless, taking into consideration the limitations on resale of the Shares.

(m) Financial Experience. Subscriber, by reason of his, her or its business or financial experience or by reason of the business or financial experience of his, her or its 4 financial advisor is capable of evaluating the risks and merits of an investment in the Shares and of protecting his, her or its own interests in connection with this investment.

(n) Residence. If Subscriber is an individual, then Subscriber resides in the state identified in the address of Subscriber set forth on the signature page of this Subscription Agreement; if Subscriber is a partnership, corporation, limited liability company or other entity, then the office or offices of Subscriber in which its principal place of business is identified in the address or addresses of Subscriber set forth on the signature page of this Subscription Agreement.

(o) Indemnification. Subscriber agrees to indemnify, defend and hold harmless the Company and its shareholders, directors, officers, employees, agents and representatives from and against all damages, losses, costs and expenses (including reasonable attorneys' fees) which they may incur by reason of the failure of Subscriber to fulfill any of the terms or conditions of this Subscription Agreement, or by reason of or attributable to any breach of the representations and warranties made by Subscriber herein, or in any document provided by Subscriber to the Company or the fact that any of such representations and warranties or acknowledgments and understandings set forth herein or therein are untrue or without adequate factual basis to be considered true and not misleading.

(p) Choice of Law. This Subscription Agreement, its construction and the determination of any rights, duties or remedies of the parties arising out of, or relating to, this Subscription Agreement shall be governed by the internal laws of the State of Delaware.

(q) Entire Agreement. The terms of this Subscription Agreement are intended by the parties as the final expression of their agreement with respect to the terms included in this Subscription Agreement and may not be contradicted by evidence of any prior or contemporaneous agreement, arrangement, understanding, representations, warranties, covenants, or negotiations (whether oral or written).

(r) No Waiver. No waiver or modification of any of the terms of this Subscription Agreement shall be valid unless in writing. No waiver of a breach of, or default under, any provision of this Subscription Agreement shall be deemed a waiver of such provision or of any subsequent breach or default of the same or similar nature or of any other provision or condition of this Subscription Agreement.

(s) Counterparts. This Subscription Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

(t) Electronic Execution. A signed copy of this Subscription Agreement, including in Portable Digital Format (.pdf) or other digital format, delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Subscription Agreement.

(u) Expenses. Each party shall pay all of the costs and expenses that it incurs with respect to the negotiation, execution, delivery, and performance of this Subscription Agreement.

(v) Survival. All representations, warranties and covenants contained in this Subscription Agreement shall survive acceptance of the subscription.

(w) Gender and Number. Terms used in this Subscription Agreement in any gender or in the singular or plural include other genders and the plural or singular, as the context may require. If Subscriber is an entity, all reference to "him" and "his" or "her" and "hers" shall be deemed to include "it" or "its" and vice versa.

(x) Foreign Investors. If Subscriber is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), Subscriber hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation to subscribe for the Securities or any use of this Subscription Agreement, including (i) the legal requirements within its jurisdiction for the purchase of the Securities, (ii) any foreign exchange restrictions applicable to such purchase, (iii) any governmental or other consents that may need to be obtained, and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, redemption, sale, or transfer of Securities.
