Fyn River Farms, LLC
Founder
May 2017 - September 2018 (1 year 5 months)
Loveland, CO

Founded and build a custom 2600 square foot indoor vertical aquaponic basil farm. The facility produces up to 10,000 lbs / month in 14,000 plant sites grown in a low input high output system. Networked controls, gravity drains, and off the shelf plumbing make Fyn Rivers one of the most advanced farms of its kind - given the low cost high return nature of this model. The company was grown from a 50K cash investment to a 1.5 million dollar company, with national brand distribution and food safety certification with in compliance with global standards.
