INVEST IN PANGEA

Turning Trash into High Quality Sustainable Products

LEAD INVESTOR

Vikram Bharati Founder, Draper Startup House

Pangea is on a mission to create awesome innovative outdoor products that clean the planet more than they pollute. The Pangea team is passionate about what they are building, and they have shown consistent progress in the development of their commercial business model. I've personally known the Founder, Marcos Bulacio, for a few years now and I'm very impressed with his skill and will to build a great brand that creates positive environmental impact on our precious planet. I believe Pangea is going to create great products and even bigger positive impact on our planet.

PANGEA GOES BEYOND SUSTAINABILITY BY REGENERATING THE PLANET

PANGEA has one of the highest impact per dollar sold of any product company we have found. We sell high-quality, durable products like All Birds and Cotopaxi, but make a much more direct positive impact through our own movement with each product sold.

Doing no harm or donating 1% is not enough. Our planet needs more action. We want to be the most impactful brand in the world, powered by profitable sustainable products.

AMAZING SUNGLASSES

- ✓ Top-quality anti-scratch lenses
- ✓ Super durable frames
- ✓ Lifetime warranty

BEYOND SUSTAINABLE

- ✓ Handmade from plastic trash
- ✓ Cleans mangrove forests
- ✓ Reduces CO₂ from the air

THE PROBLEM

MOST OF THE PLASTIC SUNGLASSES IN THE WORLD ARE MADE FROM NEW PLASTIC AND ARE HARDLY EVER RECYCLED

The global consumption
of sunglasses creates

37M lbs / 17M kg
of plastic per year

65,000 tonnes
of CO₂ per year

WE CREATED THE MOST IMPACTFUL

SUNGLASSES IN THE WORLD IN ORDER TO ACHIEVE OUR LAST BIG MISSION: **THE LARGEST MANGROVE CLEANUP IN HISTORY**

BEFORE

AFTER

On Feb 19th 2023 we gathered 1,400 volunteers in Manila Bay, Philippines, and cleaned 10,800 lbs of trash in 8 hours. This cleaned up one of the dirtiest Mangrove forests in the world.

Instead of polluting the planet, the PANGEA Mangrove Sunglasses collect trash and capture CO2.

TRASH NEGATIVE

CARBON NEGATIVE

While other sunglasses companies add trash and CO₂ to the planet, we reduce it. The more Mangrove sunglasses our customers purchase, the better for our planet.

**OUR PLANET HAS LOST
33% OF ALL MANGROVE
TREES IN THE LAST 40 YEARS!**

**MANGROVES ABSORB 4X MORE CO2
THAN RAINFORESTS.**

REFORESTING MANGROVES TO CAPTURE CO2

We are planting mangroves in North Java, Indonesia, to fully offset our carbon emissions, and go beyond carbon neutral by capturing more CO2 than we produce. By doing it ourselves we cut the middlemen and we can plant 4x more trees per dollar than by outsourcing it like all the other brands do.

**2744 TREES
PLANTED**

**832 TONS OF CO2
CAPTURED**

OUR GOALS

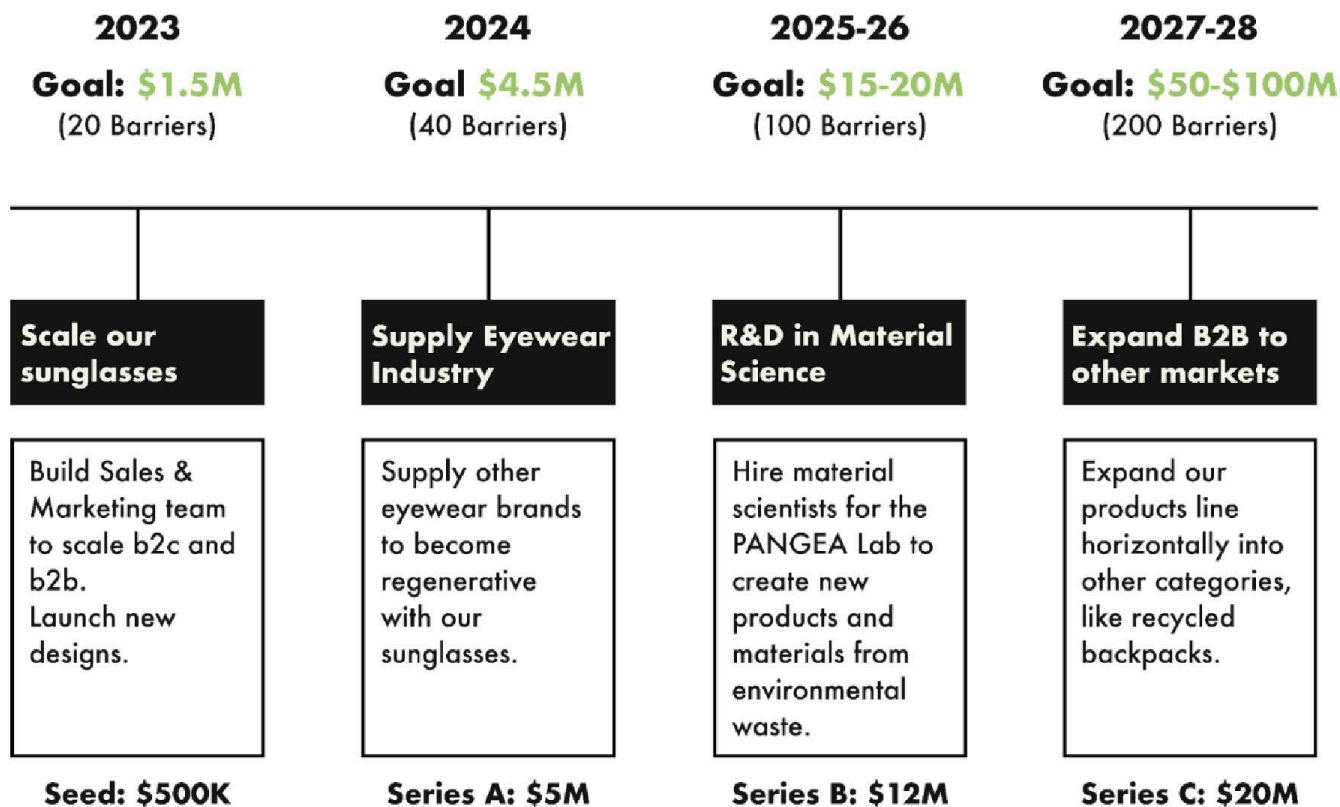

1. 100M TREES PLANTED BY 2030
2. 100 WORLD'S DIRTIEST RIVERS RESTORED BY 2030
3. 1 CLEANUP IN EVERY COUNTRY OF THE WORLD BY 2030
