Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

## RISK FACTORS

**The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.**

**These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.**

8. Discuss the material factors that make an investment in the issuer speculative or risky:

7 Generation Games is shifting its business model from its previous focus on K12 sales to a B2B model selling to enterprise clients. While the Company has demonstrated initial sales success within this new customer segment, the Company is still in the early stages of growing and diversifying this enterprise customer base. Accordingly, the Company may not be successful in this shift in business model.

Financial projections, while based on validated market research and company financial data (including revenue), are hypothetical projections and may not materialize. 7 Generation Games projections could be negatively impacted by staff departures, failure to meet funding goals and/or revenue targets, external market factors, extended sales cycle lengths, acts of God (e.g. a global pandemic) or other forces beyond the company's control.

7 Generation Games is a mission driven business that is focused on both societal and financial returns. As a result, the Company may make decisions based on considerations other than strictly maximizing short-term profit which result in higher costs and lower profits.

Part of the 7 Generation Games future business model and projections anticipate scalable revenue coming from platform licensing. However, the Company has not yet sold this type of product and there is a risk that significant sales from platform licensing will not be realized.

The Company is dependent on a small management team. While every task at 7 Generation Games has a primary and secondary assignee, the Company is still very dependent on its co-founders. While the skills of the co-founders could be replaced, a market rate replacement hire would cost 4x

be replaced, a market-rate replacement hire would cost 4x to 10x what the company is currently paying. If anything catastrophic were to happen to the company's founding team, the future of the Company may be compromised.

The Company's new blocks platform is still under development for external licensing use and may not be available for the market in a timely manner due to unforeseen technical challenges or other factors.

As with any technology business or platform, there is a risk of a competing product entering the marketplace with a similar product.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

*INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.*

offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

## **Overview**

Making it possible for any organization to make its own educational video games.

We founded 7 Generation Games to make a difference in the lives on youth through improving educational outcomes. We initially believed this could best be achieved through developing our own games. However, in building our technology, we realized that we can have a much greater impact by making this platform available at larger scale.

7 Generation Games makes educational video games and the tools to develop them. Our 7 Gen Blocks platform is like a game developer version of "Legos," that can be customized and virtually "snapped" together to create an infinite number of educational games. By streamlining a traditionally expensive and time-consuming process, we enable companies and non-profits for which cost and technical expertise has previously been a barrier to easily build and distribute their own educational games.

We believe that 7 Generation Games will be preparing for acquisition or have been acquired within 5 years, specifically by a strategic buyer. This is the most common exit for a company in our space. While our business could be viewed as an edtech company or a SaaS platform, we view ourselves better aligned with edtech and foresee a buyer likely coming from that sector. We believe we can reach \$12 million in 7 Gen Blocks licensing revenue by 2027, well positioning us for an exit.

## **Milestones**

7 GENERATION GAMES, INC. was incorporated in the State of Delaware in August 2015.

Since then, we have:

- 📈 On track to exceed \$1M in revenue by 2023, up from \$585K in 2021 and \$200K in 2020.
- 🏛️ Built with over \$2.3M in non-dilutive federal grant funding from US and Chilean governments.
- 🎓 Improved learning outcomes by 30% in peer-reviewed and published efficacy studies.

- 🎮 Commercialized 20+ games to date using our 7 Gen Blocks technology.
- 📈 \$1.1 B US market (\$3B global). CAGR 31%. Ed games dev tools market up 10x from 2018.
- 💰 Raised \$380K in pre-seed investment round, led by Ronda Rousey.
- ✅ Selected for Google's Start on Android, Goldman Sachs 10,000 Small Businesses and Start-Up Chile

### Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

### Liquidity & Capital Resources

To-date, the company has been financed with \$20,000 in equity, \$360,000 in convertibles, and \$150,000 in SAFEs.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 6 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 18 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds

of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

### **Runway & Short/Mid Term Expenses**

7 GENERATION GAMES, INC. cash in hand is \$77,852, as of February 2024. Over the last three months, revenues have averaged \$20,000/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$28,000/month, for an average burn rate of \$8,000 per month. Our intent is to be profitable in 12 months.

**In 2023, we made the conscious decision to prioritize development over sales.** We knew that first and foremost we had to make progress on getting the Blocks platform to market. The funding received in the second half of 2022 and in 2023 gave us the necessary financial runway to make that possible – and in fact, were not only able to meet, but exceed the goals that we had set for ourselves when it came to the Blocks platform. At the moment, it is looking very likely that we will be able to start monetizing the no-code tool as early as this summer. With the low-code tool as an in-house toll, we are now able to produce games in under a week that would have once taken a month. That said, **prioritizing accelerating the platform did have a negative impact on sales.** Focusing the majority of our time and resources on product development, meant that there was less focus on business development. We are firmly convinced it was the right choice, as bringing on additional contracts would have required that our dev team take attention away from Blocks platform dev to do customized game dev. But that is reflected in our annual numbers and revenue.

**As we came out of that development phase at the end of 2023, we were able to shift our focus to growing revenue.** And it paid off. **In 2023, 66% of our revenue came in Q4.** In Q1 2024, we **hired a full-time business development manager** (mid-level position), who is making it possible to grow our pipeline more rapidly and consistently than we have previously had the capacity to do. In addition to our focus on growing sales, we intend to continue pursuing multiple complementary revenue streams. While we did not submit any new major grants the last two years as we were focused on accelerating 7 Gen Blocks, we do have a few grants that we are submitting in 2024.

**We are currently revenue-generating.** So far in 2024, we've booked \$60K in revenue. Based on current pipeline, we are anticipating closing an additional \$80-100K by end of Q2. Over the next 3-6 months, we expect revenue to increase while anticipating expenses will remain consistent.

**We expect to be a back at or near breakeven (as we were previous to our focus on development in 2023) by the end of the year.** In 2019, and 2020, we hit profitability, but with annual profits of <\$20K. More notably, we saw revenues grow, including a 2.9x increase in revenue from 2020 to 2021. In 2021, our revenue covered 95% of our expenses. In 2022, we had record profits. However, as addressed above, in 2023, we focused on accelerating platform development. Through this approach, we were able to complete what had been an anticipated 24 months development timeline in 10 months. We are now able to leverage this platform to take on more customized development projects (increasing revenue) and expect to launch our first paid pilot for the platform in Summer 2024. While we did not submit any new major grants the last two years as we were focused on accelerating 7 Gen Blocks, we do have at least four grants that we are submitting in 2024. Given our previous success rate, we feel there is strong likelihood of getting at least one if not multiple awards that put us on track to profitability by end of 2024/early 2025 and beyond.

**We have five months of runway at our current burn rate.**

This is a worst case-scenario number, assuming that we continue at our current rate of burn without bringing in any additional revenue, grants and investor funding. If we adopt cost-cutting measures, this number can be adjusted to seven months of runway. Additional revenue, grants and funding will extend this runway.

All projections in the above narrative are forward-looking and not guaranteed.

*INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.*

I, Maria Burns Ortiz, certify that:

(1) the financial statements of 7 GENERATION GAMES, INC. included in this Form are true and complete in all material respects ; and

(2) the financial information of 7 GENERATION GAMES, INC. included in this Form reflects accurately the information reported on the tax return for 7 GENERATION GAMES, INC. filed for the most recently completed fiscal year.

CEO

## OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such a circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

**Tax Filings.** In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an

investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

*INSTRUCTIONS TO QUESTION 30: If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:*

- (a) a description of the material content of such information;*
- (b) a description of the format in which such disclosure is presented; and*
