

**Naiad Creative, Inc.** (the “Company”) a Montana Corporation

Financial Statements (unaudited) and  
Independent Accountant’s Review Report

Short Year ended December 31, 2021

## **INDEPENDENT ACCOUNTANT'S REVIEW REPORT**

To Management  
Naiad Creative, Inc.

We have reviewed the accompanying financial statements of the Company which comprise the statement of financial position as of December 31, 2021 and the related statements of operations, statement of changes in shareholder equity, and statement of cash flows for the short year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

### **Accountant's Responsibility**

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

### **Accountant's Conclusion**

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

### **Going Concern**

As discussed in Note 8, certain conditions indicate that the Company may be unable to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs.

**NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES**

Naiad Creative Inc. DBA Pink Bench Distilling ("the Company") was formed in Montana on August 12, 2021. The Company plans to earn revenue through the manufacturing and distribution of small batch distilled spirits using ingredients sourced from local farms and forests to create market-based solutions for far northwest Montana's rural development challenges. The Company's headquarters are in Troy, Montana. The Company's customers will be located within the United States. The Company will conduct a crowdfunding campaign under regulation CF in 2022 to raise operating capital.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Basis of Presentation

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). Our fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Fair Value of Financial Instruments

ASC 820 "*Fair Value Measurements and Disclosures*" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Concentrations of Credit Risks

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

### Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, “Revenue Recognition” following the five steps procedure:

- Step 1: Identify the contract(s) with customers
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to performance obligations
- Step 5: Recognize Revenue When or As Performance Obligations Are Satisfied

The Company will identify and analyze its performance obligations with respect to customer contracts once the first contract is signed.

### Advertising Costs

Advertising costs associated with marketing the Company’s products and services are generally expensed as costs are incurred.

### Equity based compensation

The Company does not currently have an equity-based compensation plan.

### Income Taxes

The Company is subject to Corporate income and state income taxes in the state it does business. A deferred tax asset as a result of net operating losses (NOL) has not been recognized due to the uncertainty of future positive taxable income to utilize the NOL.

### Recent accounting pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

## **NOTE 3 – RELATED PARTY TRANSACTIONS**

The Company follows ASC 850, “Related Party Disclosures,” for the identification of related parties and disclosure of related party transactions. The Company intends to rent real estate property from a related party entity, Lake Camp, LLC, under common control to be used in the Company’s operations. No contractual terms have been defined as of the date of these financials.

## **NOTE 4 – COMMITMENTS, CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS**

In April 2022, the entity under common control referenced in Note 4 obtained a loan of \$278,000 to fund development of the distillery. The Company guaranteed 100% of Lake Camp LLC’s debt. Examples of events that would require the Company to provide a cash payment pursuant to the guarantee include a loan default, which would result from Lake Camp LLC’s failure to service its debt when due or non-compliance with financial covenants, and inadequacy of asset collateral. Presently, significant losses are not anticipated. There is currently no recorded liability for potential losses under this guarantee, nor is there any liability for the Company’s obligation to “stand ready” to fund such guarantee.

## **NOTE 5 – DEBT**

None. See Note 4.

## NOTE 6 – EQUITY

The Company has authorized 10,000,000 of common shares with a par value of \$0.00001 per share. 1,400,000 shares were issued and outstanding as of 2021.

**Voting:** Common stockholders are entitled to one vote per share.

**Dividends:** The holders of common stock are entitled to receive dividends when and if declared by the Board of Directors.

The Company has authorized 6,000,000 of preferred shares with a par value of \$0.00001 per share. No shares were issued and outstanding as of 2021.

**Voting:** Preferred shareholders do not have voting rights.

**Dividends:** The holders of preferred stock are entitled to receive dividends when and if declared by the Board of Directors. Dividends on preferred stock are in preference to and prior to any payment of any dividend on common stock and are not cumulative. As of December 31, 2021, no dividends had been declared.

**Redemption:** At the discretion of the Board of Directors, following the fifth anniversary of any share of preferred stock the holder of such share may request the redemption of such share, at a per-share price equal to the original purchase price of such share.

**Conversion:** Preferred shareholders do not have the right to convert shares into common stock.

**Liquidation preference:** In the event of any liquidation, dissolution or winding up of the Company, the holders preferred stock are entitled to receive prior to, and in preference to, any distribution to the common stockholders.

## NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to December 31, 2021 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through June 13, 2022, the date these financial statements were available to be issued. No events require recognition or disclosure.

## NOTE 8 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The entity has not commenced principal operations and will likely realize losses prior to generating positive working capital for an unknown period of time. During the next twelve months, the Company intends to finance its operations with funds from a crowdfunding campaign and revenue producing activities. The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time.

## NOTE 9 – RISKS AND UNCERTAINTIES

### *COVID-19*

The spread of COVID-19 has severely impacted many local economies around the globe. In many countries, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global

stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions. The duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses remains unclear currently. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods.
