

GigEngyn is an event management & sales CRM for cannabis and alcohol industry

End-to-End Event Management Software & CRM for Streamlined Experiential Marketing

GigEngyn

Data-Driven Field Solutions

LEAD INVESTOR

Jamie Corum

As a technology professional I am constantly looking for solutions that take me from end to end. More often I find that offered products cover only part of the business need leaving me searching for more solutions to layer. GigEngyn breaks that cycle. One solution. One platform. Live data. Cloud accessible. Secure. I chose to invest and support GigEngyn as this is a complete solution. GigEngyn gives you tools and visibility into your data. The API integrations make the platform scalable. The brilliance in the design allows for growth and change without impacting the business processes. Brilliant!

Invested \$2,500 this round

Highlights

- 1

GigEngyn is the only end-to-end solution that includes a CRM, EMS, and Onboarding in this industry.
- 2

GigEngyn is the only native app in this space which allows data to be tracked and reported live.
- 3

GigEngyn is the only app that has built in API's with POS and Inventory systems.
- 4

GigEngyn is the only app that allows instant payments to be sent from the app.
- 5

GigEngyn is the only app that has built in invoicing and API's with accounting software providers.
- 5

GigEngyn is the only app that has built in invoicing and API's with accounting software providers.

Our Team

Amber McFee

Founder + CEO

For over a decade I have helped numerous startups get off the ground with my operations and finance expertise. I helped one startup raise \$3M after one investor meeting.

I founded GigEngyn because, throughout my time in this industry, I've needed an end-to-end solution. I finally decided to purchase the event management software I helped develop. I will now use it as a foundation to build

the solution I wish I had over a decade ago!

Pitch

GigEngyn

What is
GigEngyn?

GigEngyn is an **event management software** and **field sales CRM** designed to assist suppliers and experiential marketing agencies by collecting and tracking sales and marketing data in real time.

GigEngyn is the **first end-to-end software** that includes a built-in sales CRM, EMS, Onboarding platform, Reporting, and Back Office Operations tools all from a **native mobile app**.

What is Experiential Marketing?

Experiential Marketing allows the consumer to experience a product **with their senses**.

Experiential Marketing campaigns come in many forms:

- ✓ **In-person and in-store events (most common)**
- ✓ **Installations**
- ✓ **Product rollouts**
- ✓ **Trade shows**

3

The Problem

01

There **isn't a full-service, end-to-end data collection and tracking solution** built specifically for experiential marketing and field sales teams in the alcohol and cannabis industries.

02

There's **no other native mobile app solution** for real time data tracking and reporting for alcohol and cannabis suppliers and the experiential marketing agencies that promote their brands.

03

There **isn't an existing all-in-one operations tool** for recruiting, onboarding, payments, invoicing and prepaid card options for experiential marketing agencies and suppliers.

4

The Solution

01

GigEngyn is a **full end-to-end solution** providing management, insights, and full integration of supplier field teams, agencies, and brand ambassadors — all in one system!

02

GigEngyn provides **real-time accurate data collection** that is time, date, and GPS stamped, eliminating the need for spot checks or multiple software solutions and integrations.

03

GigEngyn has **centralized recruiting, training, onboarding, invoicing, payment and prepaid card tools** built in, eliminating the need for multiple software solutions.

5

Core Features

01

Manage entire team at local, regional, and national levels with built-in CRM. With standardized data input making all output data uniform, allowing KPIs to be measured and analyzed in real-time.

02

Real-time data tracking and collection on all users and event activities. All activity is time, date, and GPS stamped to ensure accuracy and full transparency.

03

Centralized recruiting, training, onboarding, invoicing, payment processing, and prepaid card tools built in. Eliminating the need for multiple software solutions or integrations.

04

UPC-specific products are managed centrally providing sales, replenishment, event ROI data and tracking of KPIs.

05

With a few clicks, customizations can be made based on emerging markets or trends. Industry-specific skin can easily be added.

Business Model

Top-Down Revenue Model (Supplier Initiates)

Supplier pays for GigEngyn and requires all agencies to submit through the platform. Agency 3 decides to upgrade to a paid plan and run their entire business on GigEngyn. (Double Dip Revenue)

	Supplier Pro \$1500 per month up to 35 users \$2.50 per gig
	Supplier Basic No user fees No gig fees
	Agency Pro \$550 per month up to 15 users \$2.50 per gig
	Agency Basic No user fees No gig fees

Business Model

Bottom-Up Revenue Model (Agency Initiates)

Local Agency switches to GigEngyn and invites their client list onto the platform for free. Supplier 1 enjoys the platform, upgrades to GigEngyn Pro, and forces all their agencies onto GigEngyn's Free version. Now the 3 agencies their division works with will submit data and recaps through GigEngyn.

	Supplier Pro \$1500 per month up to 35 users \$2.50 per gig
	Supplier Basic No user fees No gig fees
	Agency Pro \$550 per month up to 15 users \$2.50 per gig
	Agency Basic No user fees No gig fees
