RISK FACTORS

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

The Company is an early stage company incorporated in February 2022. Accordingly, the Company's operations are subject to all the risks inherent in the establishment of a new business enterprise, including potential operating losses. Any investment in the Company must be considered in light of the risks, expenses and difficulties frequently encountered by companies in an early stage of development in new and rapidly evolving markets. These risks include the Company's substantial dependence on acceptance into a highly competitive marketplace surrounded by better funded and more established companies, our need to conduct product development, and our need to expand our sales and support organizations, respond to competition, manage changing operations, develop strategic relationships, control costs and expenses, maintain and enhance our brand, expand our product and service offerings, improve function and benefits, attract, integrate, retain and motivate qualified personnel, and rely upon acceptance and growth in our targeted markets. In addition to being subject to all of the risks associated with the creation of a new business, the Company will be subject to factors affecting business generally, such as general economic conditions, increasing government regulatory activity, scarcity of environmental resources, and competition. The Company believes that the estimates prepared by them as to capital, personnel, equipment and facilities required for their operations are reasonable, but until their operations have continued for a period of time, it will be impossible to determine the accuracy of such estimates. No assurance can be given as to the ultimate success of the Company. The likelihood of the success of the Company must be considered in light of the problems, expenses, difficulties, complications and delays frequently encountered in connection with the formation of a new business.

The Company's future success depends on the continued services and performances of key management, consultants and advisors, and it currently does not carry key person life insurance. However, the Company plans to secure key person life insurance when such coverage is deemed financially prudent. Also, the Company's future success may further depend on the Company's ability to attract and retain additional key personnel and third party contractual relationships. If the Company is unable to attract and retain key personnel and third party contractors, this could adversely affect our business, financial condition, and operating results.

The Company's ability to compete against other businesses selling similar products depends on its ability to secure and enforce trademark and other intellectual property rights. However, there is no guarantee that any trademark or other applications we may in the future file will be approved, and even registrations that receive approval could subsequently be held invalid due to our conduct or challenges by third parties. Similarly, we could lose valuable trade secrets if we fail to adequately protect our confidential information. Such a

secret rights if we fail to properly protect our confidential information. Even to the extent that our intellectual property rights are valid, enforcing those rights could involve costly legal processes that we may not be able to bring to a successful conclusion.

Breaches of the Company's platform and systems may materially affect client adoption and subject the Company to significant negative reputational, legal or operational consequences. Fourplay puts a strong focus on encryption and security, but 100% security cannot be guaranteed. Cyber-crimes are becoming increasingly common and aggressive which brings parallel increase in risk.

The Company has made certain assumptions about the online social networking and dating space in order to create financial projections for the business. There is risk associated with the accuracy of these projections due to continuous changes in technology, new feature introductions by competitors, changes in user preferences and shifts in user demographics. In order to mitigate this risk, the Company has taken great care to ensure the reliability and source quality of key assumptions used in the business plan. The company diligently researches publicly-available information and initiatives of competitors. changes in the marketplace and changes in user preferences. We pride ourselves on being innovative and ahead of the curve whenever possible.

This offering is being conducted on an expedited basis due to circumstances relating to COVID-19 and pursuant to Reg. CF Temporary Rule 201(z)(3), which provides temporary relief from certain financial information requirements by allowing issuers to provide financial information certified by the principal executive officer of the issuer instead of financial statements reviewed by a public accountant that is independent of the issuer.

The user base for the Company is based on the concept of those users being able to take advantage of its services. A pandemic or other unexpected major event could significantly impact the user base and may force a suspension of activities in some markets.

The Company does not conduct criminal background checks or identity verification checks conducted on users. However, the Company is forthright in disclosing this information and takes active steps to protect its user base. However, the risk remains that users of the service could be injured or assaulted by other users of the service.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. Forward-looking projections cannot be guaranteed.

Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future, if any.

Related Party Transaction

Refer to Question 26 of this Form C for disclosure of all related party transactions.

Liquidity & Capital Resources

To-date, the company has been financed with \$116,547 in equity.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 18 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 9 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in

the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Fourplay Social Inc. cash in hand is \$216,489, as of June 2020. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$22,050/month, for an average burn rate of \$22,050 per month. Our intent is to be profitable in 12 months.

Since the date of our financial statements, we have converted to a C-Corp and raised \$300K via SAFEs from angel investors.

For June - August 2022 we expect our expenses to total \$122,634. We believe need to raise \$1MM total in our pre-seed round in order to become revenue-generating by Q3 2023. We expect to open the second \$500K tranche of our pre-seed round in September 2022 and close it in December 2022.

We are not profitable yet. In order to become profitable we need to finish raising our \$1MM pre-seed so we can grow Fourplay to a point where we can turn on our revenue streams. Based on our financial projections we believe we will become profitable in 2024.

We have raised \$300K from angel co-investors in our pre-seed round, outside of Wefunder. This money has been wired and is in our bank account. We have created a monthly budget based only on the \$300K raised to-date so that we can continue to operate until August 1, 2022. We believe we will have completed our Wefunder campaign before August 1, 2022.

Any projections mentioned above are forward-looking and cannot be guaranteed.

INSTRUCTIONS TO QUESTION 28. The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

(1) the financial statements of Fourplay Social Inc. included in this Form are true and complete in all material respects ; and

Julie Griggs
Co-Founder

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an experienced investor that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such as circumstance, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

INSTRUCTIONS TO QUESTION 30. If information is presented to investors in a format, media or other means not able to be reflected in text or portable document format, the issuer should include:
(a) a description of the material content of such information;
(b) a description of the format in which such disclosure is presented; and
(c) in the case of disclosure in video, audio or other dynamic media in format, a transcript or description of such disclosure.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

<http://fourplaysocial.com/invest>

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed \$10 million;
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law;
