Our Team

Julie Griggs Co-Founder & CEO

Self-Starter; Taught herself Quickbooks, payroll, project management, operations, and built her own network via LinkedIn. Infectiously Passionate; Can do the impossible...get people excited and inspired about dating!

In 2019 we created a shared dating profile that said, "Swipe right if you and your awesome friend want to double date me and my awesome friend." In the first week we had 32 guys asking us out, expressing that this was such a better idea, and telling us to make it into an app. When we saw the product/market fit and the demand it was a no brainer!

Danielle Dietzek Co-Founder & CGO

Natural Growth Hacker: Figured out how to effectively guerilla market and create a viral brand. Sells Capes to Superheroes: Skilled in writing for publicity, recruitment and social strategy.

Danny Barnes VP of Engineering

Has over 9 years of experience as a full-stack software engineer and reported directly to the CEO at his last company. Somehow puts up with Julie & Danielle.
