NOTES TO FINANCIAL STATEMENT

December 31, 2023

Note 1

Organization and nature of business

Lucrum Capital Securities (the “Company”), was formed in 2021 and is a Virginia corporation. The Company is a wholly-owned subsidiary of Lucrum Companies Inc. (the “Parent”). The Company’s primary business is that of a securities broker-dealer that engages in the private placement of securities of private funds in accordance with the membership agreement with the Financial Industry Regulatory Authority (“FINRA”). The Company is a registered broker under the Securities Exchange Act of 1934 on July 26, 2023 and is a member of FINRA and the Securities Investor Protection Corporation (“SIPC”).

Note 2

Summary of significant accounting policies

Cash and Cash Equivalents

The Company considers all highly liquid debt instruments with original maturities of three months or less to be cash equivalents. There were no cash equivalents at December 31, 2023.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates. Such estimates include useful lives and valuation of property and equipment.

Revenue recognition

The Company recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance requires an entity to follow a five-step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

In determining the transaction price, an entity may include variable consideration only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized would not occur when the uncertainty associated with the variable consideration is resolved. Revenues from contracts with customers are comprised of placement fees. Such fees are recognized at the point in time when the Company’s performance under the terms of the contractual arrangement is completed, which is typically at the close of a transaction.

Note 2

Summary of significant accounting policies (continued)

Fair value of financial instruments

The carrying amounts of financial instruments, including cash, prepaid expenses, deposits, and accounts payable and accrued expenses, approximates fair value due to the short term maturities of these assets and liabilities.

Income taxes

The member of the Company has elected to have the Company taxed as a partnership for income tax purposes. Accordingly, the Company is not subject to federal or state income taxes. All taxable income/loss and tax credits are reflected on the income tax returns of the member.

Income tax positions

The Financial Accounting Standards Board ("FASB") has issued a standard that clarifies the accounting and recognition of income tax positions taken or expected to be taken in the Company's income tax returns. The Company has analyzed tax positions taken for filing with the Internal Revenue Service and all state jurisdictions where it operates. The Company believes that income tax positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Company's financial condition, results of operations or cash flows. Accordingly, the Company has not recorded any reserves or related accruals for interest and penalties for uncertain income tax positions.

If the Company incurs interest or penalties as a result of unrecognized tax positions the policy is to classify interest accrued with interest expense and penalties thereon with operating expenses. The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Property and equipment

Property and equipment is stated at cost. Depreciation is calculated on the straight-line method over the estimated useful life of the related asset.

<u>Description</u>	<u>Estimated Useful Life</u>
Property and equipment	3 years

Depreciation expense was \$300 for the period from July 26, 2023 (date of registration) through December 31, 2023.
