(D) The Company's Business and Business Plan

Competitive advantage in an emerging market

Continued innovation in canning, distilling, and quality has led to rapid expansion of the ready-to-drink market, creating immense emerging market opportunity.

- **Authenticity:** While there are other RTD options, most drinks are not Caribbean in taste or culture. There may be an appropriation of the culture by use of names like Rum Punch and “island....” these brands are NOT owned by people of/from the culture.
- **Convenience:** RTD alcoholic beverages are much easier to pack or carry, especially compared to a bottle of liquor. They stack easily in a fridge or cooler, making them an easy beverage choice for practically any occasion. RTDs—they make drinking easy. There’s no need for additional accessories or complicated mixing processes.
- **Sustainability:** Aluminum cans, and especially recycled aluminum, are often considered better for the environment than glass bottles. This appeals to eco-conscious consumers who prefer brands that practice green living.
- **Branding:** For brands, cans tend to be far more marketable than other bottling options. Wraparound labels provide more space for distinct, eye-catching visuals without excess associated costs.

Our Story

Tipsy Lady® offers a popular specialty cocktail for its customers, who have a common love of delicious ready to drink craft cocktails. Our cocktails are carefully formulated to match authentic flavor of signature Caribbean inspired drinks. The results of the natural formula is distinguished by smooth fruitful and sophisticated taste.

- Founded by Black Caribbean American female serial entrepreneur, Toni prides herself on “tipping” the scales in the alcohol industry towards Black Female ownership.
- Toni envisioned the concept of Tipsy Lady while vacationing and touring rum factories in Barbados, West Indies during a 2019 trip. During her tour, she recalled connecting with her ancestors by hearing a faint voice whisper the word “legacy.”
- Toni previously spent 17 years as a lawyer and real estate agent before she was compelled to create her own natural, organic, and eco-friendly canned cocktail line, with a strong emphasis on style, femininity, elegance and authenticity.

How It Started

Tipsy Lady Cocktails was founded by Caribbean/Gullah American Toni Gilliard in 2019. Toni first envisioned the concept of Tipsy Lady while vacationing/visiting family and touring the rum factories in Barbados, West Indies. During her tour, she recalled connecting with her ancestors by hearing a faint voice whispering the word “legacy.” The connection was almost instant.

- “Here I stood on the soil of a Rum Plantation in Barbados, where Rum was founded. I felt inspired to use-my culinary creativity gift to transform the liquor industry and bring caribbean RTD cocktails to life.
- It was very specific and direct, that my Rum Punch was a celebration of heritage and flavor that needed to be shared with the world for generations to come. This was where the journey to legacy began.”

before the Offering closes, then the Company will notify you and ask whether you want to invest anyway. If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	1.3 - 3.2% ²
Payment Deadline	2028-12-31
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.8 x 1.6 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	2.96%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 1.3% and a maximum rate of 3.2% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$100,000	1.3%
\$137,500	1.8%
\$175,000	2.2%
\$212,500	2.7%
\$250,000	3.2%

³ To reward early participation, the investors who contribute the first \$100,000.0 raised in the offering will receive a 1.8x cap. Investors who contribute after \$100,000.0 has been raised in the offering will receive a 1.6x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company’s offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you

could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Common Stock
Number of Shares Outstanding	0
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	These Securities have Voting Rights.
How these securities differ from the revenue sharing notes being offered to investors	Common Stocks are equity securities, with voting rights, whereas the revenue sharing notes being offered are debt securities with no voting rights.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Toni Gilliard	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

Upon successful funding of the Offering, the Funding Portal will receive as the "Revenue Securement Fee"; 3.0% of the amount of the Offering raised by In-Network Users of the Platform plus 9.0% of the amount of the Offering raised by all other investors. "In-Network Users" means a user of Mainvest.com who who have utilized the Company's specified in-network link on the Site.
