THE OFFERING AND THE SECURITIES

The Offering

The Company is offering a minimum amount of \$1,000,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$5,000,000 (the “**Maximum Offering Amount**”) of Crowd SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best-efforts basis as described in this Form C (this “**Offering**”). The Minimum Individual Subscription Amount is \$100 and the Maximum Individual Subscription Amount is \$250,000. The Company reserves the right to amend the Minimum Individual Subscription Amount and Maximum Individual Subscription Amount, in its sole discretion. In particular, the Company may elect to participate in one of the Intermediary’s special investment programs and may offer alternative Minimum Individual Subscription Amounts and Maximum Individual Subscription Amounts to Investors participating in such programs without notice. The Company must raise an amount equal to or greater than the Target Offering Amount by October 31, 2022 (the “**Offering Deadline**”). Unless the Company receives investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned.

In addition to the Offering, the Company may seek to concurrently undertake to raise up to an additional \$1,000,000 by offering to sell up to \$1,000,000 in securities, including but not limited to common or preferred stock, SAFEs (Simple Agreement for Future Equity) or Convertible Notes, to accredited investors outside of this Offering (the “**Concurrent Offering**”).

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other objective established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by the **Intermediary** (as defined above), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with a qualified third party escrow agent meeting the requirements of Regulation CF (“**Escrow Agent**”) until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline or an intermediate close, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds. If the investor does not cancel an investment commitment before the 48-hour period prior to the Offering Deadline, the funds will be released to the Issuer and the investor will receive their Securities.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Company’s profile page on the Intermediary’s website under <https://republic.com/Metaintro> (the “**Deal Page**”). The Deal Page can be used by prospective Investors to ask the Company questions and for the Company to post immaterial updates to this Form C as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor's investment commitment will be cancelled and the committed funds will be returned without interest or deductions.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Company conducts an initial closing (the "**Initial Closing**"), the Company agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a "**Subsequent Closing**") before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor's funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C and the Instrument attached as Exhibit B, in conjunction with the following summary information.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and merely provide a right to receive equity at some point in the future upon the occurrence of certain events (which may or may not occur).

Dividends and/or Distributions

The Securities do not entitle Investors to any dividends.

Nominee

The Nominee (as defined below) will act on behalf of the Investors as their agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee's sole discretion, to take custody of any securities acquired upon conversion of the Securities. The Nominee will take direction from a pre-disclosed party selected by the Company and designated below on any matter in which affects the Investors' economic rights. The Nominee is not a fiduciary to the Investors and the Investors agree to indemnify the Nominee per the terms of the Security.

Conversion

Upon the next sale (or series of related sales) by the Company of its Capital Stock to one or more third parties resulting in gross proceeds to the Company of not less than \$1,000,000 cash and cash equivalent (each an "**Equity Financing**"), the Securities are convertible into shares of the securities issued in said Equity Financing, at the option of the Company.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the "**Subscription Amount**") by (a) or (b) immediately below:

(a) the quotient of \$12,600,000 ("**Valuation Cap**") divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, "**SAFEs**"), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs;

OR

(b) if the pre-money valuation of the Company immediately prior to the First Equity Financing is less than or equal to the Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the "**First Equity Financing Price**".

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, at the Nominee's discretion the Investor will receive, the number of converted securities equal to the quotient obtained by dividing (a) the Subscription Amount by (b) the First Equity Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of the Company's undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security) or a **Change of Control** (as defined below) of the Company (either of these events, a "**Liquidity Event**") prior to any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Subscription Amount subject to the following paragraph (the "**Cash Out Option**") or (ii) a number of shares of Common Stock of the Company equal to the Subscription Amount divided by the quotient of (a) \$12,600,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company's capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any SAFEs; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs.

In connection with the Cash Out Option, the Subscription Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Subscription Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**IPO**” as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Company pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Company to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Company’s initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of shares of the most recently issued capital stock equal to the Subscription Amount divided by the First Equity Financing Price. Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Company’s most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Subscription Amounts.

If the Company’s board of directors (or other applicable governing body if the Company is a limited liability company) determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Company’s board of directors (or other applicable governing body if the Company is a limited liability company).

Dissolution

If there is a **Dissolution Event** (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of shares in the converted securities to the Investor pursuant to the conversion provisions of the Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities **nor the securities issuable upon the conversion** of the Securities have voting rights unless otherwise provided for by the Company. In addition, to facilitate the Offering Crowd SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Company's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently at the direction of the Chief Executive Officer of the Company.

The Company does not have any voting agreements in place.

The Company does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Company; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any capital stock into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

Cash Commission

At the conclusion of the Offering, the issuer shall pay a cash fee of six percent (6%) of the amount raised in the Offering to the Intermediary.

Other Compensation

The Intermediary will also receive compensation in the form of the Securities equal to two percent (2%) of the total number of the Securities sold in the offering. The total number of Securities outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of two percent (2%) of the Securities issued in this Offering.

RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C. In addition to the risks specified below, the Company is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises and geopolitical events, including without limitation, COVID-19 can have a significant effect on our business operations and revenue projections.

A significant outbreak of contagious diseases, such as COVID-19, in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with our Company and present and future market conditions. Our business currently does not generate any sales and future sources of revenue may not be sufficient to meet our future capital requirements. As such, we may require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

We may not have enough authorized capital stock to issue shares of common stock to investors upon the conversion of any security convertible into shares of our common stock, including the Securities.

Unless we increase our authorized capital stock, we may not have enough authorized common stock to be able to obtain funding by issuing shares of our common stock or securities convertible into shares of our common stock. We may also not have enough authorized capital stock to issue shares of common stock to investors upon the conversion of any security convertible into shares of our common stock, including the Securities.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide services for our products.

We depend on third party vendors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if vendors do not provide the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our services may be adversely impacted if companies to whom we delegate certain services do not perform to our, and our customers', expectations. Our vendors may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two vendors for a particular service.

We rely on various intellectual property rights in order to operate our business.

The Company relies on certain intellectual property rights, particularly trade secrets, to operate its business. The Company's intellectual property rights are unregistered and may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our

failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key personnel.

We are dependent on our board of directors, executive officers and key personnel. These persons may not devote their full time and attention to the matters of the Company. The loss of our board of directors, executive officers and key personnel could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company and our operations. We have no way to guarantee key personnel will stay with the Company, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

In order for the Company to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

We need to rapidly and successfully develop and introduce new products in a competitive, demanding and rapidly changing environment.

To succeed in our intensely competitive industry, we must continually improve, refresh and expand our product and service offerings to include newer features, functionality or solutions, and keep pace with changes in the industry. Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which we must introduce new products or implement new functions or solutions. In addition, bringing new products or solutions to the market entails a costly and lengthy process, and requires us to accurately anticipate changing customer needs and trends. We must continue to respond to changing market demands and trends or our business operations may be adversely affected.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance, and our ability to generate meaningful additional revenues from our products.

If we are unsuccessful in adding users to our resume wallet, or if wallet users decrease their level of engagement, our revenue, financial results, and business may be significantly harmed.

We have launched a resume wallet for web3 applicants. The size of our user base for resume wallets, and our users' level of engagement, will be critical to our success. Our financial performance will be significantly determined by our success in adding, retaining, and engaging active users of our resume wallet and the services offered. If people do not perceive our resume wallet or services to be useful, reliable, and trustworthy, we may not be able to attract or retain users or otherwise maintain or increase the frequency and duration of their engagement. There is no guarantee that we will not experience an erosion of our active user base or engagement levels in the future.

Industry consolidation or new entrants may result in increased competition, which could result in a loss of customers or a reduction in revenue.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We continue to face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that

could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company of such compliance could be substantial and could have a material adverse effect on the Company's results of operations.

Changes in federal, state or local laws and government regulation could adversely impact our business.

The Company is subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management's time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

The Company may not be in compliance with the corporate registration requirements where it operates.

The Company's headquarters are located in the State of Florida. The Company is not currently qualified to conduct business in Florida and is in the process of applying for qualification. The Company could be subject to fines, penalties or other administrative actions for failure to qualify in states that it operates in.

Risks Related to the Offering

State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been

audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close (also known as a rolling close) of the Offering can occur, which will allow the Company to draw down on seventy percent (70%) of Investor proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a Crowd SAFE ((Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “**Nominee**”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of the Securities or any securities acquired upon their conversion, to

execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee's sole discretion, to take custody of any securities acquired upon conversion of the Securities. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Company nor take or effect actions that might otherwise be available to holders of the Securities and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Securities to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Investors will not become equity holders until the Company decides to convert the Securities or until there is a change of control or sale of substantially all of the Company's assets. The Investor may never directly hold equity in the Company.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Company or the Nominee decide to move the Crowd SAFE or the securities issuable thereto into a custodial relationship.

Investors will not have voting rights, even upon conversion of the Securities.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted (the occurrence of which cannot be guaranteed). Under the terms of the Securities, a third-party designated by the Company will exercise voting control over the Securities. Upon conversion, the Securities will **continue** to be voted in line with the designee identified or pursuant to a voting agreement related to the equity securities the Security is converted into. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Securities that allows a designee to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Company unless otherwise provided for by the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

Any equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company’s equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company’s needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Company has certain equity grants and convertible securities outstanding. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Any equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the First Equity Financing Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the First Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as Exhibit B.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. No holders of any of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their subscription amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

Metaintro, Inc (“the Company”) was formed in Delaware on June 14, 2022. The Company plans to earn revenue using a B2B2C multi-chain custodial wallet that holds professional experience in efforts to reduce the time to hire within the web3 industry. The Company’s headquarters is remote and its customers will be located globally.

The Company will conduct a crowdfunding campaign under regulation CF in 2022 to raise operating capital.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Our fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Digital Assets

Digital Assets include assets held in the form of NEAR Tokens, which are a form of cryptocurrency. These assets are subject to fluctuating values and are recorded at the fair market value and tested for impairment at each reporting period or upon a triggering event. Impairment expense as of June 14, 2022 totaled \$7,439.

The Company owned a total of 735 NEAR tokens valued at \$2,489 as of June 14, 2022.

Fair Value of Financial Instruments

ASC 820 “*Fair Value Measurements and Disclosures*” establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Concentrations of Credit Risks

The Company's financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

Step 1: Identify the contract(s) with customers

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to performance obligations

Step 5: Recognize revenue when or as performance obligations are satisfied

The Company will identify and analyze its performance obligations with respect to customer contracts once the first contract is signed.

Advertising Costs

Advertising costs associated with marketing the Company's products and services are generally expensed as costs are incurred.

General and Administrative

General and administrative expenses consist of payroll and related expenses for employees and independent contractors involved in general corporate functions, including accounting, finance, tax, legal, business development, and other miscellaneous expenses.

Income Taxes

The Company is subject to corporate income and state income taxes in the state it does business. A deferred tax asset as a result of net operating losses (NOL) has not been recognized due to the uncertainty of future positive taxable income to utilize the NOL.

Recent Accounting Pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company follows ASC 850, “Related Party Disclosures,” for the identification of related parties and disclosure of related party transactions. No transactions require disclosure.

NOTE 4 – COMMITMENTS, CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS

We are currently not involved with or know of any pending or threatening litigation against the Company or any of its officers. Further, the Company is currently complying with all relevant laws and regulations. The Company does not have any long-term commitments or guarantees.

NOTE 5 – DEBT

On May 6, 2022, the Company’s management team entered into a SAFE (Simple Agreements for Future Equity) with a third-party investor for a total of \$150,000. This SAFE agreement was consummated by management prior to the formation of the Company and it was concluded by management that it would be in the best interest of the Company to issue this SAFE agreement to the investor for this Company and to recognize a loss on formation as a result. The SAFE agreement has no maturity date and bears no interest. The agreement provides the right of the investor to future equity in the Company in the form of the number of shares of Standard Preferred Stock equal to the Purchase Amount divided by the lowest price per share of the Standard Preferred Stock. Furthermore, the agreement provides the right to the investor to receive a portion of the proceeds equal to the greater of (i) the purchase amount, or (ii) the amount payable on the number of shares of Common Stock equal to the purchase amount divided by the liquidity price during a qualified liquidity event. Safe Preferred Stock means the shares of the series of Preferred Stock issued to the investors investing new money in the Company’s equity financing event. The Liquidity Price means the fair market value of the Common Stock at the time of the applicable Liquidity Event. Each agreement is subject to a valuation cap.

This agreement was amended on May 20, 2022 to include a valuation cap of \$5.5M and Pro Rata Rights for this SAFE investment. With those rights, the Investor shall have the right to purchase its pro rata share of Standard Preferred Stock being sold in the Equity Financing (the “Pro Rata Right”). Pro rata share for purposes of this Pro Rata Right is the ratio of (x) the number of shares of Capital Stock issued from the conversion of all of the Investor’s Safes with a “Post Money Valuation Cap” to (y) the Company Capitalization. The Pro Rata Right described above shall automatically terminate upon the earlier of (i) the initial closing of the Equity Financing; (ii) immediately prior to the closing of a Liquidity Event; or (iii) immediately prior to the Dissolution Event. In addition, in connection with the Equity Financing, the Company shall cause the terms and conditions of the Equity Financing to include a right of the Investor to purchase its pro rata share of all future securities offerings of the Company (whether equity securities or convertible debt or other securities convertible into or exchangeable for equity securities).

NOTE 6 – EQUITY

The Company has authorized 100,000 shares of Common Stock with a par value of \$0.001 per share. As of the date of the financial statements, no shares have been issued and outstanding.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to June 14, 2022 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through August 17, 2022, the date these financial statements were available to be issued.

On July 11, 2022, the Company entered into a SAFE (Simple Agreements for Future Equity) with a third-party investor for a total of \$300,000. The SAFE agreement has no maturity date and bears no interest. NOTE 8 – GRANT

On April 28, 2022, prior to the formation of the Company, the Co-founder of the Company entered into a Software Development Grant Agreement with the NEAR Foundation. The terms of the grant were such that the Company would develop its technology on the NEAR blockchain and would receive grants of NEAR Tokens on a milestone basis. On April 29, 2022, the Co-founder of the Company received Tokens worth \$12,500 in a crypto wallet that was created for the Company. Since incorporating the Company on June 14, 2022, the Company has continued developing its technology in accordance with the agreement and plans to earn the remaining tokens that are available to the Company under the grant agreement.

NOTE 9 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The entity has not commenced principal operations and will likely realize losses prior to generating positive working capital for an unknown period of time. During the next twelve months, the Company intends to finance its operations with funds from a crowdfunding campaign. The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

NOTE 9 – RISKS AND UNCERTAINTIES

COVID-19

The spread of COVID-19 has severely impacted many local economies around the globe. In many countries, businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses worldwide, resulting in an economic slowdown. Global

stock markets have also experienced great volatility and a significant weakening. Governments and central banks have responded with monetary and fiscal interventions to stabilize economic conditions. The duration and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses remains unclear currently. It is not possible to reliably estimate the duration and severity of these consequences, as well as their impact on the financial position and results of the Company for future periods.
