Management's Discussion and Analysis

Cost of Care, Medical Claims Payable and Other Medical Liabilities, page 45

1. Please provide us proposed disclosure to be included in future periodic reports that provides more details regarding the change in your claims payable and IBNR for the periods presented. For example, for 2013 you disclose that the decrease in reserves due to favorable prior year development was primarily due to a \$15.1 million of adjustments of block funding to providers resulting from an annual reconciliation process but do not explain what caused the large reconciling amount or what contributed to the additional \$16.2 million positive developed for prior years. Please disclose what factors were driving the favorable claims experience.
