# David Pittinger

Delivering the best experiences for internal employees and customers by aligning teams with objectives, technology and processes to deliver innovative results with exceptional business and customer value.

Greater Chicago Area

## Summary

Over the past 15+ years, I have acquired extensive experience in leveraging expertise in enterprise architecture and project management along with strong analytical and problem-solving skills to lead the end-to-end implementation of complex, tailored solutions in collaboration with strategic and channel partners and ultimately creating business value for customers.

I'm excited to put my expertise to work with Pro Cloud SaaS leading high-performing sales engineering teams, professional services, engaging cross-functionally across the project life cycle, and providing close, consultative support to clients to enable prompt issue resolution and maximum business value.
