Judy Morley, PhD

Are you struggling to lead your team through a transition? I help clients with customer experience, organizational transition, and small business development. Let's up-level your leadership!

Gettysburg, Pennsylvania, United States

Summary

If you're struggling to lead your team through a transition, I can help. I am a coach, speaker, executive and entrepreneur with over 20 years of leadership experience. I work with female executives who need to lead their team through a pivot, change, or conflict. If you're ready to find your innate power in times of challenge and be the hero who helps your team through tough times, I can show you how.

I know a thing or two about navigating transitions and thriving from them. I have overcome Stage IV cancer (with a 25% chance of survival—and that was 24 years ago), been divorced twice, and had a failed business. I have been at the helm of organizations that went through mergers, catastrophic changes in leadership, headquarters relocations, and, of course, a global pandemic. Each time, I made sure the organization—and all the people in it—were better because of the change.

If you want to know how your transition can have a happy ending, check out my website at www.drjudymorley.net.
