THE OFFERING AND THE SECURITIES

The Offering

The Company is offering a minimum amount of \$25,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$5,000,000 (the “**Maximum Offering Amount**”) of Crowd SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best efforts basis as described in this Form C/A (this “**Offering**”). The Minimum Individual Subscription Amount is \$100 and the Maximum Individual Subscription Amount is \$500,000. The Company reserves the right to amend the Minimum Individual Subscription Amount and Maximum Individual Subscription Amount, in its sole discretion. In particular, the Company may elect to participate in one of the Intermediary’s special investment programs and may offer alternative Minimum Individual Subscription Amounts and Maximum Individual Subscription Amounts to Investors participating in such programs without notice. The Company must raise an amount equal to or greater than the Target Offering Amount by April 7, 2023 (the “**Offering Deadline**”). Unless the Company receives investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be cancelled and all committed funds will be returned.

In addition to the Offering, the Company may concurrently undertake to raise up to an additional \$5,000,000 by offering to sell up to \$5,000,000 in securities, including but not limited to common or preferred stock, SAFEs (Simple Agreement for Future Equity) or Convertible Notes, to accredited investors outside of this Offering (the “**Concurrent Offering**”).

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other objective established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the subscription process hosted by the **Intermediary** (as defined above), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Company are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with a qualified third party escrow agent meeting the requirements of Regulation CF (“**Escrow Agent**”) until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline or an intermediate close, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds. If the investor does not cancel an investment commitment before the 48-hour period prior to the Offering Deadline, the funds will be released to the Issuer and the investor will receive their Securities.**

The Company will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Company reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Company continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Company’s profile page on the Intermediary’s website under <https://republic.com/nobody-studios> (the “**Deal Page**”). The Deal Page can be used by prospective Investors to ask the Company questions and for the Company to post immaterial updates to this Form C/A as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Company will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor's investment commitment will be cancelled and the committed funds will be returned without interest or deductions.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Company designates pursuant to Rule 304(b) of Regulation CF, the Company may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Company conducts an initial closing (the "**Initial Closing**"), the Company agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Company may only conduct another close (a "**Subsequent Closing**") before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Company upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Company has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Company until they are accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Company rejects all or a portion of any investment commitment, the applicable prospective Investor's funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C/A and the Instrument attached as Exhibit B, in conjunction with the following summary information.

Transfer Agent and Registrar

The Company will act as transfer agent and registrar for the Securities.

Not Currently Equity Interests

The Securities are not currently equity interests in the Company and merely provide a right to receive equity at some point in the future upon the occurrence of certain events (which may or may not occur).

Dividends and/or Distributions

The Securities do not entitle Investors to any dividends.

Nominee

The Nominee (as defined below) will act on behalf of the Investors as their agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee's sole discretion, to take custody of any securities acquired upon conversion of the Securities. The Nominee will take direction from a pre-disclosed party selected by the Company and designated below on any matter in which affects the Investors' economic rights. The Nominee is not a fiduciary to the Investors and the Investors agree to indemnify the Nominee per the terms of the Security.

Conversion

Upon the next sale (or series of related sales) by the Company of its Capital Stock to one or more third parties resulting in gross proceeds to the Company of not less than \$2,000,000 cash and cash equivalent (each an "**Equity Financing**"), the Securities are convertible into shares of the securities issued in said Equity Financing, at the option of the Company.

Conversion Upon the First Equity Financing

If the Company elects to convert the Securities upon the first Equity Financing following the issuance of the Securities, the Investor will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the "**Subscription Amount**") by (a) or (b) immediately below:

(a) the quotient of \$30,000,000 ("**Valuation Cap**") divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, "**SAFEs**"), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Company immediately prior to the First Equity Financing is less than or equal to the Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the "**First Equity Financing Price**".

Conversion After the First Equity Financing

If the Company elects to convert the Securities upon an Equity Financing other than the first Equity Financing following the issuance of the Securities, at the Nominee's discretion the Investor will receive, the number of converted securities equal to the quotient obtained by dividing (a) the Subscription Amount by (b) the First Equity Financing Price.

Conversion Upon a Liquidity Event Prior to an Equity Financing

In the case of the Company's undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security) or a **Change of Control** (as defined below) of the Company (either of these events, a "**Liquidity Event**") prior to any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) a cash payment equal to the Subscription Amount subject to the following paragraph (the "**Cash Out Option**") or (ii) a number of shares of Class B Non-Voting Common Stock of the Company equal to the Subscription Amount divided by the quotient of (a) \$30,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Company's capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any **SAFEs**; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**.

In connection with the Cash Out Option, the Subscription Amount (or a lesser amount as described below) will be due and payable by the Company to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other SAFEs (collectively, the “**Cash-Out Investors**”) in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Subscription Amounts.

“**Change of Control**” as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Company’s board of directors, (ii) any reorganization, merger or consolidation of the Company, in which the outstanding voting security holders of the Company fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Company.

“**IPO**” as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Company pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Company to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Company’s initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Company with the SEC that registers shares of existing capital stock of the Company for resale, as approved by the Company’s board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Company.

Conversion Upon a Liquidity Event Following an Equity Financing

In the case of a Liquidity Event following any Equity Financing, the Investor will receive, at the option of the Nominee and within thirty (30) days of receiving notice (whether actual or constructive), either (i) the Cash Out Option or (ii) a number of shares of the most recently issued capital stock equal to the Subscription Amount divided by the First Equity Financing Price. Shares of capital stock granted in connection therewith shall have the same liquidation rights and preferences as the shares of capital stock issued in connection with the Company’s most recent Equity Financing.

If there are not enough funds to pay the Investors and the other Cash-Out Investors in full, then all of the Company’s available funds will be distributed with equal priority and pro rata among the Cash-Out Investors in proportion to their Subscription Amounts.

If the Company’s board of directors (or other applicable governing body if the Company is a limited liability company) determines in good faith that delivery of equity securities to the Investor pursuant to Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Company shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such capital stock, as determined in good faith by the Company’s board of directors (or other applicable governing body if the Company is a limited liability company).

Dissolution

If there is a **Dissolution Event** (as defined below) before the Securities terminate, subject to the preferences applicable to any series of preferred stock then outstanding, the Company will distribute all proceeds legally available for distribution with equal priority among the (i) holders of the Securities (on an as converted basis based on a valuation of Common Stock as determined in good faith by the Company’s board of directors at the time of the Dissolution Event), (ii) all other holders of instruments sharing in the distribution of proceeds of the Company at the same priority as holders of Common Stock upon a Dissolution Event and (iii) all holders of Common Stock.

A “**Dissolution Event**” means (i) a voluntary termination of operations by the Company, (ii) a general assignment for the benefit of the Company’s creditors or (iii) any other liquidation, dissolution or winding up of the Company (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of shares in the converted securities to the Investor pursuant to the conversion provisions of the Crowd SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities **nor the securities issuable upon the conversion** of the Securities have voting rights unless otherwise provided for by the Company. In addition, to facilitate the Offering Crowd SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Company's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently at the direction of the Chief Executive Officer of the Company.

The Company does not have any voting agreements in place.

The Company does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Company.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Company; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Company with an opinion of counsel reasonably satisfactory to the Company stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any capital stock into which they are convertible to any of the Company's competitors, as determined by the Company in good faith.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Other Material Terms

- The Company does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Company cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

Cash Commission

At the conclusion of the Offering, the issuer shall pay a cash fee of six percent (6%) of the amount raised in the Offering to the Intermediary.

Other Compensation

The Intermediary will also receive compensation in the form of the Securities equal to two percent (2%) of the total number of the Securities sold in the offering. The total number of Securities outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of two percent (2%) of the Securities issued in this Offering.

RISK FACTORS

As the Company is in the business of developing companies, both it and its portfolio of businesses, including both the businesses that are still internal projects within the Company and those that have been spun out into separate entities (the “**Portfolio Companies**”), will oftentimes be subject to the same type of risks. As such, the below Risk Factors will cover both the Company and its Portfolio Companies.

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, we are subject to the same risks that all companies in their business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Company's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Company is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Company may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises and geopolitical events, including without limitation, COVID-19 can have a significant effect on our business operations and revenue projections.

A significant outbreak of contagious diseases, such as COVID-19, in the human population could result in a widespread health crisis. Additionally, geopolitical events, such as wars or conflicts, could result in global disruptions to supplies, political uncertainty and displacement. Each of these crises could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for the products and services of our Portfolio Companies and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms, if at all.

The amount of capital the Company is attempting to raise in this Offering may not be enough to sustain the Company's current business plan.

In order to achieve the Company's near and long-term goals, the Company may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Company will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our inability to sell our Portfolio Companies, as well as the inherent business risks associated with our Company and present and future market conditions. Additionally, our future sources of proceeds from selling our Portfolio Companies may not be sufficient to meet our future capital requirements. As such, we may require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, new business launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations. Lastly, our business model includes our Portfolio Companies raising third-party capital once they reach a certain stage in their development. There can be no guaranty that these Portfolio Companies will be able to raise their necessary capital, in which case the Company would be required to continue to fund those Portfolio Companies.

Our Portfolio Companies may implement new lines of business or offer new products and services within existing lines of business.

The businesses we are developing are early-stage companies and the Portfolio Companies may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. Our Portfolio Companies may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, our Portfolio Companies could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our Portfolio Companies, and by extension the Company's, financial condition or results of operations, may be adversely affected.

We rely on other companies to provide services for our various companies.

We depend on third party vendors to provide services for our various Portfolio Companies for them to meet their contractual obligations to customers and conduct their operations. The ability for our Portfolio Companies to meet their obligations to customers may be adversely affected if vendors do not provide the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of the services offered by our Portfolio Companies may be adversely impacted if companies to whom certain services are delegated do not perform to our Portfolio Companies, and their customers', expectations. Our vendors may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where any of our Portfolio Companies rely on only one or two vendors for a particular service.

The Company and the Portfolio Companies rely on various intellectual property rights, including trademarks, in order to operate their businesses.

The Company and its Portfolio Companies rely on certain intellectual property rights to operate their businesses. These intellectual property rights may not be sufficiently broad or otherwise may not provide the Company or its Portfolio Companies significant competitive advantages. In addition, the steps that the Company has taken to maintain and protect its intellectual property, and that of its Portfolio Companies, may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory

licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage to the Company or its Portfolio Companies, adequately protect the Company or its Portfolio Companies intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact the Company or any of its Portfolio Companies competitive positions and the Company's results of operations. The Company and its Portfolio Companies rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand the number of our Portfolio Companies, protecting the Company's and its Portfolio Companies intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter any of the Company's or any of its Portfolio Companies competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Company, and any of its Portfolio Companies, success depends on the experience and skill of its executive officers and key personnel.

The Company and its Portfolio Companies are dependent on our executive officers and key personnel, including those within the Portfolio Companies. These persons may not devote their full time and attention to the matters of the Company or any of its Portfolio Companies. The loss of our executive officers and key personnel could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company and its Portfolio Companies do not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Company and its Portfolio Companies have not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Company's operations. We have no way to guarantee key personnel will stay with the Company or any of its Portfolio Companies, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

In order for the Company and its Portfolio Companies to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

We need to rapidly and successfully develop and introduce new businesses in a competitive, demanding and rapidly changing environment.

Our business model is based on developing and growing Portfolio Companies. To succeed in the various industries these Portfolio Companies operate in, we must continually develop and introduce new businesses that improve, refresh and expand on other product and service offerings such as offer newer features, functionality or solutions, or which offer novel or new products and services. Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which our Portfolio Companies must introduce new products or implement new functions or solutions. In addition, if we are not able to develop businesses in a highly-efficient manner according to an internally-developed model, bringing new products or solutions to the market could be a costly and

lengthy process, and could require us to accurately anticipate changing customer needs and trends well out into the future. We must be successful in rapidly developing Portfolio Companies and their related products and services, as well as continue to respond to changing market demands and trends, or our business operations may be adversely affected.

The development and commercialization of our new businesses is highly competitive.

We face competition with respect to any new businesses that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our Portfolio Companies competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing products and thus may be better equipped than us to develop and commercialize new businesses, products or services. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than our businesses are able to, which would adversely affect their competitive position, the likelihood that their products will achieve initial market acceptance, and their ability to generate meaningful additional revenues and allow the Company to sell all or a portion of these new businesses.

Industry consolidation may result in increased competition against any of our Portfolio Companies, which could result in a loss of customers or a reduction in revenue.

Some of the competitors of our Portfolio Companies have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors of our Portfolio Companies may enter those markets through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over our Portfolio Companies, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or vertically integrate their business to include the market that any of our Portfolio Companies address may create more compelling service offerings and may offer greater pricing flexibility than our Portfolio Companies can or may engage in business practices that make it more difficult for our Portfolio Companies to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of customers or a reduction in our revenue to any of our Portfolio Companies, and to the Company as a whole.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brands are critical to our business and success, and will be critical to our success as we develop and create new Portfolio Companies. Any incident that erodes consumer loyalty for our brands, or any new Portfolio Company we create, could significantly reduce the value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

The Company and its Portfolio Companies could be negatively impacted by cyber security threats, attacks and other disruptions.

The Company and any of its Portfolio Companies may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture,

including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information or confidential employee information may adversely affect our business.

Our Portfolio Companies may require the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our Portfolio Companies or their businesses associates’ and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect any of our Portfolio Companies, including causing a Portfolio Company business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our Portfolio Companies and the Company’s results of operations to suffer materially. Additionally, the success of the Portfolio Companies online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments by some of our Portfolio Companies. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on the Company, or a specific Portfolio Company’s, reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Company is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Company may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) Company, the Company is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Company’s financial and disclosure controls and procedures, or those that it implements within the Portfolio Companies it creates. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Company or any of its Portfolio Companies of such compliance could be substantial and could have a material adverse effect on the Company’s results of operations.

Changes in federal, state or local laws and government regulation could adversely impact our business.

The Company and its Portfolio Companies are subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management’s time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business or newly developed businesses. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted.

Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

The Company and its Portfolio Companies operate in highly regulated environments, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of one of our licenses to operate the subject Portfolio Company's business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with the Company's employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

Affiliates of the Company, including officers, directors and existing shareholders of the Company, may invest in this Offering and their funds will be counted toward the Company achieving the Minimum Amount.

There is no restriction on affiliates of the Company, including its officers, directors and existing shareholders, investing in the Offering. As a result, it is possible that if the Company has raised some funds, but not reached the Minimum Amount, affiliates can contribute the balance so that there will be a closing. The Minimum Amount is typically intended to be a protection for investors and gives investors confidence that other investors, along with them, are sufficiently interested in the Offering and the Company and its prospects to make an investment of at least the Minimum Amount. By permitting affiliates to invest in the offering and make up any shortfall between what non-affiliate investors have invested and the Minimum Amount, this protection is largely eliminated.

The Company may not be in compliance with the corporate registration requirements where it operates.

The Company's headquarters are located in the State of California. The Company is not currently qualified to conduct business in California and intends to apply for qualification. The Company could be subject to fines, penalties or other administrative actions for failure to qualify in states that it operates in.

Risks Related to the Offering

State and federal securities laws are complex, and the Company could potentially be found to have not complied with all relevant state and federal securities law in prior offerings of securities.

The Company has conducted previous offerings of securities and may not have complied with all relevant state and federal securities laws. If a court or regulatory body with the required jurisdiction ever concluded that the Company may have violated state or federal securities laws, any such violation could result in the Company being required to offer rescission rights to investors in such offering. If such investors exercised their rescission rights, the Company would have to pay to such investors an amount of funds equal to the purchase price paid by such investors plus interest from the date of any such purchase. No assurances can be given the Company will, if it is required to offer such investors a rescission right, have sufficient funds to pay the prior investors the amounts required or that proceeds from this Offering would not be used to pay such amounts.

In addition, if the Company violated federal or state securities laws in connection with a prior offering and/or sale of its securities, federal or state regulators could bring an enforcement, regulatory and/or other legal action against the Company which, among other things, could result in the Company having to pay substantial fines and be prohibited from selling securities in the future.

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Company's management may have broad discretion in how the Company uses the net proceeds of the Offering.

Unless the Company has agreed to a specific use of the proceeds from the Offering, the Company's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

The Company has the right to limit individual Investor commitment amounts based on the Company's determination of an Investor's sophistication.

The Company may prevent any Investor from committing more than a certain amount in this Offering based on the Company's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Company's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Company's determination.

The Company has the right to extend the Offering Deadline.

The Company may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Company extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Company receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Target Offering Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after the release of such funds to the Company, the Securities will be issued and distributed to you.

The Company may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Company can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Company may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, an intermediate close (also known as a rolling close) of the Offering can occur, which will allow the Company to draw down on seventy percent (70%) of Investor proceeds committed and captured in the Offering during the relevant period. The Company may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed

upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a Crowd SAFE (Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “**Nominee**”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of the Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Securities. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Company nor take or effect actions that might otherwise be available to holders of the Securities and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Securities to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

The Securities will not be freely tradable under the Securities Act until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Company. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Investors will not become equity holders until the Company decides to convert the Securities or until there is a change of control or sale of substantially all of the Company’s assets. The Investor may never directly hold equity in the Company.

Investors will not have an ownership claim to the Company or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Company. Investors will not become equity holders of the Company unless the Company receives a future round of financing great enough to trigger a conversion and the Company elects to convert the Securities. The Company is under no obligation to convert the Securities. In certain instances, such as a sale of the Company or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Company. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Company or the Nominee decide to move the Crowd SAFE or the securities issuable thereto into a custodial relationship.

Investors will not have voting rights, even upon conversion of the Securities.

Investors will not have the right to vote upon matters of the Company even if and when their Securities are converted (the occurrence of which cannot be guaranteed). Under the terms of the Securities, a third-party designated by the Company will exercise voting control over the Securities. Upon conversion, the Securities will **continue** to be voted in line with the designee identified or pursuant to a voting agreement related to the equity securities the Security is converted into. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Securities that allows a designee to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Company unless otherwise provided for by the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C/A and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Company has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Company.

The Company may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Company may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services. The Securities are not equity interests, have no ownership rights, have no rights to the Company’s assets or profits and have no voting rights or ability to direct the Company or its actions.

Any equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Company’s equity securities will be subject to dilution. The Company intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Company.

The amount of additional financing needed by the Company will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other

securities) will be intended to provide the Company with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Company's needs, the Company may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Company. There can be no assurance that the Company will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Company has certain equity grants and convertible securities outstanding. Should the Company enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Any equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Company at the time of conversion.

In the event the Company decides to exercise the conversion right, the Company will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the First Equity Financing Price (as defined in the Crowd SAFE agreement) shall have only such preferences, rights, and protections in proportion to the First Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Company may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Company.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the Crowd SAFE agreement, which is attached as Exhibit B.

There is no present market for the Securities and we have arbitrarily set the price.

The Offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the Offering price or at any other price.

In the event of the dissolution or bankruptcy of the Company, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Company, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. No holders of any of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Company.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their subscription amount upon the occurrence of certain events, if the Company does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Company does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

BUSINESS

Description of the Business

Nobody Studios, Inc., (“Nobody Studios”) or (the “Company”) is a high-velocity venture studio dedicated to the rapid creation and validation of new companies engineered to solve some of the world’s most complex problems. Armed with an expert team of successful entrepreneurs with over \$5 billion in exits and \$9 billion in IPOs, Nobody Studios is a venture studio (also called a startup studio, venture builder, or company builder) that combines company architecture with venture funding.

Nobody Studios was originally incorporated on July 6, 2020 as Nobody Studios, Inc., a California corporation. On August 4, 2021, a Nevada corporation named Nobody Studios, Inc. was formed. Pursuant to a merger agreement, dated August 6, 2021, the two companies merged with Nobody Studios, the Nevada corporation, as the surviving entity.

The Company is headquartered in California. The Company has three operating subsidiaries. LockdownU, Inc., known as Parentipity, is a California corporation incorporated on April 29, 2020. Parentipity operates a parent creator community. Additionally, Ovationz, Inc. is a Nevada corporation incorporated on February 15, 2022. Ovationz provides live digital presentations delivered by respected thought leaders in their own industry. Finally, Thoughtforma, Inc. is a Nevada corporation formed on January 18, 2022. Thoughtforma allows users to bring their ideas to life as digital apps. In addition, the Company has a non-operating subsidiary, called The Integrity Project LLC, a California limited liability company, which was formed on July 4, 2020.

Business Plan

The Company plans to significantly expand its business by increasing sales and marketing, investing in technology and product development and building out its infrastructure. The capital we raise here will empower us to expand our product development, increase sales and marketing efforts and grow out our infrastructure as we continue to aggressively grow and expand our business.

The Company’s Products and/or Services

Product / Service	Description	Current Market
Nobody Studios Incubated Companies	Develop and incubate new businesses for a liquidity event.	Private equity, venture firms or strategic buyers

Competition

We compete against startup accelerators and incubators (that provide small amounts of funding and mentorship) and other venture studios. Venture studios, such as the Company, act as each company’s founders, investors, and builders. Similarly, venture studios do not replace or compete against venture capitalists and rather address a critical gap in the startup ecosystem by de-risking early-stage companies before applying significant funding to scale.

Specific venture studio competitors include High Alpha, eFounders, Pioneer Square Labs (PSL), Rocket Internet and Polymath.

Customer Base

Customers will be purchasers of our incubated businesses which may include private equity, venture capitalists or strategic buyers.

Supply Chain

Although the Company is dependent upon certain third party vendors, the Company has access to alternate service providers in the event its current third-party vendors are unable to provide services or any issues arise with its current vendors where a change is required to be made. The Company does not believe the loss of a current third-party vendor or service provider would cause a major disruption to its business, although it could cause short-term limitations or disruptions.

Governmental/Regulatory Approval and Compliance

The Company is subject to and affected by the laws and regulations of U.S. federal, state and local governmental authorities. These laws and regulations are subject to change.

Litigation

The Company is not subject to any current litigation.

The Company has received notice of infringement on its Nobody Studios trademark. Moreover, the claimant has filed a claim with the United States Patent Office to cancel the Company’s trademark. The Company believes there is no infringement and has sufficient legal defenses. The Company intends to vigorously defend against this alleged claim.

The Company has received a demand letter for payment of unpaid wages and damages by a former employee in the amount of approximately \$78,500. The former employee has threatened litigation. The Company believes it does not owe the amounts demanded and believes it has sufficient legal defense. The Company intends to vigorously defend against this demand.

USE OF PROCEEDS

The following table illustrates how we intend to use the net proceeds received from this Offering. The values below are not inclusive of payments to financial and legal service providers and escrow related fees, all of which were incurred in the preparation of this Offering and are due in advance of the closing of the Offering.

Use of Proceeds	% of Proceeds if Target Offering Amount Raised	Amount if Target Offering Amount Raised	% of Proceeds if Maximum Offering Amount Raised	Amount if Maximum Offering Amount Raised

The Company has discretion to alter the use of proceeds set forth above to adhere to the Company's business plan and liquidity requirements. For example, economic conditions may alter the Company's general marketing or general working capital requirements.

Set forth below are reasonably specific descriptions of how we intend to use the net proceeds of this Offering for any category in excess of ten percent (10%) in the table above intended to assist you in understanding how the Offering proceeds will be used.

(1) Sales & Marketing: The Company's staff works on its internal projects to develop them into viable companies, and in connection with that, it works on the strategy, materials and approaches to bring those projects into the market. Today this is done by a relatively small staff. We will use the Offering proceeds to hire additional resources, which will be a blend of internal staff members and outsourced companies and personnel.

(2) Research & Development: Virtually every company that the Company develops has some type of technology solution as part of its offering, and today the research and development of those solutions is conducted by a small team of individuals that are both inhouse and outsourced. We will use the Offering proceeds to expand the team and capabilities in order to significantly increase the velocity of solutions being released.

(3) General & Administrative: This category includes many of the functions required to run the Company, including the executive team overseeing the Company's overall operations and developing its strategy, the costs of raising investment capital, the back-office functions such as accounting and legal, and the various general expenses such as insurance. A portion of the Offering proceeds will be used to expand these capabilities as the Company grows.

To the Board of Directors of
Nobody Studios, Inc.
San Juan Capistrano, California

Opinion

We have audited the consolidated financial statements of Nobody Studios, Inc. and Subsidiaries ("the Company") (a Nevada C-Corporation), which comprise the consolidated balance sheet as of December 31, 2021 and 2020, and the related consolidated statements of operations, stockholders' equity, and cash flows for the period from July 6, 2020 (inception) to December 31, 2020 and for the year ended December 31, 2021, and the related notes to the consolidated financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Nobody Studios, Inc. as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the period from July 6, 2020 (inception) to December 31, 2020 and for the year ended December 31, 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Nobody Studios, Inc. and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Substantial Doubt About the Company's Ability to Continue as a Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has incurred losses from inception and has negative cash flows and has stated that substantial doubt exists about the Company's ability to continue as a going concern. Management's evaluation of the events and conditions and management's plans regarding these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Nobody Studio Inc.'s ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements, including omissions, are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Nobody Studios Inc.'s internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude, whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Nobody Studios, Inc.'s ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

NOBODY STUDIOS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2021 and the period from July 6, 2020 (inception) to December 31, 2020

Note 1 – Nature of Business and Summary of Significant Accounting Policies

This summary of significant accounting policies of Nobody Studios, Inc. and Subsidiaries (“Nobody Studios” or “the Company”) is presented to assist in understanding the Company’s financial statements. The financial statements and notes are representations of the Company’s management who is responsible for their integrity and objectivity.

Nature of Business

Nobody Studios, Inc. was originally formed on July 6, 2020 as Nobody Studios, Inc., a California corporation. On August 4, 2021, a Nevada corporation named Nobody Studios, Inc. was formed. Pursuant to merger agreement dated August 6, 2021, the two companies merged and Nobody Studios, Inc. the Nevada corporation, was the surviving entity. Nobody Studios is a crowd-infused, high-velocity company creation machine at the forefront of innovation and impact. Nobody Studios, Inc. consists of startup artisans and serial entrepreneurs who believe the culture and economics of business creation need to overhaul and we’re building the mechanism to do it. Our current mission is to build 100 companies in the next five years.

LockdownU, Inc. (formerly Parentipity) was formed on April 29, 2020 as a California, C-Corporation. Parentipity is Nobody Studios first new company. The pandemic changed how parents run their homes and lives. Suddenly kids were around 24/7 with a host of new needs and challenges and parents needed help. We created Parentipity to be THE parent creator community, not only for support and connection but for income. We pay parents for their advice, without any follower requirements. The website runs off the TIPity, our ingenious socially-optimized content tool that seamlessly shares your blogs, videos, coaching and other creations with the world.

The Integrity Project, LLC was formed on July 4, 2020. Through the years, many individuals and companies have built trust in the founder of Nobody Studios. With The Integrity Project, we want to give back a little to those that have placed their trust in us. There has been no activity in The Integrity Project to date.

Principles of Consolidation

These consolidated financial statements include the accounts of Nobody Studios, Inc., LockdownU, Inc., and The Integrity Project, LLC. All intercompany transactions as of the date that Nobody Studios, Inc. acquired controlling interest of the subsidiaries have been eliminated.

Basis of Presentation

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”). In the opinion of management, all adjustments considered necessary for a fair presentation have been included. All such adjustments are normal and recurring in nature. The Company’s fiscal year end is December 31.

Estimates

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets, liabilities, revenues and expenses and disclosure of contingent assets and liabilities. Any estimates made by management have been done in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Advertising Costs

The Company expenses advertising costs as incurred. Advertising costs were \$7,300 and \$4,702 for the periods ended December 31, 2021 and 2020.

NOBODY STUDIOS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2021 and the period from July 6, 2020 (inception) to December 31, 2020

Shipping and Handling Costs

Shipping and handling costs are expensed as incurred.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement determined based on assumptions that market participants would use in pricing and asset or liability. There are three levels that prioritize the inputs used in measuring fair value as follows:

- Level 1: Observable market inputs, such as quoted prices (unadjusted) in active markets for identically assets or liabilities;
- Level 2: Observable market inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3: Unobservable inputs where there is little or no market data, which require the reporting entity to develop its own assumptions.

All financial instruments on the balance sheets approximate their fair value.

Subsequent Events

Management has evaluated subsequent events through July 14, 2022, which is the date these financial statements were available to be issued.

Note 2 – Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business.

The Company has incurred losses from inception and has negative cash flows from operations which, among other factors, raises substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent upon management's plans to raise additional capital from the issuance of debt or the sale of stock, its ability to begin profitable operating activities, and its ability to generate positive operational cash flow.

Management has determined, based on its recent history and its liquidity issues that it is not probable that management's plan will sufficiently alleviate or mitigate, to a sufficient level, the relevant conditions or events noted above. Accordingly, the management of the Company has concluded that there is substantial doubt about the Company's ability to continue as a going concern within one year after the issuance date of these financial statements.

There can be no assurance that the Company will be able to achieve or maintain cash-flow-positive operating results. If the Company is unable to generate adequate funds from operations or raise sufficient additional funds, the Company may not be able to repay its existing debt, continue to develop its product, respond to competitive pressures, or fund its operations. The financial statements do not include any adjustments that might result from this uncertainty.

Note 3 – Notes Payable

During 2021, the company entered into simple agreements for future equity ("SAFE securities") with investors, for total proceeds of \$841,470. The SAFE securities did not bear interest and had no maturity date.

NOBODY STUDIOS, INC.**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

For the year ended December 31, 2021 and the period from July 6, 2020 (inception) to December 31, 2020

The SAFE Agreements entitle the holder to convert the SAFE securities into the Company's preferred stock (this classification of stock has not yet been authorized or established). The terms provide for automatic conversion of the SAFE securities' purchase amounts into the Company's stock upon a qualified equity financing event, which is generally defined as a transaction or series of transactions involving the issuance of the Company's stock at a fixed pre-money valuation. The number of shares of stock the SAFE agreement converts into is the Purchase Amount divided by the conversion price (common stock issued at a 70% discount). The holder of the SAFE security also has the option of repayment at the purchase price plus 15%.

In the case of a liquidation event (as defined in the SAFE agreement), the SAFE agreement is convertible into either: a) cash of the purchase amount; b) the number of shares determined by dividing the purchase amount by the liquidity price (as defined in the agreement).

Note 4 – Stockholders' EquityCapital Structure

In 2021, the Company had authorized 150,000,000 shares of \$0.0001 par value common stock.

Common Stock

During 2021, the Company issued 44,875,000 of common shares to the founder and executives. 34,500,000 was issued to the Chief Executive Officer and vested immediately. The remaining shares issued vest based on the passage of time or milestones.

Equity Incentive Plan

The Company adopted the 2021 Omnibus Incentive Plan (the "Plan"). The plan permits the grant of stock options, stock appreciation rights and restricted stock to attract and retain employees and consultants. Under the Plan, the Company issues stock appreciation rights and options having a term of up to ten years and a strike price of no less than fair market value of common stock at the time of issuance.

The Company has reserved 4,000,000 shares of common stock under the Plan. As of December 31, 2021, 4,000,000 shares of common stock were available for grant under the Plan.

Note 5 – Income Taxes

The Company assesses its income tax positions and records tax benefits for all years subject to examination based upon its evaluation of the facts, circumstances, and information available at the reporting date. In accordance with ASC 740-10, for those tax positions where there is a greater than 50% likelihood that a tax benefit will be sustained, the Company's policy is to record the largest amount of tax benefit that is more likely than not to be realized upon ultimate settlement with a taxing authority that has full knowledge of all relevant information. For those income tax positions where there is less than 50% likelihood that a tax benefit will be sustained, no tax benefit will be recognized in the financial statements. The Company has determined that there are no material uncertain tax positions, except as noted below.

There is potential that future net operating losses may not be able to be recognized due to change in ownership of a loss corporation. The tax return and deferred tax asset did not reflect the potential impact of ownership changes. A determination of the testing dates, percentage ownership increases, and Section 382 limitation (if any) will be made when the NOL is utilized. The Company accounts for income taxes based on the provisions promulgated by the Internal Revenue Service ("IRS"), which has a statute of limitation of three years from the due date of the return. As such, all tax years since inception are open for inspection. The Company is also required to file taxes in the State of California.

For the year ended December 31, 2021 and the period from July 6, 2020 (inception) to December 31, 2020

The Company currently has a tax net operating loss of approximately \$1,000,000 for which it may receive future tax benefits. However, as of December 31, 2021, no such benefit is expected to be recognized in the near term, and therefore, a full valuation allowance has been assessed on any potential income tax benefit. Based on the federal rate of 21% the deferred tax asset is approximately \$210,000 and the valuation allowance is \$210,000 which nets to a deferred tax asset of \$0 as of December 31, 2021.

Note 6 – Risks and Uncertainties

The Company's business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company's control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company's financial condition and the results of its operations.

In December 2019, a novel strain of coronavirus (COVID-19) was reported in Wuhan, China and has spread throughout the United States and the rest of the world. The World Health Organization has declared the outbreak to constitute a "Public Health Emergency of International Concern." This contagious disease outbreak, which has not been contained, and is disrupting supply chains and affecting production and sales across a range of industries in United States and other companies as a result of quarantines, facility closures, and travel and logistics restrictions in connection with the outbreak, as well as the worldwide adverse effect to workforces, economies, and financial markets, leading to a global economic downturn. As a result, the Company experienced a negative impact to its operating results. Regarding future operations, the related financial impact and duration cannot be reasonably estimated at this time.

Note 7 – Subsequent Events

On May 16, 2022, the Company purchased rights to the exclusive use of certain intellectual property. In exchange, the Company issued 453,282 shares of common stock in Nobody Studios, Inc., 38,700 shares of Thoughtforma, Inc., and \$253,000 in promissory notes that are to be paid in eight equal monthly installments.

During 2022, the company has continued to enter into simple agreements for future equity ("SAFE securities") with investors, for total proceeds of \$939,980. The SAFE securities do not bear interest and have no maturity date.

The SAFE Agreements entitle the holder to convert the SAFE securities into the Company's preferred stock (this classification of stock has not yet been authorized or established). The terms provide for automatic conversion of the SAFE securities' purchase amounts into the Company's stock upon a qualified equity financing event, which is generally defined as a transaction or series of transactions involving the issuance of the Company's stock at a fixed pre-money valuation. The number of shares of stock the SAFE agreement converts into is the Purchase Amount divided by the conversion price (common stock issued at a 70% discount). The holder of the SAFE security also has the option of repayment at the purchase price plus 15%.

In the case of a liquidation event (as defined in the SAFE agreement), the SAFE agreement is convertible into either: a) cash of the purchase amount; b) the number of shares determined by dividing the purchase amount by the liquidity price (as defined in the agreement).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended December 31, 2021 and the period from July 6, 2020 (inception) to December 31, 2020

Thoughtforma, Inc. was formed in the State of Nevada on January 18, 2022. Thoughtforma provides the ability to bring your ideas to life as digital apps in minutes. It's a no-code solution that anyone can use. You can build your creations on-line on the web, wherever you may be.

The Company had the following new companies that were in development as of December 31, 2021:

SweatOptions is a new company where we unlock equity value for companies and talent. Attracting talent is becoming a key business battleground and companies need more compensation options to incentivize top performers. Micro-equity has a strong appeal, but it's been difficult for employers to provide. Most employees with stock options don't know their value or where to get details. Companies offer little transparency, and most information is paper based. SweatOptions offers a "work-for-stock-options" platform that gives visibility, value estimates, reporting, loan options and even currency-equity exchange.

Prehab Life is a new company that provides full spectrum addiction support. Tens of thousands of people die each year from drug overdoses and many more lives are destroyed by addiction. The rehab industries average success rate is 3-5%. Part of the problem is that most programs wait until a person is in crisis before they provide help. We believe an ounce of prevention is worth 10 pounds of cure. It's long past time to disrupt the treatment industry with a program that intervenes before people hit rock-bottom. We use data-driven and a team of licensed and caring professionals to meet people where they're at and give them the preventative support they need.

Espionage.biz is a on demand corporate intelligence new company. Companies spend a fortune creating entire departments to track competitors, conduct R&D and market research, prospect intelligence and more. We'll offer legal corporate espionage as a service. Our platform uses proprietary technology to harness the power of the internet and public data resources. We deliver the needed information and analysis in a consolidated format to help companies make the best decisions fast to stay ahead of competition.

Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “**Nominee**”) is hereby appointed to act on behalf of the Investor as agent and proxy in all respects under the Crowd SAFE Series 2022 issued by Nobody Studios, Inc. (the “**Security**”). The Nominee shall receive all notices and communications on behalf of the Investor, and cause the Security, or any securities which may be acquired upon conversion thereof (the “**Conversion Securities**”) to be custodied with a qualified custodian of the Nominee’s sole discretion (“**Custodial Conversion**”). The Nominee is authorized and empowered to undertake Custodial Conversion at any point after issuance of the Securities. To the extent the holders of Securities or Conversion Securities are entitled to vote at any meeting or take action by consent, Nominee is authorized and empowered to vote and act on behalf of Investor in all respects thereto (without prior or subsequent notice to the Investor) until the expiry of the Term (as defined below) (collectively the “**Nominee Services**”). Defined terms used in this Nominee Rider are controlled by the Security unless otherwise defined.

Nominee shall vote all such Securities and Conversion Securities consistently at the direction of the Chief Executive Officer of Nobody Studios, Inc. Neither Nominee nor any of its affiliates nor any of their respective officers, partners, equity holders, managers, officers, directors, employees, agents or representatives shall be liable to Investor for any action taken or omitted to be taken by it hereunder, or in connection herewith or therewith, except for damages caused by its or their own recklessness or willful misconduct.

The Investor acknowledges and agrees, as part of the process, the Nominee may open an account in the name of the Investor with a qualified custodian and allow the qualified custodian to take custody of the Conversion Securities in exchange for a corresponding beneficial interest held by the Investor. Upon any such conversion or changing of title, Nominee will take reasonable steps to send notice to the Investor, including by e-mail, using the last known contact information of such Investor.

The “**Term**” the Nominee Services will be provided will be the earlier of the time which the Securities or any Conversion Securities are (i) terminated, (ii) registered under the Exchange Act, or (iii) the time which the Nominee, the Investor and the Company mutually agree to terminate the Nominee Services.

To the extent you provide the Issuer with any personally identifiable information (“**PII**”) in connection with your election to invest in the Securities, the Issuer and its affiliates may share such information with the Nominee, the Intermediary, and the appointed transfer agent for the Securities solely for the purposes of facilitating the offering of the Securities and for each party to provide services with respect to the ownership and administration of the Securities. Investor irrevocably consents to such uses of Investor’s PII for these purposes during the Term and Investor acknowledges that the use of such PII is necessary for the Nominee to provide the Nominee Services.
