Backing WeShape was a no-brainer for me. In fact I jumped at the chance to invest in a company built by Tyler and Katie Bramlett. For years I've been watching in awe as this dynamic duo somehow always manages to stay way ahead of the curve and implement the next new innovation before anyone else even thinks of it. And now that they are taking their proven business-building track record into the massive but largely ignored market of personalized exercise plans to help women of any fitness level feel amazing in their body, I'm convinced it is a golden opportunity to get in on the ground floor of something exciting.

Invested \$150,000 this round & \$150,000 previously

Our Team

Tyler Bramlett Co-Founder

Led growth for over 200M in online ecommerce sales in the health and fitness industry in the last 10 years. Managed everything from copywriting, to ad management, to data analysis, sales funnel optimization, content marketing etc.

Katie Bramlett Co-founder

Made it onto Inc 500 list 3 separate times as COO for a health and fitness company. Best growth was 1977% in 3 years.

Sachin Chaudhari CTO

20+ yrs managing cloud technologies and has led start-up engineering teams from ground-up to successful acquisition.

Ben Chargin Director of Content

Has grown WeShape's social media presence to over 1 MILLION followers organically!

Back when I was a personal trainer, my clients always loved their results. But most people can't afford a personal trainer. And despite the rise of digital fitness, one-size-fits-all digital fitness programs don't seem to work either :-)

There needed to be a way for normal people to get an experience that felt like having a personal trainer but without the cost. So...

Our Solution is **weshape**

A fitness product that feels like having a personal trainer, without the cost!

Finally a digital fitness product that creates customized, at-home workouts that meets your individual needs!

This is a BIG opportunity because Digital Fitness as a sector is growing FAST. And customized fitness is gonna grow even faster!

Why Now?

- 1 The fitness industry is projected to grow 128% by 2028!
- 2 Digital fitness is the fastest growing segment projected to grow 486% by 2028!!
- 3 Customized fitness programs make up less than 4% of the digital fitness segment and NONE are affordable!!!

WeShape is in a unique position because the other Digital Fitness companies aren't affordable and require thousands up front :-)
