Structured Investments

\$540,000

Capped Single Observation Knock-Out Notes Linked to a Basket of 15 Reference Stocks due October 17, 2012

General

- The notes are designed for investors who seek to participate in the appreciation of an equally weighted basket of 15 Reference Stocks, up to the Maximum Return of 20.00% at maturity and who anticipate that the Basket Closing Level on the Observation Date (*i.e.*, the Ending Basket Level) will not be less than the Starting Basket Level by more than 20.00%. Investors should be willing to forgo interest and dividend payments and, if the Ending Basket Level is less than the Starting Basket Level by more than 20.00%, be willing to lose some or all of their principal at maturity. If the Ending Basket Level is not less than the Starting Basket Level by more than 20.00%, investors have the opportunity to receive the greater of (a) the Basket Return and (b) the Contingent Minimum Return of at least 7.57% at maturity, subject to the Maximum Return of at least 20.00%. **Any payment on the notes is subject to the credit risk of JPMorgan Chase & Co.**
- Senior unsecured obligations of JPMorgan Chase & Co. maturing October 17, 2012[†]
- Minimum denominations of \$10,000 and integral multiples of \$1,000 in excess thereof
- The notes priced on September 30, 2011 and are expected to settle on or about October 5, 2011.

Key Terms

Basket:	The Basket consists of 15 common stocks (each, a "Reference Stock" and collectively, the "Reference Stocks"). The issuers of the Reference Stocks and the Bloomberg ticker symbol, the relevant exchange on which it is listed, the Stock Weighting and Initial Share Price of each Reference Stock are set forth under "The Basket" on page PS-1 of this pricing supplement.
Knock-Out Event:	A Knock-Out Event occurs if the Basket Closing Level on the Observation Date (<i>i.e.</i> , the Ending Basket Level) is less than the Starting Basket Level by more than the Knock-Out Buffer Amount. For the avoidance of doubt, the notes are subject to monitoring on a single Monitoring Day (<i>i.e.</i> , the Observation Date).
Knock-Out Buffer Amount:	20.00%
Payment at Maturity:	<i>If a Knock-Out Event has occurred</i> , you will receive a cash payment at maturity that will reflect the performance of the Basket, subject to the Maximum Return. Under these circumstances, your payment at maturity per \$1,000 principal amount note will be calculated as follows: $\$1,000 + (\$1,000 \times \text{Basket Return}), \text{ subject to the Maximum Return}$ <i>If a Knock-Out Event has not occurred</i> , you will receive a cash payment at maturity that will reflect the performance of the Basket, subject to the Contingent Minimum Return and the Maximum Return. If a Knock-Out Event has not occurred, your payment at maturity per \$1,000 principal amount note will equal \$1,000 <i>plus</i> the product of (a) \$1,000 and (b) the greater of (a) the Contingent Minimum Return and (b) the Basket Return, subject to the Maximum Return. For additional clarification, please see "What Is the Total Return on the Notes at Maturity, Assuming a Range of Performances for the Basket?" in this pricing supplement.
Maximum Return:	20.00%. Accordingly, the maximum payment at maturity is \$1,200 per \$1,000 principal amount note.
Contingent Minimum Return:	7.57%
Basket Return:	$\frac{\text{Ending Basket Level} - \text{Starting Basket Level}}{\text{Starting Basket Level}}$
Starting Basket Level:	Set equal to 100 on the pricing date
Ending Basket Level:	The Basket Closing Level on the Observation Date
Basket Closing Level:	The Basket Closing Level will be calculated as follows: $100 \times [1 + \text{sum of (Share Return of each Reference Stock} \times 1/15)]$
Share Return:	$\frac{\text{Final Share Price} - \text{Initial Share Price}}{\text{Initial Share Price}}$
Initial Share Price:	With respect to a Reference Stock, the closing price of one share of such Reference Stock on the pricing date, as set forth under "The Basket" in this pricing supplement, divided by the applicable Stock Adjustment Factor
Final Share Price:	With respect to a Reference Stock, on the Observation Date, the closing price of one share of such Reference Stock on the Observation Date
Stock Adjustment Factor:	With respect to a Reference Stock, set initially at 1.0 on the pricing date and subject to adjustment under certain circumstances. See "Description of Notes — Payment at Maturity" and "General Terms of Notes — Anti-Dilution Adjustments" in the accompanying product supplement no. 208-A-I for further information.
Observation Date:	October 12, 2012 [†]
Maturity Date:	October 17, 2012 [†]
CUSIP:	48125X4A1

[†] Subject to postponement in the event of a market disruption event and as described under "Description of Notes — Payment at Maturity" and "Description of Notes — Postponement of a Valuation Date" in the accompanying product supplement no. 208-A-I

Investing in the Capped Single Observation Knock-Out Notes involves a number of risks. See "Risk Factors" beginning on page PS-6 of the accompanying product supplement no. 208-A-I and "Selected Risk Considerations" beginning on page PS-3 of this pricing supplement.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the notes or passed upon the accuracy or the adequacy of this pricing supplement or the accompanying product supplement, prospectus supplement and prospectus. Any representation to the contrary is a criminal offense.

	Price to Public (1)	Fees and Commissions (2)	Proceeds to Us
Per note	\$1,000	\$10	\$990
Total	\$540,000	\$5,400	\$534,600

- (1) The price to the public includes the cost of hedging our obligations under the notes through one or more of our affiliates, which includes our affiliates' expected cost of providing such hedge as well as the profit our affiliates expect to realize in consideration for assuming the risks inherent in providing such hedge. For additional related information, please see "Use of Proceeds" beginning on page PS-16 of the accompanying product supplement no. 208-A-I.
- (2) J.P. Morgan Securities LLC, which we refer to as JPMS, acting as agent for JPMorgan Chase & Co., will receive a commission of \$10.00 per \$1,000 principal amount note. See "Plan of Distribution (Conflicts of Interest)" beginning on page PS-34 of the accompanying product supplement no. 208-A-I. For a different portion of the notes to be sold in this offering, an affiliated bank will receive a fee and another affiliate of ours will receive a structuring and development fee. The aggregate amount of these fees will be \$10.00 per \$1,000 principal amount note.

The notes are not bank deposits and are not insured or guaranteed by the Federal Deposit Insurance Corporation or any other governmental agency, nor are they obligations of, or guaranteed by, a bank.

J.P.Morgan

September 30, 2011

Additional Terms Specific to the Notes

You should read this pricing supplement together with the prospectus dated November 21, 2008, as supplemented by the prospectus supplement dated November 21, 2008 relating to our Series E medium-term notes of which these notes are a part, and the more detailed information contained in product supplement no. 208-A-I dated March 29, 2011. **This pricing supplement, together with the documents listed below, contains the terms of the notes, supplements the term sheet related hereto dated September 26, 2011 and supersedes all other prior or contemporaneous oral statements as well as any other written materials including preliminary or indicative pricing terms, correspondence, trade ideas, structures for implementation, sample structures, fact sheets, brochures or other educational materials of ours.** You should carefully consider, among other things, the matters set forth in “Risk Factors” in the accompanying product supplement no. 208-A-I, as the notes involve risks not associated with conventional debt securities. We urge you to consult your investment, legal, tax, accounting and other advisers before you invest in the notes.

You may access these documents on the SEC website at www.sec.gov as follows (or if such address has changed, by reviewing our filings for the relevant date on the SEC website):

- Product supplement no. 208-A-I dated March 29, 2011:
http://www.sec.gov/Archives/edgar/data/19617/000089109211001982/e42833_424b2.pdf
- Prospectus supplement dated November 21, 2008:
http://www.sec.gov/Archives/edgar/data/19617/000089109208005661/e33600_424b2.pdf
- Prospectus dated November 21, 2008:
http://www.sec.gov/Archives/edgar/data/19617/000089109208005658/e33655_424b2.pdf

Our Central Index Key, or CIK, on the SEC website is 19617. As used in this pricing supplement, the “Company,” “we,” “us” and “our” refer to JPMorgan Chase & Co.

The Basket

The issuers of the Reference Stocks and the Bloomberg ticker symbol, the relevant exchange on which each Reference Stock is listed, the Stock Weighting and the Initial Share Price of each Reference Stock are set forth below:

Ticker Symbol	Reference Stock Issuer	Relevant Exchange	Stock Weighting	Initial Share Price*
AAPL	Apple Inc.	NASDAQ (Nasdaq Stock Market)	1/15	\$381.18
BRCM	Broadcom Corporation	NASDAQ	1/15	\$33.29
GLW	Corning Incorporated	NYSE (New York Stock Exchange)	1/15	\$12.36
EMC	EMC Corporation	NYSE	1/15	\$20.99
GOOG	Google Inc.	NASDAQ	1/15	\$514.38
IBM	International Business Machines Corporation	NYSE	1/15	\$175.03
INTC	Intel Corporation	NASDAQ	1/15	\$21.33
LLTC	Linear Technology Corporation	NASDAQ	1/15	\$27.65
MRVL	Marvell Technology Group Ltd.	NASDAQ	1/15	\$14.53
NTAP	NetApp, Inc.	NASDAQ	1/15	\$33.94
ORCL	Oracle Corporation	NASDAQ	1/15	\$28.74
QCOM	QUALCOMM Incorporated	NASDAQ	1/15	\$48.63
RVBD	Riverbed Technology, Inc.	NASDAQ	1/15	\$19.96
SNDK	SanDisk Corporation	NASDAQ	1/15	\$40.35
SYMC	Symantec Corporation	NASDAQ	1/15	\$16.30

*Subject to adjustments as described under “General Terms of Notes — Anti-Dilution Adjustments” and “General Terms of Notes — Reorganization Events” in the accompanying product supplement no. 208-A-I

What Is the Total Return on the Notes at Maturity, Assuming a Range of Performances for the Basket?

The following table illustrates the hypothetical total return at maturity on the notes. The “total return” as used in this pricing supplement is the number, expressed as a percentage, that results from comparing the payment at maturity per \$1,000 principal amount note to \$1,000. The hypothetical total returns set forth below reflect the Contingent Minimum Return of 7.57%, the Maximum Return of 20.00% and the Knock-Out Buffer Amount of 20.00%. The hypothetical total returns set forth below are for illustrative purposes only and may not be the actual total returns applicable to a purchaser of the notes. The numbers appearing in the following table and examples have been rounded for ease of analysis.

Ending Basket Level	Basket Return	Total Return	
		Knock-Out Event Has Not Occurred(1)	Knock-Out Event Has Occurred(2)
190.00	90.00%	20.00%	N/A
180.00	80.00%	20.00%	N/A
170.00	70.00%	20.00%	N/A
160.00	60.00%	20.00%	N/A
150.00	50.00%	20.00%	N/A
140.00	40.00%	20.00%	N/A
130.00	30.00%	20.00%	N/A
125.00	25.00%	20.00%	N/A
120.00	20.00%	20.00%	N/A
115.00	15.00%	15.00%	N/A
110.00	10.00%	10.00%	N/A
107.57	7.57%	7.57%	N/A
105.00	5.00%	7.57%	N/A
102.50	2.50%	7.57%	N/A
101.00	1.00%	7.57%	N/A
100.00	0.00%	7.57%	N/A
97.50	-2.50%	7.57%	N/A
95.00	-5.00%	7.57%	N/A
90.00	-10.00%	7.57%	N/A
85.00	-15.00%	7.57%	N/A
80.00	-20.00%	7.57%	N/A
79.99	-20.01%	N/A	-20.01%
70.00	-30.00%	N/A	-30.00%
60.00	-40.00%	N/A	-40.00%
50.00	-50.00%	N/A	-50.00%
40.00	-60.00%	N/A	-60.00%
30.00	-70.00%	N/A	-70.00%
20.00	-80.00%	N/A	-80.00%
10.00	-90.00%	N/A	-90.00%
0.00	-100.00%	N/A	-100.00%

(1) The Ending Basket Level is greater than or equal to 80.00 (80% of the Starting Basket Level).

(2) The Ending Basket Level is less than 80.00 (80% of the Starting Basket Level).

Hypothetical Examples of Amounts Payable at Maturity

The following examples illustrate how the total returns set forth in the table above are calculated.

Example 1: The level of the Basket increases from the Starting Basket Level of 100 to an Ending Basket Level of 102.50— a Knock-Out Event has not occurred. Because the Basket Return of 2.50% is less than the Contingent Minimum Return of 7.57%, the investor receives a payment at maturity of \$1,075.70 per \$1,000 principal amount note.

Example 2: The level of the Basket decreases from the Starting Basket Level of 100 to an Ending Basket Level of 95 — a Knock-Out Event has not occurred. Because the Basket Return of -5% is less than the Contingent Minimum Return of 7.57%, the investor receives a payment at maturity of \$1,075.70 per \$1,000 principal amount note.

Example 3: The level of the Basket increases from the Starting Basket Level of 100 to an Ending Basket Level of 115 — a Knock-Out Event has not occurred. Because the Basket Return of 15% is greater than the Contingent Minimum Return of 7.57% but less than the Maximum Return of 20.00%, the investor receives a payment at maturity of \$1,150 per \$1,000 principal amount note, calculated as follows:

$$\$1,000 + (\$1,000 \times 15\%) = \$1,150$$

Example 4: The level of the Basket decreases from the Starting Basket Level of 100 to an Ending Basket Level of 60 — a Knock-Out Event has occurred. Because the Basket Return of 60 is less than the Starting Basket Level of 100 by more than the Knock-Out Buffer Amount of 20.00%, a Knock-Out Event has occurred and because the Basket Return is -40%, the investor receives a payment at maturity of \$600 per \$1,000 principal amount note, calculated as follows:

$$\$1,000 + (\$1,000 \times -40\%) = \$600$$

Example 5: The level of the Basket increases from the Starting Basket Level of 100 to an Ending Basket Level of 150 — a Knock-Out Event has not occurred. Because the Basket Return of 50% is greater than the Maximum Return of 20.00%, the investor receives a payment at maturity of \$1,200 per \$1,000 principal amount note, the maximum payment on the notes. The hypothetical returns and hypothetical payouts on the notes shown above do not reflect fees or expenses that would be associated with any sale in the secondary market. If these fees and expenses were included, the hypothetical returns and hypothetical payouts shown above would likely be lower.

Selected Purchase Considerations

- **CAPPED APPRECIATION POTENTIAL** — The notes provide the opportunity to participate in the appreciation of the Basket, up to the Maximum Return of 20.00% at maturity. *If a Knock-Out Event has not occurred*, in addition to the principal amount, you will receive at maturity at least the Contingent Minimum Return of 7.57% on the notes, for a minimum payment at maturity of \$1,075.70 for every \$1,000 principal amount note, subject to the Maximum Return of 20.00%. **The maximum payment at maturity is \$1,200 per \$1,000 principal amount note.** Because the notes are our senior unsecured obligations, payment of any amount at maturity is subject to our ability to pay our obligations as they become due.
- **RETURN LINKED TO AN EQUALLY WEIGHTED BASKET OF 15 REFERENCE STOCKS** — The return on the notes is linked to the performance of an equally weighted Basket that consists of 15 Reference Stocks as set forth under “The Basket” on page PS-1 of this pricing supplement.
- **CAPITAL GAINS TAX TREATMENT** — You should review carefully the section entitled “Certain U.S. Federal Income Tax Consequences” in the accompanying product supplement no. 208-A-I. Subject to the limitations described therein, and based on certain factual representations received from us, in the opinion of our special tax counsel, Davis Polk & Wardwell LLP, it is reasonable to treat the notes as “open transactions” for U.S. federal income tax purposes. Assuming this characterization is respected, the gain or loss on your notes should be treated as long-term capital gain or loss if you hold your notes for more than a year, whether or not you are an initial purchaser of notes at the issue price. However, the Internal Revenue Service (the “IRS”) or a court may not respect this characterization or treatment of the notes, in which case the timing and character of any income or loss on the notes could be significantly and adversely affected. In addition, in 2007 Treasury and the IRS released a notice requesting comments on the U.S. federal income tax treatment of “prepaid forward contracts” and similar instruments, such as the notes. The notice focuses in particular on whether to require holders of these instruments to accrue income over the term of their investment. It also asks for comments on a number of related topics, including the character of income or loss with respect to these instruments; the relevance of factors such as the nature of the underlying property to which the instruments are linked; the degree, if any, to which income (including any mandated accruals) realized by Non-U.S. Holders should be subject to withholding tax; and whether these instruments are or should be subject to the “constructive ownership” regime, which very generally can operate to recharacterize certain long-term capital gain as ordinary income and impose an interest charge. While the notice requests comments on appropriate transition rules and effective dates, any Treasury regulations or other guidance promulgated after consideration of these issues could materially and adversely affect the tax consequences of an investment in the notes, possibly with retroactive effect. Both U.S. and Non-U.S. Holders should consult their tax advisers regarding the U.S. federal income tax consequences of an investment in the notes, including possible alternative treatments and the issues presented by this notice. Non-U.S. Holders may be withheld upon at a rate of up to 30% unless they have submitted a properly completed IRS Form W-8BEN or otherwise satisfied the applicable documentation requirements. The discussion in the preceding paragraph, when read in combination with the section entitled “Certain U.S. Federal Income Tax Consequences” in the accompanying product supplement, constitutes the full opinion of Davis Polk & Wardwell LLP regarding the material U.S. federal income tax consequences of owning and disposing of notes.

Selected Risk Considerations

An investment in the notes involves significant risks. Investing in the notes is not equivalent to investing directly in the Basket or any of the Reference Stocks. These risks are explained in more detail in the “Risk Factors” section of the accompanying product supplement no. 208-A-I dated March 29, 2011.

- **YOUR INVESTMENT IN THE NOTES MAY RESULT IN A LOSS** — The notes do not guarantee any return of principal. The return on the notes at maturity is linked to the performance of the Basket and will depend on whether a Knock-Out Event has occurred and whether, and the extent to which, the Basket Return is positive or negative. If the Basket Closing Level on the Observation Date (*i.e.*, the Ending Basket Level) is less than the Starting Basket Level by more than the Knock-Out Buffer Amount of 20.00%, a Knock-Out Event has occurred, and the benefit provided by the Knock-Out Buffer Amount of 20.00% will terminate. If a Knock-Out Event has occurred, for every 1% that the Ending Basket Level is less than the Starting Basket Level, you will lose an amount equal to 1% of the principal amount of your notes. Under these circumstances, you will lose more than 20.00% of your initial investment and may lose all of your initial investment at maturity.
- **YOUR MAXIMUM GAIN ON THE NOTES IS LIMITED TO THE MAXIMUM RETURN** — If the Ending Basket Level is greater than the Starting Basket Level, for each \$1,000 principal amount note, you will receive at maturity \$1,000 plus an additional return that will not exceed the Maximum Return of 20.00%, regardless of the appreciation in the Basket, which may be significant.
- **CREDIT RISK OF JPMORGAN CHASE & CO.** — The notes are subject to the credit risk of JPMorgan Chase & Co. and our credit ratings and credit spreads may adversely affect the market value of the notes. Investors are dependent on JPMorgan Chase & Co.’s ability to pay all amounts due on the notes at maturity, and therefore investors are subject

to our credit risk and to changes in the market's view of our creditworthiness. Any decline in our credit ratings or increase in the credit spreads charged by the market for taking our credit risk is likely to affect adversely the value of the notes.

- **POTENTIAL CONFLICTS** — We and our affiliates play a variety of roles in connection with the issuance of the notes, including acting as calculation agent and hedging our obligations under the notes. In performing these duties, the economic interests of the calculation agent and other affiliates of ours are potentially adverse to your interests as an investor in the notes.

We and/or our affiliates may also currently or from time to time engage in business with the Reference Stock issuers, including extending loans to, or making equity investments in, such Reference Stock issuers or providing advisory services to such Reference Stock issuers. In addition, one or more of our affiliates may publish research reports or otherwise express opinions with respect to the Reference Stock issuers, and these reports may or may not recommend that investors buy or hold the Reference Stocks. As a prospective purchaser of the notes, you should undertake an independent investigation of the applicable Reference Stock issuer that in your judgment is appropriate to make an informed decision with respect to an investment in the notes.

- **YOUR ABILITY TO RECEIVE THE CONTINGENT MINIMUM RETURN OF 7.57% MAY TERMINATE ON THE OBSERVATION DATE** — If the Ending Basket Level is less than the Starting Basket Level by more than the Knock-Out Buffer Amount of 20.00%, you will not be entitled to receive the Contingent Minimum Return of 7.57% on the notes. Under these circumstances, you will lose some or all of your investment at maturity and will be fully exposed to any depreciation in the Basket.
- **THE BENEFIT PROVIDED BY THE KNOCK-OUT BUFFER AMOUNT MAY TERMINATE ON THE OBSERVATION DATE** — If the Basket Closing Level on the Observation Date (*i.e.*, the Ending Basket Level) is less than the Starting Basket Level by more than the Knock-Out Buffer Amount of 20.00%, the benefit provided by the Knock-Out Buffer Amount will terminate and you will be fully exposed to any depreciation in the Basket Closing Level. Because the Ending Basket Level will be determined based on the closing prices of the Reference Stocks on a single day near the end of the term of the notes, the level of the Basket at the maturity date or at other times during the term of the notes could be less than the Starting Basket Level by not more than the Knock-Out Buffer Amount, or could be equal to or greater than the Starting Basket Level. This difference could be particularly large if there is a significant decrease in the level of the Basket during the later portion of the term of the notes or if there is significant volatility in the level of the Basket during the term of the notes, especially on dates near the Observation Date.
- **CERTAIN BUILT-IN COSTS ARE LIKELY TO AFFECT ADVERSELY THE VALUE OF THE NOTES PRIOR TO MATURITY** — While the payment at maturity described in this pricing supplement is based on the full principal amount of your notes, the original issue price of the notes includes the agent's commission and the estimated cost of hedging our obligations under the notes. As a result, the price, if any, at which J.P. Morgan Securities LLC, which we refer to as JPMS, will be willing to purchase notes from you in secondary market transactions, if at all, will likely be lower than the original issue price, and any sale prior to the maturity date could result in a substantial loss to you. The notes are not designed to be short-term trading instruments. Accordingly, you should be able and willing to hold your notes to maturity.
- **CORRELATION (OR LACK OF CORRELATION) OF THE REFERENCE STOCKS** — The notes are linked to an equally weighted Basket consisting of 15 Reference Stocks. Price movements and performances in the Reference Stocks may or may not be correlated with each other. At a time when the value of one or more of the Reference Stocks increases, the value of the other Reference Stocks may not increase as much or may even decline. Therefore, in calculating the Ending Basket Level, increases in the value of one or more of the Reference Stocks may be moderated, or more than offset, by the lesser increases or declines in the level of the other Reference Stocks. There can be no assurance that the Ending Basket Level will be higher than the Starting Basket Level. You will lose some or all of your investment in the notes if a Knock-Out Event occurs.
- **THE REFERENCE STOCKS ARE CONCENTRATED IN THE TECHNOLOGY INDUSTRY** — Each of the Reference Stocks has been issued by companies whose business is associated with the technology industry. Because the value of the notes is determined by the performance of each of the Reference Stocks, an investment in these notes will be concentrated in this industry. As a result, the value of the notes may be subject to greater volatility and be more adversely affected by a single positive or negative economic, political or regulatory occurrence affecting this industry than a different investment linked to securities of a more broadly diversified group of issuers.
- **NO OWNERSHIP OR DIVIDEND RIGHTS IN THE REFERENCE STOCKS** — As a holder of the notes, you will not have any ownership interest or rights in any of the Reference Stocks, such as voting rights or dividend payments. In addition, the issuers of the Reference Stocks will not have any obligation to consider your interests as a holder of the notes in taking any corporate action that might affect the value of the relevant Reference Stocks and the notes.
- **NO AFFILIATION WITH THE REFERENCE STOCK ISSUERS** — We are not affiliated with the issuers of the Reference Stocks. We assume no responsibility for the adequacy of the information about the Reference Stock issuers contained in this pricing supplement. You should undertake your own investigation into the Reference Stocks and their issuers. We are not responsible for the Reference Stock issuers' public disclosure of information, whether contained in SEC filings or otherwise.
- **RISKS ASSOCIATED WITH NON-U.S. ISSUERS** — An investment in notes linked to the value of securities issued by non-U.S. companies, such as the common shares of Marvell Technology Group Ltd. ("Marvell"), which are issued by a Bermudan issuer, involves risks associated with the home country of the non-U.S. issuer. Non-U.S. companies, such as those in Bermuda, are generally subject to accounting, auditing and financial reporting standards and

requirements, and securities trading rules different from those applicable to U.S. reporting companies. The prices of securities issued by non-U.S. companies may be affected by political, economic, financial and social factors in the home country of the non-U.S. issuer, including changes in such country's government, economic and fiscal policies, currency exchange laws or other laws or restrictions. Moreover, the economy of such country may differ favorably or unfavorably from the economy of the United States in such respects as growth of gross national product, rate of inflation, capital reinvestment, resources and self sufficiency. Such country may be subjected to different and, in some cases, more adverse economic environments.

- **NO INTEREST PAYMENTS** — As a holder of the notes, you will not receive any interest payments.
- **RISK OF KNOCK-OUT EVENT OCCURRING IS GREATER IF THE CLOSING PRICES OF THE REFERENCE STOCKS ARE VOLATILE** — The likelihood that the Basket Closing Level on the Observation Date (*i.e.*, the Ending Basket Level) will be less than the Starting Basket Level by more than the Knock-Out Buffer Amount of 20.00%, thereby triggering a Knock-Out Event, will depend in large part on the volatility of the closing prices of the Reference Stocks — the frequency and magnitude of changes in the closing prices of the Reference Stocks.
- **LACK OF LIQUIDITY** — The notes will not be listed on any securities exchange. JPMS intends to offer to purchase the notes in the secondary market but is not required to do so. Even if there is a secondary market, it may not provide enough liquidity to allow you to trade or sell the notes easily. Because other dealers are not likely to make a secondary market for the notes, the price at which you may be able to trade your notes is likely to depend on the price, if any, at which JPMS is willing to buy the notes.
- **HEDGING AND TRADING IN THE REFERENCE STOCKS** — While the notes are outstanding, we or any of our affiliates may carry out hedging activities related to the notes, including in the Reference Stocks or instruments related to the Reference Stocks. We or our affiliates may also trade in the Reference Stocks or instruments related to the Reference Stocks from time to time. Any of these hedging or trading activities as of the pricing date and during the term of the notes could adversely affect our payment to you at maturity. It is possible that such hedging or trading activities could result in substantial returns for us or our affiliates while the value of the notes declines.
- **THE ANTI-DILUTION PROTECTION FOR THE REFERENCE STOCKS IS LIMITED** — The calculation agent will make adjustments to the Stock Adjustment Factor for each Reference Stock for certain corporate events affecting the Reference Stocks. However, the calculation agent will not make an adjustment in response to all events that could affect the Reference Stocks. If an event occurs that does not require the calculation agent to make an adjustment, the value of the notes may be materially and adversely affected.
- **MANY ECONOMIC AND MARKET FACTORS WILL IMPACT THE VALUE OF THE NOTES** — In addition to the Basket Closing Level on any day, the value of the notes will be affected by a number of economic and market factors that may either offset or magnify each other, including:
 - the actual and expected volatility in the closing prices of the Reference Stocks;
 - the time to maturity of the notes;
 - whether a Knock-Out Event is expected to occur;
 - the dividend rate on the Reference Stocks;
 - the occurrence of certain events affecting the issuer of the Reference Stocks that may or may not require an adjustment to the applicable Stock Adjustment Factor, including a merger or acquisition;
 - interest and yield rates in the market generally;
 - a variety of economic, financial, political, regulatory and judicial events; and
 - our creditworthiness, including actual or anticipated downgrades in our credit ratings.

Public Information

All information contained herein on the Reference Stocks and on the Reference Stock issuers is derived from publicly available sources and is provided for informational purposes only. Companies with securities registered under the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act, are required to periodically file certain financial and other information specified by the SEC. Information provided to or filed with the SEC by a Reference Stock issuer pursuant to the Exchange Act can be located by reference to the SEC file number provided below and can be accessed through www.sec.gov. We do not make any representation that these publicly available documents are accurate or complete. See “The Reference Stocks” beginning on page PS-17 of the accompanying product supplement no. 208-A-I for more information.

Historical Information Regarding the Reference Stock and the Basket

The graphs contained in this pricing supplement set forth the historical performance of the Reference Stocks from January 6, 2006 through September 30, 2011 (except with respect to Riverbed Technology, Inc., from September 22, 2006 through September 30, 2011) as well as the Basket as a whole based on the weekly closing prices (in U.S. dollars) of the Reference Stocks from September 22, 2006 through September 30, 2011. The graph of the historical Basket performance assumes the Basket Closing Level on September 22, 2006 was 100 and the Stock Weightings were as specified under “The Basket” in this pricing supplement. We obtained the closing prices and other market information in this pricing supplement from Bloomberg Financial Markets, without independent verification. The closing prices and this other information may be adjusted by Bloomberg Financial Markets for corporate actions such as stock splits, public offerings, mergers and acquisitions, spin-offs, delistings and bankruptcy. We make no representation or warranty as to the accuracy or completeness of the information obtained from Bloomberg Financial Markets.

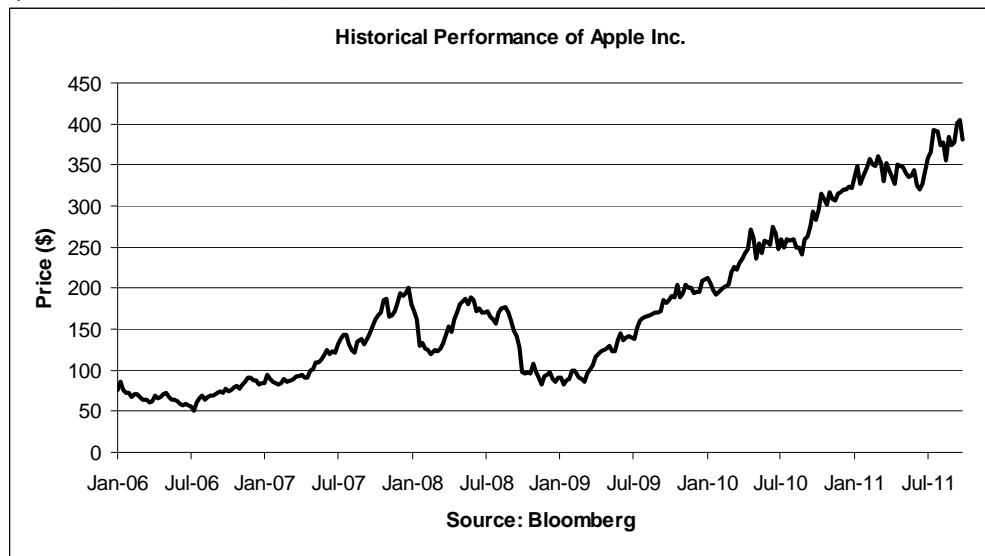

Since the commencement of trading of each Reference Stock, the price of such Reference Stock has experienced significant fluctuations. The historical performance of each Reference Stock and the historical performance of the Basket should not be taken as an indication of future performance, and no assurance can be given as to the closing prices of each Reference Stock or the levels of the Basket during the term of the notes. We cannot give you assurance that the performance of each Reference Stock will result in the return of any of your initial investment. We make no representation as to the amount of dividends, if any, that each Reference Stock issuer will pay in the future. In any event, as an investor in the notes, you will not be entitled to receive dividends, if any, that may be payable on each Reference Stock.

The following graph assumes the Basket Closing Level on September 22, 2006 was 100 and the Stock Weightings were as specified under “The Basket” in this pricing supplement.

Validity of the Notes

In the opinion of Davis Polk & Wardwell LLP, as our special products counsel, when the notes offered by this pricing supplement have been executed and issued by us and authenticated by the trustee pursuant to the indenture, and delivered against payment as contemplated herein, such notes will be our valid and binding obligations, enforceable in accordance with their terms, subject to applicable bankruptcy, insolvency and similar laws affecting creditors' rights generally, concepts of reasonableness and equitable principles of general applicability (including, without limitation, concepts of good faith, fair dealing and the lack of bad faith), *provided* that such counsel expresses no opinion as to the effect of fraudulent conveyance, fraudulent transfer or similar provision of applicable law on the conclusions expressed above. This opinion is given as of the date hereof and is limited to the federal laws of the United States of America, the laws of the State of New York and the General Corporation Law of the State of Delaware. In addition, this opinion is subject to customary assumptions about the trustee's authorization, execution and delivery of the indenture and its authentication of the notes and the validity, binding nature and enforceability of the indenture with respect to the trustee, all as stated in the letter of such counsel dated March 23, 2011, which has been filed as an exhibit to a Current Report on Form 8-K by us on March 23, 2011.
