

## JPMORGAN CHASE & CO.

Medium-Term Notes, Series E

Capped Leveraged Buffered Basket-Linked Notes due 2015

(Linked to a Weighted Basket Composed of the MSCI EAFE<sup>®</sup> Index and the iShares MSCI<sup>®</sup> Emerging Markets Index Fund)

As described in pricing supplement no. 845 dated November 12, 2012 relating to Capped Leveraged Buffered Basket-Linked Notes due 2015 (Linked to a Weighted Basket Composed of the MSCI EAFE<sup>®</sup> Index and the iShares MSCI<sup>®</sup> Emerging Markets Index Fund), the initial basket level applicable to the notes (CUSIP: 48126DGN3; ISIN: US48126DGN30) is the lowest basket closing level during the observation period, where the observation period consists of each day from and including the trade date (November 12, 2012) to and including January 14, 2013.<sup>1</sup> Terms used but not defined in this free writing prospectus have the meanings set forth in the pricing supplement no. 845 dated November 12, 2012.

The lowest basket closing level during the observation period occurred on November 16, 2012, and the basket closing level on that date was 98.2491. Accordingly, the initial basket level applicable to the notes is 98.2491.

For the avoidance of doubt, the reference to “the cap level of 12.15%” in the first bullet point under “Payment on the stated maturity date” on page PS-3 of pricing supplement no. 845 dated November 12, 2012 should have read “the cap level of 112.15%.”

You should read this free writing prospectus together with the prospectus dated November 14, 2011, as supplemented by the prospectus supplement dated November 14, 2011 relating to our Series E medium-term notes of which these notes are a part, and the more detailed information contained in product supplement no. 4-I dated November 14, 2011, underlying supplement no. 1-I dated November 14, 2011 and pricing supplement no. 845 dated November 12, 2012.
